WASHINGTON : 2014

THE WHITE HOUSE,
Washington, June 26, 2014.

Hon. JOHN BOEHNER,
Speaker of the House of Representatives,
Washington, DC.

DEAR MR. SPEAKER: I ask the Congress to consider the enclosed Fiscal Year (FY) 2015 Budget amendments for the Department of Defense (DOD) and the Department of State and Other International Programs (State/OIP) to fund Overseas Contingency Operations (OCO). These amendments would provide \$58.6 billion for DOD OCO activities, which is \$20.9 billion less than the \$79.4 billion placeholder for DOD OCO in the FY 2015 Budget. It would also provide \$1.4 billion for State/OIP OCO activities, which is in addition to the \$5.9 billion for State/OIP included in the FY 2015 Budget. Overall, these amendments would decrease the total OCO funding requested for FY 2015 by \$19.5 billion.

Final decisions about the number and activities of U.S. forces in Afghanistan after December 2014 had not yet been made at the time the FY 2015 Budget was submitted. As a result, the Budget included a placeholder for DOD FY 2015 OCO funding equivalent to the amount requested in the FY 2014 Budget. The Administration noted in the FY 2015 Budget that after determining required force levels in Afghanistan, a Budget amendment updating the OCO request would be submitted to the Congress. The enclosed amendments include the necessary updates to the OCO request in order to fund military operations in Afghanistan, a significant portion of the U.S. military presence around the Middle East, the Administration's proposed Counterterrorism Partnerships Fund and European Reassurance Initiative, and State/OIP peacekeeping costs in the Central African Republic.

The details of these amendments are set forth in the enclosed letter from the Acting Director of the Office of Management and Budget.

Sincerely,

BARACK OBAMA.

[Estimate No. 2, 113th Cong., 2d Session]

EXECUTIVE OFFICE OF THE PRESIDENT,
OFFICE OF MANAGEMENT AND BUDGET,
Washington, DC, June 26, 2014.

The PRESIDENT,
The White House.

Submitted for your consideration are amendments to your Fiscal Year (FY) 2015 Overseas Contingency Operations (OCO) request for the Department of Defense (DOD) and the Department of State and Other International Programs (State/OIP). Military operations in Afghanistan, as well as activities that support Operation Enduring Freedom (OEF), related follow-on activities, and other critical missions in the region, constitute the majority of the DOD OCO request. The request also includes funding for both DOD and State/OIP to implement the Counterterrorism Partnerships Fund (CTPF) and the European Reassurance Initiative (ERI), and additional funding for State/OIP peacekeeping costs in the Central African Republic (CAR).

Because final decisions about the number and activities of U.S. forces in Afghanistan after December 2014 had not yet been made when the FY 2015 Budget was submitted, the Budget included \$5.9 billion in OCO funding for State/OIP and a placeholder of \$79.4 billion for DOD. This package submits for your consideration the complete and updated FY 2015 request for DOD OCO funding, totaling \$58.6 billion, as well as an increase of \$1.4 billion for State/OIP OCO funding. Overall, these amendments decrease by \$19.5 billion the total amount of OCO funding requested for FY 2015.

The United States' goals in Afghanistan beyond 2014 are to continue to support the Afghan National Security Forces, support economic development and governance efforts, and pursue U.S. counterterrorism goals against al Qaeda and its affiliated groups. As you announced in May, the United States will conclude combat operations in Afghanistan by the end of this calendar year. The United States will draw down to approximately 9,800 U.S. servicemembers in Afghanistan by early 2015, which, together with NATO allies and other partners, will allow the United States to continue advising key Afghan forces and to sustain counterterrorism operations. By the end of 2015 the United States will have reduced that presence by roughly half and consolidated its military and diplomatic presence to Kabul and Bagram Airfield. By the end of 2016, DOD will draw down to a more conventional embassy-based security assistance presence in Kabul.

In support of OEF and related follow-on activities, DOD OCO funding would support several key efforts, including:

- concluding the combat mission in Afghanistan at the end of 2014 and positioning U.S. military and intelligence forces in Afghanistan for their post-2014 mission;

- drawing down to approximately 9,800 U.S. servicemembers in the country by early 2015 from an average of 38,000 in FY 2014;
- continuing to support the Afghan National Security Forces (ANSF) as they assume full responsibility for security in Afghanistan after December 2014;
- sustaining the fight against transnational terrorists who seek to undermine the United States and its allies;
- providing warfighters with the intelligence, surveillance, and reconnaissance (ISR) support that has proven essential for mission success in Afghanistan and around the region;
- providing support to Coalition allies in Afghanistan and the surrounding region;
- disposing of unexploded ordnance in Afghanistan and continuing to support Coalition and partner efforts to counter improvised explosive devices;
- returning thousands of cargo containers and pieces of equipment from Afghanistan to their home stations;
- replenishing or replacing expended munitions and ammunition as well as combat-damaged equipment, including helicopters, ground vehicles, and unmanned aerial systems; and
- supporting a portion of temporary Army and Marine Corps end strength that currently supports OEF, but will not be required under the defense strategy articulated in the 2014 Quadrennial Defense Review.

Although the FY 2015 OCO request reflects a transition as the United States concludes combat operations in Afghanistan partway into the fiscal year, most costs will not decline precipitously. For example, DOD will still incur significant costs to transport personnel, supplies, and equipment back to their home stations. Funding to sustain the ANSF will continue to be needed to ensure that Afghan forces can provide sufficient security. There will be continued costs to repair and replace equipment and munitions as DOD resets the force over the next few years.

The OCO funding would also continue to support DOD's strong forward presence in the broader Middle East region. The overall U.S. military posture in the region enables DOD to support OEF and other important missions, such as assuring our regional partners, deterring aggression, and working with our partners to counter terrorism. It includes advanced fighter aircraft, ISR assets, missile defense capabilities, rotational ground forces, a robust naval presence, and building partners' capacity. As the United States continues its transition from over a decade of fighting in the broader region to preparing for future challenges, military capabilities in the region will continue to evolve to meet new threats.

The updated OCO request includes \$5 billion for CTPF, split among DOD, State/OIP, and the Intelligence Community, with dedicated transfer accounts in both DOD and State/OIP designed to provide the flexibility and resources required to respond to emerging needs as terrorist threats continue to evolve. The CTPF would support a more sustainable and effective approach to combating terrorism that focuses on empowering and enabling partners

facing terrorist threats. The DOD request of \$4.0 billion would support a transitional effort to increase partner capacity-building, facilitate partner counterterrorism operations, enhance DOD's counterterrorism activities, and increase DOD's flexibility in responding to emergent crises. The State/OIP request of \$1.0 billion would enable the Department to increase counterterrorism and stabilization efforts in areas such as the Middle East, North Africa and the Sahel, the Horn of Africa, and South and Central Asia; address underlying conditions conducive to terrorism; and address the broader counterterrorism challenge of the crisis in Syria and its destabilizing impact on the region. Both funds build primarily on existing authorities, but would provide the Federal Government with expanded flexibility and resources to respond more nimbly to evolving terrorist threats and further develop and invest in partnerships from South Asia to the Sahel.

The OCO request also includes \$1 billion for the ERI to provide temporary support to bolster the security of our NATO allies and partner states in Europe. These funds would enable the United States to increase military exercises, training, and presence in Europe, especially in Central and Eastern Europe, increase U.S. naval force deployments to the Black and Baltic Seas, enhance our preparedness to reinforce NATO allies through the prepositioning of equipment, improve infrastructure at training and logistics facilities, especially in Central and Eastern Europe, and strengthen the capacity of partner states in Europe to operate alongside the United States and NATO and to defend their security. Of the \$1 billion requested, \$925 million is for DOD and \$75 million is for State/OIP's Foreign Military Financing account.

The updated request includes an additional \$278 million in State/OIP's Peacekeeping Response Mechanism account to fully fund the additional estimated costs resulting from the April 2014 decision by United Nations (UN) Security Council to authorize a new UN peacekeeping mission to deploy in the CAR. This decision was made after the Administration submitted its FY 2015 Budget.

General provisions included in this request would provide necessary authorities to support military operations in the U.S. Central Command area of responsibility. As in each of the past five years, these include a request for \$4 billion in OCO-specific transfer authority.

Your FY 2015 Budget submitted in March 2014 estimated \$47.1 billion in FY 2015 outlays from the FY 2015 DOD OCO placeholder. Based on the updated request submitted in this package, FY 2015 DOD OCO outlays from new budget authority would be \$33.8 billion. In addition, the updated request increases estimated FY 2015 State/OIP OCO outlays by \$472 million.

The FY 2015 Budget also repropose a \$450 billion multi-year cap on Government-wide OCO funding over the FY 2013 to FY 2021 period. In FY 2014, enacted funding designated as OCO is \$91.9 billion across DOD, State/OIP, and the Department of Homeland Security. With this update, the FY 2015 Budget proposes a total of \$65.8 billion in OCO funding for DOD and State/OIP, leaving a total of \$199.2 billion remaining under the proposed cap for the years FY 2016 to FY 2021, or an average of \$33.2 billion per year.

Recommendation

I reviewed these amendments and am satisfied that they are necessary at this time. Therefore, I join the Secretary of Defense and the Secretary of State in recommending that you transmit the amendments to the Congress.

Sincerely,

BRIAN C. DEESE,
Acting Director.

COUNTERTERRORISM PARTNERSHIPS FUND

(OVERSEAS CONTINGENCY OPERATIONS)

FY 2015 Budget Appendix Page: 265

FY 2015 Pending Request: —

Proposed Amendment: \$4,000,000,000

Revised Request: \$4,000,000,000

(In the appropriations language under the above bureau, just after the Bodoni dash and immediately before the heading “Iraq Security Forces Fund”, insert the above new heading, the new sub-heading, the following new language, and a new Bodoni dash:)

For the “Counterterrorism Partnerships Fund”, \$4,000,000,000, to remain available until September 30, 2017:

Provided, That such funds shall be available, under the authority provided by any other provision of law, to enhance counterterrorism and crisis response activities undertaken by the Armed Forces, and to provide support and assistance to foreign security forces, irregular forces, groups, or individuals to conduct, support, or facilitate counterterrorism and crisis response activities:

Provided further, That the Secretary of Defense shall, with the approval of the Office of Management and Budget, transfer the funds provided herein to any appropriations available to the Department of Defense or with the approval of the Office of Management and Budget and the concurrence of the Secretary of State, to “Department of State—Counterterrorism Partnerships Fund”:

Provided further, That the transfer authority in the preceding proviso is in addition to any other transfer authority available to the Department of Defense:

Provided further, That funds so transferred shall be merged with and be available for the same purposes, to the extent consistent with the purposes identified in the first proviso, and for the same time period as the appropriation or fund to which transferred:

Provided further, That the Secretary of Defense shall, not fewer than 15 days prior to transferring amounts from this appropriation account, notify the congressional defense committees in writing of the details of any such transfer:

Provided further, That the preceding proviso shall not apply to a transfer of funds if the Secretary of Defense determines that the national security objectives of the United States will be compromised by the application of the proviso, in which case the Secretary of Defense shall immediately notify the congressional defense committees that such transfer is necessary and provide any relevant information (in classified form, if necessary):

Provided further, That, upon a determination by the Secretary of Defense with the approval of the Office of Management and Budget, that all or part of the funds transferred from this appropriation to an account of the Department of Defense are not necessary for the purposes herein, such amounts may be transferred back to this appropriation and shall be available for the same purposes and for the same time period as originally appropriated:

Provided further, That, upon a determination by the Secretary of State, with the approval of the Office of Management and Budget, and the concurrence of the Secretary of Defense, that all or part of the funds transferred from this appropriation to the Department of State are not necessary for the purposes herein, such amounts may be transferred by the Secretary of State back to this appropriation and shall be available for the same purposes and for the same time period as originally appropriated:

Provided further, That the Secretary of Defense may obligate and expend funds transferred under this heading, notwithstanding any limitation in a provision of law that would otherwise restrict the amount or recipients of such support or assistance:

Provided further, That the Secretary of Defense shall exercise the authority provided in the previous proviso on a case-by-case basis, and only after certifying in writing to the Congress that it is in the national security interest to do so:

Provided further, That funds provided herein for intelligence activities are deemed to be specifically authorized by the Congress for purposes of section 504(a)(1) of the National Security Act of 1947 (50 U.S.C. 3094(a)(1)):

Provided further, That the amount provided under this heading is designated by the Congress for Overseas Contingency Operations/Global War on Terrorism pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended:

Provided further, That the amount provided under this heading shall be available only if the President designates such amount for Overseas Contingency Operations/Global War on Terrorism pursuant to section 251(b)(2)(A).

This amendment would provide \$4.0 billion for the Department of Defense (DOD) portion of the Counterterrorism Partnerships Fund (CTPF) announced by the President at West Point on May 28, 2014. DOD funds made available for the CTPF would enable the United States to enhance counterterrorism and crisis response activities undertaken by the U.S. military and provide enabling support to partners on the front lines against terrorism. CTPF funds will be used to support counterterrorism capacity-building efforts and/or combined counterterrorism operations in areas such as the Middle East, North Africa and the Sahel, the Horn of Africa, and South and Central Asia. In addition, CTPF funds will be used to expand or enhance U.S. capabilities and capacity needed to support counterterrorism goals (e.g., additional intelligence, surveillance, and reconnaissance capacity) and will allow DOD to respond more quickly and effectively to emergent crises related to counterterrorism.

The CTPF builds primarily on existing authorities, but provides the Federal Government with expanded flexibility and resources to respond more nimbly to evolving terrorist threats and to further develop and invest in partnerships from South Asia to the Sahel in support of a sustainable and effective counterterrorism strategy. In addition, appropriating CTPF funding in a transfer account will provide the flexibility needed to effectively respond to diffuse terrorist networks and a rapidly changing security environment. Specific allocations of CTPF funding will be subject to congressional

notification requirements as well as an interagency policy process jointly led by the National Security Council and the Office of Management and Budget in order to ensure integrated planning and comprehensive oversight of CTPF funds.

The CTPF will also include the Syria Regional Stabilization Initiative (RSI). Funding under the RSI will build the capacity of the Syrian opposition and of neighboring countries including Jordan, Lebanon, Turkey, and Iraq to manage the growing spillover effects of the Syrian conflict. The Administration will leverage existing security cooperation and assistance programs, expand training and related infrastructure, and tailor support packages to meet identified regional needs for areas contending with refugees and other destabilizing effects from the Syrian conflict. The Administration has included a proposed authority to provide defense articles and services to vetted elements of the Syrian armed opposition to help defend the Syrian people, stabilize areas under opposition control and facilitate the provision of essential services, counter terrorist threats, and promote conditions for a negotiated settlement. The RSI will make investments in the region now that can help build resilience in communities and strengthen internal and border security capabilities for the Syrian people and Syria's neighbors as they confront growing threats.

Provided further, That the transfer authority in the preceding proviso is in addition to any other transfer authority available to the Department of Defense:

Provided further, That funds so transferred shall be merged with and be available for the same purposes, to the extent consistent with the purposes identified in the first proviso, and for the same time period as the appropriation or fund to which transferred:

Provided further, That the Secretary of Defense shall, not fewer than 15 days prior to transferring amounts from this appropriation account, notify the congressional defense committees in writing of the details of any such transfer:

Provided further, That the preceding proviso shall not apply to a transfer of funds if the Secretary of Defense determines that the national security objectives of the United States will be compromised by the application of the proviso, in which case the Secretary of Defense shall immediately notify the congressional defense committees

that such transfer is necessary and provide any relevant information (in classified form, if necessary):

Provided further, That, upon a determination by the Secretary of Defense, and with approval of the Office of Management and Budget, that all or part of the funds so transferred from this appropriation are not necessary for the purposes herein, such amounts may be transferred back to this appropriation and shall be available for the same purposes and for the same time period as originally appropriated:

Provided further, That the Secretary of Defense may obligate and expend funds transferred under this heading, notwithstanding any limitation in a provision of law within existing Department of Defense authorities that would otherwise restrict the amount of such support or assistance:

Provided further, That the Secretary of Defense shall exercise the authority provided in the previous proviso on a case-by-case basis, and only after certifying in writing to the Congress that it is in the national security interest to do so:

Provided further, That the amount provided under this heading is designated by the Congress for Overseas Contingency Operations/Global War on Terrorism pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended:

Provided further, That the amount provided under this heading shall be available only if the President designates such amount for Overseas Contingency Operations/Global War on Terrorism pursuant to section 251(b)(2)(A).

This amendment would create a new transfer account and provide \$925 million to fund the DOD portion of the European Reassurance Initiative (ERI) proposed by the President in Warsaw on June 3, 2014. Funds made available for the ERI will enable the United States to increase military exercises, training, and presence in Europe, especially Central and Eastern Europe; increase U.S. naval force deployments to the Black and Baltic Seas; enhance our preparedness to reinforce NATO allies through the prepositioning of equipment; improve infrastructure at training and logistics facilities, especially in Central and Eastern Europe; and strengthen the capacity of partner states in Europe to operate alongside the United States and NATO and to defend their security. Building on existing authorities, appropriating ERI funding in a transfer account will provide flexibility and responsiveness to the evolving concerns of our allies and partners and allow time for the long planning horizons needed for exercises and deployments in a fluid security situation.

Proposed Amendment: \$1,000,000,000

Revised Request: \$1,000,000,000

(In the appropriations language under the above bureau just after the Bodoni dash and immediately before the heading “Global Security Contingency Fund”, insert the above new heading, the new subheading, the following new language, and a new Bodoni dash:)

For the “Counterterrorism Partnerships Fund”, \$1,000,000,000, to remain available until September 30, 2017:

Provided, That such funds shall be available, notwithstanding any other provision of law, for the purposes of undertaking counterterrorism partnership efforts worldwide, responding to crises, and addressing regional instability from the conflict in Syria, (including, in addition to amounts otherwise available for such purposes, for administrative expenses):

Provided further, That the Secretary of State shall, with the approval of the Office of Management and Budget, (1) transfer the funds provided herein to accounts under the headings “Foreign Military Financing”, “Nonproliferation, Antiterrorism, Demining and Related Programs”, “International Narcotics Control and Law Enforcement”, “Peacekeeping Operations”, “Complex Crises Fund”, and “Economic Support Fund” or, (2) with the approval of the Office of Management and Budget and the concurrence of the Secretary of Defense, transfer and merge the funds provided herein with “Department of Defense—Counterterrorism Partnerships Fund”:

Provided further, That the transfer authority in the preceding proviso is in addition to any other transfer authority available to the Department of State:

Provided further, That the Secretary of State shall, not fewer than 5 days prior to transferring amounts from this appropriation account, notify the Committees on Appropriations in writing of the details of any such transfer:

Provided further, That the preceding proviso shall not apply to a transfer of funds if the Secretary of State determines that the national security objectives of the United States will be compromised by the application of the proviso, in which case the Secretary of State shall immediately notify the Committees on Appropriations within 3 days after such transfer that such transfer is necessary and provide any relevant information:

Provided further, That, upon a determination by the Secretary of State with the approval of the Office of Management and Budget, that all or part of the funds transferred from this appropriation are not necessary for the purposes provided herein, such amounts may be transferred back to this appropriation and shall be available for the same purposes and for the same time period as originally appropriated:

Provided further, That, upon a determination by the Secretary of Defense, with the approval of the Office of Management and Budget and the concurrence of the Secretary of State, that all or part of the funds transferred from this appropriation to the Department of Defense are not necessary for the purposes provided herein, such amounts may be transferred back to this appropriation and shall be available for the same purposes and for the same time period as originally appropriated:

Provided further, That the amount provided under this heading is designated by the Congress for Overseas Contingency Operations/Global War on Terrorism pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended:

Provided further, That the amount provided under this heading shall be available only if the President designates such amount for Overseas Contingency Operations/Global War on Terrorism pursuant to section 251(b)(2)(A).

This amendment would provide \$1.0 billion for the Department of State/OIP's portion of the Counterterrorism Partnerships Fund (CTPF) announced by the President at West Point on May 28, 2014. Funds made available for the CTPF would enable the United States to enhance counterterrorism and crisis response activities and provide enabling support to partners on the front lines against terrorism. CTPF funds will be used to support counterterrorism capacity-building efforts in areas such as the Middle East, North Africa and the Sahel, the Horn of Africa, and South and Central Asia.

The CTPF will also include the Syria Regional Stabilization Initiative (RSI). Funding under the RSI will build the capacity of the Syrian opposition and of neighboring countries including Jordan, Lebanon, Turkey, and Iraq to manage the growing spillover effects of the Syrian conflict. The Administration will leverage existing security cooperation and assistance programs, expand training and related infrastructure, and tailor support packages to meet identified regional needs for areas contending with refugees and other destabilizing effects from the Syrian conflict. The RSI will make investments in the region now that can help build resilience in communities and strengthen internal and border security capabilities for the Syrian people and Syria's neighbors as they confront growing threats.

The CTPF builds on existing authorities, but provides the Federal Government with expanded flexibility and resources to respond more nimbly to evolving terrorist threats and to further develop and invest in partnerships from South Asia to the Sahel in support of a sustainable and effective counterterrorism strategy. In addition, appropriating CTPF funding in a transfer account will provide the flexibility needed to effectively respond to diffuse terrorist networks and a rapidly changing security environment. Spe-

cific allocations of CTPF funding will be subject to congressional notification requirements as well as an interagency policy process jointly led by the National Security Council and the Office of Management and Budget in order to ensure integrated planning and comprehensive oversight of CTPF funds.
