Office of Mobile Sources

You told us:

"Support our efforts
to improve air quality
and public health
in our communities"

We listened.

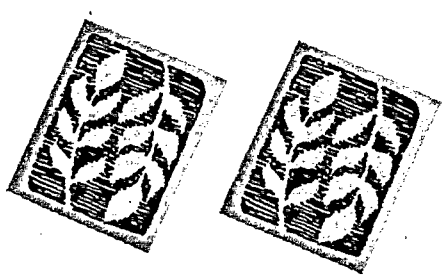

TRAQ
EPA's *Transportation Air Quality Center*

TRAQ
EPA's Transportati

Here's how we can su

Provide access to critical information you can really use

- Grant funding sources
- Databases with innovative program strategies from around the country
  - *Market-based incentives*
  - *Voluntary and episodic transportation measures*
  - *Marketing and outreach tools*
- Associated environmental and economic initiatives
- Useful contact names

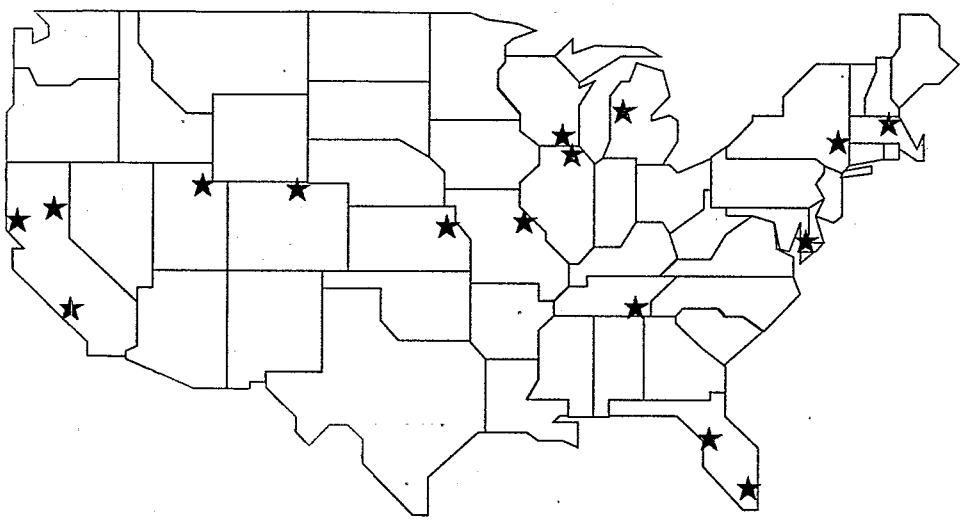

on Air Quality Center

pport you:

Partner with you to

- Develop state and local transportation air quality programs
- Meet your community's mobility needs and clean air goals

Our partnerships illustrate our commitment, and our versatility, coast to coast. Examples of partnerships are listed on the back.

Getting There with Clean Air

www.epa.gov/omswww/traq

Provide technical assistance and tools to help implement your programs

- Best practice guides and program templates
- Start-up assistance and ongoing technical support to ensure success
- Modeling tools and expertise
- Assessment of program benefits such as emission reduction and cost-benefit analyses

Promote innovation

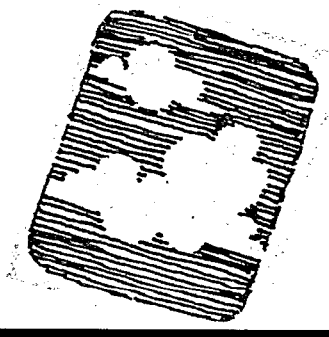

We can champion your ideas and help you launch and maintain successful programs that will work in your state and local air quality plans.

Make your first stop our website:

or call: Information Request Phone Line
(734) 214-4100

Put national EPA resources to work in your community.

Let us help you:

- Integrate air quality and transportation plans
- Create new transportation solutions
- Manage sprawl by providing tools to assess the best growth choices for your community
- Launch and evaluate voluntary programs
- Meet regulatory requirements
- Access helpful information
- Enhance your public education efforts

Examples of Current and Past Partnerships:

"Car Care for Clean Air" Weber State University, Utah Department of Air Quality, Salt Lake City, Utah

"Demonstration Program for Obtaining SIP Credit for Voluntary Measures" California Air Resources Board. Sacramento, California

"Improving Air Quality through Voluntary Citizen Changes in Transportation Choices" Chattanooga, Tennessee

"Tour of the Urban Environment" Chicago's Museum of Science and Industry. Chicago, Illinois

"I.D.L.E. in Dade" Dade County, Florida

"Interactive Information Kiosk" Ventura County, California

"Air Repair Communications" Missouri Department of Natural Resources. St. Louis, Missouri

"Driving Smart Curriculum Demonstration" Boston, Massachusetts

"Clean Air Conference" National Center for Vehicle Emissions Control And Safety, Colorado State University, Fort Collins, Colorado

"Quantifying Emission Reduction Impacts of Seasonal and Episodic Programs: A State Model." Baltimore, Maryland

"Evaluation of Automotive Technician Training Programs" Ferris State University, Big Rapids, Michigan

"Cash for Clippers" State of Maryland

"Initiative to Involve Youth in Travel Choices: Community-Based Solutions to Community-Defined Problems." Academy for Educational Development. Demonstration sites: Boston, Massachusetts; Kansas City, Kansas; Tampa, Florida

"Transportation/Air Quality Public Information Initiative" In conjunction with the Department of Transportation. Demonstration sites: Dover, Delaware; Albany, New York; Milwaukee, Wisconsin; San Francisco, California

"Televised Ozone Mapping" NESCAUM (Northeastern States for Coordinated Air Use Management), OTC (Ozone Transport Commission) and MARAMA (Mid-Atlantic Regional Air Management Association)

"Air Quality, Motor Vehicles, and Public Health" 17 local lung associations to be identified

"Driving Smart" Environmental Health Center of the National Safely Council. 1500 schools nationwide

"Clean Air Project" National Association of Regional Councils, MPOs nationwide

"Vehicle Maintenance Initiative" Nationwide

"Ozone and Particulate Matter Outreach" STAPPA/ALAPCO (State and Territorial Air Pollution Program Administrators/Association of Local Air Pollution Control Officials.) Nationwide
