GENERAL STATEMENT AND SUMMARY

The Committee recommends new budget (obligational authority) of \$1,943,008,000 for the legislative branch, for fiscal year 2002. This total is \$103,875,000 below the budget request and \$103,143,000 above the fiscal year 2001 level. The bill excludes House items pursuant to the normal protocol.

The bill includes \$1,094,296,000 for title I, Congressional Operations, exclusive of House items. This includes \$603,735,000 for the Senate, \$13,940,000 below the revised request. Within title I is \$155,903,000 for the Architect of the Capitol, \$67,636,000 below the request primarily due to the decision to defer funding for the Capitol Dome renovation project and lower estimates for personal services costs. Full funding has been provided to the Congressional Budget Office and the Congressional Research Service.

Title II, Other Agencies, totals \$848,712,000, a reduction of \$16,399,000 below the request. Within title II, highlights include \$419,843,000 for the General Accounting Office, \$7,951,000 below the request and \$35,823,000 above the enacted level. The increase will enable GAO to staff up to its authorized level of 3,275 FTEs. For the Library of Congress, the \$362,059,000 is recommended, \$1,088,000 below the request.

The Committee expects all agencies to notify the Committee of any significant departures from budget plans presented to the Committee in any agency's budget justifications. In particular, agencies funded through this bill are required to notify the Committee prior to each reprogramming of funds in excess of \$250,000 between programs, activities, or object classifications. This includes cumulative reprogrammings that together total at least \$250,000 from or to a particular program, activity, or object classification. The Committee desires to be notified of reprogramming actions which involve less than the above-mentioned amounts if such actions would have the effect of changing an agency's funding requirements in future years or if programs or projects specifically cited in the Committee's reports are affected.

The Committee also expects all agencies to submit operating plans for the Committee's approval within 30 days of the bill's enactment.

The detail by major support agency is as follows:

SENATORS’ OFFICIAL PERSONNEL AND OFFICE EXPENSE ACCOUNT

Appropriations, 2001	¹ \$251,929,000
Budget estimate, 2002	285,494,000
Committee recommendation	270,494,000

¹ Reflects rescission of \$1,274,000 per Public Law 106–554.

The Committee recommends an appropriation for fiscal year 2002 of \$270,494,000 for the Senators’ Official Personnel and Office Expense Account.

This account funds salaries and benefits of Senators’ staffs as well as the office expense allowance for Senators’ offices. These funds were formerly carried under several accounts including: “Administrative, clerical and legislative assistance to Senators;” “Agen-

cy contributions,” under the heading “Salaries, officers and employees,” and “Official office expense allowances.” Those separate appropriations were merged into this single account in Public Law 100–137.

The Senators’ official personnel and office expense allowance [SOPOEA] is comprised of three components. Two of these are for salaries of personnel in Senators’ offices. The allowance for administrative and clerical assistance is based on the population of States, beginning with States with a population of fewer than 5 million people to States with a population of 28 million or more. The table illustrates the allowances per population category and the States which fall into those categories.

The second component of the salaries allowance is for legislative assistance to Senators, as authorized by Public Law 95–94. This allowance provides funding for three positions in each Senator’s office at an annual rate of \$140,559 for a total of \$421,677 per office, or \$42,167,700 for all 100 Senators.

The third component of the SOPOEA is for office expenses. Each Senator’s office is allocated an amount for office expenses, as displayed in the following table, including the Committee on Rules and Administration’s reallocations of the official mail. In addition, an amount of \$200,000 is provided to cover additional expenses that may be incurred in the event of the death or resignation of a Senator, and to provide for transitional expenses during election years subject to regulations set by the Committee on Rules and Administration with respect to official mail.

It should be noted that the amounts provided for the various components of the SOPOEA are entirely fungible. Amounts provided for salaries may be used for expenses, and vice versa, subject to regulations set by the Committee on Rules and Administration with respect to official mail. It should also be noted that the figures in the following table are preliminary, and that official notification of member budgets is issued by the Financial Clerk of the Senate after final passage of this bill.

The following table illustrates the several components of the SOPOEA.

According to the most recent employment data compiled by the Secretary of the Senate, as of April 30, 2001, there were 3,984 individuals employed in Senators' offices throughout the United States and covered by this appropriation.

U.S. Senate Senators' staff as of September 30, 1992–2000 and April 30, 2001.

Year	Number of staff
1992	4,135
1993	4,262
1994	4,142
1995	4,112
1996	3,959
1997	4,044
1998	4,022
1999	4,039
2000	4,072
2001	3,984

In addition to providing funds for compensation of employees within Senators' offices, this appropriation also provides for agency contributions for those employees; that is, the Senate's share, as an employer, of the various employee benefit programs for which Senate employees are eligible. These payments are mandatory, and fluctuate according to the programs in which employees are enrolled, the level of compensation, and the degree of participation. Budget requests for this account prepared by the Financial Clerk must be based on both experience and evaluation of trends. The fiscal year 2002 request for this account anticipates \$64,282,000 in agency contribution costs.

The amount recommended by the Committee for the SOPOEA is less than would be required to cover all obligations that could be incurred under the authorized allowances for all Senators. The Committee is able to recommend an appropriation of a lesser amount than potentially necessary because Senators typically do not obligate funds up to the absolute ceiling of their respective allowances. In fact, a number of offices spend less than their total allowances. Evidence of this can be found in the semiannual report of the Secretary of the Senate. At the direction of this Committee in the Fiscal Year 1996 Legislative Branch Appropriations Act, the Secretary's report now includes summary information on each Senator's authorized allowance, expenditures made, and the balance, if any.

In the alternative, the Committee could recommend an appropriation to fund fully the sum total of all the authorized allowances. For fiscal year 2002, that would mean an appropriation of \$290,494,000, \$20,000,000 more than recommended.

SENATE OFFICIAL MAIL COSTS

Appropriations, 2001	\$300,000
Budget estimate, 2002	300,000
Committee recommendation	300,000

For the official mail costs of the Senate, the Committee recommends an appropriation of \$300,000, which is the same as the budget request.

ADMINISTRATIVE PROVISIONS

SEC. 1. This provision authorizes 2 additional consultants each for the majority and minority leaders, and authorizes an additional consultant for the President Pro Tempore.

SEC. 2. This section authorizes a student loan repayment program for the Senate. In attempting to attract and retain qualified individuals to work in the Federal Government, in 1990 Congress created a student loan repayment program for executive branch agencies (Public Law 101-510). The Committee recognizes that members, Senate Committee offices and the internal support operations of the Senate must be as successful as the executive branch in attracting and retaining qualified employees. The Committee intends for this program to be a tool for recruitment and retention purposes, and a benefit to employees, not an entitlement.

SEC. 3. This section provides that agency contributions for the Senate Caucus on International Narcotics Control be paid by the "Salaries, Officers and Employees" account.

SEC. 4. This is a technical provision which will bring consistency to the treatment of telecommunications expenses, which are now obligated based on the end date of the service period, rather than the initial date of the service period as is the case for other administrative expenses of Senate offices.

SEC. 5. This provision increases the administrative expense limitation to \$100,000 each for the Conference of the Majority and Conference of the Minority.

SEC. 6. This provision increases by \$50,000 the allowance for administrative and clerical assistance.

JOINT ITEMS

JOINT ECONOMIC COMMITTEE

Appropriations, 2001	\$3,315,000
Budget estimate, 2002	3,424,000
Committee recommendation	3,424,000

The Committee recommends an appropriation of \$3,424,000 for the Joint Economic Committee. This is an increase of \$109,000 over the enacted level to provide for cost-of-living increases for current staffing levels.

JOINT COMMITTEE ON TAXATION

Appropriations, 2001	\$6,416,000
Budget estimate, 2002	6,733,000
Committee recommendation	6,733,000

The Committee recommends an appropriation of \$6,733,000 for salaries and expenses of the Joint Committee on Taxation. This is an increase of \$317,000 over the enacted level to accommodate cost-of-living increases and a 1 percent meritorious pay increase.

OFFICE OF THE ATTENDING PHYSICIAN

Appropriations, 2001	\$1,831,000
Budget estimate, 2002	1,765,000
Committee recommendation	1,765,000

The Committee recommends the appropriation of \$1,765,000 for the Office of the Attending Physician. The Office was first established by House Resolution 253, adopted December 5, 1928. The decrease below the enacted level is attributable to lower equipment expenditures projected for fiscal year 2002.

CAPITOL POLICE BOARD

CAPITOL POLICE

	<i>Recommended</i>
Salaries	\$112,922,000
Expenses	12,394,000
Total, Capitol Police Board	125,316,000

The Committee continues funding the operations of the entire U.S. Capitol Police Force within joint items under the heading "Capitol Police Board."

CAPITOL POLICE

SALARIES

Appropriations, 2001	\$99,140,000
Budget estimate, 2002	111,922,000
Committee recommendation	112,922,000

The Committee recommends an appropriation of \$112,922,000 for the salaries of the U.S. Capitol Police (USCP), of which \$55,296,000 is for the Capitol Police appointed by the Sergeant at Arms of the House and \$57,626,000 is for the Capitol Police appointed by the Senate Sergeant at Arms.

The amount provided covers salaries, benefits, and overtime costs. Capitol Police personnel are also eligible for hazardous duty pay, a clothing allowance, and comparability pay similar to locality pay adjustments granted other Federal law enforcement personnel in the Washington, DC, area. Capitol Police personnel on the Senate detail are the only Senate employees eligible for such comparability pay.

The USCP's 2000 review of the 1998 U.S. Capitol Security Review identified an optimum staffing level of 1,694 FTEs. Therefore, the Committee is disappointed the USCP will not hire up to the staffing level recommended in fiscal year 2001. Total staffing is expected to remain at 1,402 FTEs in fiscal year 2001. Therefore, the USCP has revised its estimate for hiring in fiscal year 2002 to 79 additional staffing, for a total of 1,481, the number it had originally expected to attain in the current fiscal year. The Committee has reduced the budget request by \$4,000,000 to reflect this revised staffing estimate.

The Committee has recommended \$5,000,000 for comparability pay, including \$2,350,000 for House salaries and \$2,650,000 for Senate salaries. This increase provides for comparability in the pay scales of the USCP and the U.S. Park Police and Uniformed Secret Service.

GENERAL EXPENSES

Appropriations, 2001	\$6,757,000
Budget estimate, 2002	10,394,000
Committee recommendation	12,394,000

The Committee recommends \$12,394,000 for general expenses of the Capitol Police. Expenses include office supplies and equipment, laundry and dry-cleaning, communications, motor vehicles, uniforms and equipment, investigations, training, and miscellaneous items.

Of the amount provided, \$3,637,000, the increase over last year's level is attributable to additional training requirements, including increasing officer training by 40 hours per year, and recapitalizing and augmenting training equipment and supplies; expenses related to the recruitment of new officers; and improving the USCP admin-

istrative infrastructure to improve accountability of funds and for other purposes.

The Committee has included \$2,000,000 for the accelerated upgrade and installation of a new networked In-Place Monitoring System.

The Committee fully supports the USCP's plans to replace the remaining foreign-manufactured motorcycles with 24 American-made motorcycles and recommends \$168,000 for this purpose.

The Committee directs that USCP procure a visual alarm management system in fiscal year 2002 to enhance significantly security capabilities not possible with conventional management systems.

Over the years, the perimeter of the Capitol Hill Campus, including the jurisdiction of the Capitol Police, has expanded well beyond the Capitol building, and the Senate and House office buildings. Within this perimeter are multiple police forces—including the Capitol Police, the Library of Congress Police, and the Government Printing Office Police. The importance of consistently applied security policies and practices, efficient management of resources, and fair and equitable treatment of law enforcement personnel suggests the need for an updated evaluation of the feasibility of consolidating all Capitol Hill police forces. Therefore, the Committee directs that GAO, in consultation with all stakeholders, conduct a study of the feasibility of consolidating all Capitol Hill police forces into a single entity. This study should assess the management, structural, human capital, and operational aspects of merging the uniformed services and administrative components of the Capitol Hill police forces, including the responsibilities that are unique to each of the agencies (e.g., the Librarian of Congress' responsibility for collection security). The study also should identify issues to be addressed prior to merging the Capitol Hill police forces to ensure an orderly transition, including the protection of the rights of affected staff. It should also include recommendations concerning the cost effectiveness, efficiency, and desirability of a Capitol Hill police force consolidation. GAO should report to the Committee and the Capitol Police Board not later than 6 months after enactment of this Act.

ADMINISTRATIVE PROVISIONS

The Committee has included the routine provision (Sec. 101) which allows for funds to be transferred between the "Salaries" and "General expenses" accounts.

CAPITOL GUIDE AND SPECIAL SERVICES OFFICE

Appropriations, 2001	\$2,371,000
Budget estimate, 2002	2,512,000
Committee recommendation	2,512,000

The Committee recommends an appropriation of \$2,512,000 for the Capitol Guide and Special Services Office. This provides for 55 FTEs, the same as the current level.

STATEMENTS OF APPROPRIATIONS

Appropriations, 2001	\$30,000
Budget estimate, 2002	30,000
Committee recommendation	30,000

The Committee recommends \$30,000 for the preparation of detailed statements of appropriations as required by law. This account is used as payment for the preparation of the volumes, "Statements on Appropriations," for the first session of the 107th Congress. These volumes show annual appropriations made, indefinite appropriations, and contracts authorized, along with a chronological history of regular appropriations bills. The volumes are compiled jointly by the Senate and House Committees on Appropriations pursuant to a directive in the Legislative Appropriations Act of June 7, 1924.

The Committee recommends an appropriation of \$2,059,000 for the salaries and expenses of the Office of Compliance, as authorized by section 305 of Public Law 104-1, the Congressional Accountability Act of 1996. This amount is an increase of \$243,000 over fiscal year 2001, will accommodate a 3.7 percent cost-of-living increase and funding for 15 FTEs.

The Committee recommends an appropriation of \$30,680,000 for the Congressional Budget Office. The amount recommended represents an increase of \$2,250,000 or 7.9 percent above the fiscal year 2001 level. Most of the increase is attributable to non-discretionary pay and benefit increases. In addition, the amount would provide for 4 additional staff, for a total of 232 FTEs.

ADMINISTRATIVE PROVISIONS

SEC. 102. This provision authorizes CBO to establish an employee training program similar to that authorized for the Executive Branch.

SEC. 103. This provision authorizes CBO to sell older equipment and apply the proceeds to the purchase of new equipment used for the same purpose.

SEC. 104. This program authorizes the Director of CBO to establish a Student Loan Repayment Program, as the executive branch

has had the authority for since 1990, within available funds. The purpose of this program is to improve recruitment and retention of highly qualified personnel with expertise necessary to perform CBO's unique mission. The provision authorizes CBO to repay student loans with the same limited caps as required by the statute governing the executive branch.

ARCHITECT OF THE CAPITOL

The Committee has recommended a funding level of \$155,903,000 for all activities of the Architect of the Capitol pertaining to direct support of the Congress. Excluded are House items which are traditionally left for consideration by that body. Additional funds are recommended in title II of the bill for the Architect's activities relative to the structural and mechanical care of the Library's buildings and grounds, and the Botanic Garden.

The following table shows the request and the Committee recommendation:

Appropriation	Fiscal year		
	2001 appropriation	2002 request	2002 recommendation

CAPITOL BUILDINGS

SALARIES AND EXPENSES

Appropriations, 2001 ¹	\$44,624,000
Budget estimate, 2002	111,835,000
Committee recommendation	55,000,000

¹ Reflects \$98,000 rescission and \$1,033,000 supplemental per Public Law 106-554.

The Committee recommends an appropriation of \$55,000,000 for salaries and expenses for the Architect of the Capitol, the Assistant Architect of the Capitol, other personal services, surveys and studies in connection with activities under the care of the Architect, and necessary expenses for the maintenance, care, and operation of the Capitol electrical substations of the House and Senate office buildings. Of this, \$5,000,000 is available until expended. The

amount provided includes \$45,000,000 for the operating budget and \$10,000,000 for the capital budget.

The Committee has not approved the AOC's full request for additional personnel funds, because funding for staffing levels provided in fiscal year 2001 were not achieved. In fact, over \$7,000,000 budgeted for staff has been reallocated by the Architect—without the Committee's approval—into non-personnel activities. Therefore, the Committee has reduced the personal services budget in this account by \$4,136,000 below the request. However, the amount provided represents an increase of \$1,759,000 or 7 percent over the current year estimate and the Committee expects these funds will be used to hire key personnel in such areas as financial management and worker safety. No funds are to be reprogrammed from worker safety-related activities.

The Committee has not funded the full request for Phase II of the Capitol Dome rehabilitation project at the Architect's request, as the Architect has indicated this project should be postponed. Instead, funding for painting and related work needed in the interim, totaling \$1,605,000, is recommended.

The Committee has included \$8,395,000 for capital projects other than the painting of the Capitol Dome. None of these funds are to be expended prior to the submission of a detailed justification and prioritization to the Senate and House Committees on Appropriations and prior approval of the Committees. The Committee expects the highest priority will be placed on safety and security needs.

The Committee directs the Architect to submit on a quarterly basis the status of all ongoing capital projects including funds allocated, unobligated balances, original planned completion date, and current anticipated completion date.

Any improvements or changes in information technology on the Senate side of the Capitol must be coordinated with the Committee on Rules and Administration and the Senate Sergeant at Arms.

Management issues.—The Committee is very troubled by persistent management shortcomings within the Architect of the Capitol's operation, including an unacceptably high level of worker injuries; inadequate financial management; the lack of strategic planning; personnel problems, including some unqualified individuals in key positions; and project management.

The Committee is very troubled that the Architect of the Capitol does not engage in long-term strategic planning. For example, the Architect of the Capitol has taken a reactive approach to the Congressional Accountability Act of 1995, waiting for citations from the Office of Compliance rather than developing a strategy for compliance. The Committee directs the Architect to submit a report on its long-range plan for complying with the Congressional Accountability Act, including a timeline.

Over the past several years, Congress has passed legislation such as the Government Performance and Results Act and the Chief Financial Officers Act, with the intent of improving the overall management and efficiency of the Federal Government. Some legislative agencies, while not required to, have elected to implement these laws because they view them as prudent management practices. The Committee strongly recommends that the AOC follow these management "best practices."

In addition, the Architect does not have a long-term capital plan, despite its reference to its capital budget as a 5-year plan. In reality, the projects and associated funding change dramatically from year-to-year leaving the Congress without a clear vision of its long-range capital requirements and priorities. The Architect is directed to contract within 30 days of enactment of this Act for necessary expertise to develop a 5-year master plan for the Capitol complex.

Worker safety.—With respect to worker safety, the AOC's injury rate is the highest in the Federal Government—17.9 injuries per 100 workers—355 cases last year—compared to the Federal Government rate of 3.95. The Committee expects that life safety issues will be a top priority, and directs the Architect to submit a quarterly progress report and to conduct root cause analysis that will enable a better understanding of the nature and cause of such injuries. The Committee expects the AOC to strive to attain a pristine worker safety record befitting the U.S. Congress.

Chief Financial Officer.—The Architect of the Capitol urgently needs a Chief Financial Officer (CFO) to begin essential financial management reforms. Recent efforts by the Architect to appoint a CFO have been unsuccessful. The Committee directs the Architect to consult with the Comptroller General in filling this critical position. The Committee expects the Comptroller General, or his designee to participate in the announcement, interview, and selection process of a qualified individual for this position. Bill language has been included requiring that the Architect appoint a CFO not later than 90 days after enactment of this Act. In the meantime, the Architect is to consult with the Comptroller General regarding alternative ways of meeting urgent financial management needs including the possible detail of a GAO employee to the AOC until a CFO can be appointed.

Recycling Program.—The Committee is troubled that the Senate Waste Recycling Program has not improved in the last year and prior-year report language on this program seemingly has been ignored. The Architect of the Capitol is directed to participate in a program being jointly developed and implemented by the Secretary of the Senate and the Senate Sergeant at Arms and Doorkeeper and approved by the Senate Committee on Rules and Administration to educate staff on how to properly recycle. Further, the Architect is directed to contract for a best-practices review of its recycling program and recommendations for improvement, and to submit quarterly reports to the Committee on the status of the recycling program.

Parking.—The Committee is concerned that the Architect of the Capitol has failed to consider adequately the implications of its capital projects on parking within the Capitol complex. In order for the Sergeant at Arms to plan for alternative parking needed due to the displacement of parking caused by capital projects, the Sergeant at Arms needs timely and accurate advance notice. The Committee directs the Architect of the Capitol to make this a priority and to notify the Senate Sergeant at Arms of all construction projects that may now or in the next 5 years have an impact on Senate parking services. The Architect of the Capitol is to work in cooperation with the Sergeant at Arms to develop a strategic plan which ensures that parking needs are met for the Senate.

Biobased products.—The Committee encourages the Architect of the Capitol and the Sergeant at Arms to use environmentally-friendly biobased products wherever practical in the maintenance, cleaning and new construction of the Capitol and Senate facilities. Biobased products, made from soybeans, corn, wheat, forestry and other natural materials, offer numerous environmentally friendly ways to clean, lubricate, construct and provide energy for Federal facilities. They can help reduce air and water pollution, curtail waste disposal problems and reduce potentially toxic substances in buildings and the environment at large. These products can also offer improved performance and potential cost savings.

CAPITOL GROUNDS

Appropriations, 2001 ¹	\$5,350,000
Budget estimate, 2002	7,754,000
Committee recommendation	6,000,000

¹ Reflects \$12,000 rescission per Public Law 106–554.

The Committee recommends an appropriation of \$6,000,000 for Capitol Grounds for the care and improvements of the grounds surrounding the Capitol, the Senate and House office buildings, and the Capitol Power Plant. The recommendation includes \$5,300,000 in operating funds and \$700,000 for the capital budget.

Again, the Committee has reduced the budget for personal services below the request level, by \$500,000, owing to the Architect's failure to utilize fully its personnel budget for the current fiscal year.

Pursuant to the normal protocol, the Committee has not included funding for House items.

The Committee directs that no new Senate projects or activities be undertaken with funds provided in this or previous appropriations acts without the prior written approval of the Committee, and that the Committee be notified in writing in advance of any new Senate projects or activities to be undertaken with the funds provided for annual maintenance, repairs, alterations, or miscellaneous improvements.

SENATE OFFICE BUILDINGS

Appropriations, 2001 ¹	\$63,833,000
Budget estimate, 2002	53,551,000
Committee recommendation	47,500,000

¹ Reflects \$141,000 rescission per Public Law 106–554.

The Committee recommends an appropriation of \$47,500,000 for maintenance of the Senate office buildings. The decrease below the enacted level is attributable to the completion of the Dirksen building renovation, for which approximately \$19,000,000 was provided in fiscal year 2001. Of the total, \$3,400,000 is available until expended.

The appropriation includes \$42,000,000 for the operating budget and \$5,500,000 for the capital budget.

The Committee has again reduced the request for personal services, by \$3,637,000 in this account, owing to the fact that over \$2,700,000 in funds provided last year for this account were reallocated out of personnel funds into other activities. The amount rec-

ommended does, however, represent an increase of \$1,645,000 over the current budget. This increase is to be used to fill critical positions in such areas as life safety.

The Committee has not recommended a specific allocation of the \$5,500,000 capital budget. Instead, the Architect of the Capitol is to submit a detailed justification and prioritization for the allocation of funds. No funds are to be spent prior to the approval of the Committee.

All information technology related projects must first be coordinated with the Senate Sergeant at Arms.

The Committee is pleased with the Architect of the Capitol's management of the Dirksen renovation project and expects this model to be followed in other capital projects wherever possible.

CAPITOL POWER PLANT

Appropriations, 2001 ¹	\$39,328,000
Budget estimate, 2002 ²	50,399,000
Committee recommendation	47,403,000

¹ Reflects \$87,000 rescission per Public Law 106-554.

² Includes a pending budget amendment of \$3,300,000 for the West Refrigeration Plant expansion (+ \$3,550,000) and coal hauling (− \$250,000).

The Committee recommends an appropriation of \$47,403,000 for the operations of the Capitol Power Plant. This is supplemented by \$4,400,000 in reimbursements. Of the amount provided, \$3,300,000 shall remain available until expended. The recommendation includes \$42,578,000 for the operating budget and \$4,825,000 for the capital budget.

The amount recommended for the operating budget reflects a reduction of \$2,372,000 from the water and sewer payment included in the budget request for a 1990 arrearage which will be paid in fiscal year 2001 through reprogrammings. The amount also reflects a reduction of \$624,000 in personal services below the request, owing to the fact that \$370,000 in funds provided last year for this account were reallocated out of personnel funds into other activities.

Approximately 80 percent of the recommended amount is for the purchase of electricity from the local private utility, payment to the government of the District of Columbia for the provision of water and sewer services, and the procurement of boiler fuel, as displayed in the following table.

Fiscal year 2002 estimated utility costs

Purchase of electrical energy	\$23,350,000
Purchase of natural gas	7,127,000
Purchase of steam	300,000
Purchase of chilled water	380,000
Purchase of coal	2,431,000
Purchase of oil	1,433,000
Water and sewer payments	4,249,000
Total	39,270,000

The balance of this appropriation supports a work force to operate and maintain the Power Plant. The Power Plant provides heat, light, power, and air-conditioning for the Capitol, Senate and House office buildings, and the Library of Congress buildings; heat, light, and power for the Botanic Garden and the Senate and House

Garages; light for the Capitol Grounds' street, park, and floodlighting system; steam heat for the Government Printing Office and Washington City Post Office, also known as Postal Square; and steam heat and air-conditioning for the Union Station complex, Folger Shakespeare Library, the Thurgood Marshall Federal Judiciary Building, and the U.S. Supreme Court Building on a reimbursable basis.

No funds within the capital budget are to be spent prior to approval by the House and Senate Committees on Appropriations of a detailed justification and prioritization for each project.

The Committee recommends an appropriation of \$81,139,000 for the Congressional Research Service. The amount recommended is an increase of \$7,709,000 over the fiscal year 2001 level. Approximately \$4,220,000 of this increase is needed for mandatory cost-of-living and other pay and inflation-related increases. The balance is needed to acquire the technical staff, skills and tools necessary to address complex information and technology policy issues, to conduct collaborative research, and to apply technology to work and communication processes.

The Committee recommends an appropriation of \$81,000,000.

The amount recommended is \$9,900,000 below the original request as these funds were provided in the pending fiscal year 2001 supplemental to fund the shortfall from prior years.

The following table compares the component categories within this account for fiscal year 2002. The Committee has not recommended separate amounts for each activity in order to give the GPO the flexibility to meet changing requirements.

SALARIES AND EXPENSES

Appropriations, 2001 ¹	\$3,321,000
Budget estimate, 2002	6,129,000
Committee recommendation	5,829,000

¹ Reflects \$7,000 rescission per Public Law 106–554.

The Committee recommends \$5,829,000 for salaries and expenses of the Botanic Garden. The increase of \$2,508,000 is attributable primarily to the anticipated reopening of the Conservatory in November 2001. The recommendation includes \$4,132,000 for the operating budget and \$1,697,000 for the capital budget. The decrease of \$300,000 below the request is attributable to the fact that funds provided for personal services in fiscal year 2001 were not fully utilized. To date, over \$800,000 has been reallocated out of personal services this year.

Funds are provided to the Botanic Garden to collect, cultivate, and grow the various flora of the United States and other countries for exhibition and display to the public and for study material for students, scientists, and garden clubs.

The Committee directs that no funds for capital projects be allocated prior to the submission of a detailed justification and prioritization to the House and Senate Committees on Appropriations and their prior approval.

The Committee encourages the Botanic Garden to work with and form partnerships with other garden institutions to gain valuable assistance and expertise, including the Chicago Botanic Garden on school and community gardening programs.

Net, salaries and expenses	290,925,000

¹ Reflects \$842,244 rescission per Public Law 106–554.

The Committee recommends an appropriation of \$297,775,000 for salaries and expenses of the Library of Congress and approves authority to spend receipts of \$6,850,000 in fiscal year 2002. This is \$500,000 above the request.

The amount recommended is a decrease of \$84,221,000 below the enacted level, owing to the one-time appropriation of \$99,780,000 in fiscal year 2001 for the National Digital Information Infrastructure and Preservation Program and the fact that the Center for Russian Leadership Development is funded separately in this bill. The amount will provide for mandatory pay and price level increases of \$12,566,199.

American Folk Life Center.—The Committee recommends the budget request of \$2,013,975 for the American Folk Life Center, including an additional 9 FTEs. The increase will enable the Center to preserve and make accessible to the public the priceless sound recordings in their collection. In addition, the amount provided includes \$250,000 for the Veterans Oral History Project which will involve collecting interviews and documentary material, such as letters, maps and photographs, from American veterans of World War I, World War II, Korea, Vietnam and the Gulf War.

Storage infrastructure upgrades.—The Committee encourages the Library within available funds to acquire storage infrastructure upgrades so that the Library's information systems and applications meet all of the established Critical Infrastructure Protection requirements established in Presidential Decision Directive 63 and 67, providing full-time access to this critical information. This infrastructure should have heterogeneous connectivity to all existing systems at the Library of Congress.

Law Library.—The Committee supports not less than the full budget request of \$9,091,712 and 94 FTEs for the Law Library. This is an increase of \$1,443,025 over the current level and includes additional resources to reduce the arrearage. The Committee

expects the Law Library arrearages to be eliminated not later than the end of 2003.

Lincoln Commission.—The amount recommended includes \$500,000 for the Abraham Lincoln Bicentennial Commission (authorized by Public Law 106–173), which will receive administration support services from the Library of Congress.

GAO study.—The General Accounting Office is directed to conduct a study to evaluate the viability of using profits from the Library's retail sales activities to support other Library activities. The study should include an evaluation of the potential for generating such profits and the policies and procedures for the control of products, licensing agreements, and use of the Library's logo. The Comptroller General will work in consultation with the Librarian of Congress in evaluating options and alternatives and will report to the Committee and the Joint Committee on the Library by March 31, 2002.

¹ Reflects \$72,000 rescission per Public Law 106–554.

The Committee recommends the direct appropriation of \$12,837,000 for the Copyright Office and approves authority to spend receipts of \$27,864,000 in fiscal year 2002, for a total of \$40,701,000. This is an increase of \$2,263,000 over the enacted level. The amount recommended reflects the Library's revised request for the Copyright Office. Further analysis of the Office's total systems requirements is needed before any further acceleration of the Copyright Office's electronic registration, recordation, and deposit system (CORDS) is undertaken. The amount recommended will accommodate all mandatory pay and price level increases, totaling \$1,883,000, and includes \$380,000 to implement business process re-engineering plans for the registration and recordation processes.

BOOKS FOR THE BLIND AND PHYSICALLY HANDICAPPED

SALARIES AND EXPENSES

Appropriations, 2001 ¹	\$48,502,000
Budget estimate, 2002	49,765,000
Committee recommendation	49,765,000

¹ Reflects \$106,940 rescission per Public Law 106-554.

The Committee recommends an appropriation of \$49,765,000 for salaries and expenses for Books for the Blind and Physically Handicapped. This is an increase of \$1,263,000 over the fiscal year 2001 level needed to accommodate mandatory pay and price level increases.

This appropriation supports a National Reading Program for blind and physically handicapped citizens. Books and magazines in braille and various recorded formats are produced by the National Library Services for the Blind and Physically Handicapped for distribution through a network of State and locally supported libraries. At present, 57 regional libraries in 49 States, the District of Columbia, the Virgin Islands, Puerto Rico, and Guam house and circulate books and magazines to eligible readers. Eighty sub-regional libraries in 17 States assist at the local public library level; 53 libraries and 4 cooperating agencies distribute sound reproducers. Two multistate centers, under contract to the National Library Service, store and distribute books and other materials in their geographical regions. The Librarian has estimated a readership of 759,000 individuals in fiscal year 2001.

FURNITURE AND FURNISHINGS

Appropriations, 2001 ¹	\$4,881,000
Budget estimate, 2002	8,599,000
Committee recommendation	8,532,000

¹ Reflects \$10,762 rescission per Public Law 106-554.

The Committee recommends an appropriation of \$8,532,000 for Library furniture and furnishings in 2002. This is an increase of \$3,651,000 over the current budget. The amount provided includes funding for the purchase of new equipment, estimated at \$5,824,000. It does not include the request of \$67,000 for new workstations for the CORDS project, as this project has been put on hold. The increase over the enacted level is attributable primarily to a one-time increase of \$3,205,000 for film preservation equipment.

The Committee expects that the "Furniture and Furnishings" account will be incorporated into the Library's other appropriation accounts beginning in fiscal year 2003 to reflect more fully program costs.

ADMINISTRATIVE PROVISIONS

The Committee has included the routine administrative provisions, sections 201 to 206.

The Committee has added a new subsection (c) to section 206, which enables FEDLINK and the Federal Research Division to borrow from Library appropriations for initial capitalization of the

new revolving fund established for these two former Economy Act programs.

The Committee has added a provision, section 207, that makes a technical correction to the Library of Congress Fiscal Operations Improvement Act of 2000 (Public Law 106–481). The current phrasing is “audio and video duplication and delivery services,” which unintentionally limits the duplication service to video materials, i.e., not film or other moving image formats from the Library’s audiovisual collections.

Finally, section 208 amends the Library of Congress Fiscal Operations Improvement Act of 2000 (Public Law 106–481) to add special events and programs activities to the revolving fund established in the Act, which brings these activities under the Library’s revolving fund accounting and reporting requirements.

ARCHITECT OF THE CAPITOL

CAPITOL VISITOR CENTER

Appropriations, 2001	
Budget estimate, 2002	
Committee recommendation	\$1,000,000

The Committee has included \$1,000,000 for continued planning, engineering, design and construction activities for the Capitol Visitor Center.

CONGRESSIONAL CEMETERY

Appropriations, 2001	
Budget estimate, 2002	
Committee recommendation	\$2,500,000

The Committee recommends a one-time appropriation of \$2,500,000 for the Congressional Cemetery. The Committee expects these funds will be augmented by privately-contributed funds.

This appropriation is to be allocated only upon submission to and approval by the Committee of a spending plan, including plans for self-sufficiency beyond this appropriation. Upkeep of the Congressional Cemetery is not a responsibility specifically authorized for the Architect of the Capitol as this is a privately-owned cemetery. However, the Committee is concerned with the state of disrepair of this 33-acre historic site where a number of Members of Congress are buried along with privates and generals of the Revolutionary War, the War of 1812, Mexican War, and Union and Confederate soldiers, as well as craftsmen and architects of the Capitol, Indian chiefs, and foreign diplomats.

The Committee notes that \$1,000,000 was provided in fiscal year 1999 for the Congressional Cemetery, made available on a matching basis to create an endowment for upkeep of the Cemetery under Public Law 105–275.

LIBRARY BUILDINGS AND GROUNDS

STRUCTURAL AND MECHANICAL CARE

Appropriations, 2001 ¹	\$15,935,000
Budget estimate, 2002	21,402,000
Committee recommendation	18,753,000

¹ Reflects \$35,000 rescission per Public Law 106-554.

The Committee recommends an appropriation of \$18,753,000 for the care and maintenance of the Library buildings and grounds by the Architect of the Capitol, of which \$6,878,000 shall remain available until expended. The recommendation includes \$10,553,000 for the operating budget and \$8,200,000 for the capital budget, including \$5,000,000 for the Audio-Visual Conservation Center.

The personal services budget has been reduced by \$744,000 below the request owing to the fact that funds provided for personal services were not fully utilized in fiscal year 2001. To date over \$400,000 has been reallocated from personal services.

The Committee directs that no funds for capital projects be allocated prior to the submission of a detailed justification and prioritization to the House and Senate Committees on Appropriations and their prior approval.

Committee recommendation	28,728,000

¹ Reflects \$61,000 rescission per Public Law 106-554.

The Committee recommends an appropriation of \$28,728,000, an increase of \$835,000 above the enacted level. This provides for mandatory pay and price level increases.

This appropriation provides for salaries and expenses associated with the distribution of Government documents to depository and international exchange libraries, the cataloging and indexing of Government publications, and the distribution of publications authorized by law at the request of Members of Congress and other Government agencies.

REVOLVING FUND

The Committee bill continues the limitations on reception and representation expenses and costs of attendance at meetings. Funds for replacement of the air-conditioning system and lighting improvements were included in the pending fiscal year 2001 supplemental.

ADMINISTRATIVE PROVISION

The Committee has included a provision extending for an additional 3 years GPO's retirement/separation incentive authority.

GPO may need to use such authority in view of the ongoing inability of the document sales program to recover its expenses.

GENERAL ACCOUNTING OFFICE

SALARIES AND EXPENSES

Appropriations, 2001 ¹	\$384,020,000
Budget estimate, 2002	427,794,000
Committee recommendation	419,843,000

¹ Reflects \$846,707 rescission per Public Law 106-554.

The Committee recommends funding of \$419,843,000 for salaries and expenses of the General Accounting Office. Additionally, \$2,501,000 is authorized in offsetting collections derived from rent receipts and reimbursements for conducting financial audits of Government corporations, for a total of \$422,344,000, which will support an FTE level of 3,275 FTEs. The amount recommended, together with collections, represents an increase of \$35,324,000 or 9 percent over the current level. This will cover all mandatory pay and benefit increases, price level increases, and additional staff for work in such critical areas as government computer security.

The Committee has included \$5,200,000 for GAO to implement the Truth in Regulating Act (Public Law 106-312). Under this pilot program, at the request of committee chairmen or ranking members GAO is to evaluate proposed or final rules that may have an annual effect on the economy of \$100,000,000 or more, or adversely affect the economy in a material way.

The Committee notes that GAO has requested funding to reach its ceiling of 3,275 FTEs, which has not been achieved in the past 2 years. The Committee is concerned, however, that GAO has not conducted a full assessment of its human capital needs to meet its mission and fulfill its strategic plan. Therefore, prior to hiring up to the full level of 3,275 FTEs, the Committee expects GAO to provide it with an analytical human capital assessment which recommends an optimal staffing level for fiscal year 2002 and beyond, including full consideration of activities which appropriately should be contracted out.

The Committee has included an increase in representation expenses to \$12,000.

PAYMENT TO THE RUSSIAN LEADERSHIP DEVELOPMENT CENTER TRUST FUND

Appropriations, 2001 ¹	
Budget estimate, 2002	\$10,000,000
Committee recommendation	10,000,000

¹ \$9,978,000 was included in the budget of the Library of Congress in fiscal year 2001.

The Committee recommends \$10,000,000 as a payment to the Russian Leadership Development Center Trust Fund for the Center for Russian Leadership Development. The Center was established on December 21, 2000 (Public Law 106-554) as an individual legislative branch agency. The mission of the Center is to enable emerging political leaders of Russia at all levels of government to gain significant, first-hand exposure to the American free market economic system and the operation of American democratic institu-

tions through visits to comparable governments and communities in the United States.

TITLE III—GENERAL PROVISIONS

In addition to several routine general provisions carried annually in the bill (secs. 301–308), the Committee proposes three additional general provisions (secs. 309–311), as follows:

Section 301 bans the use of appropriated funds for service and maintenance of private vehicles, except under such regulations as may be promulgated by the House Oversight Committee and the Senate Rules and Administration Committee, respectively.

Section 302 limits the availability for obligation of appropriation to the fiscal year for which it is expressly provided in the bill accompanying this report.

Section 303 provides that any pay rate and title designation for a staff position created in this Act, and not specifically established by the Legislative Pay Act of 1929, is to be made permanent law by this Act. Further, any pay rate and title change for a position provided for in the 1929 Act is to be made permanent law by this act and any changes in the official expenses of Members, officers, and committees, and in the clerk hire of the House and Senate are to be made permanent law by this Act.

Section 304 bans the use of funds for contracts unless such contracts are matters of public record and are available for public inspection.

Section 305 provides that, to the greatest extent practicable, products purchased with funds in this Act should be American-made.

Section 306 appropriates such sums as may be necessary for the payment of settlements and awards pursuant to Public Law 104–1.

Section 307 authorizes legislative branch entities participating in the Legislative Branch Financial Managers Council [LBFMC] to finance the costs of the LBFMC.

Section 308 extends for 1 year the availability of funds for the Senate art collection.

Section 309 amends 5 U.S.C. 5596(a) to include the Architect of the Capitol and the U.S. Botanic Garden. This section provides for back pay due to unjustified personnel actions.

Section 310 has been included requiring the Architect of the Capitol to develop and maintain an accounting and financial management system which, among other things, complies with applicable federal accounting principles, standards, and requirements, and internal control standards. This section will allow the Architect to provide information that is complete, reliable, consistent, timely and prepared on a uniform basis. These requirements are consistent with those applicable to the Capitol Police.

Section 311 provides flexibility for the Architect of the Capitol in the titles and pay levels of up to 12 senior management positions, not including the Architect or Assistant Architect. Presently, the

maximum amount that the Architect can pay senior staff is not comparable to the pay available to those personnel from other sources with which they compete. With this flexibility, the Committee expects the agency will be able to hire expeditiously a chief financial officer and ensure that other key management positions are filled by the most qualified and capable individuals. The Committee expects this will bring about significant improvement to the management and operation of this Agency.

COMPLIANCE WITH PARAGRAPH 7, RULE XVI, OF THE
STANDING RULES OF THE SENATE

Paragraph 7 of rule XVI requires that Committee reports on general appropriations bills identify, with particularity, each Committee amendment to the House bill “which proposes an item of appropriation which is not made to carry out the provisions of an existing law, a treaty stipulation, or an act or resolution previously passed by the Senate during that session.”

The Committee has recommended funding under the Architect of the Capitol’s budget for the Congressional Cemetery, which is not authorized.

COMPLIANCE WITH PARAGRAPH 7(C), RULE XXVI OF THE
STANDING RULES OF THE SENATE

Pursuant to paragraph 7(c) of rule XXVI, the Committee ordered reported, en bloc, S. 1171, an original fiscal year 2002 Energy and Water Development appropriations bill, S. 1172, an original fiscal year 2002 Legislative Branch appropriations bill, and an original fiscal year 2002 Transportation and related agencies appropriations bill, each subject to amendment and each subject to its budget allocations, by a recorded vote of 29–0, a quorum being present. Paragraph 12 of rule XXVI requires that Committee reports on a bill or joint resolution repealing or amending any statute or part of any statute include “(a) the text of the statute or part thereof which is proposed to be repealed; and (b) a comparative print of that part of the bill or joint resolution making the amendment and of the statute or part thereof proposed to be amended, showing by stricken-through type and italics, parallel columns, or other appropriate typographical devices the omissions and insertions which would be made by the bill or joint resolution if enacted in the form recommended by the committee.”

In compliance with this rule, the following changes in existing law proposed to be made by the bill are shown as follows: existing law to be omitted is enclosed in black brackets; new matter is printed in italic; and existing law in which no change is proposed is shown in roman.
