Asian Longhorned Beetle (ALB) Eradication Program

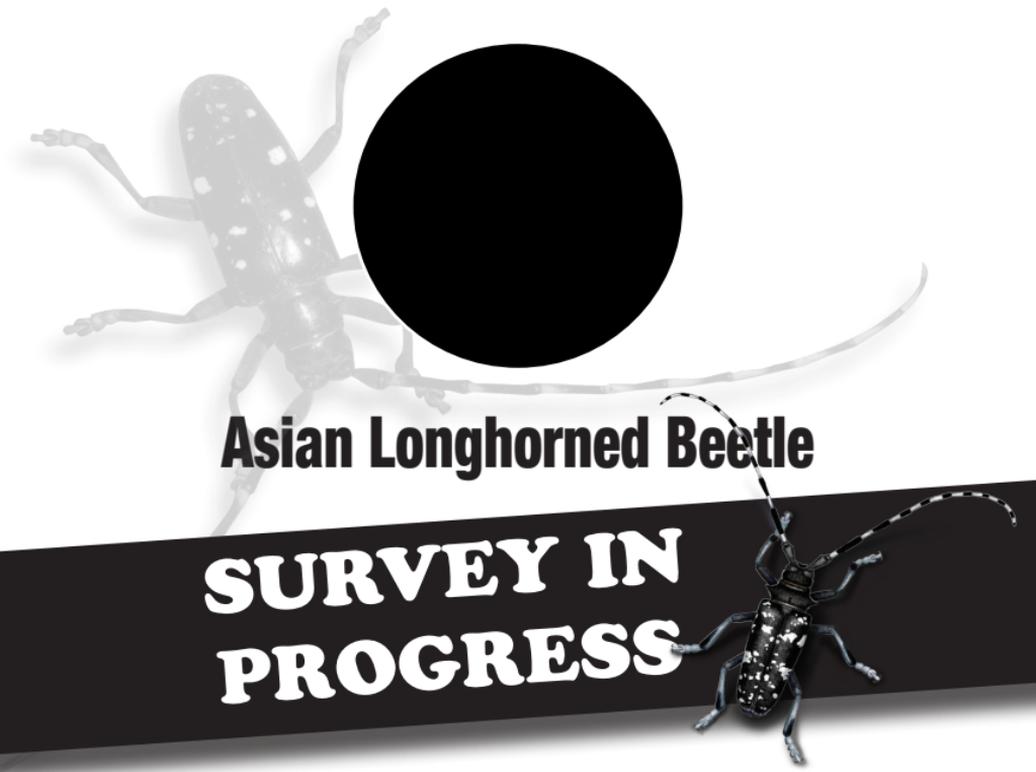

We recently visited your property and would like to inform you of the following:

- Ground Survey/Tree Climbers have completed a survey of your property and have NOT found signs of the ALB; however, future surveys will be required.
- Ground Survey/Tree Climbers have completed a survey of your property and have found a POSITIVE tree(s) on your property.
- Ground Survey/Tree Climbers have completed a survey of your property and have found a SUSPICIOUS tree(s) on your property. Your tree(s) will be rechecked in the near future.
- We will begin the removal of infested trees on your property between _____ (date) and _____ (date). The restoration of your property will be conducted after removals, but may be delayed due to weather and/or soil conditions. Property restoration includes the grinding or herbicide treatment of the infested tree's stump followed by returning the property to grade, seeding landscape areas, and repairing damage to properties caused by removal operations.
- We wish to contact you for the following reasons. Please call our office.

Thank you for your cooperation. If you have any questions, please call the ALB program office at
513-381-7180 or **1-866-702-9938**.

Asian Longhorned Beetle

SURVEY IN PROGRESS

Ohio ALB Cooperative Eradication Program staff from the U.S. Department of Agriculture's Animal and Plant Health Inspection Service and the Ohio Department of Agriculture are currently surveying Asian longhorned beetle (ALB) host trees on this property for signs of infestation.

We also need your help to stop the spread of this tree-killing, invasive pest. One of the most common ways ALB and other exotic pests can spread into new areas is by people unintentionally moving infested plant materials. To prevent this from happening, please do not move firewood or ALB host material, such as cut wood, stumps, or host trees, from the infested areas.

If you have questions about ALB control and eradication efforts, or if you see beetles or other signs of ALB infestation, please call the program office at **513-381-7180** or **1-866-702-9938**.
