#### I. PURPOSE AND SUMMARY

S. 2218 reauthorizes appropriations for the United States Fire Administration (USFA), an entity within the Department of Homeland Security's Federal Emergency Management Agency (FEMA), which provides training for firefighters and collects, analyzes, and disseminates important information about fires and other emergencies throughout the nation. The bill also updates USFA's authorizing Act (the Federal Fire Prevention and Control Act of 1974<sup>1</sup>) to reflect organizational changes to USFA made over the years through executive action and other statutes. Specifically, the

<sup>1</sup> 15 U.S.C. 2201 *et. seq.*

bill changes the Act to reflect USFA's move to FEMA from the Department of Commerce and to recognize that the Deputy Administrator of USFA is no longer a Senate-confirmed position.

## II. BACKGROUND AND NEED FOR THE LEGISLATION

USFA is the primary federal entity for serving the needs of our nation's firefighters and for reducing death, injuries, and economic losses due to fire and related emergencies. USFA trains fire and emergency medical services officers at the National Fire Academy; offers fire awareness and education programs; and operates the National Fire Incident Reporting System, which collects, analyzes, and disseminates data and information on fires and other emergency incidents.

Originally named the National Fire Prevention and Control Administration (NFPCA), USFA was established by the Federal Fire Prevention and Control Act of 1974.<sup>2</sup> The impetus for its creation came from *America Burning*, a 1973 report issued by the National Commission of Fire Prevention and Control. This landmark study described the high toll fire had on the United States and recommended, among other things, a greater focus on prevention and education and the creation of a new federal agency to assist in these efforts.<sup>3</sup> The Federal Fire Prevention and Control Act placed NFPCA in the Department of Commerce. Congress changed the agency's name to USFA in 1978. In 1979, President Carter created FEMA in Reorganization Plan Number 3 and moved USFA into the new agency.<sup>4</sup> When the Homeland Security Act of 2002 transferred FEMA to the new Department of Homeland Security, USFA was transferred with it.<sup>5</sup>

USFA has served the nation well since its creation, leading Congress to reauthorize it six times over the past thirty years, most recently in 2008. The need for USFA's services remains today. Although the death rate from fires in the U.S. has declined over the past decade, it remains higher than that of many industrialized countries.<sup>6</sup> Moreover, fires continue to cause significant property losses. USFA estimates annual losses of \$11.9 billion.<sup>7</sup> USFA's central role in fire prevention will continue to help efforts to address these problems. Further, training continues to pose difficulties for firefighters. For example, the *Third Needs Assessment of the U.S. Fire Service*, issued in 2011 by the National Fire Protection Association, found shortcomings in training for specialized activities such as hazardous materials and wildland firefighting, although training levels have improved significantly in recent years.<sup>8</sup> USFA, through the National Fire Academy, will continue to play a significant role in making these improvements.

In addition to reauthorizing USFA through fiscal year 2017 at the existing authorization level, S. 2218 makes modest changes to the Act, generally to update the statute where it does not reflect USFA's current organization. For example, Congress never updated the statute to reflect USFA's 1979 move from the Department of Commerce to FEMA through Reorganization Plan Number 3. Similarly, the requirement of Senate confirmation for USFA's Deputy Administrator was eliminated by the 1979 Reorganization Plan.<sup>9</sup> S. 2218 updates the Act to reflect these changes. The bill also broadens the USFA Administrator's authority to conduct public education, allowing the Administrator to address individual preparedness for disasters. The USFA has a long and successful record in conducting public education campaigns, such as its "Install. Inspect. Protect." campaign to encourage proper use of smoke alarms, and this will enable the USFA Administrator to play a larger role in FEMA's efforts to encourage individual preparedness.

### III. LEGISLATIVE HISTORY

Senators Lieberman, Collins, Carper, McCain, and Brown (MA) introduced S. 2218 on March 21, 2012. The bill was referred to the Committee on Homeland Security and Governmental Affairs, and the Committee considered the bill at a business meeting on May 16, 2012.

The Committee ordered the bill reported favorably and without amendment by voice vote. Senators present for the vote were Lieberman, Levin, Akaka, Carper, Pryor, Tester, Begich, Collins, and Brown. Senators Coburn and Johnson were recorded as voting against the bill by proxy.

### IV. SECTION-BY-SECTION ANALYSIS

#### *Section 1. Short title*

This section provides the bill's short title, United State Fire Administration Reauthorization Act of 2012.

#### *Section 2. Clarification of relationship between United States Fire Administration and Federal Emergency Management Agency*

Subsections (a) and (b) update sections 3 and 5, respectively, of the Federal Fire Prevention and Control Act (15 U.S.C. 2202 and 2204) to reflect the fact that President Carter moved USFA from the Department of Commerce to FEMA in 1979.

Subsection (c) amends section 5 of the Federal Fire Prevention and Control Act (15 U.S.C. 2204) to reflect the fact that the Deputy Administrator of USFA is no longer a Senate confirmed position.

#### *Section 3. Modification of authority of Administrator of United States Fire Administration to educate public about fire and fire prevention*

This section amends section 6 of the Federal Fire Prevention and Control Act (15 U.S.C. 2205). It authorizes the USFA Administrator to take steps to educate the public on fire and fire prevention, as well as individual preparedness.

---

<sup>9</sup> Reorganization Plan No. 3 of 1978.

*Section 4. Authorization of appropriations for United States Fire Administration*

This section amends section 17 of the Federal Fire Prevention and Control Act (15 U.S.C. 2216) to authorize appropriations of \$76,490,890 for each of fiscal years 2013 through 2017.

*Section 5. Amendment to definition regarding Administrator of FEMA*

Subsection (a) updates section 4 of the Federal Fire Prevention and Control Act (15 U.S.C. § 2203) to reflect that the head of FEMA now holds the title of “Administrator” rather than “Director.”

Subsection (b) strikes the term “Director” in each place it appears in the Federal Fire Prevention and Control Act (15 U.S.C. §§ 2201 *et seq.*) and replaces it with “Administrator of FEMA”. It also strikes the phrase “Director’s Award” wherever it appears and replaces it with “Administrator’s Award.”

V. EVALUATION OF REGULATORY IMPACT

Pursuant to the requirements of paragraph 11(b) of rule XXVI of the Standing Rules of the Senate, the Committee has considered the regulatory impact of this bill and determined that the bill will have no regulatory impact. The Committee agrees with the Congressional Budget Office’s statement that the bill contains no inter-governmental or private-sector mandates as defined in the Unfunded Mandates Reform Act (UMRA) and would impose no costs on state, local, or tribal governments.

VI. CONGRESSIONAL BUDGET OFFICE COST ESTIMATE

MAY 24, 2012.

Hon. JOSEPH I. LIEBERMAN,  
*Chairman, Committee on Homeland Security and Governmental Affairs, U.S. Senate, Washington, DC.*

DEAR MR. CHAIRMAN: The Congressional Budget Office has prepared the enclosed cost estimate for S. 2218, the United States Fire Administration Reauthorization Act of 2012.

If you wish further details on this estimate, we will be pleased to provide them. The CBO staff contact is Daniel Hoople.

Sincerely,

DOUGLAS W. ELMENDORF.

Enclosure.

*S. 2218—United States Fire Administration Reauthorization Act of 2012*

Summary: S. 2218 would reauthorize the U.S. Fire Administration (USFA) through fiscal year 2017. Under current law, funding is authorized through 2012. Based on historical spending patterns, CBO estimates that implementing this legislation would cost about \$350 million over the 2013–2017 period, assuming appropriation of the specified amounts.

Pay-as-you-go procedures do not apply to this legislation because it would not affect direct spending or revenues.

S. 2218 contains no intergovernmental or private-sector mandates as defined in the Unfunded Mandates Reform Act (UMRA).

**Estimated cost to the Federal Government:** The estimated budgetary impact of S. 2218 is shown in the following table. The costs of this legislation fall within budget function 450 (community and regional development).

|   | By fiscal year, in millions of dollars— |      |      |      |      |           |
|---|---|------|------|------|------|-----------|
|   | 2013                                    | 2014 | 2015 | 2016 | 2017 | 2013–2017 |
| <b>CHANGES IN SPENDING SUBJECT TO APPROPRIATION</b> |   |      |      |      |      |           |
| Authorization Level .....                           | 76                                      | 76   | 76   | 76   | 76   | 382       |
| Estimated Outlays .....                             | 50                                      | 72   | 76   | 76   | 76   | 350       |

Note: Components may not sum to totals because of rounding.

**Basis of estimate:** For this estimate, CBO assumes that the legislation will be enacted at the end of fiscal year 2012 and that the specified amounts will be appropriated for each year.

The USFA coordinates with other emergency service entities to assist local communities and the public in planning for and reducing the risk of fire hazards. Funding is used to educate and train emergency responders; conduct research on fire detection and prevention, first responder health, and the effectiveness of safety programs; and conduct public outreach.

S. 2218 would authorize the appropriation of about \$76 million per year over the 2013–2017 period (for a total of \$382 million) for operations of the USFA, about \$32 million above amounts provided by the Congress for 2012 (see Public Law 112–74). Based on historical spending patterns, CBO estimates that implementing this bill would cost \$350 million over the 2013–2017 period, assuming appropriation of the specified amounts.

**Pay-As-You-Go Considerations:** None.

**Intergovernmental and private-sector impact:** S. 2218 contains no intergovernmental or private-sector mandates as defined in UMRA. State and local governments would benefit from grants, training, and technical assistance authorized by the bill. Any costs to those governments would be incurred voluntarily as conditions of federal assistance.

**Estimate prepared by:** Federal Costs: Daniel Hoople; Impact on State, Local, and Tribal Governments: Melissa Merrell; Impact on the Private Sector: Paige Piper/Bach.

**Estimate approved by:** Theresa Gullo, Deputy Assistant Director for Budget Analysis.
