GENERAL STATEMENT AND SUMMARY

The Legislative Branch appropriations bill provides funding for the Congress and for the agencies that serve the Congress. The agencies funded through this bill provide oversight of executive branch agencies, including objective, nonpartisan, and timely audits and analysis of Federal programs. The funding in this bill also ensures that the public has permanent access to printed and electronic information products of the Federal Government.

All accounts in the bill have been examined in detail to ensure that the funding provided is appropriate for the agencies to carry out their responsibilities and to continue to respond to Congress in a timely and accurate manner. Details on the accounts, the funding levels provided, and the Committee's justification for the funding levels are included in the report.

Conforming to longstanding practice under which each body of Congress determines its own housekeeping requirements and the other concurs without intervention, funds for the House are not included in the bill as reported to the Senate.

The Committee recommends new budget (obligational) authority of \$3,170,655,234 for the legislative branch for fiscal year 2018. This amount excludes House items as per normal protocol. This total is \$260,752,278 below the budget request and \$122,437,000 above the fiscal year 2017 appropriation.

The bill includes \$899,773,581 for the operations of the Senate, which is \$48,483,795 below the fiscal year 2018 request. The bill includes \$454,014,724 for the Architect of the Capitol to maintain, improve, and construct buildings and facilities for the Congress. The recommendation for the Architect of the Capitol is \$125,800,276 below the fiscal year 2018 request. The recommendation would allow for comprehensive repairs and life-safety systems improvements. The bill also includes \$422,500,000 for the Capitol Police; \$562,771,695 for the Government Accountability Office; \$638,873,234 for the Library of Congress; and \$117,068,000 for the Government Publishing Office.

Security.—The Committee recommendation continues to support the Legislative Branch of government, Congress and its support agencies while providing critical investments in security for both the physical protection of the Congress, as well as internal protections to Senate networks and data.

Within the recommendation, additional funding is provided to the Capitol Police, allowing flexibility to respond to the dynamic nature of threats faced today, and to continue to prioritize the safety of Members of Congress, their staff, and the millions of visitors to the Capitol each year. The increase provides for additional sworn officers to enhance pre-screening capabilities, and the ability to civilianize certain positions giving immediate utility to sworn officers currently in those positions.

The recommendation also provides funding to the Senate Sergeant at Arms to enhance the cybersecurity posture of the Senate, to defend the institution from outside threats and provide resources to better prevent inside threats. The Senate's internal network will be better protected and individual Senator's offices will have access to increased training and resources.

While threats, both internal and external, are ever present and emergent in the environment in which Congress operates, a balance must be struck in granting access, respecting privacy and maintaining security. It is important to note that providing these necessary security enhancements allows for the continued transparency of government, participation in government, continuity of government, and protection of internal deliberations, all of which are vital to the democratic process.

The Committee recommendation also provides funding to the support agencies of the Legislative Branch to continue to invest in information technology infrastructure and security enhancements.

Inspector General Budgets.—The Committee believes it is important to ensure independence between Legislative Branch Inspector Generals [IG] and their respective reporting agencies and expects to see a separate section in each agency's fiscal year 2019 budget justification reflecting a detailed budget request for the agency's IG Office. Additionally, the Committee directs each IG to keep the Committee fully apprised of its funding needs, and the Committee directs each agency not to interfere with or require approval for such communications.

Reprogramming Guidelines.—The Committee expects all agencies to notify the Committee of any significant departures from budget plans presented to the Committee in any agency's budget justifications. In particular, agencies funded through this bill are required to notify the Committee prior to each reprogramming of funds in excess of the lesser of 10 percent or \$750,000 between programs, projects or activities, or in excess of \$750,000 between object classifications (except for shifts within the pay categories, object class 11, 12, and 13 or as further specified in each agency's respective section). This includes cumulative reprogrammings that together total at least \$750,000 from or to a particular program, activity, or object classification as well as reprogramming of FTEs or funds to create new organizational entities within the Agency or to restructure entities which already exist. The Committee desires to be notified of reprogramming actions which involve less than the above-mentioned amounts if such actions would have the effect of changing an agency's funding requirements in future years or if programs or projects specifically cited in the Committee's reports are affected.

Full-Time Equivalents.—The Committee directs that budget justifications sent to the Committee shall include a comparison of FTEs based on the number of FTEs supported by the funding provided in the current enacted appropriations legislation and the number of FTEs that would be supported by the funding requested for the following fiscal year.

The Committee recommends an appropriation of \$78,565,000 for fiscal year 2018, which supports a staffing level of 910 FTEs, an increase of 63 from the current level, including the conversion of 33 contractor positions to Federal employees. The additional staff and funding will fully support the initiative to expand the Senate's cybersecurity capabilities. The Committee expects to be briefed quarterly on the status of this initiative.

The Sergeant at Arms is the chief law enforcement officer, the chief protocol officer and an executive officer of the Senate. To fulfill these responsibilities, the Sergeant at Arms operates through four principal units:

- The Office of Protective Services and Continuity [OPSAC] prepares the Senate to respond to a full spectrum of emergencies that may disrupt normal business operations. This preparation includes programs that support life safety, intelligence, security, and continuity of operations policies and programs throughout the U.S. Senate, including Senate home state offices, as well as strategic and analytic assistance to the Sergeant at Arms in his capacity as Chairman or Member of the Capitol Police Board and Chief Law Enforcement Officer of the Senate.
- Capitol Operations is responsible for many of the services provided within the Capitol building that support the day-to-day operation of the Senate. Services include Chamber operations maintained by the Doorkeepers; official business visitor processing provided by the Senate Appointment Desks; as well as credentialing and interfacing with the news media via the Senate Media Galleries. In addition, the Senate Recording Studio provides audio and video services.
- The Operations Division provides an array of services to the Senate community to include, identification, transportation, parking, and photographic services; printing, publishing, graphic design, and framing services; and USPS mail screening, and mailing and package delivery services. Operations furnishes and maintains the Senate side of the Capitol Building and supports the maintenance of Senate state offices.
- The Office of the Chief Information Officer [CIO] builds, operates, and supports the Senate's information infrastructure. The CIO is responsible for information security, technology infusion, telecommunications, helpdesk, IT systems to support COOP and COG, enterprise computing systems, data networks, web services and hosting, system development, and office equipment.

Executive and other offices provide general management, human resource, financial and training support to the Senate.

The offices and personnel covered by this appropriation are shown in the following table.

Office of Protective Services and Continuity	30 FTE
Capitol Operations	122
Operations	296
Chief Information Officer	341
Executive and administrative offices	121
Total	910

The Committee provides these funds to the Sergeant at Arms without apportionment in the interest of facilitating financial management duties and restructuring that occurs from time to time. The Committee expects to be notified in writing in a timely manner of any changes to the staffing levels, distribution of staff or related funding.

Cybersecurity.—The Committee finds that providing state of the art cybersecurity for Senate networks and equipment is of the utmost importance in order to protect from state-sponsored attacks, prevent insider threats, and ensure the privacy of deliberations and communications involved in the legislative process. The Committee provides a total of \$27,400,000 for SAA cybersecurity efforts covering Senate networks and Senate users, an increase of \$12,500,000 above the fiscal year 2017 enacted level. The Committee notes that the bill also includes an additional \$4,000,000 within the Senators' Official Personnel and Office Expense Account to support the related cybersecurity efforts directly within Senators' offices.

The Committee directs SAA to utilize funds provided for fiscal year 2018 to: enhance protections of the Senate network by hiring an estimated 23 new full-time equivalent staff; enable enhanced third party auditing of Senate network configurations for privacy and integrity; enable annual cybersecurity audits for all Senate offices; provide enhanced cybersecurity training for each Senate office; institute protections against insider threats; and institute and operationalize enhanced privacy protections within the Senate network. Specifically, the Committee directs SAA to examine opportunities to enhance training for Senate users, such as courses offered by the Department of Homeland Security and other outside groups. The Committee directs SAA to also examine how system administrators can best gain access to high level training in order for the Senate to maintain a qualified and certified network of system administrators. The Committee expects that such training costs should be covered by the SAA to the extent practicable. Finally, the Committee directs SAA to designate a Chief Privacy Officer. The Committee directs the SAA to submit a spend plan to the Committee within 90 days of enactment on how funds provided for fiscal year 2018 are allocated to the required activities described above and also to ongoing efforts related to cybersecurity.

Multi-Factor Authentication System for Congressional Staff.—The Committee instructs the Senate Sergeant at Arms to produce a report to Senate Committee on Appropriations within 180 days of the enactment of this Act estimating the cost of implementing a multi-factor authentication system for Senate staff, including in State offices, to access Senate data and networks that meets the same standards mandated of Federal agencies in Homeland Security Presidential Directive 12.

Senators' Personal Cybersecurity Working Group.—The Committee finds that threats to Senators' personal security also extend to Senators' cybersecurity. Given the mounting evidence that Senators are being targeted for hacking, which could include exposure of personal data, the Committee directs that a working group shall be established to identify, develop, and recommend options to provide enhanced cybersecurity for Senators' personal communications devices and accounts. Privacy protections must be a component of each option. The working group shall be comprised of the Senate Committee on Rules and Administration, the Senate Select Committee on Ethics, the offices of the Majority and Minority Leaders, the Senate Committee on Appropriations, and the Senate Sergeant At Arms. Representation must be bipartisan. The working group shall consult outside experts, incorporate best practices, and work to harness existing Federal resources to the greatest extent practicable. The working group is directed to provide a report to the Committee within 180 day of enactment on specific options that could be implemented to improve cybersecurity protections for Senators. Such report must include an analysis of an option or options that would provide for a direct provision of services by the Senate Sergeant At Arms upon voluntary election by an individual Senator.

The Caucus is composed of seven Senators, four from the majority party and three from the minority party, with a chairman from the majority party and a co-chairman from the minority party.

Opioid Abuse Epidemic.—As communities nationwide continue to face an opioid abuse epidemic which has resulted in staggering increases of fatal overdoses, the Committee appreciates the Caucus's ongoing oversight of both international and domestic counter narcotics efforts. The Committee encourages the Caucus to continue these efforts specifically in regards to trafficking supply chain routes commonly used by transnational and domestic criminal organizations to produce, manufacture, and transport narcotics, including, but not limited to, heroin, fentanyl, carfentanil, and cocaine.

SENATORS' OFFICIAL PERSONNEL AND OFFICE EXPENSE ACCOUNT

Appropriations, 2017	\$390,000,000
Budget estimate, 2018	452,634,720
Committee recommendation	404,000,000

The Committee recommends an appropriation for fiscal year 2018 of \$404,000,000 for the Senators' Official Personnel and Office Expense Account [SOPOEA]. The recommendation is \$14,000,000 above the fiscal year 2017 appropriation and \$48,634,720 below the fiscal year 2018 request. Of the funding provided, \$19,122,504 is available until September 30, 2019.

This account funds salaries and benefits of Senators' staffs as well as the office expense allowance for Senators' offices. The SOPOEA is comprised of three components. Two of these are for salaries of personnel in Senators' offices.

The allowance for administrative and clerical assistance is based on the population of States, beginning with States with a population of fewer than 5 million people to States with a population of 28 million or more. The table illustrates the allowances per population category and the States which fall into those categories. The estimate for fiscal year 2018 totals \$274,438,948.

The second component of the salaries allowance is for legislative assistance to Senators, as authorized by Public Law 95–94. This allowance provides funding for three positions in each Senator's office for a total of \$482,958 per office, or \$48,295,800 for all 100 Senators.

The third component of the SOPOEA account is for official office expenses and totals \$19,122,504. Each Senator's office is allocated an amount for office expenses, as displayed in the following table. In addition, an amount of \$188,000 is provided to cover additional expenses that may be incurred in the event of the death or resignation of a Senator, and to provide for transitional expenses during election years subject to regulations set by the Committee on Rules and Administration with respect to official mail.

It should be noted that the amounts provided for the various components of the SOPOEA are interchangeable. Amounts provided for salaries may be used for expenses, and vice versa, subject

to regulations set by the Committee on Rules and Administration with respect to official mail. It should also be noted that the figures in the following table are preliminary, and that official notification of member budgets is issued by the Financial Clerk of the Senate after enactment of this bill.

The following table illustrates the several components of the SOPOEA, and assumes the estimated 2.4 percent COLA for calendar year 2018, and a 1 percent increase for cybersecurity as described below. These allocations are subject to change based on the final disposition of the fiscal year 2018 COLA.

GRAND TOTAL	279,378,838	48,295,800	19,122,504	346,797,142

According to the most recent employment data compiled by the Secretary of the Senate, as of June 30, 2017, there were 4,101 individuals employed in Senators' offices throughout the United States and covered by this appropriation.

In addition to providing funds for compensation of employees within Senators' offices, this appropriation also provides for agency contributions for those employees; that is, the Senate's share, as an employer, of the various employee benefit programs for which Senate employees are eligible. These payments are mandatory, and fluctuate according to the programs in which employees are enrolled, the level of compensation, and the degree of participation. Budget requests for this account prepared by the Financial Clerk must be based on both experience and evaluation of trends. The fiscal year 2018 funding level for this account anticipates \$112,944,000 in agency contribution costs.

The Committee provides an additional 1 percent increase for office allocations in acknowledgement and support of increasing costs related to providing cybersecurity for Senator's offices.

The amount recommended by the Committee for the SOPOEA is less than would be required to cover all obligations that could be incurred under the authorized allowances for all Senators. The Committee is able to recommend an appropriation of a lesser amount than potentially necessary because Senators typically do not obligate funds up to the absolute ceiling of their respective allowances. However, an increase in the appropriation is necessary in fiscal year 2018 due to updated expenditure projections.

These services include sign language interpreting, adaptive tours, and wheelchair loans. OCAS also provides information regarding accessibility for individuals with disabilities, as well as related training and staff development to Members of Congress and employees of the Senate and House of Representatives.

CAPITOL POLICE

Appropriations, 2017	\$393,300,000
Budget estimate, 2018	422,307,000
Committee recommendation	422,500,000

The United States Capitol Police [USCP] is charged with the protection of the United States Congress, its legislative processes, Members, employees, visitors and facilities within the U.S. Capitol complex from crime, disruption or terrorism, so that the Congress may fulfill its constitutional responsibilities in a safe and open environment.

The Committee recommends \$422,500,000 for the USCP. The recommendation is \$29,200,000 above the fiscal year 2017 appropriation and \$193,000 above the fiscal year 2018 request.

Within the recommendation, \$7,500,000 is included for enhanced personal security for Members of Congress in accordance with additional needs identified by the USCP in response to the shooting in Alexandria, Virginia on June 14, 2017. As that event highlighted, evolving threats include the physical targeting of Members of Congress, both off the Capitol campus and outside of official business hours. In addition to securing the Capitol campus, the Committee finds that ensuring the continuity of government must include protecting the physical security of Members of Congress using a risk-based approach.

To ensure that funding provided to USCP and the Senate Sergeant At Arms [SAA] supports this mission, the Committee directs

the USCP and the SAA to develop and implement a plan to assign specific, designated staff to be responsible for communication with Member offices and outside organizations in order to identify events, gatherings, field hearings, domestic travel, and other occasions that might pose a risk to Member security, to assess that risk, and, if warranted, to provide appropriate security for such occasion. The Committee directs that the USCP and SAA provide a written report to the Committee within 60 days of enactment on the details of such plan and the timeline for fully implementing such plan. In addition, the Committee directs the USCP and SAA to develop a training plan for DC-based and home state based Senate staff who routinely accompany Members off campus and on travel so that staff are well prepared to handle any emergency that arises in the course of traveling with a Member.

Security Assessment.—The dynamic threat environment requires continual monitoring and assessment in order to best protect constituents, visitors, and Members of Congress. The Committee appreciates the USCP's constant vigilance in these efforts. The Committee directs the USCP to provide, within 180 days of enactment, a report summarizing the most recent comprehensive security assessment of the most current threats to the Capitol complex and to Members outside of the complex. The report should describe how current spending and requested spending specifically support identified risks and related mitigation efforts. The report should also include strategies for protecting Members off campus, for responding to threats received online, and working with local law enforcement.

K-9 Explosive Ordnance Dogs.—The USCP use K-9 explosive ordnance dogs at multiple posts for searching vehicles entering the Capitol complex. The Committee finds that these animals are a critical component of ensuring the safety of Members, staff, and visitors throughout the complex. The dogs perform their functions in all weather conditions, including the extreme heat of the summer months. The conditions, combined with the high volume of vehicular traffic, can be distracting for the dogs and could potentially reduce their effectiveness on post. The Committee directs the USCP to work with the Architect of the Capitol to implement measures designed to protect the health and increase the productivity of these working animals in order to maintain the security of the Capitol complex.

SALARIES

Appropriations, 2017	\$325,300,000
Budget estimate, 2018	347,096,000
Committee recommendation	347,700,000

The amount provided covers salaries, benefits, and overtime costs. USCP personnel are also eligible for hazardous duty pay and comparability pay similar to locality pay adjustments granted other Federal law enforcement personnel in the Washington, DC, area.

The Committee recommends \$347,700,000 for USCP salaries, which is \$22,400,000 above the fiscal year 2017 appropriation and \$604,000 above the fiscal year 2018 request. The Committee recommendation provides half year funding for an additional 72 sworn and 48 civilian officers.

USCP Office of Inspector General.—The Committee includes funds to support not less than six FTEs within the USCP Office of Inspector General. The Committee notes that additional oversight of the USCP is conducted by the Government Accountability Office to supplement the work of the USCP Office of Inspector General, as needed.

Overtime.—The Committee recommends no more than \$45,000,000 for overtime in fiscal year 2018. This provides for approximately 564,646 hours of additional duty.

The Committee notes that overtime pay is a standard practice law enforcement entities utilize to respond to unscheduled and unanticipated events. However, the Committee finds that keeping overtime pay at a minimum should continue to be a goal of the USCP. The Committee appreciates the efforts of the USCP to better track and manage overtime pay in order to keep overtime costs to a minimum. The Committee directs the USCP to continue to keep the Committee apprised of these efforts.

The Committee directs the USCP to provide for overtime in accordance with the budget request, as provided for in the following table.

	Funding	Hours estimated
Scheduled, (including training)	\$44,170,000	\$658,580
Unscheduled	2,590,000	40,000
LOC—non-reimbursable events	240,000	3,700
Total	45,000,000	702,280

The recommendation does not include funds for USCP overtime for requirements associated with major construction projects undertaken by the Architect of the Capitol [AOC] as those funds are provided to the AOC as part of the overall project costs for those major projects and are paid to the USCP on a reimbursable basis. The Committee expects the USCP to operate within the designated funding level for requirements associated with each project. The Committee directs the USCP to provide for any additional requirement costs beyond that allocation.

The OOC administers the dispute resolution system established to resolve disagreements that arise under the CAA; carries out an education and training program for the regulated community on the rights and responsibilities of the CAA; and advises Congress on needed changes and amendments to the CAA. The OOC General Counsel has independent investigatory and enforcement authority for certain violations of the CAA.

The Committee recommends an appropriation of \$3,959,000 for the salaries and expenses of the OOC, which is equal to the fiscal year 2017 enacted level and \$96,902 below the fiscal year 2018 request.

The Committee recommends an appropriation of \$48,100,000 for the CBO. The recommendation is \$1,600,000 above the fiscal year 2017 appropriation and \$1,875,000 below the fiscal year 2018 request.

The recommendation includes \$1,100,000 for the relocation of CBO's data center. Funding is also provided for four additional analysts to support healthcare analysis, economic analysis, and scorekeeping.

ARCHITECT OF THE CAPITOL

The Office of the Architect of the Capitol [AOC] is responsible to the United States Congress for the maintenance, operation, development, and preservation of 16.5 million square feet of buildings and more than 450 acres of land throughout the Capitol complex. This includes the Capitol, the Capitol Visitor Center, the House and Senate office buildings, the Library of Congress buildings, the U.S. Botanic Garden, the Capitol Power Plant, and other facilities. The AOC also provides professional expertise with regard to the preservation of architectural and artistic elements entrusted to its care, and provides recommendations concerning design, construction, and maintenance of the facilities and grounds.

The Committee has recommended a funding level of \$454,014,724 for activities of the Architect of the Capitol, excluding the House Office Buildings account. The recommendation is \$38,858,724 above the fiscal year 2017 appropriation and \$141,993,276 below the fiscal year 2018 request.

The following table compares the Committee recommendation for the AOC accounts to the fiscal year 2018 request, excluding the House Office Buildings account.

Outdoor Recycling.—The Committee commends the efforts of the Architect of the Capitol and the United States Capitol Police [USCP] for implementing outdoor recycling programs on the Capitol grounds while maintaining security of the complex. The Committee encourages the Architect of the Capitol and the USCP to continue to collaborate and work together to expand these efforts where appropriate in high-traffic areas across the Capitol complex.

Financial Management.—The Committee commends the AOC for earning an unmodified audit opinion, without any material weaknesses, on its financial statements for fiscal year 2016. The AOC was also recognized with the CEAR award: Celebrating Excellence in Accounting Reporting. An unmodified opinion is the highest rating that may be received from an external auditor, and the AOC has earned this rating for 13 consecutive years. This positive independent assessment of the agency's financial stewardship of taxpayer resources demonstrates the agency's strong financial foundation as it embarks on major restoration and renovation projects.

Office of Inspector General.—The Committee is encouraged by the substantial progress made by the Architect of the Capitol Inspector General [AOC IG] to improve communications with Congress, conform with Generally Accepted Government Auditing Standards, and commit to independence. The Committee looks forward to benefiting from the AOC IG's future findings and recommendations to improve the efficiency and effectiveness of the AOC's operations. The Committee feels strongly that the AOC IG must maintain a staffing level commensurate with the scale of AOC's vast portfolio of operations, constructions, and contract oversight. Within funds provided, the Committee directs the AOC IG to employ not fewer than 14 full-time equivalent positions during fiscal year 2018. The Committee also directs the AOC to ensure that sufficient funding is available for contracts and other expenses identified by the AOC IG to fulfill its mission. Finally, the Committee reiterates that the independence of the AOC IG is of the utmost importance.

Russell Senate Office Building.—The Committee appreciates that the AOC has continued to make significant progress on implementing solutions recommended by a Blue Ribbon Panel to address potential fire hazards in the Russell Senate Office Building. The Committee directs the AOC to provide a work plan detailing funding and timeline for full completion of the remainder of the project within 30 days of enactment.

Senate Restaurants.—The Committee continues to be deeply troubled by findings by the Architect of the Capitol [AOC] and the Department of Labor [DOL] that the food service provider for the Senate underpaid many of its employees by misclassifying their work duties. The Committee notes that, as a result of these labor violations, the DOL initiated debarment proceedings to prevent the contractor and its principal officer from serving as Federal contractors. The Committee is concerned about the possibility of continued problems with contract compliance, especially related to treatment of employees.

It is noted that the Architect has committed, including in written correspondence to and meetings with Members of the United State Senate, to fully institute comprehensive reforms of the AOC's oversight of Senate restaurant contracts. Reforms include, but are not limited to: increasing the number of dedicated AOC staff to the oversight of restaurant contracts and ensuring such staff maintain a close and continuing connection to the Senate community; coordinating detailed, ongoing audits of employee wage rates and wage classifications; determining if areas of improvement to the contractor's pay administration practices exist so that information is readily available and transparent to contract employees; facilitating training on applicable labor laws for both AOC staff and relevant contract staff; ensuring the contractor maintains a full-time, dedicated human resources manager on site; and ensuring specific improvements in contractor communications with its employees, including for communications to be available in multiple languages, as needed, and ensuring contractor employees have convenient access to report possible violations.

The Committee directs the AOC to continue to closely monitor contract compliance, including routinely reviewing wage classifications, and to fully operationalize such monitoring into standard operating procedures. The Committee also directs AOC to immediately report any inconsistencies to the Committee on Appropriations and the Committee on Rules and Administration and to consider all recourses in ensuring compliance and accountability with the contract. Finally, the Committee directs the AOC Inspector General to monitor and evaluate AOC's oversight of contract compliance and monitoring of employee compensation and overall working conditions.

LIBRARY OF CONGRESS

The Library of Congress is the largest library in the world and an unmatched source of information for Congress, the American people and beyond. The Library acquires, registers, preserves, protects and makes accessible the creative record of the United States. It is the main research arm of the United States Congress and its resources and services are used by millions of people every month. Its mission is to support the Congress in fulfilling its constitutional duties and to further the progress of knowledge and creativity for the benefit of the American people. The Library's collections include more than 162 million items (books, photographs, maps, sound recordings, films, sheet music, legal materials) in 470 languages. Digital technology is transforming the way the Library does its work, and the institution plays an important leadership role in superimposing digital library collections and services on those that are analog based. The Library of Congress houses the Congressional Research Service, U.S. Copyright Office, National Library Service for the Blind and Physically Handicapped, Law Library of Congress, and numerous other programs and services.

The Committee recommends a total of \$638,873,234 for the Library of Congress, an increase of \$6,915,000 above the fiscal year 2017 appropriation and \$62,643,766 below the fiscal year 2018 request.

In addition to the appropriation, the Library estimates receipts of \$52,655,000, funds from gifts and trusts totaling \$16,593,000, and reimbursable and revolving funds totaling \$190,642,000. Total funds available to support Library operations, including the Architect of the Capitol account, are expected to be approximately \$926,206,234 in fiscal year 2018 under the Committee recommendation.

Congressional Accountability Act Coverage for Library Employees.—The Committee includes a provision which provides Library of Congress employees coverage under the Congressional Accountability Act. Employees of the Library will have the option to utilize the services of the Office of Compliance, while maintaining the current Library and collective bargaining agreement processes. It is the intent of the Committee to offer Library employees a fair opportunity to resolve workplace issues similar to other Legislative Branch agencies.

The Committee recommends an appropriation of \$450,667,000 for salaries and expenses of the Library of Congress and approves authority to spend receipts of \$6,350,000 in fiscal year 2018, for a total of \$457,017,000. The recommendation is equal to the above the fiscal year 2017 appropriation and \$47,650,000 below the fiscal year 2018 request. Included within this recommendation, as requested by the Library for fiscal year 2018, is \$20,000,000 for the second phase of relocating the Library's primary computing facility; \$5,817,000 to begin the Library's enterprise investment in IT; and \$297,000 for expanded IT audit capabilities for the Library's Office of Inspector General. The Committee expects the Library to provide a detailed spend plan, including any increase in FTE levels for the IT modernization intended to be addressed with the funds provided in fiscal year 2018.

Veterans History Project.—The Committee recommends an appropriation of \$1,923,000 for the Library of Congress' Veterans History Project [VHP]. VHP, which marked its 15th anniversary in 2015, oversees a nationwide effort to build an archive of oral histories, from World War I through current conflicts, by collecting, preserving, and making available the personal stories of American war veterans and the civilian workers who support them. The VHP collection includes submissions from every State and is the largest oral history project in the United States recently surpassing 100,000 collections in February of 2016. Through an active national outreach effort to volunteer organizations, institutions, and individuals across the country, VHP gained new participants and acquired 4,430 new collections in fiscal year 2016.

Teaching with Primary Sources.—The Committee recommends an appropriation of \$8,444,000 for the Library of Congress' Teaching with Primary Sources program [TPS]. TPS is a teacher training initiative that encourages educators to incorporate the Library's online primary sources into school curricula. Library staff harness the power of primary sources as teaching tools by providing educators with methods and materials that build student literacy skills, content knowledge, and critical thinking abilities. TPS has successfully worked with educators in 49 States, the District of Columbia, and American Samoa. The Committee notes that the Library sponsors many educational lectures and events and encourages the Library to incorporate excerpts from these presentations into the curriculum materials it develops.

Preservation.—The Committee notes that the Library utilizes multiple preservation strategies to extend the life of its vast collections for future generations to enjoy, including building and operating climate-controlled storage facilities, preparing new acquisitions for commercial binding and shelving, deacidification, and digital reformatting. During 2016, the Library executed over 9.5 million preservation actions on its books, serials, prints, photographs, audio-visual and other high value, high use, and at-risk items. In 2016, the Library and the Architect of the Capitol began construction of a fifth climate-controlled storage facility at Fort Meade, Maryland. The Committee supports the Library's preservation efforts and directs the Library to continue funding for ongoing preservation activities at not less than the current level for each ongoing preservation strategy.

National Film and Sound Recording Preservation Programs.—The Committee recognizes the important work of the National Film Preservation Program and the National Sound Recording Preservation Program, including the federally chartered National Film and National Recording Preservation Foundations. Consistent with the authorizing statute, the Foundations utilize both public and private matching funds to provide grants to a wide array of educational and non-profit organizations that help preserve historical and cultural artifacts that would otherwise disappear or be destroyed over time. Given that these programs were reauthorized under the Library of Congress Sound Recording and Film Preservation Programs Reauthorization Act of 2016 (Public Law 114–217), the Committee expects that the Library will provide support to these programs.

Revolving Fund Updates.—The Committee appreciates the Library's interest in modernizing and finding new ways to sustain important, yet expensive services, including those associated with the audiovisual conservation center. The Committee believes that any request for authorization to collect a fee for those services should be accompanied by a full description of the scope of services provided for, which fees would be assessed, as well as the impact that such fees may have on the users of those services and the Library's collection. If the Library decides to pursue further updates to the revolving fund statute, the Committee directs the Library to prepare a comprehensive plan that outlines the services for which fees would be assessed, the proposed schedule for implementation of any potential user fees, and an impact study to determine the

effects on the Library's collection and all existing contributors. The Library should provide this report to the Committee as well as the Senate Committee on Rules and Administration.

The United States Copyright Office plays an important role in our Nation's intellectual property system. Copyright law is the foundation for the creation and dissemination of American artistic works, leading to substantial economic and cultural benefits. The Copyright Office serves multiple central roles in the copyright system, overseeing the registration of copyrighted works, administering the copyright law, and providing counsel to Congress on copyright policy.

The Committee recommends the direct appropriation of \$25,260,000 for the Copyright Office; approves authority to spend receipts of \$41,305,000 in fiscal year 2018; and approves authority to spend prior year unobligated balances of \$2,260,000, for a total of \$68,825,000. The recommendation for total funding available is \$2,162,000 above the fiscal year 2017 appropriation and \$6,156,000 below the fiscal year 2018 request.

Information Technology Modernization.—The recommendation includes \$3,629,000 for Copyright Office IT modernization, fully funding the request. The Committee commends the collaboration of the Copyright Office with the Library's Office of Chief Information Officer [OCIO] in the overall IT modernization effort for the Library, and looks forward to the forthcoming revised IT modernization plan for the Office. The Committee directs the Copyright Office and the Library's OCIO to continue to work together to achieve efficiencies in shared services, while allowing for mission specific modernization to be the responsibility of the Copyright Office.

The Committee expects the Copyright Office to provide a detailed spend plan for the IT enhancements intended to be addressed with the funds provided in fiscal year 2018.

CONGRESSIONAL RESEARCH SERVICE

SALARIES AND EXPENSES

Appropriations, 2017	\$107,945,234
Budget estimate, 2018	119,279,000
Committee recommendation	112,698,234

The Committee recommends an appropriation of \$112,698,234 for the Congressional Research Service. The recommendation is \$4,753,000 above the fiscal year 2017 appropriation and \$6,791,000 below the fiscal year 2018 request.

Congressional Research Service Modernization.—The Committee recognizes the tremendous value that the Congressional Research Service [CRS] has added to Congress by providing objective, authoritative, nonpartisan, and confidential research and analysis on the breadth of policy issues considered during each legislative session since its inception in 1914. Included in the Committee's recommendation is \$4,000,000 to begin modernization of CRS's mission-specific information systems to increase efficiency of the office while protecting confidentiality of congressional data.

Public Access to CRS Reports.—The bill includes a provision directing the Library of Congress's Congressional Research Service [CRS] to make available to the public all non-confidential CRS reports on a website operated and maintained by the Government Publishing Office [GPO]. Non-confidential CRS reports include any CRS report containing research or analysis that is currently available for general congressional access on the CRS Congressional Intranet, or that would be made available on the CRS Congressional Intranet in the normal course of business. Non-confidential CRS reports do not include reports prepared in direct response to a Congressional office request for custom analysis or research. CRS reports are funded by taxpayers and should be made available to citizens, schools and libraries across the country. Publishing of CRS reports will not impede CRS's core mission and is in keeping with the Committee's priority of full transparency to the American people. Within 60 days of enactment of this act CRS, in consultation with GPO, shall provide to the relevant oversight Committees, including the House and Senate Appropriations Committees, a plan for making these reports available by the end of Fiscal Year 2018, well as any associated cost estimates.

Supporting Areas of High Congressional Demand.—The Committee appreciates CRS finding innovative ways to meet congressional demand in a resource constrained environment. Therefore, the recommendation provides \$753,000 for eight additional support staff to handle routine requests, allowing senior staff to focus on more highly analytical research.

Service to Congressional District Offices.—The Committee recognizes that the Congressional Research Service [CRS] provides an invaluable service that ranges from timely, analytical responses to congressional requests to organized briefings and trainings on various issue areas to Members of Congress and their staff in Washington, DC. However, District Office staff, compared to their Washington, DC. counterparts, have limited opportunities to participate in these briefings and trainings simply because they do not live in Washington, DC. The Committee recognizes that utilizing current

technologies, such as livestreaming or use of Webinars, may increase access for District Staff to participate in these learning opportunities that develop professional skillsets and provide critical information to better assist constituents. Therefore, the Committee directs CRS to undertake a study that explores the requirements of supporting live-webcasts of briefings and includes options in providing this type of service to District Offices. It is expected that CRS report to the Committee no later than 180 days on their findings.

Information Products.—The Committee recognizes that the Congressional Research Service [CRS] produces reliable and highly sought after analytical products. However, given time constraints, Members and staff are not always able to read and benefit from many of the lengthier reports. Current media shows that there are useful examples of information delivery that CRS could incorporate into its service to the Congress. The Committee directs CRS to survey how to repackage its products utilizing different forms of information delivery to produce more user-friendly formats for “reading on the go” scenarios and to report to the Committee when these information delivery systems might be incorporated into the suite of products and services that CRS provides.

BOOKS FOR THE BLIND AND PHYSICALLY HANDICAPPED

SALARIES AND EXPENSES

Appropriations, 2017	\$50,248,000
Budget estimate, 2018	52,815,000
Committee recommendation	50,248,000

This appropriation supports a national reading program for eligible residents of the United States and U.S. citizens living overseas who are blind or physically handicapped. Books and magazines in braille and various recorded formats are produced by the National Library Service for the Blind and Physically Handicapped for distribution through a network of State and locally supported libraries. At present, 55 regional libraries in 49 States, the District of Columbia, Puerto Rico, and the U.S. Virgin Islands house and circulate books and magazines to eligible readers. Thirty-two sub-regional libraries in 10 States, and Guam, assist at the local public library level. In addition, 14 Advisory and Outreach Centers assist regional libraries in provision of services. Fifty-two of the regional libraries and four separate cooperating agencies distribute sound reproducers. Two multi-State centers, under contract to the National Library Service, store and distribute books and other materials in their geographical region. The program supports a readership of approximately 800,000.

The Committee recommends an appropriation of \$50,248,000 for salaries and expenses for Books for the Blind and Physically Handicapped. The recommendation is equal to the fiscal year 2017 appropriation and \$2,567,000 below the fiscal year 2018 request.

eReader Program.—The Committee continues to recognize the importance of having accessible reading materials available to U.S. citizens and residents who are unable to read printed material due to blindness or physical limitations. In addition, the Committee remains encouraged that the National Library Services for the Blind

and Physically Handicapped [NLS] will move forward and conduct a pilot program in fiscal year 2018 that will provide NLS with the necessary information to progress on establishing a long-term electronic refreshable Braille display lending program. If the NLS continues along its proposed timeline, the Committee is expected to receive a request by the NLS in fiscal year 2019 for a \$5,000,000 request for electronic refreshable Braille display technology, which will allow the NLS to procure approximately 10,000 eReaders for its lending program.

ADMINISTRATIVE PROVISIONS

GOVERNMENT PUBLISHING OFFICE

The U.S. Government Publishing Office [GPO] is the Federal Government's primary centralized resource for gathering, cataloging, producing, providing, and preserving published information in all its forms. By law and tradition, the GPO's mission is to provide expert publishing and printing services to all three branches of Government; to provide, in partnership with Federal depository libraries, permanent public access to the printed and electronic information products of all three branches of the Federal Government; and to sell copies of authentic printed and electronic documents and other government information products to the public.

GPO's core mission dates to 1813 when Congress determined that information regarding the work of the Federal Government should be available to all Americans. Over 200 years later, GPO's mission remains unchanged. However, the means for producing and distributing that information has transformed dramatically with the advent of the digital revolution.

Today, GPO provides free online public access to more than 1.5 million searchable titles, including the Budget of the U.S. Government, the Code of Federal Regulations, the Congressional Record, and congressional bills, hearings, and reports. GPO also provides access to Government information in digital format through apps, eBooks, and related technologies. Since 2009, GPO has experienced more than 1.5 billion digital retrievals from its Federal Digital System [FDsys], and in February 2017 GPO introduced the next generation of its digital information system, govinfo.gov, symbolizing the evolution of how Americans access Government information in the digital era.

CONGRESSIONAL PUBLISHING

Appropriations, 2017	\$79,736,000
Budget estimate, 2018	79,528,000

The appropriation for Congressional Publishing supports transparency of the congressional process by funding digital and print publication of congressional proceedings, including the Congressional Record, bills, amendments, Committee reports, and hearing transcripts. This appropriation also supports the direct publication and printing needs of Congress.

The Committee recommends \$79,528,000 for congressional publishing. The recommendation is \$208,000 below the fiscal year 2017 appropriation and equal to the 2018 request.

The following table compares the component categories within this account for fiscal year 2017 and the fiscal year 2018 request. The Committee has not recommended separate amounts for each activity in order to give GPO the flexibility to meet changing requirements.

SUPERINTENDENT OF DOCUMENTS

SALARIES AND EXPENSES

Appropriations, 2017	\$29,500,000
Budget estimate, 2018	29,000,000
Committee recommendation	29,000,000

This appropriation provides for salaries and expenses associated with the distribution of electronic and printed Government documents to depository and international exchange libraries, the cataloging and indexing of Government publications, and the distribution of electronic and printed publications authorized by law at the request of Members of Congress and other Government agencies.

The Committee recommends \$29,000,000 for salaries and expenses of the Public Information Programs of the Office of the Superintendent of Documents. The recommendation is \$500,000 below

the fiscal year 2017 appropriation and equal to the fiscal year 2018 request.

The Committee supports GPO's introduction of its next generation information system, govinfo.gov, as well as the agency's other information technology systems, given that these efforts continue to reduce costs.

GOVERNMENT PUBLISHING OFFICE BUSINESS OPERATIONS REVOLVING FUND

Appropriations, 2017	\$7,832,000
Budget estimate, 2018	8,540,000
Committee recommendation	8,540,000

The Committee recommends \$8,540,000 for the Government Publishing Office [GPO] Business Operations Revolving Fund. The recommendation is \$708,000 above the fiscal year 2017 appropriation and equal to the fiscal year 2018 request.

The Committee supports continued investment in the Revolving Fund as the most efficient solution to both cutting costs and ensuring efficient online access to government documents. One reason GPO is able to meet the increased work demands and continually reduce costs is through its constant focus on capital investments to modernize information systems, production equipment, and major facility repairs.

GOVERNMENT ACCOUNTABILITY OFFICE

SALARIES AND EXPENSES

Appropriations, 2017	\$544,505,919
Budget estimate, 2018	590,678,000
Committee recommendation	562,771,695

The U.S. Government Accountability Office [GAO] is an independent nonpartisan agency that was established by the Budget and Accounting Act of 1921 to act as an auditor for Congress and investigate how the Federal Government spends taxpayer dollars.

The function of GAO includes auditing agency operations to determine whether Federal funds are being spent efficiently and effectively; investigating allegations of illegal and improper activities; reporting on how well Government programs and policies are meeting their objectives; performing policy analyses and outlining options for congressional consideration; and issuing legal decisions and opinions, such as bid protest rulings and reports on agency rules.

The Committee recommends funding of \$562,771,695 for salaries and expenses of the Government Accountability Office. The recommendation is \$18,265,776 above the fiscal year 2017 appropriation and \$27,906,305 below the fiscal year 2018 request. The funding provided will support current staffing levels and the highest priority information technology infrastructure and security improvements included in the budget request.

Additionally, \$23,800,000 is authorized in offsetting collections derived from rent receipts and reimbursements for conducting financial audits of Government corporations, for a total of \$586,571,695.

Within 1 year of enactment, the U.S. Government Accountability Office [GAO] shall issue a report to the Committee that examines the extent to which reports are posted and accessible on websites of Offices of Inspectors General as required by section 8M of the Inspector General Act of 1978, as amended.

OPEN WORLD LEADERSHIP CENTER TRUST FUND

Appropriations, 2017	\$5,600,000
Budget estimate, 2018	5,800,000
Committee recommendation	5,600,000

The Committee recommends \$5,600,000 as a payment to the Open World Leadership Center Trust Fund, which is equal to the fiscal year 2017 appropriation and \$200,000 below the fiscal year 2018 request. The Center for Russian Leadership Development was established on December 21, 2000 (Public Law 106-554) as a legislative branch entity. The Fiscal Year 2003 Consolidated Appropriation Resolution (Public Law 108-7) carried legislation (section 1401) changing the name to the Open World Leadership Center and expanding the mission of the program to include Newly Independent States of the former Soviet Union including the Baltic States. The mission of the Center is to enable emerging leaders in Russia and Newly Independent States at all levels of civic life to gain significant, first-hand exposure to the American free market economic system and the operation of American democratic institutions through visits to comparable governments and communities in the United States.

While the Committee recognizes the ongoing U.S. national interest in maintaining constructive relations with the Russian people, the Committee includes a provision that limits the Open World Leadership Center to using appropriated funds only for Russian participants engaging in free market development, humanitarian activities, and civic engagement, and not for senior officials of the central Government of Russia.

JOHN C. STENNIS CENTER FOR PUBLIC SERVICE TRAINING AND DEVELOPMENT

Appropriations, 2017	\$430,000
Budget estimate, 2018	430,000
Committee recommendation	430,000

The John C. Stennis Center for Public Service Training and Development was created by Congress in 1988. The mandate of the Center is to promote and strengthen public service. The Committee recommends the budget request of \$430,000 as authorized by 2 U.S.C. 1105, for the Center's congressional staff training and development programs.

TITLE II

GENERAL PROVISIONS

Included are several routine general provisions carried annually in the bill (sections 201–207), as follows:
