---

DECEMBER 9, 2014.—Committed to the Committee of the Whole House on the State of the Union and ordered to be printed

---

Mr. HASTINGS of Washington, from the Committee on Natural Resources, submitted the following

## R E P O R T

[To accompany H.R. 5086]

[Including cost estimate of the Congressional Budget Office]

The Committee on Natural Resources, to whom was referred the bill (H.R. 5086) to amend the National Trails System Act to direct the Secretary of the Interior to conduct a study on the feasibility of designating the Chief Standing Bear National Historic Trail, and for other purposes, having considered the same, report favorably thereon without amendment and recommend that the bill do pass.

### PURPOSE OF THE BILL

The purpose of H.R. 5086 is to amend the National Trails System Act to direct the Secretary of the Interior to conduct a study on the feasibility of designating the Chief Standing Bear National Historic Trail.

### BACKGROUND AND NEED FOR LEGISLATION

The proposed Chief Standing Bear National Historic Trail would extend approximately 550 miles from Niobrara, Nebraska, to Ponca City, Oklahoma, following the route taken by Chief Standing Bear and the Ponca people during federal Indian removal and their return route back to Niobrara, Nebraska.

In 1877, the federal government decided to remove the Poncas from the Great Sioux Reservation to Indian Territory. Standing Bear, a tribal leader, protested the Tribe's eviction but federal troops enforced the removal orders and the Poncas were moved to Indian Territory in the summer of 1878. After arrival in Indian County, Chief Standing Bear's son died in late 1878. Wanting to honor his son's last wish to be buried in the land of his birth,

Standing Bear gathered a few members of his Tribe and started north for the Ponca homeland in January 1879. Because Indians were not allowed to leave their reservation without permission, Standing Bear and his followers were arrested. The Army took them to Fort Omaha, where they were to be held before being returned to Indian Territory.

General George Crook sympathized with Standing Bear and asked Thomas Henry Tibbles for help. Tibbles secured two Omaha attorneys to represent Standing Bear. The lawyers filed a federal court application for a writ of habeas corpus to test the legality of the detention. The government contested the right of Standing Bear to obtain a writ on the grounds that an Indian was not a “person” under the law. The U.S. District Court ruled in favor of Standing Bear, reasoning that he and his band were indeed “persons” under the law, entitled to sever tribal connections, and were free to enjoy the rights of any other person in the land. The government appealed the decision, but the Supreme Court of the United States refused to hear the case.

H.R. 5086 amends the National Trails System Act to direct the Secretary of the Interior to conduct a study on the feasibility of designating the Chief Standing Bear National Historic Trail. Actual designation of the trail, if appropriate, will require additional legislation.

#### COMMITTEE ACTION

H.R. 5086 was introduced on July 11, 2014, by Congressman Jeff Fortenberry (R-NE). The bill was referred to the Committee on Natural Resources, and within the Committee to the Subcommittee on Public Lands and Environmental Regulation. On July 29, 2014, the Subcommittee held a hearing on the bill. On November 19, 2014, the Natural Resources Committee met to consider the bill. The Subcommittee on Public Lands and Environmental Regulation was discharged by unanimous consent. No amendments were offered, and the bill was adopted and ordered favorably reported to the House of Representatives by unanimous consent.

#### COMMITTEE OVERSIGHT FINDINGS AND RECOMMENDATIONS

Regarding clause 2(b)(1) of rule X and clause 3(c)(1) of rule XIII of the Rules of the House of Representatives, the Committee on Natural Resources’ oversight findings and recommendations are reflected in the body of this report.

#### COMPLIANCE WITH HOUSE RULE XIII

1. Cost of Legislation. Clause 3(d)(1) of rule XIII of the Rules of the House of Representatives requires an estimate and a comparison by the Committee of the costs which would be incurred in carrying out this bill. However, clause 3(d)(2)(B) of that rule provides that this requirement does not apply when the Committee has included in its report a timely submitted cost estimate of the bill prepared by the Director of the Congressional Budget Office under section 402 of the Congressional Budget Act of 1974. Under clause 3(c)(3) of rule XIII of the Rules of the House of Representatives and section 403 of the Congressional Budget Act of 1974, the Com-

mittee has received the following cost estimate for this bill from the Director of the Congressional Budget Office:

*H.R. 5086—A bill to amend the National Trails System Act to direct the Secretary of the Interior to conduct a study on the feasibility of designating the Chief Standing Bear National Historic Trail, and for other purposes.*

H.R. 5086 would require the National Park Service (NPS) to study the feasibility of designating the Chief Standing Bear Trail in the states of Nebraska and Oklahoma as a national historic trail. Based on information provided by the NPS, CBO estimates that implementing the legislation would cost about \$500,000 over the next year or two, assuming availability of appropriated funds. Enacting H.R. 5086 would not affect direct spending or revenues; therefore, pay-as-you-go procedures do not apply.

H.R. 5086 contains no intergovernmental or private-sector mandates as defined in the Unfunded Mandates Reform Act and would not affect the budgets of state, local, or tribal governments.

The CBO staff contact for this estimate is Mark Grabowicz. The estimate was approved by Theresa Gullo, Deputy Assistant Director for Budget Analysis.

2. Section 308(a) of Congressional Budget Act. As required by clause 3(c)(2) of rule XIII of the Rules of the House of Representatives and section 308(a) of the Congressional Budget Act of 1974, this bill does not contain any new budget authority, spending authority, credit authority, or an increase or decrease in revenues or tax expenditures. Based on information provided by the National Park Service, CBO estimates that implementing the legislation would cost about \$500,000 over the next year or two, assuming availability of appropriated funds.

3. General Performance Goals and Objectives. As required by clause 3(c)(4) of rule XIII, the general performance goal or objective of this bill is to amend the National Trails System Act to direct the Secretary of the Interior to conduct a study on the feasibility of designating the Chief Standing Bear National Historic Trail.

#### EARMARK STATEMENT

This bill does not contain any Congressional earmarks, limited tax benefits, or limited tariff benefits as defined under clause 9(e), 9(f), and 9(g) of rule XXI of the Rules of the House of Representatives.

#### COMPLIANCE WITH PUBLIC LAW 104-4

This bill contains no unfunded mandates.

#### COMPLIANCE WITH H. RES. 5

Directed Rule Making. The Chairman does not believe that this bill directs any executive branch official to conduct any specific rule-making proceedings.

Duplication of Existing Programs. This bill does not establish or reauthorize a program of the federal government known to be duplicative of another program. Such program was not included in any report from the Government Accountability Office to Congress pursuant to section 21 of Public Law 111-139 or identified in the

most recent Catalog of Federal Domestic Assistance published pursuant to the Federal Program Information Act (Public Law 95–220, as amended by Public Law 98–169) as relating to other programs.

#### PREEMPTION OF STATE, LOCAL OR TRIBAL LAW

This bill is not intended to preempt any State, local or tribal law.

#### CHANGES IN EXISTING LAW MADE BY THE BILL, AS REPORTED

In compliance with clause 3(e) of rule XIII of the Rules of the House of Representatives, changes in existing law made by the bill, as reported, are shown as follows (new matter is printed in italic and existing law in which no change is proposed is shown in roman):

(b) The Secretary of the Interior, through the agency most likely to administer such trail, and the Secretary of Agriculture where lands administered by him are involved, shall make such additional studies as are herein or may hereafter be authorized by the Congress for the purpose of determining the feasibility and desirability of designating other trails as national scenic or national historic trails. Such studies shall be made in consultation with the heads of other Federal agencies administering lands through which such additional proposed trails would pass and in cooperation with interested interstate, State, and local governmental agencies, public and private organizations, and landowners and land users concerned. The feasibility of designating a trail shall be determined on the basis of an evaluation of whether or not it is physically possible to develop a trail along a route being studied, and whether the development of a trail would be financially feasible. The studies listed in subsection (c) of this section shall be completed and submitted to the Congress, with recommendations as to the suitability of trail designation, not later than three complete fiscal years from the date of enactment of their addition to this subsection, or from the date of enactment of this sentence, whichever is later. Such studies, when submitted, shall be printed as a House or Senate document, and shall include, but not be limited to:

(1) the proposed route of such trail (including maps and illustrations);

(2) the areas adjacent to such trails, to be utilized for scenic, historic, natural, cultural, or developmental purposes;

(3) the characteristics which, in the judgment of the appropriate Secretary, make the proposed trail worthy of designation as a national scenic or national historic trail; and in the case of national historic trails the report shall include the recommendation of the Secretary of the Interior's National Park System Advisory Board as to the national historic significance based on the criteria developed under the Historic Sites Act of 1935 (49 Stat. 666; 16 U.S.C. 461);

(4) the current status of land ownership and current and potential use along the designated route;

(5) the estimated cost of acquisition of lands or interest in lands, if any;

(6) the plans for developing and maintaining the trail and the cost thereof;

(7) the proposed Federal administering agency (which, in the case of a national scenic or national historic trail wholly or substantially within a national forest, shall be the Department of Agriculture);

(8) the extent to which a State or its political subdivisions and public and private organizations might reasonably be expected to participate in acquiring the necessary lands and in the administration thereof;

(9) the relative uses of the lands involved, including: the number of anticipated visitor-days for the entire length of, as

well as for segments of, such trail; the number of months which such trail, or segments thereof, will be open for recreation purposes; the economic and social benefits which might accrue from alternate land uses; and the estimated man-years of civilian employment and expenditures expected for the purposes of maintenance, supervision, and regulation of such trail;

(10) the anticipated impact of public outdoor recreation use on the preservation of a proposed national historic trail and its related historic and archeological features and settings, including the measures proposed to ensure evaluation and preservation of the values that contribute to their national historic significance; and

(11) to qualify for designation as a national historic trail, a trail must meet all three of the following criteria:

(A) It must be a trail or route established by historic use and must be historically significant as a result of that use. The route need not currently exist as a discernible trail to qualify, but its location must be sufficiently known to permit evaluation of public recreation and historical interest potential. A designated trail should generally accurately follow the historic route, but may deviate somewhat on occasion of necessity to avoid difficult routing through subsequent development, or to provide some route variation offering a more pleasurable recreational experience. Such deviations shall be so noted on site. Trail segments no longer possible to travel by trail due to subsequent development as motorized transportation routes may be designated and marked onsite as segments which link to the historic trail.

(B) It must be of national significance with respect to any of several broad facets of American history, such as trade and commerce, exploration, migration and settlement, or military campaigns. To qualify as nationally significant, historic use of the trail must have had a far-reaching effect on broad patterns of American culture. Trails significant in the history of native Americans may be included.

(C) It must have significant potential for public recreational use or historical interest based on historic interpretation and appreciation. The potential for such use is generally greater along roadless segments developed as historic trails, and at historic sites associated with the trail. The presence of recreation potential not related to historic appreciation is not sufficient justification for designation under this category.

(c) The following routes shall be studied in accordance with the objectives outlined in subsection (b) of this section:
