CLERK'S NOTE

This committee print provides a compilation of the enacted text and applicable explanatory material for the Further Consolidated Appropriations Act, 2020 (H.R. 1865, P.L. 116–94).

This Act consists of eight divisions related to Appropriations matters (divisions A through H). The Act also includes eight additional divisions unrelated to appropriations matters (divisions I through P). This compilation includes only the divisions related to appropriations matters. It also includes the front section of the Act, which contains provisions applicable to the entire Act.

Divisions A through H are the products of negotiations between the House and Senate Appropriations Committees on final fiscal year 2020 appropriations for all 12 annual appropriations bills. For purposes of final passage, the 12 appropriations bills were enacted using two vehicles: H.R. 1158 and H.R. 1865.

The legislative text resulting from these negotiations was submitted by Chairwoman Nita Lowey of the House Committee on Appropriations as a House amendment to the Senate amendment to an unrelated bill pending in the House, H.R. 1865. The House agreed to the measure on December 17, 2019, and the Senate agreed to the measure on December 19, 2019.¹ The President signed the legislation on December 20, 2019 and it became Public Law 116–94.

Because an “amendments-between-the-Houses” process was used instead of a conference committee, there is no conference report and no “joint Explanatory Statement of the managers” for H.R. 1865. An Explanatory Statement relating to the House amendment to H.R. 1865 was filed by Chairwoman Lowey in the Congressional Record on December 17, 2019.² Section 4 of the Act provides that this Explanatory Statement “shall have the same effect with respect to the allocation of funds and implementation of divisions A through H of this Act as if it were a joint explanatory statement of a committee of conference.”

For the convenience of users, the legislative text of each appropriations division is paired with the applicable section of the Explanatory Statement.

¹ The House agreed to the amendment by a vote of 297–120 (Roll Call No. 689). The Senate agreed to the amendment by a vote of 71–23 (Roll Call Vote No. 415).

² The Explanatory Statement appears on pages H11061–H11484 in Book III of the December 17, 2019 Congressional Record.

TITLE I

DEPARTMENT OF LABOR

EMPLOYMENT AND TRAINING ADMINISTRATION (ETA)

TRAINING AND EMPLOYMENT SERVICES

Grants to States.—The agreement is consistent with the Workforce Innovation and Opportunity Act (WIOA) authorization regarding the amount of WIOA State grant funding that may be reserved by Governors.

Adult Employment and Training.—WIOA State grant funding continues to serve critical functions, including to assist States that continue to experience high unemployment.

Youth Training.—The Department is directed to evaluate incorporating resilience training and trauma-informed practices into WIOA youth job training programs and shall consult with organizations with nationally recognized expertise in such practices. The Department is directed to provide a report to the Committees within six months of enactment of this Act describing the findings of the evaluation and an assessment of how WIOA youth job training programs could adopt such practices and measure outcomes.

Dislocated Worker National Reserve

Career Pathways for Youth Grants.—The bill provides \$10,000,000 to utilize the demonstration grant authority under the dislocated worker national reserve for grants to support national out-of-school time organizations that serve youth and teens and place an emphasis on age-appropriate workforce readiness programming to expand job training and workforce pathways for youth and disconnected youth, including soft skill development, career exploration, job readiness and certification, summer jobs, year-round job opportunities, and apprenticeships. Funding will also support partnerships between workforce investment boards and youth serving organizations.

Strengthening Community College Training Grants.—The agreement provides \$40,000,000 for the Strengthening Community College Training Grant program. The Department is directed to follow all requirements and directives in House Report 116–62 related to this program, except that the Secretary shall make individual grants to community colleges of at least \$1,000,000, unless grants are awarded in consortia to community colleges and other eligible institutions as defined in section 101(a) of the Higher Education Act and do not exceed \$5,000,000 per grant.

Workforce Opportunity for Rural Communities.—The agreement provides \$30,000,000 to continue this program in the Appalachian and Delta regions. The Department is directed to ensure broad geographic distribution of funds within these regions and awards should not exceed \$1,500,000 per award.

Transition to WIOA.—The agreement requests additional information regarding use of the Secretary's 10 percent reservation of funds for technical assistance to transition to WIOA under the dislocated worker assistance national reserve in the fiscal year 2021 Congressional Justification.

Apprenticeship Grant Program

The agreement provides \$175,000,000 to support registered apprenticeships and includes new bill language referencing WIOA, ensuring that funds are only used to support registered apprenticeships, and that makes funds available starting July 1, 2020 to encourage better management and oversight.

The agreement notes serious concerns regarding the Department's misuse of registered apprenticeship funds and the Department's communication of this misuse to the Committees, including testimony before the Committees.

The agreement notes that funding under this program should be prioritized to support State, regional, and local apprenticeship efforts, as well as efforts by intermediaries to expand registered apprenticeships into new industries and for underserved or underrepresented populations.

State expansion grants have been used to positive effect in States with high unemployment. The agreement directs the Secretary to prioritize funding for national, regional, and local intermediaries. The agreement directs the Secretary to continue funding for business and labor industry partner intermediaries and ensure that labor intermediaries are given opportunities to apply for competitive grants, cooperative agreements, contracts, and other funding opportunities.

The Department is encouraged to support funding industry or sector partnerships as a means of expanding registered apprenticeships in in-demand industries. The Department should collaborate with the Department of Defense to develop registered apprenticeships that address the critical national defense need for new submarine construction. The Department is encouraged to support programs in the health care, maritime, construction, and oil and gas industries. The agreement notes concerns about shortages nationwide of drinking water and wastewater management professionals and encourages the Department to address the shortage of water system management professionals.

The agreement directs the Department to provide quarterly briefings on all spending activities under this program to the Committees, and to comply with directives and statements in House Report 116–62.

JOB CORPS

Job Corps.—In addition to the directives included in House Report 116–62, the Department is directed to provide 30 days notification to the Committees in advance of any action to close or deactivate a Job Corps Center (Center), as well as in advance of any action to establish a pilot program or demonstration project at a Center. The Department is further directed to minimize the amount of time a Center is inactive prior to commencement of a pilot program or demonstration project and to ensure training op-

portunities and slots do not decline as a result of such pilot or demonstration. Not later than 120 days after enactment of this Act, the Department shall provide the Committees a report on the performance of all pilot programs and demonstration projects, including a detailed description of the performance metrics used to evaluate the projects, and an analysis of the performance of pilots and projects relative to other Centers. The Department is expected to continue to comply with the directives under the heading Job Corps in Senate Report 115–289.

Construction and Renovation.—The Department is encouraged to take into consideration critical municipal infrastructure deficiencies when identifying construction and renovation projects.

STATE UNEMPLOYMENT INSURANCE AND EMPLOYMENT SERVICE OPERATIONS

Unemployment Insurance Compensation

State Unemployment System Needs.—The agreement notes that State unemployment insurance (UI) systems are critical for ensuring claimants receive timely processing of benefits. The Department is encouraged to provide above-base State UI funds through supplemental funding opportunities to States to the extent that unobligated funds, not otherwise needed for workload, are available at the end of the fiscal year. Such funds should support improving operations and modernizing State UI systems to help ensure that workers and their families receive fast and high-quality assistance in their time of need.

UI Integrity Center of Excellence.—The agreement provides \$9,000,000 for the continued support of the UI Integrity Center of Excellence (UIICE), including \$6,000,000 for the benefit of States to the entity operating the UIICE.

Employment Service

National Activities.—The agreement provides \$2,500,000 to reduce the processing backlog for the work opportunity tax credit program.

Foreign Labor Certification

The agreement includes an increase of \$6,500,000 for continued implementation of the Northern Mariana Islands U.S. Workforce Act of 2018 (P.L. 115–218). The agreement urges the Department to provide careful oversight and transparency related to the timely processing of visa applications for temporary employment certifications. The agreement directs the Department to provide an update on the upgrades to the foreign labor certification technical system, including the launch of the Foreign Labor Application Gateway, in the fiscal year 2021 Congressional Justification.

One-Stop Career Centers and Labor Market Information

Occupational Licensing.—The Department is directed to provide a briefing within 90 days of enactment of this Act to the Committees on the outcomes and status of the occupational licensing initiative, including the impact on military spouses, dislocated workers,

and transitioning service members and a review of the grants awarded in fiscal years 2016, 2017, and 2018.

EMPLOYEE BENEFITS SECURITY ADMINISTRATION (EBSA)

The agreement directs EBSA to prioritize audit resources to review the Thrift Savings Plan's (TSP) IT operating environment, including the adequacy of controls at contractor sites and TSP's progress in remediating previously identified issues from past EBSA audits.

PENSION BENEFIT GUARANTY CORPORATION

The agreement includes new bill language that extends the period of availability of funding for certain administrative expenses to five years to ensure the agency has sufficient time to manage a large, unanticipated influx of participants or costs.

WAGE AND HOUR DIVISION (WHD)

WHD is encouraged to hire additional investigators and restore WHD's investigative capacity.

In the fiscal year 2021 Congressional Justification, WHD is directed to provide annual and historical information on the Payroll Audit Independent Determination (PAID) program, including administrative expenditures on PAID, amounts recovered through PAID, and the number of businesses participating in PAID.

WHD shall collect data at the beginning of each fiscal year and submit in an electronic format yearly reports to the authorizing and appropriations Committees that shall include the following: (1) the name and address of each employer holding a certificate under 29 U.S.C. 214(c); (2) the starting date and ending date of each certificate for each employer under 29 U.S.C. 214(c); (3) information about the certificate for each employer under 29 U.S.C. 214(c), including if the certificate is an initial certificate or renewal and if the certificate is issued or pending; and (4) the current number of workers paid a subminimum wage by the employer holding the certificate under 29 U.S.C. 214(c) at the time of data collection. WHD is further directed to brief the authorizing and appropriations Committees, within 90 days of enactment of this Act, on its administration, monitoring, and enforcement of the subminimum wage program authorized under section 14(c) of the Fair Labor Standards Act.

The Department is directed to provide a report within 120 days of enactment of this Act to the Committees that shall include the data and economic analysis supporting the inclusion of the housing policy for industries requiring a mobile workforce in the 2015 interim final rule leading to its publication and the benefits and costs of such policy on U.S. and guest workers and employers.

OFFICE OF WORKERS' COMPENSATION PROGRAMS (OWCP)

There is continued concern about overreliance on unobligated funds for support of the Special Benefits for Disabled Coal Miners Program. OWCP should not take action that could disrupt the ability of the program to ensure all beneficiaries receive promised ben-

efits. The agency is directed to include in the fiscal year 2021 Congressional Justification: (1) the number of beneficiaries each year since fiscal year 2015 and (2) the total benefit payments and budgetary resources and expenditures within the program each year since fiscal year 2015.

ADMINISTRATIVE EXPENSES, ENERGY EMPLOYEES OCCUPATIONAL ILLNESS COMPENSATION FUND

The Department shall ensure the Advisory Board on Toxic Substances and Worker Health has sufficient funding and staffing to meet its obligations.

OCCUPATIONAL SAFETY AND HEALTH ADMINISTRATION (OSHA)

The agreement directs OSHA to publish Funding Opportunity Notices for fiscal year 2020 funds for the Susan Harwood Training Grant program no later than June 30, 2020. Further, the agreement directs OSHA to provide technical assistance, guidance, and support to fiscal year 2020 applicants in order to reduce the proportion that did not meet eligibility and program requirements included in Funding Opportunity Notices in fiscal year 2019.

The agreement directs OSHA, in consultation with DoD, to develop a webinar for DoD procurement officers on how to use OSHA's website to find OSHA violations and Severe Injury Reports. The webinar shall be developed and provided to DoD within 180 days of enactment of this Act and shall be sent to the Committees. Further, OSHA shall explore options for gathering and entering Employee Identification Numbers from all inspections of worksites and shall consider exemptions for small worksites with few employees.

The agreement continues to provide no less than \$3,500,000 for the Voluntary Protection Program (VPP). In the fiscal year 2021 Congressional Justification, OSHA is directed to include annual expenditures on VPP for each year since fiscal year 2015 as well as planned expenditures in fiscal year 2021.

MINE SAFETY AND HEALTH ADMINISTRATION (MSHA)

The fiscal year 2020 President's budget request proposed to allow greater flexibility by combining the enforcement functions for coal and metal/non-metal into a single enforcement budget activity. This flexibility shall only be exercised to bolster MSHA's ability to enforce the Mine Safety and Health Act and provide greater protections to miners. MSHA's Office of Accountability shall audit and publicly report findings from reviews of crossover mine inspections and monitor corrective actions to ensure MSHA activities adhere to its policies and procedures and meet the requirements of such Act. In addition, the Inspector General shall conduct a comprehensive audit of this consolidation of enforcement programs. Finally, the agency is directed to include in future Congressional Justifications historical and budget year information on enforcement activities and outcomes, distinguishing between coal and metal/non-metal mines. To promote transparency into agency spending on its enforcement activities, MSHA will continue to separately present an-

nual spending on coal and metal/non-metal mines as it has in past Congressional Justifications.

The agreement removes authority, first provided in fiscal year 2017, that allowed State assistance grants to be used by operators for purchase and maintenance of continuous personal dust monitors. No State has elected to use such authority.

MSHA shall fully implement the requirements of section 103 of the Federal Mine Safety and Health Act and make inspections of each underground mine in its entirety at least four times a year and each surface mine in its entirety at least two times a year. MSHA should use existing funds to equip all MSHA mine rescue teams with next generation mine rescue communications equipment. To prepare properly for an emergency, MSHA shall continue to devote sufficient resources toward a competitive grant activity for effective emergency response and recovery training in various types of mine conditions.

BUREAU OF LABOR STATISTICS (BLS)

The agreement includes an increase of \$40,000,000 to rebuild capacity at BLS and to support a headquarters relocation to the Suitland Federal Center.

With the increase, BLS is directed to support the following critical investments:

- Provide an annual supplement to the Current Population Survey to allow for collection of data on contingent and alternative work arrangements every two years and data on other topics related to the labor force in alternate years, including an occasional veterans supplement;
- Restore the production and publication of employment, unemployment, and labor force data under the Local Area Unemployment Statistics program for New England Minor Civil Divisions with populations less than 1,000; and
- Initiate spending on the planning and development of a new National Longitudinal Survey of Youth (NLSY) cohort. BLS shall brief the Committees on the annual costs and a five-year plan for implementing the new NLSY cohort within 90 days of enactment of this Act.

When implementing these investments, BLS shall not reduce or eliminate existing statistical work. Further, BLS shall not reduce the number of full-time equivalent positions beyond the apportioned fiscal year 2019 full-time equivalent ceiling.

Within the increase, the agreement includes \$27,000,000 to relocate BLS headquarters. BLS is strongly urged to consider the needs of its employees throughout this transition and to work with the General Services Administration to address any outstanding safety concerns and office space considerations for the development of sensitive economic indicators.

DEPARTMENTAL MANAGEMENT

Bureau of International Labor Affairs (ILAB).—The agreement includes an increase of \$10,000,000, of which \$7,500,000 is for grants to improve countries' capacity to enforce labor rights agreed to under U.S. trade agreements and trade preference programs.

The remaining \$2,500,000 is provided for additional monitoring and enforcement staff at the Office of Trade and Labor Affairs and additional labor attaches in critical U.S. Embassies to increase field-based and international monitoring and labor compliance facilitation.

ILAB should continue to release its annual Findings on the Worst Forms of Child Labor report, including its assessment ratings on Generalized System of Preference country efforts to implement its commitments to eliminate the worst forms of child labor, no later than it has historically.

Faithful execution of the Foundations for Evidence-based Policy-making Act will enhance the evidence-building capacity of Federal agencies, strengthen privacy protections, improve secure access to data, and provide more and higher quality evidence to policy-makers. The agreement directs the Department to include in the fiscal year 2021 and future Congressional Justifications an update on the implementation of such Act for the current and budget years.

The agreement expects the Department to prioritize the submission of timely, accurate, quality, and complete financial and award information under existing U.S. Treasury reporting obligations in accordance with established management guidance, reporting processes, and data standards established under the requirements of the Digital Accountability and Transparency Act.

The Department should continue to notify the Committees of the planned uses of funds derived from the evaluation authority in section 107 of this Act.

The Department should continue to provide a report not later than 30 days after the conclusion of each quarter detailing the number of full-time equivalent employees and attrition by principal office and appropriations account.

Disabled Veterans.—The agreement provides \$300,000 for the purposes associated with the Disabled Veteran Program in House Report 116–62.

Within that amount, the agreement provides \$8,000,000 to enhance the quality of employment support services for transitioning service members, with a focus on improved outcomes. The agreement includes \$1,500,000 for TAP course curriculum for military spouses, who are currently eligible for the same TAP resources as service members. Such curriculum should include resources and information on related State and Federal license and credential portability.

that funding is available to all States for opioid prevention and surveillance activities.

Firearm Injury and Mortality Prevention Research.—The agreement includes \$12,500,000 to conduct research on firearm injury and mortality prevention. All grantees under this section will be required to fulfill requirements around open data, open code, pre-registration of research projects, and open access to research articles consistent with the National Science Foundation’s open science principles. The Director of CDC is to report to the Committees within 30 days of enactment on implementation schedules and procedures for grant awards, which strive to ensure that such awards support ideologically and politically unbiased research projects.

NATIONAL CANCER INSTITUTE (NCI)

Cancer Moonshot.—The agreement directs NIH to transfer \$195,000,000 from the NIH Innovation Account to NCI to support the Cancer Moonshot Initiative.

Childhood Cancer Data Initiative.—The agreement includes the full budget request for this fiscal year of \$50,000,000 for the Childhood Cancer Data Initiative, which will facilitate a connected data infrastructure and integrate multiple data sources to make data work better for patients, clinicians, and researchers.

Deadliest Cancers.—The agreement directs NCI to develop a scientific framework using the process outlined in the Recalcitrant Cancer Research Act of 2012 for stomach and esophageal cancers and urges NCI to continue to support research with an emphasis on developing screening and early detection tools and more effective treatments for all recalcitrant cancers. NCI is directed to provide an update on NCI-supported research to advance these goals in the fiscal year 2021 Congressional Justification. Also, NCI is directed to add esophageal and stomach cancers to future Research, Condition, and Disease Categorization (RCDC) reports. Finally, the bill encourages NCI to place a high priority on researching these cancers, which include anaplastic astrocytoma, diffuse intrinsic pontine glioma, glioblastoma, Juvenile myelomonocytic leukemia, high-risk neuroblastoma, recurrent osteosarcoma, rhabdomyosarcoma, and diffuse anaplastic Wilms tumors.

Gynecologic Cancer Clinical Trials.—NCI is encouraged to work with stakeholders to address priorities for the gynecologic oncology clinical trials scientific agenda, including consideration of the availability of trials for these patients.

NCI Paylines.—Grant applications to NCI have increased by approximately 50 percent since 2013, outpacing available funding, with requests for cancer research ten-fold greater than other Institutes. With such a high demand for NCI grants, only a fraction of this research is funded. To support more awards and improve success rates, the agreement provides \$212,500,000 to prioritize competing grants and sustain commitments to continuing grants.

Precision Medicine.—The agreement strongly supports precision medicine initiatives that are critical to delivering the right treatment to the right patient at the right time. At its core, precision medicine aims to understand and treat the underlying cause of disease in individual patients. Once the underlying cause of a patient's disease is identified, this information can then be used to

gain new insights into the underlying basic biology and disease pathogenesis, which will ultimately foster the development of medicine targeted to those patient populations most likely to benefit. NIH needs to focus cancer precision medicine efforts towards comprehensive drug screening and precision clinical trials and this agreement has included sufficient funding to do so. Therefore, the bill directs NCI to fund an initiative to foster the clinical demonstration of novel methodologies for individualizing identification of cancer therapeutics. Programs should be at a NCI-designated Comprehensive Cancer Center at institutions that have demonstrated institutional investment in precision medicine, have a strong existing track record in NIH-supported cancer funding, and have the expertise to conduct in-depth genomic analysis of cancer tumors and do comprehensive drug repurposing screens of all FDA-approved drugs on at least one tumor type. Additionally, regional multi-institutional consortiums that serve populations with significant health disparities and traditionally underserved populations are strongly encouraged.

Psycho-Social Distress Complications.—NCI is encouraged to ensure that all of its designated cancer centers are managing and measuring patients for distress as an integral piece of their treatment and follow-up care.

Rare Cancers.—The bill supports a trans-NIH collaboration, which includes NCATS, to accelerate therapies for rare cancers and to support broader sharing of genomic-related rare cancers data to accelerate research and drug development for these cancers.

STAR Act.—The agreement includes no less than \$25,000,000 in funding for continued implementation of sections of the Childhood Cancer Survivorship, Treatment, Access, and Research (STAR) Act. Funding is in addition to the funds allocated in fiscal year 2019 to expand existing biorepositories for childhood cancer patients enrolled in NCI-sponsored clinical trials to collect and maintain relevant clinical, biological, and demographic information on children, adolescents, and young adults, with an emphasis on selected cancer subtypes (and their recurrences) for which current treatments are least effective. Funding provided this year will allow NCI to continue to conduct and support childhood cancer survivorship research as authorized in the STAR Act.

NATIONAL HEART, LUNG, AND BLOOD INSTITUTE (NHLBI)

Chronic Disease Precision Medicine.—The bill directs NHLBI to fund an initiative to address chronic diseases through translational science and the application of a precision medicine approach and has included sufficient funding to do so. Programs should focus on diseases and disorders relating to heart, lung, blood, and sleep, and access to populations with significant health disparities. Programs should have a proven track record of NIH funding in all of these areas, as well as have NIH-funded programs for health disparities research. Additionally, regional multi-institutional consortiums are strongly encouraged.

Congenital Heart Disease.—NHLBI is encouraged to prioritize congenital heart disease (CHD) activities outlined in its strategic plan, including improving understanding of outcomes and co-

morbidities, modifying treatment options across the lifespan, and accelerating advances by leveraging CHD registries and networks.

Fibrotic Diseases.—The bill encourages NIH to vigorously support dedicated funding and research into fibrotic diseases affecting different organs, including the lungs, liver, kidneys, heart, skin, and bones. The agreement requests a report on the current NIH Fibrosis Interest Group and its progress no later than 90 days after the passage of this Act. The bill encourages the Interest Group to continue its efforts to bring together key stakeholders, at the NIH and elsewhere, to develop strategic paths forward to maximize efforts in fibrotic disease research. The bill also encourages NIH to enhance its patient-centered clinical research into pulmonary fibrosis to include traditional observational and interventional studies looking at reducing healthcare utilization such as hospitalizations, improving symptoms such as cough, and prolonging life, and directs NIH to include an update in its fiscal year 2021 Congressional Justification on its work relating to idiopathic pulmonary fibrosis following the November 2012 NHLBI workshop *Strategic Planning for Idiopathic Pulmonary Fibrosis*. The agreement also encourages NIH to create a funding mechanism to fund fibrosis research across all organs, building on the progress and leveraging data that has and may result from NHLBI funded projects.

Hemophilia.—The agreement asks NHLBI to provide the Committees with the final report and national blueprint for future research from the May 2018 State of the Science Workshop on Factor VIII Inhibitors and to take steps to implement the research blueprint in collaboration with the hemophilia patient, provider, and research communities.

Pediatric Cardiomyopathy.—The agreement commends NHLBI for its long-standing commitment to the Pediatric Cardiomyopathy Registry and strongly encourages NHLBI to continue to support cardiomyopathy research.

Postural Orthostatic Tachycardia Syndrome.—NIH is directed to submit the report on Postural Orthostatic Tachycardia Syndrome (POTS) that was requested in Senate Report 115–289, now overdue, no later than 30 days after enactment of this Act. NIH is strongly encouraged to include an estimate of annual NIH funding allocated to POTS research in its publicly available RCDC report.

NATIONAL INSTITUTE OF DENTAL AND CRANIOFACIAL RESEARCH (NIDCR)

Temporomandibular Disorders.—NIDCR is encouraged to continue collaboration with governmental agencies and other stakeholders in the project entitled *Temporomandibular Disorders: From Research Discoveries to Clinical Treatment* and to increase funding to expand the science base in this field.

NATIONAL INSTITUTE OF DIABETES AND DIGESTIVE AND KIDNEY DISEASES (NIDDK)

Chronic Diseases and Health Disparities.—Kidney disease, type 2 diabetes, and obesity are among the most common, costly, and preventable of all health conditions. NIH needs to focus chronic disease efforts on those populations most affected, particularly vulnerable populations and underrepresented minorities. Therefore, the

agreement provides sufficient funding for an initiative to address chronic diseases and health disparities in these areas. The program must focus on kidney disease, obesity, diabetes, exercise medicine, and health disparities. Programs should have a strong existing track record of NIH funding in all of these areas, such as an NIH-funded Nutrition Obesity Research Center, Diabetes Research Center, Obesity Health Disparities Research Center, and O'Brien Kidney Center. Additionally, regional multi-institutional consortiums are strongly encouraged.

Diabetes.—NIDDK is urged to support research to improve the treatment of diabetic foot ulcers and reduce amputations. Further, the agreement urges NIDDK to work with NIA to explore the relationship between diabetes and neurocognitive conditions, such as dementia and Alzheimer's disease. Finally, the agreement supports efforts to utilize adult-derived, non-embryonic pluripotent stem cells for developing and commercializing the use of the stem cell-derived islets for both drug discovery and testing platforms and therapeutic delivery to patients with diabetes.

Liver Diseases.—NIDDK is encouraged to continue to feature liver diseases research considering recent progress and improvements for liver disease patients.

Medical Foods.—The agreement encourages further incorporation of research topics associated with medical foods and patient care into emerging research activities.

NATIONAL INSTITUTE OF NEUROLOGICAL DISORDERS AND STROKE
(NINDS)

Cerebral Palsy.—The agreement strongly encourages NIH to prioritize and implement additional FOAs to significantly strengthen, accelerate, and coordinate Cerebral Palsy (CP) research to address priorities across the lifespan identified in the five to 10 year Cerebral Palsy Strategic Plan developed by NINDS and NICHD. FOAs should target basic and translational discoveries, including genetics, regenerative medicine, and mechanisms of neuroplasticity, as well as clinical studies aimed at early intervention, comparative effectiveness, and functional outcomes in adults. NIH is also encouraged to coordinate with other agencies, including CDC, to support additional research on preventing, diagnosing, and treating CP.

Dystonia.—The agreement urges NINDS to follow the recommendations of the dystonia conference, including identifying new research and therapeutic needs that will lead to a better understanding of dystonia etiology and evaluation of the status of translational research that may lead to more treatment options for those affected by dystonia.

Opioid Misuse and Addiction.—The agreement includes no less than \$250,000,000 for targeted research related to opioid misuse and addiction, development of opioid alternatives, pain management, and addiction treatment. The agreement directs NIH to expand scientific activities related to research on medications used to treat and reduce chronic pain, and the transition from acute to chronic pain.

POTS.—NIH is directed to submit the report on POTS requested in Senate Report 115–289, now overdue, no later than 30 days

after enactment of this Act. NIH is strongly encouraged to include an estimate of annual NIH funding allocated to POTS research in its publicly available RCDC report.

NATIONAL INSTITUTE OF ALLERGY AND INFECTIOUS DISEASES (NIAID)

AIDS Conference.—The agreement includes \$5,100,000 for the U.S. contribution to the AIDS2020 Conference.

Antimicrobial Resistance.—The agreement includes \$511,000,000 within NIAID for research related to combating antimicrobial resistance (AMR), an increase of \$50,000,000. In April, the United Nations issued a report that, like the 2016 review sponsored by the government of the United Kingdom and Wellcome Trust, warned that rampant overuse of antibiotics and antifungal medicines in humans, livestock, and agriculture could erase much of the improvement in public health achieved since the development of the first antimicrobials in the 1940s. The agreement includes \$1,700,000 to fund a National Academies of Sciences, Engineering, and Medicine (NASEM) study to examine and quantify the long-term medical and economic impacts of increasing AMR in the U.S. The review should examine progress made on the U.S. National Strategy and Action Plan for Combating Antibiotic-Resistant Bacteria, including domestic and international strategies employed by NIH, CDC, FDA, ASPR, USDA, and USAID. The NASEM report should make recommendations to address any gaps in research and development of therapeutics and diagnostics; efforts to move new products to market; animal and human surveillance, prevention efforts, international coordination and collaboration; and any other recommendations NASEM finds relevant to stopping the spread of AMR. The agreement directs NIAID to report on trends in AMR-related Research Project Grants, including the success rates for such grants, and requests an update on these activities in the fiscal year 2021 Congressional Justification, including an overall assessment of the progress to date of efforts to address AMR.

Celiac Disease.—The agreement encourages NIH to devote sufficient, focused research to the study of celiac disease, including the autoimmune causation underpinning the affliction. The agreement urges NIAID to better coordinate existing research and focus new research efforts toward causation and, ultimately, a cure of this disease. NIAID is encouraged to coordinate with other Institutes and Centers as appropriate and to submit its plan for coordination and execution of this research to the Committees no later than 90 days after enactment of this Act.

Hepatitis B Virus.—The agreement urges additional targeted calls for Hepatitis B Virus (HBV) research to fund the many critical research opportunities identified by the scientific community in the *Roadmap for a Cure*. The agreement urges active participation and leadership by NIAID in the Director's newly established Trans-NIH Hepatitis B working group and requests that NIAID submit within 180 days of enactment of this Act, a research plan to pursue a cure for HBV in coordination with the other Institutes and Centers.

HIV/AIDS.—The agreement provides an increase of no less than \$25,000,000 over the fiscal year 2019 level for HIV/AIDS research.

Centers for AIDS Research.—As part of the domestic HIV initiative, the agreement includes no less than \$51,000,000 for the Centers for AIDS Research.

Lyme Disease and Other Tick-Borne Diseases.—The agreement encourages NIH to issue requests for grant applications for research to investigate causes of all forms and manifestations of Lyme disease and other high-consequence tick-borne diseases, including post-treatment symptoms, as well as research to develop diagnostics, preventions, and treatments for those conditions, including potential vaccine candidates. The agreement urges NIAID, in coordination with CDC, to study the long-term effects on patients suffering from post-treatment Lyme disease syndrome, or “chronic Lyme disease”. Specifically, the agreement urges NIAID to evaluate the effectiveness of laboratory tests associated with the detection of *Borrelia burgdorferi* to diagnose the disease early, which can improve the treatment of patients suffering from Lyme disease. The agreement is also aware of promising vaccine innovations to combat *Borrelia* and requests a report within 90 days of enactment of this Act on agency activities to support Lyme vaccine development. The agreement also encourages NLM, in coordination with NIAID, to update its terminology in line with new research to more accurately reflect the long-term effects of Lyme disease.

Medical Countermeasures.—The agreement supports the continuation of NIAID’s medical countermeasures program, but expects the Institute to make sure any future contractor selected for the program can refine its animal models, particularly small animal models, to support the establishment of adequate countermeasure efficacy to expedite approval by the FDA. This requires close coordination with NIAID and the adequate level of technical personnel to carry out the program’s important mission.

Universal Flu Vaccine.—The agreement provides not less than \$200,000,000 to advance basic, translational, and clinical research to develop a universal influenza vaccine, an increase of \$60,000,000.

Valley Fever.—The agreement notes the recent increase in the number of Valley Fever infections in Western States and urges NIAID to prioritize research on this fungal disease.

NATIONAL INSTITUTE OF GENERAL MEDICAL SCIENCES (NIGMS)

Institutional Development Award.—The agreement provides \$386,573,000 for the Institutional Development Award (IDeA) program, an increase of \$25,000,000.

Maximizing Access to Research Careers.—The agreement recognizes the importance of the Maximizing Access to Research Careers (MARC) program and encourages the continuation and enhancement of efforts underway with our Nation’s HBCUs. The agreement also encourages NIH to continue and strengthen its engagement of institutions located in rural parts of the U.S.

EUNICE KENNEDY SHRIVER NATIONAL INSTITUTE OF CHILD HEALTH AND HUMAN DEVELOPMENT (NICHD)

Impact of Technology and Digital Media on Children and Teens.—The agreement recognizes that children’s and teens’ lives increasingly involve widespread technology use and consumption of

digital media. The agreement encourages NIH to prioritize research into how these types of stimuli affect young people's cognitive, physical, and socio-emotional outcomes, including attention, sleeping routines, and anxiety.

Maternal-Fetal Medicine Units Network.—The agreement fully supports the work of the Maternal Fetal Medicine Units network (MFMU) and encourages NICHD to continue to build on its success by ensuring its highly efficient structure of multicenter collaborative research continues. There is particular concern that any change in the funding mechanism or structure for the MFMU could compromise the ability of the network to remain nimble and directly address the changing landscape of women's health, including to reduce health disparities. The agreement directs NICHD to submit a report to the Committees outlining any potential changes being considered to the funding mechanism or structure of the MFMU network within 90 days of enactment of this Act.

Prenatal Opioid Use Disorders and Neonatal Abstinence Syndrome.—The agreement encourages NIH to coordinate with other agencies at HHS to support additional research on prevention, identification, and treatment of prenatal opioid exposure and neonatal abstinence syndrome (NAS), including the best methods for screening and treating pregnant women for opioid use disorder and the best methods for screening for NAS. Additionally, the agreement encourages NIH to build on the Advancing Clinical Trials in Neonatal Opioid Withdrawal study to enhance understanding of the impact of pharmacological and non-pharmacological treatment techniques on costs and outcomes in the short- term and longitudinally. The agreement further encourages NIH to coordinate with other agencies at HHS to support research on innovative care models to optimize care and long-term outcomes for families.

Research in Pregnant and Lactating Women.—The Task Force on Research Specific to Pregnant Women and Lactating Women issued a report to the Secretary of HHS outlining 15 recommendations to facilitate the inclusion of pregnant and lactating women in clinical research. The agreement commends the Secretary for extending the Task Force and believes this extension should be for at least an additional two years to continue to work towards healthcare professionals and consumers having accurate information on the safety and efficacy of drugs taken by these populations. NICHD should oversee its part of the implementation of the already released recommendations working with other relevant Institutes and Centers, CDC, and FDA. The agreement requests a progress report be provided in the fiscal year 2021 Congressional Justification.

NATIONAL EYE INSTITUTE (NEI)

Age-Related Macular Degeneration.—The agreement recognizes the tremendous strides in the treatment of patients with the “dry” form of age-related macular degeneration and commends NEI for its planned first-in-human clinical trial that would test a stem cell-based therapy from induced pluripotent stem cells. The agreement supports NEI's prospective international study of patients that uses the latest advances in retinal imaging to identify biomarkers of the disease and targets for early therapeutic interventions.

NATIONAL INSTITUTE OF ENVIRONMENTAL HEALTH SCIENCES (NIEHS)

Hurricane Harvey Research.—The agreement includes \$3,000,000 for the continued funding and expansion of research on the health effects of environmental exposures directly related to the consequences of Hurricane Harvey in 2017. The research should focus on the full Hurricane Harvey-affected region, conduct follow-up health research on affected populations on registrants, link to relevant government and non-profit intervention research programs, and provide critical information on disaster preparedness through data sharing and analysis.

NATIONAL INSTITUTE ON AGING (NIA)

Alzheimer's Disease and Related Dementias.—The agreement provides an increase of \$350,000,000 for Alzheimer's disease and related dementias research, bringing the total funding level in fiscal year 2020 to no less than \$2,818,000,000.

Diversity of Clinical Trials.—The agreement remains concerned about underrepresented populations in research, particularly clinical trials for Alzheimer's. The agreement directs NIH to report to the Committees within 180 days of enactment of this Act on how it is implementing the actions outlined in the National Strategy for Recruitment and Participation in Alzheimer's and Related Dementias Clinical Research, including NIA resources that have been dedicated to these efforts.

EUREKA Prize.—The agreement requests a report within 180 days of enactment of this Act on NIA's initial EUREKA prize competition, including the number of submissions received and any unexpected challenges or impediments encountered in executing the challenge, as well as lessons learned that could be applied to future Alzheimer's or other prize challenges. The agreement also requests that the report include any recommendations to enhance the model going forward.

NATIONAL INSTITUTE ON ALCOHOL ABUSE AND ALCOHOLISM (NIAAA)

Mobile Assessment Technology Research for Addictive Behaviors.—The agreement encourages NIAAA to support meritorious research to improve the prevention and treatment of substance misuse, addiction, and related consequences through the use of mobile technologies.

NATIONAL INSTITUTE ON DRUG ABUSE (NIDA)

Barriers to Research.—The agreement directs NIDA to provide a brief report on the barriers to research that result from the classification of drugs and compounds as Schedule I substances no later than 120 days after enactment of this Act.

The agreement directs NIH to expand scientific activities related to research on medications used to treat and reduce chronic pain, and the transition from acute to chronic pain. Further, the agreement urges NIH to: (1) continue funding research on medication development to alleviate pain and to treat addiction, especially the development of medications with reduced misuse liability; (2) as appropriate, work with private companies to fund innovative research into such medications; (3) report on what is known regarding the transition from opioid analgesics to heroin and synthetic opioid use and addiction within affected populations; (4) conduct pilot studies to create a comprehensive care model in communities nationwide to prevent opioid misuse, expand treatment capacity, enhance access to overdose reversal medications, and enhance prescriber practice; (5) test interventions in justice system settings to expand the uptake of medications for treating opioid use disorder (OUD) and methods to scale up these interventions for population-based impact; and (6) develop evidence-based strategies to integrate screening and treatment for OUD in emergency department and primary care settings. In addition, NIH should continue to sponsor research to better understand the effects of long-term prescription opioid use, especially as it relates to the prevention and treatment of opioid misuse and addiction. Further, the agreement notes NIDA has started to investigate the links among respiratory health, disease, and deaths from opioids to determine if addressing underlying respiratory physiology can prevent death due to respiratory failure during overdoses.

NATIONAL INSTITUTE OF MENTAL HEALTH (NIMH)

Suicide Prevention and Risk Detection Algorithms.—The agreement continues to encourage NIMH to prioritize its suicide screening and prevention research efforts to produce risk detection models that are interpretable, scalable, and practical for clinical implementation, including mental and behavioral healthcare interventions, to combat suicide in the U.S. In assessing research opportunities, the agreement encourages NIMH to consider the recommendations included in the Action Alliance for Suicide Prevention's *A Prioritized Research Agenda for Suicide Prevention*.

Emerging Centers of Excellence in Genomic Sciences.—The agreement includes no less than \$10,000,000 for a new competitively-awarded center-based grant program for Emerging Centers of Excellence. The purpose of these awards is to build capacity at institutions that are not prior or current grantees of the Centers of Excellence in Genomic Sciences program. The agreement urges

NHGRI to include plans for sustainment of this capacity-building mechanism in its 2020 vision report.

NATIONAL CENTER FOR COMPLEMENTARY AND INTEGRATIVE HEALTH
(NCCIH)

Pain Management.—The agreement urges NIH, along with DoD and VA, to continue to support research on non-pharmacological treatments for pain management to ensure the best quality of care for our Nation's veterans.

NATIONAL INSTITUTE ON MINORITY HEALTH AND HEALTH DISPARITIES
(NIMHD)

Mental Health.—To address the multiple causes of suicide, the agreement urges NIMHD to develop a behavioral health approach focusing on at-risk populations and building the mental health workforce at the community level. The proposed model should improve mental health care access to underserved populations, including those in rural areas, while simultaneously providing training to potential rural behavioral health providers.

Neuroscience Research in African-Americans.—The agreement urges the NIH Neurobiobank to work with NIMHD and relevant extramural partners to develop the infrastructure needed to accelerate the discovery of novel therapeutic targets for neuropsychiatric disorders utilizing post-mortem brain datasets from underrepresented ethnic minority groups, including African-Americans.

Research Centers in Minority Institutions.—The agreement includes \$75,000,000 for the Research Centers in Minority Institutions (RCMI) program to support critical infrastructure development and scientific discovery in historically minority graduate and health professional schools. The agreement also recognizes the importance of the RCMI Coordinating Center in ensuring that collectively, institutions can engage in multi-site collaborative research.

Research Endowment Program.—The agreement urges NIMHD to move forward with the recommendations made by the Advisory Council workgroup to restore endowment eligibility for the Research Endowment Program (REP) to the original Congressional intent, which includes both current and former centers of excellence. NIMHD is requested to report to the Committees on progress made to implement these recommendations prior to issuing its next FOA for REP.

JOHN E. FOGARTY INTERNATIONAL CENTER FOR ADVANCED STUDY IN
THE HEALTH SCIENCES (FIC)

Global Infectious Diseases.—The agreement urges FIC to continue its important work of building relationships with scientists abroad to foster a stronger, more effective science workforce and health research capacity on the ground, helping to detect infectious diseases and building the capacity to confront those diseases while improving the image of the U.S. through health diplomacy in their countries.

NATIONAL CENTER FOR ADVANCING TRANSLATIONAL SCIENCES (NCATS)

Clinical and Translational Science Awards.—The agreement provides \$578,141,000 for Clinical and Translational Science Awards (CTSAs) and encourages NCATS to fund, through the existing CTSA hubs, programs to address disparities and the significant burden of diseases and other conditions that disproportionately affect minority and special populations. Accelerating this capacity will reduce the burden of disease and promote health equity. Applying the CTSA model to address long-standing regional health disparities can provide innovative, multi-disciplinary approaches to reducing the burden of disease among vulnerable populations.

Cures Acceleration Network.—The agreement provides up to \$60,000,000 for the Cures Acceleration Network.

OFFICE OF THE DIRECTOR (OD)

7q11.23 Duplication Syndrome.—Duplication 7 syndrome is a rare chromosomal abnormality and those affected by this chromosomal duplication are likely to experience severe behavioral and developmental disabilities requiring consistent medical treatments and therapies. NIH is strongly encouraged to expand research on rare genetic and chromosomal abnormalities such as 7q11.23 duplication syndrome.

Adult Cellular Therapies.—The agreement encourages NIH, in coordination with FDA, to explore the feasibility and utility of an outcomes database for adult cellular therapies that are either FDA-approved or are being administered under FDA Investigational New Drug or Investigational Device Exemption protocols.

All of Us Precision Medicine Initiative.—The agreement includes \$500,000,000 for the All of Us precision medicine initiative. Funding provided in the 21st Century Cures Act is reduced by \$37,000,000 in fiscal year 2020. Ensuring sustained, consistent funding for this study is important. Therefore, the agreement has chosen to replace this reduction and increase base funding for the program. The agreement directs NIH to continue its efforts to recruit and retain participants from historically underrepresented populations in biomedical research so that the All of Us scientific resources reflect the rich diversity of our country.

Further, the agreement encourages NIH to continue to work with a broad array of children's hospitals and networks to leverage their expertise and ensure greater diversity in pediatric recruitment and enrollment.

Amyotrophic Lateral Sclerosis.—The agreement directs the NIH Director to facilitate further efforts involving, at a minimum, NINDS and NIA, to study Amyotrophic Lateral Sclerosis (ALS) disease mechanisms and identify genes to facilitate the expeditious development of targeted therapies. These trans-NIH efforts shall bring together research results that will be available to academic researchers, non-profit organizations, and industry researchers, and will supplement, not supplant, existing NIH-supported activities for ALS research. The near-term research opportunity to find a cure is real for ALS. Any such breakthroughs will have significant benefits for related neurological conditions including TBI, Parkinson's, and Alzheimer's. The agreement directs NIH to report to

the Committees within 180 days of enactment of this Act on progress in furthering these research areas, specifically on key areas of focus for fiscal years 2020–2024.

Autism.—The agreement encourages NIH to continue to aggressively invest in research on autism consistent with the objectives outlined in the Strategic Plan. The agreement also encourages NIH to support greater investment in research and collaborations focused on addressing the gaps outlined in the Strategic Plan, including studies to understand the intersection of biology, behavior, and the environment.

Autoimmune Conditions.—Autoimmune diseases are more common in women than in men, typically manifesting in their child-bearing years. They include conditions such as rheumatoid arthritis, multiple sclerosis, lupus, celiac disease, inflammatory bowel disease, and type 1 diabetes and together affect an estimated five to seven percent of Americans. Many affected women live with a second autoimmune illness or other condition. Despite the impact of these diseases and conditions on a domestic population ranging between 15,000,000–25,000,000, there is no single office within NIH tasked with coordinating research across the agency, or examining the complex interplay among these diseases and conditions. The 2010 NASEM study on Women’s Health Research identified autoimmune conditions as the “leading cause of morbidity in women, greatly affecting quality of life.” Despite their impact, the report found that “little progress has been made in understanding the conditions better, in identifying the risk factors, or in developing diagnostic tools, better treatments, or cures.” The agreement includes \$1,500,000 for NIH to contract with NASEM to identify and review NIH’s research efforts in this broad area of predominantly women’s health. The review should explore NIH’s research in autoimmune and coexisting disorders, including any barriers to such research, and the most promising areas for future research that would benefit the greatest number of patients. The review should also identify trends among the population suffering from these conditions, and any significant barriers to accurate diagnoses. Finally, the NASEM report should make recommendations for how NIH could improve and better coordinate research into these diseases and conditions, including the potential effects of establishing dedicated research entities within or external to NIH.

Big Data.—Despite launching its STRIDES and Data Commons initiatives, NIH has little yet to show in the area of working with data. NIH has struggled to recruit the talent to lead efforts to build an analysis platform. NIH leadership recognizes it needs additional focus on how to consolidate and deliver data to the research community in a more usable and computationally minable form, but is challenged in how to do so. Part of the problem appears to be the salary restrictions of a civil service structure that never contemplated the costs of recruiting highly sought after elite technology talent. The Government Accountability Office (GAO) is directed to identify and assess the options available to NIH for securing the talent it needs to lead these efforts. GAO should consider how other agencies meet similar challenges, and whether statutory changes are necessary. The agreement also directs GAO to review how NIH funds computational talent in its grant awards and

whether its funding models adequately reflect the cost of these skillsets to grantees. GAO should assess NIH's guidance for the resource-sharing plan it requires for the typical grantee, and whether these plans are sufficient and can be sustained for ongoing analysis. NIH is urged to engage industry, academic, and other Federal partners to take advantage of cross-enterprise artificial intelligence products, research, and tools. Artificial Intelligence could play a vital role toward advancing the goals of the strategic plan by organizing, managing, and making data usable to researchers, institutions, and the public to drive outcomes. Finally, the agreement includes \$30,000,000 to support the Chief Data Strategist's work in fiscal year 2020, and expects NIH to provide a spending plan for these funds within 30 days of enactment of this Act.

Biomedical Research Facilities.—The bill provides \$50,000,000 for grants to public and/or not-for-profit entities to expand, remodel, renovate, or alter existing research facilities or construct new research facilities as authorized under 42 U.S.C. section 283k. The agreement also directs NIH to allocate no less than 25 percent of funding for this program to Institutions of Emerging Excellence to ensure geographic and institutional diversity. Finally, the agreement urges NIH to consider recommendations made by the NIH Working Group on Construction of Research Facilities, including making awards that are large enough to underwrite the cost of a significant portion of newly constructed or renovated facilities.

Brain Research through Advancing Innovative Neurotechnologies Initiative.—The agreement provides \$500,000,000 for the BRAIN initiative, finally achieving the initial BRAIN 2025 report recommendation of \$500,000,000 per year by fiscal year 2019. The agreement provides additional resources to significantly expand efforts to working with the BRAIN data. Neuroscience, and biosciences in general, need additional focus on how to consolidate and deliver data to the research community in a more usable and computationally minable form. The agreement expects to receive a report in the fiscal year 2021 Congressional Justification on the initiative's achievements in its first five years of operation and its objectives for the next five years, including NIH's plans to address the challenge of making large datasets usable.

Clinical Research Professional Competency.—The agreement encourages NIH to continue considering the training needs of the clinical research workforce when determining best practices in conducting clinical trials.

Clinical Trials Policy.—The agreement supports NIH's recent announcement to delay the implementation of certain registering and reporting requirements for basic experimental studies with humans. The agreement urges NIH to continue its efforts, including working with the basic research community, to achieve a balanced registration and reporting strategy that meets the interests of study participants, investigators, and taxpayers. NIH is directed to report to the Committees no less than 60 days prior to moving forward with any new proposals for registering basic experimental studies with humans as clinical trials.

Ethnic and Racial Diversity in Cancer Development and Outcomes.—The agreement urges NIH, including NIMHD and NCI, to continue to support research on the cause, prevention, and treat-

ment of cancer in populations with diverse cultural, racial, and ethnic composition. The agreement also encourages NCI to continue to consider an institution's research efforts that specifically address the cancer burden, risk factors, incidence, morbidity, mortality, and inequities in the geographic area it serves, when considering applications from cancer centers for NCI designation.

Firearm Injury and Mortality Prevention Research.—The agreement includes \$12,500,000 to conduct research on firearm injury and mortality prevention. Given violence and suicide have a number of causes, the agreement recommends the NIH take a comprehensive approach to studying these underlying causes and evidence-based methods of prevention of injury, including crime prevention. All grantees under this section will be required to fulfill requirements around open data, open code, pre-registration of research projects, and open access to research articles consistent with the National Science Foundation's open science principles. The Director of NIH is to report to the Committees within 30 days of enactment on implementation schedules and procedures for grant awards, which strive to ensure that such awards support ideologically and politically unbiased research projects.

Foreign Threats to Research.—There remains concern about foreign threats to the research infrastructure in the U.S. In particular, the Chinese government has started a program to recruit NIH-funded researchers to steal intellectual property, cheat the peer-review system, establish shadow laboratories in China, and help the Chinese government obtain confidential information about NIH research grants. As the Federal Bureau of Investigation, HHS, and NIH continue to investigate the impact the Thousand Talents and other foreign government programs have had on the NIH research community, the agreement directs NIH to notify the Committees quarterly on the progress of the investigation, as well as institutions, scientists, and research affected. Further, the agreement directs NIH to carefully consider the NIH Advisory Committee's recommendations, including to implement a broad education campaign about the requirement to disclose foreign sources of funding and develop enhanced cybersecurity protocols. As recommended, NIH should use this campaign to help institutions develop best practices for how to handle these challenges, including training, communications materials, and how to improve vetting, education, and security. Further, NIH shall evaluate the peer-review system and their internal controls through a lens that takes into account national security threats. This includes holding those accountable who inappropriately share information from the peer-review process or illegally share intellectual property. The agreement notes the partnership between NIH and HHS' Office of National Security (ONS) on this issue and ONS's implementation of a formal NIH CI/Insider Threat program on NIH's behalf. The agreement believes this work should be expanded in fiscal year 2020 and directs NIH to allocate no less than \$5,000,000 for this work that ONS does on behalf of NIH.

Frontotemporal Degeneration Research.—The agreement encourages NIH to continue to support a multi-site network of clinical centers to study genetic and sporadic cases of frontotemporal degeneration (FTD) and maintain progress toward biomarker dis-

covery and drug development in clinical trials using these well-defined FTD cohorts. A key component of this network will be the development of a data biosphere that supports wide sharing of robust datasets, generated with powerful -omic platforms. Data sharing will enable the broader community of researchers outside of the clinical networks, particularly early career scientists, to take on the challenges currently confronting Alzheimer's disease and related dementias disorders with a wider array of expertise. Research has revealed that all forms of dementia may have a variety of root causes and display multiple underlying pathologies. Research on the related dementias is critical for understanding basic disease mechanisms that may be common across multiple forms of dementia and therefore speed the translation of this information into much-needed therapeutics. While the continued support of biomedical research offers hope for the future, too many families and individuals living with dementia cannot find the help they need today. Therefore, the agreement also urges NIH to support research on the development of new and improved dementia care practices and long-term supports and services. By supporting both types of research, NIH may advance progress toward future therapies and treatments while also helping people get the appropriate and effective care and support they need today.

Harassment Policies.—The NASEM report released last year found that sexual harassment is rampant in the labs and institutions supported by NIH. The Committees believe NIH must play a more active role in changing the culture that has long perpetuated the problem. The Committees direct NIH to require institutions to notify the agency when key personnel named on an NIH grant award are removed because of sexual harassment concerns and to submit to the Committees plans to implement measures that attend to harassment in extramural settings with the same level of attention and resources as those devoted to other research misconduct. The Committees also direct NIH to support research in the areas identified in the report, including the psychology underlying harassment and the experiences and outcomes of diverse groups when subjected to harassment. Additionally, the Committees direct NIH to collaborate with NASEM to develop best practices for developing more diverse and inclusive cultures in the grantee research environments, including training individuals in institutions that receive NIH funds to recognize and address sexual harassment, and evaluating the efficacy of various sexual harassment training programs.

Hepatitis C.—The agreement urges NIH to prioritize research aimed at supporting hepatitis C elimination.

Human Microbiome Project.—The agreement encourages OD to continue working collaboratively with NIDDK and other relevant Institutes and Centers to expand and advance Human Microbiome Project research.

IDeA States Pediatric Clinical Trials Network.—The agreement commends NIH for establishing the IDeA States Pediatric Clinical Trials Network (ISPCN) to provide medically underserved and rural populations with access to state-of-the-art clinical trials, apply findings from relevant pediatric cohort studies to children in IDeA State locations, and enhance pediatric research capacity to

address unmet pediatric research needs in underserved areas. The agreement provides \$15,000,000 in additional funding for the Environmental Influences on Child Health Outcomes Program to continue the ISPCTN program.

Increasing Diversity in NIH Clinical Trials.—The agreement recognizes efforts by NIH to reduce health disparities by addressing significant barriers to clinical trial participation and directs the agency to ensure eligibility criteria for clinical trials funded by NIH do not create unintentional barriers to participation for racial and ethnic minorities as well as for patients with certain health conditions. The agreement directs NIH to revise existing protocol templates and guidelines for clinical trials that receive funding by the agency to include eligibility criteria that avoids inappropriate exclusions of racial and ethnic minorities by taking steps to account for variations in health status across racial and ethnic minority groups when determining eligibility criteria as well as ensuring exclusions based on health status are scientifically justified and appropriate.

Induced Pluripotent Stem Cells.—The agreement directs NIH to provide funding to support translational research, as well as promote regional, collaborative consortiums to advance scientific knowledge in the area of induced pluripotent stem cells basic research. The agreement further instructs NIH to conduct an assessment of agency efforts to: (1) address the existing funding gap between basic science and clinical trial research; and (2) develop a framework that provides both new and existing grantees with funded opportunities for translational research. The agreement expects this information to be included in the fiscal year 2021 Congressional Justification.

Intellectual Property.—The agreement encourages the Director to work with the HHS Assistant Deputy Secretary for National Security to improve the security of intellectual property derived from NIH-funded research. In particular, NIH is encouraged to: improve the security of the peer review system; augment the application process to identify funding that applicants receive from a foreign government; and assist the HHS Inspector General and appropriate law enforcement agencies to identify violations of U.S. law or policy.

Intramural Nonhuman Primate Research.—The agreement recognizes the use of nonhuman primate research for the advancement of biomedical research. It also understands that NIH continues to seek scientific alternatives to reduce and replace nonhuman primate use in biomedical research. NIH reviews every project that uses nonhuman primates in research to ensure both the welfare of the animal and that there are no scientific alternatives that could replace an animal model. The agreement requests a report to the Committees no later than one year after enactment of this Act that includes a discussion of nonhuman primate use and efforts to reduce such research use specifically, an assessment of research alternatives, including benefits and limitations of such alternatives, cost estimates, and areas of further need for innovative alternatives. In the fiscal year 2021 Congressional Justification, the agreement requests NIH include a discussion of research alternatives in use and those in development.

Mucopolysaccharide Diseases.—The agreement encourages expanded research of treatments for neurological, chronic inflammation, cardiovascular, and skeletal manifestations of mucopolysaccharide (MPS) and ML diseases, with an emphasis on gene therapy. The agreement also encourages NIH to increase funding to grantees to incentivize MPS research, particularly given the age and small population of current researchers. Understanding the manifestations and treatments of both the skeletal and neurological disease continue to be the greatest areas of unmet need.

Myalgic Encephalomyelitis/Chronic Fatigue Syndrome.—The agreement commends NIH on its new Myalgic Encephalomyelitis/Chronic Fatigue Syndrome (ME/CFS) efforts, including its 2019 conference on accelerating research into ME/CFS, the formation of the National Advisory Neurological Disorders and Stroke (NANDSC) Council Working Group, and the unanimous adoption of the working group's report and recommendations on September 4, 2019. The agreement strongly encourages NIH to implement the recommendations in the NANDSC report, in particular to accelerate the identification of ME/CFS subtypes through the development of an ME/CFS Registry and Biorepository and to increase the number of ME/CFS research grant applications by investing in early career investigators as recommended in the NANDSC report. The agreement also recommends that NIH expand ME/CFS efforts, for example, by developing: (1) new ME/CFS disease specific funding announcements, including those with set-aside funds, to deliver needed diagnostics and treatments as quickly as possible; (2) an initiative to reach consensus on the ME/CFS case definition; and (3) mechanisms to incentivize researchers to enter the field.

National Commission on Lymphatic Diseases.—OD and NHLBI are applauded for facilitating the 2015 Trans-NIH Lymphatics Symposium. Lymphatics research has the scientific potential to treat a variety of severe diseases, including heart disease, diabetes, rheumatoid arthritis, and cancer. The Director is encouraged to establish a National Commission on Lymphatic Diseases or other appropriate mechanism to explore and make recommendations on the ongoing expansion and coordination of lymphatic diseases research NIH-wide.

News Briefings.—Until recently, NIH provided the Committees with a summary of the day's news articles on itself, health and medical news, global health updates, and other topics affecting its operations. The agreement directs NIH to resume providing daily NIH news briefings within 14 days of enactment of this Act.

Organ Donation and Transplantation.—The agreement includes \$1,500,000 to contract with and fund a NASEM study to examine and recommend improvements to research, policies, and activities related to organ donation and transplantation. The report shall include: (1) identification of current challenges involved in modeling proposed organ allocation policy changes and recommendations to improve modeling; (2) recommendations about how costs should be factored into the modeling of organ allocation policy changes; (3) a review of scoring systems (e.g., CPRA, EPTS, KDPI, LAS, MELD, etc.) or other factors that determine organ allocation and patient prioritization and recommendations to assure fair and equitable

practices are established, including reducing inequities affecting socioeconomically disadvantaged patient populations; (4) recommendations to update the OPTN's policies and processes to ensure that organ allocation decisions take into account the viewpoints of expert OPTN committees; and (5) such other issues as may be identified.

Osteopathic Medical Schools.—The agreement notes concern about a lack of access to research funding for osteopathic medical schools through NIH, as osteopathic medicine is one of the fastest growing healthcare professions in the country, and realizes its vital role in treating our Nation's rural, underserved, and socioeconomically challenged populations.

Pediatric Clinical Trials Authorized under Best Pharmaceuticals for Children Act.—The agreement directs that no less than \$25,000,000 be used toward research in preparation for clinical trials authorized by the Best Pharmaceuticals for Children Act.

Platform Technologies.—The agreement directs NIH to provide a report in the fiscal year 2021 Congressional Justification that identifies: (1) the challenges that currently limit NIH's ability to support the development of platform technologies, and how these might be addressed. Potential examples include: (a) low levels of engagement with researchers in the physical sciences, engineering, math, and computer science; (b) a culture that prioritizes hypothesis-driven as opposed to technology-driven proposals; (c) the structure of the NIH, which is organized primarily around specific diseases or organs of the body; (d) a typical size and duration of research grants that may not be aligned with the level of investment required for advances in platform technologies; and (e) difficulty in supporting high-risk, high-return ideas; (2) the specific unmet needs for basic, clinical and translational research that might motivate investment in transformational platform technologies that could be high-impact and timely, given recent scientific and technological advances and unmet medical needs; and (3) changes that NIH and Congress should consider with respect to its ability to identify and fund promising research proposals for platform technologies. Examples include: (a) recruiting NIH personnel and members of study sections with relevant expertise; (b) supporting workshops and the development of roadmaps for platform technologies; (c) increasing funding mechanisms that are appropriate for platform technologies that are relevant to multiple NIH Institutes, such as the Common Fund or NIBIB; (d) increasing NIH's capacity to partner with industry on the development of platform technologies, such as use of Other Transactions authorities; (e) experimentation with different models for funding and managing research, such as the DARPA model for recruiting and empowering world-class program managers; (f) use of incentive prizes, milestone payments and open innovation techniques; and (g) funding non-profit research institutes that have an increased capacity to manage more complex research projects that require professional scientists, engineers, and product managers, not just graduate students and postdoctoral researchers. The agreement encourages NIH to engage the research community and industry as it develops its response to these questions and options.

Precision Medicine and the Pediatric Population.—The agreement recognizes the potential that precision medicine holds for all populations, including children, and encourages NIH to prioritize timely and meaningful enrollment for the pediatric population, including healthy children and those with rare disease, in the All of Us program. The agreement requests an update within 60 days on the timing for the Special Populations Committee to provide recommendations regarding the practical considerations of child enrollment and data collection involving children. Additionally, the agreement directs that NIH provide an update on plans to ensure that the research cohort includes a sufficient number of children to make meaningful studies possible, the target date for enrollment to commence and how enrollment strategies will include input from pediatric stakeholders across the country with experience in pediatric clinical trial enrollment.

Rare Diseases.—There is concern with unknown costs resulting from undiagnosed and untreated rare diseases. As a result, the agreement directs GAO to study what is known about the total impact rare diseases have on the U.S. economy, including direct medical costs, non-medical costs, loss of income, and the societal consequence of undiagnosed and untreated rare disease. No later than two years after the date of enactment of this Act, GAO shall provide a report on its findings to the Committees.

Regenerative Medicine.—NIH is encouraged, in collaboration with FDA and HRSA, to engage experts and stakeholders to define data types and standards necessary to collect data and measure outcomes related to regenerative cell therapies and conduct real-world testing through a pilot outcomes database for regenerative adult cell therapies, including products administered under FDA Investigational New Drug or Investigational Device Exemption protocols.

Spina Bifida.—The agreement encourages NIA, NIDDK, NICHD, and NINDS to study the causes and care of the neurogenic bladder and kidney disease to improve the quality of life of children and adults with Spina Bifida; to support research to address issues related to the treatment and management of Spina Bifida and associated secondary conditions, such as hydrocephalus; and to invest in understanding the myriad co-morbid conditions experienced by individuals with Spina Bifida, including those associated with both paralysis and developmental delay. The agreement supports the specific efforts of NICHD to understand early human development; set the foundation for healthy pregnancy, and lifelong wellness of women and children; and promote the gynecological, andrological and reproductive health for people with Spina Bifida. Additionally, NICHD is encouraged to identify sensitive time periods to optimize health interventions; improve health during transition from adolescence to adulthood; and ensure safe and effective therapeutics and devices.

Stimulating Peripheral Activity to Relieve Conditions Initiative.—The agreement applauds NIH for its cross-cutting Stimulating Peripheral Activity to Relieve Conditions Initiative and is pleased by the Initiative's attention to research that aims to address gaps in treatments for patients suffering from gastrointestinal, genitourinary, cardiac, and other disorders. NIH is encouraged to work

collaboratively across its Institutes and Centers on innovative ways to expand treatment options for these often burdensome conditions.

Temporomandibular Disorders.—For the first time, the nation's leaders in health and medicine are enlisting experts to review all aspects of TMD, generating recommendations for research, regulation, and policy. To continue to build on advances in coordinated research and treatment, the agreement asks OD, as it continues to work with NASEM on the study, to explore the creation of a NIH inter-Institute TMD working group and to report to the Committees within 90 days following the publication of the final report.

Traumatic Brain Injury.—The agreement directs NIH to enhance its research efforts on alternative treatment methods for TBI and post-traumatic stress disorder (PTSD), including hyperbaric oxygen treatment (HBOT). The agreement encourages NIH to partner with DoD and VA to research treatment alternatives such as HBOT for veterans living with PTSD and/or TBI.

Trisomy 21.—The agreement includes \$60,000,000 for support of the Investigation of Co-Occurring Conditions Across the Lifespan to Understand Down Syndrome (INCLUDE) Initiative. It is expected that this multi-year, trans-NIH research initiative may yield scientific discoveries that could significantly improve the health and quality of life of individuals with Down syndrome as well as millions of typical individuals. The agreement requests the Director provide a plan within 60 days of enactment of this Act that includes a timeline description of potential grant opportunities and deadlines for all expected funding opportunities so that young investigators and new research institutions may be further encouraged to explore research in this space. This plan should also incorporate pipeline research initiatives specific to Down syndrome.

Tuberous Sclerosis Complex.—The agreement encourages the Director to apply recommendations from two recent NIH-sponsored workshops on Tuberous Sclerosis Complex (TSC): the Neurodevelopmental Disorders Biomarkers Workshop held in December 2017 involving TSC and related neurodevelopmental disorders to take advantage of biomarker expertise and lessons learned across disease groups, and the workshop entitled Accelerating the Development of Therapies for Anti-Epileptogenesis and Disease Modification held in August 2018 for which TSC is a model disorder with the ability to diagnose TSC prior to onset of epilepsy.

Urinary Tract Infections.—The agreement commends NIH for supporting research across the lifespan to better understand the genitourinary microbiome, the role of inflammation in bladder health, and the impact of these factors in urinary tract infections (UTIs). NIH should continue research in the development of new and novel therapies to treat and prevent UTIs, including small molecule candidates and other approaches that can disrupt infection and new antibiotics against extensively drug-resistant bacterial strains. The agreement supports the development of preventive therapies and new treatment strategies.

Inclusion in Clinical Research.—The agreement directs NIH to fund a NASEM study examining and quantifying the long-term medical and economic impacts of the inclusion of women and racial and ethnic minorities in biomedical research and subsequent translational work, and has provided \$1,200,000 to fund this effort.

NIH is directed to report to the Committees on this issue and it should include a review of the existing research on the long-term economic benefits of increasing the participation of women and racial and ethnic minorities in clinical trials and biomedical research, including an analysis of fiscal implications of inclusion on the nation's overall healthcare costs; examine new programs and interventions in medical centers that are currently working to increase participation of women of lower socioeconomic status and women who are members of racial and ethnic minority groups; identify programs that are positively addressing issues of underrepresentation; and analyze whether and how those programs are replicable and scalable; and identify more inclusive institutional and informational policies and procedures to improve health outcomes for racial and ethnic minorities, including health referral forms, continuing education classes, and more.

BUILDINGS AND FACILITIES

The bill includes \$225,000,000 from HHS' Nonrecurring Expenses Fund for buildings and facilities. The agreement directs NIH to provide a report with the fiscal year 2021 Congressional Justification recommending the steps it has taken and will take to implement the recommendations in the 2019 NASEM report *Managing the NIH Bethesda Campus' Capital Assets in a Highly Competitive Global Biomedical Research Environment*. There is a particular interest in the actions NIH is taking to apply the recommendations to update the Buildings and Facilities prioritization model, develop an annual budget request for Backlog of Maintenance and Repair, and strengthen its internal governance process, including assigning and empowering a senior leader to manage capital planning.

In addition, the agreement directs NIH to provide quarterly briefings of its Buildings and Facilities maintenance and construction plans, including specific milestones for advancing projects, status of the project, cost, and priority. These updates should also highlight and explain any potential cost and schedule changes affecting projects.

SUBSTANCE ABUSE AND MENTAL HEALTH SERVICES ADMINISTRATION (SAMHSA)

The agreement encourages SAMHSA to exercise maximum flexibility when developing funding opportunity announcements to ensure that all eligible applicants may apply.

MENTAL HEALTH

Certified Community Behavioral Health Clinics.—The agreement includes increased funding and directs SAMHSA to prioritize resources to entities within States that are part of the section 223(a) of the Protecting Access to Medicare Act of 2014 (P.L. 113–93) demonstration and to entities within States that were awarded planning grants.

Mental Health.—The agreement directs SAMHSA to provide a comprehensive plan to the Committees no later than 60 days after enactment of this Act identifying current gaps in mental health

care programs, highlighting how programs can help close those gaps, and providing recommendations to meet the needs of those experiencing mental illness.

National Child Traumatic Stress Initiative.—The agreement intends that \$13,000,000 is for a new competitive process to expand support for universities, hospitals, and community-based programs, of which at least \$4,000,000 is to be prioritized for mental health services for unaccompanied alien children. The agreement also provides an additional \$2,000,000 for activities authorized under section 582(d) and (e) of the Public Health Service Act.

Within the total provided for Mental Health Programs of Regional and National Significance (PRNS), the agreement includes the following amounts:

Within 120 days of enactment of this Act, the agreement directs ACF to submit to the Committees and make publicly available a report evaluating the program’s formula and allocations of funding among States, including an assessment of available data, how the formula currently addresses annual fluctuations in formula factors, and the percentage of eligible households served, average assistance amount, and percentage of home energy costs covered by that amount by State.

REFUGEE AND ENTRANT ASSISTANCE

The agreement notes that appropriate consultation with Congress is required by statute in advance of the Administration's determination on the number of refugees to be admitted during the coming fiscal year. In times of reductions in refugee arrivals, the agreement encourages HHS, to the extent practicable, to ensure that resettlement agencies can maintain their infrastructure and capacity at a level to continue to serve all refugees and to ensure future arrivals are adequately served. The agreement strongly encourages the Office of Refugee Resettlement (ORR) to continue to meet, on no less than a bi-monthly basis, with outside organizations with expertise in ORR programs to provide updates and hear the perspective of these stakeholders.

In addition, ORR is directed to continue to prioritize case management services and staffing, including Fed-

eral Field Specialists, lowering the ratio of children per case coordinator.

The agreement includes language continuing current law regarding the operational directives issued to modify sponsor suitability requirements, which significantly reduced the length of time children spend in care. The agreement expects HHS to continue to work on efforts to reduce time in care and to consider additional policy changes that can be made to release children to suitable sponsors as safely and expeditiously as possible. The agreement does not provide further direction on this issue.

Mental Health Services.—The agreement encourages ORR to continue collaborating with the National Child Traumatic Stress Network and notes that no less than \$4,000,000 is included in this agreement through SAMHSA for such efforts. ACF is directed to keep the Committees informed of additional resources necessary to support children and families who may need access to these services. In addition, the agreement directs ORR to provide a briefing to the Committees within 120 days of enactment of this Act on HHS' and grantees' coordination of health and mental health services, including training requirements for staff providing those services and any challenges to providing adequate care for children.

New Models of Care Delivery.—ORR is urged to include in the fiscal year 2021 Congressional Justification information about any plans being considered for new models of care delivery, along with a justification for how new models could best meet the needs of children in ORR care. When exploring the feasibility of such models, ORR is expected to prioritize community engagement, the use of pilot projects with short-term duration to demonstrate proof of concept before making significant or long-term investments, and a collaborative and transparent communications strategy with external stakeholders and Congress.

Records Requests.—The agreement expects ORR to maintain records and respond to records requests consistent with the requirements of section 552 of title 5, U.S. Code, for information related to all children in care, regardless of whether such children are housed in Federal facilities or, to the extent possible, non-Federal facilities managed by contractors or other private entities.

Services for Children.—The agreement includes an increase in funding for legal services, child advocates, and post-release services to support the expansion of State-licensed shelters, and to allow for the resumption and expansion of services to children released from ORR care. Using funds provided in this agreement, combined with funding from the Emergency Supplemental Appropriations for Humanitarian Assistance and Security at the Southern Border Act, 2019 (P.L. 116–26), ORR is directed to continue to expand such services beyond currently estimated levels, including for children released in high-release communities.

The agreement strongly encourages ORR to notify legal service providers at the time new grant awards are made and prior to opening a shelter, and to provide monthly estimates of funded ca-

capacity by shelter. Additionally, the agreement strongly encourages ORR to ensure that all UAC shelters provide space for legal service providers to meet with children.

Within amounts provided for post-release services in this agreement and combined with funds from P.L. 116–26, ORR is directed to expand post-release services capacity to eliminate the waitlist of children qualifying for Trafficking Victims Protection Reauthorization Act-mandated services, and to expand services to children that case managers identify would benefit from such services.

Sibling Placement.—The agreement directs ORR to place siblings in the same facility, or with the same sponsor, to the extent practicable, and so long as it is appropriate and in the best interest of the child.

Spend Plan.—The agreement directs ORR to incorporate all funding provided in this Act into a comprehensive spend plan that must be submitted to the Committees every 60 days in accordance with section 410 of the Emergency Supplemental Appropriations for Humanitarian Assistance and Security at the Southern Border Act, 2019 (P.L. 116–26).

Sponsorship Suitability Determination Process.—The Department is directed to ensure all grantees are provided clear guidance to communicate with potential sponsors regarding current law regarding the use of personal information collected as part of the sponsor suitability determination process. The agreement expects consistent monitoring to ensure program policies are applied appropriately by all grantees in an effort to place children with sponsors as safely and expeditiously as practicable.

State Licensed Shelters.—The agreement directs ORR to prioritize licensed, community-based residential care placements (including long-term and transitional foster care and small group homes) over large-scale institutions and to notify the Committees prior to all new funding opportunity announcements, grant or contract awards, or plans to lease or acquire property. Such notification should include associated timelines and costs.

Temporary Influx Shelters.—The agreement includes language continuing current law conditions on the use of temporary influx shelters, strengthens oversight and monitoring of facilities, and requires Congressional notifications and reporting requirements if a shelter is operationalized. The agreement requests HHS submit a report to the Committees within 90 days of enactment of this Act detailing the barriers to State-licensing, including any State child welfare laws and regulations, that could not be met for any influx facility operational in fiscal year 2019. If an influx shelter is opened in fiscal year 2020, ORR shall submit a report to the Committees with the same information within 90 days. In addition, the agreement notes that the spend plan required every 60 days must include a detailed cost breakdown of any facility, regardless of its operational status.

Tender Age Children.—The agreement directs ORR to include in the fiscal year 2021 Congressional Justification information on efforts to ensure developmentally appropriate care for tender age children, including placement options, services and staff training, as well as an assessment of circumstances under which very young children are referred to ORR.

CHILDREN AND FAMILIES SERVICES PROGRAMS

Early Head Start Expansion (EHS) and EHS–Child Care Partnerships.—The agreement modifies bill language to simplify the administration of EHS Expansion and EHS–Child Care Partnerships (EHS–CCP) grants, but does not otherwise change the use of funds provided for such purposes. The agreement continues to strongly support EHS Expansion and EHS–CCPs, and accordingly, the agreement includes at least \$905,000,000 for such purposes, an increase of \$100,000,000. Since fiscal year 2014, these funds have supported both the expansion of traditional EHS and the establishment of partnerships between EHS providers and local child care programs. The agreement directs ACF to continue to prioritize equally EHS Expansion and EHS–CCP, as determined by the needs of local communities. The agreement expects that any funds used for EHS Expansion and EHS–Child Care–Partnership grants that are re-competed would continue to be used for such purposes. Finally, the agreement directs ACF to include in the fiscal year 2021 Congressional Justification and each Congressional Justification thereafter, the actual and estimated number of funded slots for each of the following: Head Start, EHS, and EHS–Child Care Partnerships.

Quality Improvement Funding for Trauma-Informed Care.—The agreement provides \$250,000,000 in quality improvement funding, including a prioritization on addressing the rise of adverse childhood experiences attributable to increased prevalence of substance use, economic hardship, home and community violence, and other traumatic experiences that can negatively impact child development and lead to disruptions in classroom environments. The agreement directs the Administration to allow flexibility to meet local needs while focusing these funds on staff training for trauma-informed care and identification of signs of addiction and hardship; mental health consultation services to provide expert care and counseling to families and the Head Start workforce; and additional staffing to Head Start classes in high-risk substance use communities to maintain high-quality learning environments while providing individualized care to children expressing disruptive and challenging behaviors.

Designation Renewal System.—ACF is encouraged to continue to consider the unique challenges faced by Head Start grantees in remote and frontier areas when reviewing such grantees' compliance with health and dental screening requirements as part of the designation renewal system.

Preschool Development Grants.—The agreement includes an increase of \$25,000,000 for Preschool Development Grants and expects these additional funds to be managed in conjunction with funds appropriated in fiscal year 2019 that will be awarded in December 2019.

Runaway and Homeless Youth.—The agreement includes \$132,421,000 for Runaway and Homeless Youth programs. Within 120 days of enactment of this Act, ACF is directed to brief the Committees on the feasibility of coordinating with the Department of Housing and Urban Development's ongoing study on the incidence, prevalence, needs, and characteristics of youth homelessness

and housing instability, including geographic differences and vulnerable populations that have not yet been studied.

Child Abuse Prevention and Treatment Act Infant Plans of Safe Care.—The agreement continues \$60,000,000 to help States develop and implement plans of safe care as required by section 106(b)(2)(B)(iii) of the Child Abuse Prevention and Treatment Act. TITLE III

DEPARTMENT OF EDUCATION

SCHOOL IMPROVEMENT PROGRAMS

Homeless Children and Youth.—The Department implemented a reorganization of offices which in part altered the administration of the McKinney-Vento program, recently strengthened in the reauthorization of the Elementary and Secondary Education Act (ESEA). The Department shall brief the Committees no later than 60 days after enactment of this Act on the resources currently being devoted to monitoring compliance with ESEA accountability and State and local report card provisions related to homeless children and youth and supporting State educational agencies (SEA) and local educational agencies (LEA) in achieving and maintaining compliance with such provisions; the internal support within other program offices in the Department being provided to assist with administration of the Education for Homeless Children and Youth (EHCY) program; and the resources available for monitoring compliance with EHCY program requirements at the SEA and LEA level.

Education for Native Hawaiians.—The agreement includes sufficient funding for the Native Hawaiian Education Council.

Alaska Native Education Equity.—The Department is directed to make every effort to ensure that grants are awarded well in advance of the school year, to maximize grantees' ability to hire the necessary staff and have their programs in place by the start of Alaska's school year in mid-August. The Department is directed to

ensure that Alaska Native Tribes, Alaska Native regional non-profits, and Alaska Native corporations have the maximum opportunity to compete successfully for grants under this program by providing these entities multiple opportunities for technical assistance in developing successful applications for these funds, both in Alaska and through various forms of telecommunications. Finally, the Department is encouraged to include as many peer reviewers as possible who have experience with Alaska Native education and Alaska generally on each peer review panel.

Student Support and Academic Enrichment (SSAE) Grants.—The Department should examine State and local expenditures, outlined by specific authorized activities, and provide information about the most common uses of funds, as well as information about how LEAs plan to evaluate the effectiveness of their activities. The Department also should study how SEAs are collecting data from LEAs, including how States are verifying that funds are being used in an authorized manner and, as applicable, in accordance with required comprehensive needs assessments, and that LEAs are meeting the objectives and outcomes described in their applications. The Department should publish reports on these studies publicly and is encouraged to conduct such studies periodically as appropriate. Finally, the agreement does not provide direction regarding guidance on allowable uses of funds.

SSAE Technical Assistance and Capacity Building.—The agreement expects funds reserved for technical assistance and capacity building to be used strictly to support SEAs and LEAs in carrying out authorized activities under this program. In the fiscal year 2021 Congressional Justification, the Department shall provide current and planned expenditures, and include a plan for how resources will be spent to build the capacity of SEAs and LEAs and provide technical assistance. The plan should include how resources will be spent helping SEAs and LEAs vet evidence, implement evidence-based interventions, and incorporate evidence-based SSAE activities into school improvement strategies.

INDIAN EDUCATION

National Activities.—Within the total, the agreement includes no less than \$2,811,000 for Native American language immersion programs authorized under section 6133 of ESEA. These funds should be allocated to all types of eligible entities, including both new and existing language immersion programs and schools, to support the most extensive possible geographical distribution and language diversity. Further, the Department is directed to give the same consideration to applicants that propose to provide partial immersion schools and programs as to full immersion, as the local Tribes, schools, and other applicants know best what type of program will most effectively assist their youth to succeed.

Special Programs for Indian Children.—The President's budget request includes up to \$10,000,000 to expand the ability of families to choose high-quality educational opportunities to meet the needs of Native youth. The Department shall only pursue this initiative if supported by Tribes after Tribal consultation. Accordingly, the Department is directed to include information on the planned use of funds under the Special Programs for Indian Children program

in the operating plan required under section 516 of this Act, and to brief the Committees not less than 30 days prior to posting any notice inviting applications under this program.

INNOVATION AND IMPROVEMENT

Education Innovation and Research (EIR).—Within the total for EIR, the agreement includes \$65,000,000 to provide grants for social and emotional learning (SEL). Within 90 days of enactment of this Act, the Department is directed to brief the Committees on plans for carrying out the SEL competition. In addition, the Department shall provide notice to the Committees at least seven days before grantees are announced.

In addition, within the total for EIR, the agreement includes \$65,000,000 for Science, Technology, Education, and Math (STEM) and computer science education activities. This could also include grants to SEAs, including in partnership with non-profit organizations, for State-led efforts to implement, replicate, or expand State-wide professional development programs. Within the STEM and computer science set-aside, awards should expand opportunities for underrepresented students such as minorities, girls, and youth from families living at or below the poverty line to help reduce the enrollment and achievement gap. The agreement supports the Department's prioritization of computer science education in fiscal year 2019 EIR grant competitions and the Department should continue this in fiscal year 2020.

Grant Priorities.—There is significant demand from the field to test many types of strategies and to examine promising techniques that can be scaled-up in different settings. EIR should continue to support diverse and field-initiated interventions. The Department is directed to brief the Committees on the fiscal year 2020 funding opportunities available under this program, including any specified priorities, not less than 30 days prior to releasing a notice inviting applications.

Rural Set-Aside.—The Department is encouraged to take steps necessary to ensure the set-aside is met and that EIR funds are awarded to diverse geographic areas.

Charter Schools Program.—The agreement includes \$140,000,000 for replicating and expanding high-quality charter school models; \$225,000,000 for grants to State entities to support high-quality charter schools; and \$60,000,000 for facilities financing assistance, of which not less than \$50,000,000 shall be for the Credit Enhancement program. In addition, the agreement continues support for developer grants to establish or expand charter schools in underserved, high-poverty, rural areas, as referenced in the joint explanatory statement accompanying P.L. 115–245.

Arts in Education.—The agreement provides funding for each activity within this program at no less than the fiscal year 2019 level.

Ready to Learn.—In addition to language in House Report 116–62, the Department should refrain from making changes to the Ready to Learn program that would impede or impair production and nationwide distribution of television content, digital content, and supplemental materials through local public telecommunications entities.

Supporting Effective Educator Development (SEED).—Within SEED, the Department is directed to support professional development that helps educators incorporate SEL practices into teaching, and to support pathways into teaching that provide a strong foundation in child development and learning, including skills for implementing SEL strategies in the classroom. Within 90 days of enactment of this Act, the Department is directed to brief the Committees on plans for supporting SEL within SEED. In addition, the Department shall provide notice to the Committees at least seven days before grantees are announced.

In addition, the SEED program is an ideal vehicle for helping ensure that more highly trained school leaders are available to serve in traditionally underserved LEAs. Therefore, the Secretary shall use a portion of funds made available for SEED to support the preparation of principals and other school leaders.

Finally, students in rural public schools and public schools serving high percentages of Native students have particularly inequitable access to accomplished teachers. The Department should strongly consider establishing a priority for SEED projects addressing this issue and to increase the number of teachers in such schools who have earned a nationally recognized advanced credential.

SAFE SCHOOLS AND CITIZENSHIP EDUCATION

Promise Neighborhoods.—The agreement includes \$6,000,000 for additional extension awards for grantees that received extension grants in fiscal year 2018 and have demonstrated positive and promising results. This funding is intended to support the final phase-out of Federal support.

To promote the sustainability of these services, the Secretary shall require that awards include a 25 percent match from grantees and require that the awards do not supplant existing mental health funding. Within 90 days of enactment of this Act, the Department is directed to brief the Committees on plans for carrying out the competition. In addition, the Department shall provide notice to the Committees at least seven days before grantees are announced.

The Department is also directed to continue a demonstration project initiated in fiscal year 2019 to test and evaluate innovative partnerships to train school-based mental health professionals.

Demonstration projects and competitions to train and increase the number of school-based mental health professionals support the implementation of trauma-informed practices and other mental health supports in schools. Fostering trauma-informed cultures in schools helps both students and staff succeed by addressing the impacts of trauma; improves school capacity to identify, refer, and provide services to students; can improve staff retention and help keep students in school; and support learning environments where students feel safe, supported, and ready to learn.

Opioid Substance Use Disorder and Prevention.—The Department has implemented a priority in grant competitions for projects addressing opioid substance use disorder and prevention. More must be done to prevent opioid substance use disorder by students and address the mental health needs of students affected by opioid substance use disorder in their families or communities.

Project SERV.—The Department should ensure that funding made available for Project SERV grants is promptly awarded to eligible entities located in areas with high rates of community violence to restore any learning environment that was disrupted by a violent or traumatic crisis.

School Safety and Climate.—The Department is encouraged to partner with outside experts and other Federal agencies as appropriate to develop best-practices to improve school safety and school climate.

State and Federal Coordination on School Safety and Climate.—Many States have researched and in some cases provided reports on the local needs and solutions to maintain safe and welcoming school climates. The Department is encouraged to review such reports and support SEAs, as authorized in ESEA.

School Safety Clearinghouse and Mental Health Services for Students.—The Department is directed to brief the Committees within 90 days of enactment of this Act on: (1) the progress made by the Department in identifying, assessing, and disseminating evidence-based approaches to maintaining safe schools and positive learning environments for all students, including establishing a clearinghouse for such approaches; and (2) improving and expanding access to mental health services for students.

The Department is encouraged to continue to expand this program's reach to K–12 students in underserved areas.

Promoting Development of Social Skills for Students with Disabilities.—Within the total for Educational Technology, Media, and Materials, the agreement includes \$1,000,000 for a demonstration project to facilitate the development of new educational strategies and programming for students with disabilities who could benefit from social skills instruction. This should include utilizing new technologies and evidence-based curriculums in instructional settings, including advanced social robotics that integrate evidence-based practices to improve social skills and generate positive educational outcomes in students with disabilities.

Medicaid Services.—Opportunities exist to streamline access to and improve the quality of special education services, and steps should be taken to reduce administrative barriers for providing health services in and in coordination with schools. The Office of Special Education and Rehabilitative Services should coordinate with the Centers for Medicare & Medicaid Services to develop training and provide technical assistance to assist with billing and payment administration for Medicaid services in schools.

Special Olympics.—Within the total for Technical Assistance and Dissemination, the agreement includes \$20,083,000, an increase of \$2,500,000 above the fiscal year 2019 funding level, to support activities authorized by the Special Olympics Sport and Empowerment Act, including Project UNIFY.

The agreement directs the Secretary to ensure appropriate State level implementation of the Rehabilitation Act, which may include the Department providing technical assistance as necessary.

SPECIAL INSTITUTIONS FOR PERSONS WITH DISABILITIES

American Printing House for the Blind.—The agreement includes \$2,000,000, an increase of \$1,000,000, to continue and expand the Center for Assistive Technology Training regional partnership established in fiscal year 2019.

National Technical Institute for the Deaf.—The agreement includes \$5,500,000 to continue the National Technical Institute for the Deaf's (NTID) existing regional partnership in fiscal year 2020, intended to expand NTID's geographical reach and improve access to postsecondary STEM education and employment for students who are deaf or hard of hearing in underserved areas.

Gallaudet University.—The agreement includes \$3,000,000, an increase of \$1,000,000, to continue the regional partnership established in fiscal year 2019 focused on early language acquisition for children from birth through age three who are deaf or hard of hearing.

CAREER, TECHNICAL, AND ADULT EDUCATION

The Department is encouraged to establish the on-line portal for career and technical education students described in section 114(e)(7)(K) of the Carl D. Perkins Career and Technical Education Act.

The Department is encouraged to work with the Departments of Defense, Labor, and Commerce to develop a pilot project to increase the quality of and participation in career and technical education programs that would help develop the skilled workforce needed for new submarine construction.

STUDENT FINANCIAL ASSISTANCE

Pell Grants.—The agreement increases the maximum award by \$150, to \$6,345 in academic year 2020–2021.

Federal Work Study.—Within the total for Federal Work Study, the agreement includes \$10,051,000, for the Work Colleges program authorized under section 448 of the Higher Education Act (HEA).

The Department shall brief the Committees of jurisdiction within 45 days of enactment of this Act on actions planned or taken: (1) to address and implement recommendations outlined in a GAO report titled “*Public Service Loan Forgiveness: Improving the Temporary Expanded Process Could Help Reduce Borrower Confusion*” (GAO–19–595); (2) to simplify the Temporary Expanded Public Service Loan Forgiveness (TEPSLF) application process so borrowers can apply for TEPSLF at the same time as they apply for Public Service Loan Forgiveness (PSLF); (3) to provide more information to borrowers denied TEPSLF on the reason for the denial; (4) to conduct outreach to borrowers who may be eligible for TEPSLF; and (5) to improve administration of the PSLF program, including by implementing GAO’s recommendations for that program.

STUDENT AID ADMINISTRATION

Ability to Benefit.—The Department shall issue guidance that serves as a simple and clear resource for implementing Ability to Benefit at IHEs, which should restate the updated definition of a career pathway program and contain answers to frequently asked questions about program eligibility.

Student Loan Servicing.— The agreement includes \$1,768,943,000 for Student Aid Administration. The Department has stated that the implementation of the Next Generation Servicing Environment (Next Gen) will address problems with the current student loan servicing environment and improve accountability and services for students, borrowers and families. However, full implementation of Next Gen will take several years. In the interim, the Department should continue to take steps to improve the current servicing environment.

In addition to continuing statutory requirements from fiscal year 2019, the agreement includes new provisions directing the Department to hold servicers accountable for high-quality outcomes, non-compliance with Federal Student Aid (FSA) guidelines, contract requirements (e.g., an understanding of Federal and State law), and applicable laws, including misinformation provided to borrowers. In addition to provisions ensuring accountability and high-quality service from student loan servicers, the agreement also includes a new provision ensuring similar expectations, as applicable, for all of FSA’s contractors. As part of this effort, it is expected that FSA will monitor performance and service delivery at the point of contact between contractors and borrowers, as applicable, to ensure such accountability and high-quality service.

The Department should ensure, consistent with current statutory requirements, that the transition to Next Gen, including the Enhanced Processing Solution, does not rely on a single-servicer model. In addition to the directives in House Report 116-62, the agreement directs FSA to provide a detailed strategic plan for Next Gen to the Committees within 180 days of enactment of this Act, accounting for the cost of all activities associated with the full implementation of Next Gen, including transition costs, and to conduct semiannual briefings to the authorizing and Appropriations Committees.

The agreement directs the Department to continue to provide to the Committees quarterly reports detailing its obligation plan by quarter for student aid administrative activities broken out by servicer, Next Gen contractor and activity and detailing performance metrics, total loan volume and number of accounts, broken out by servicer, Next Gen contractor and for each private collection agency.

Free Application for Federal Student Aid (FAFSA) Simplification and Data Linkages.—The agreement supports efforts to further simplify the FAFSA and verification process to reduce the burden on students and IHEs, including swift implementation of recent legislative changes to the sharing of information between the Department and Internal Revenue Service and ensuring all service members and veterans can identify their status when they apply for student aid separate from the dependency determination.

Return of Title IV Funds.—The Department is encouraged to pursue efforts to simplify and streamline the return of title IV funds process for IHEs and students.

Student Aid Enforcement.—The Department shall include information in its fiscal year 2021 Congressional Justification on staffing levels of the Student Aid Enforcement Unit and actions taken by the unit, including the number and type of actions opened, pending, and closed annually.

Student Loan Cancellations and Discharges Reporting.—The Department should continue to bolster transparency through the Federal Student Aid Data Center by supplementing current reporting with, at a minimum, semiannual reports beginning no later than 90 days after enactment of this Act, on each of the Federal student loan cancellation and discharge programs. Each report should include the total number of unique borrowers who have applied for a program or have been identified under an applicable data match (“borrowers”), unique borrowers in each applicable status (received, pending, approved, and denied), total loan balance in each applicable status (received, pending, approved, and denied), median amount discharged for each program, and percentage of unique borrowers subject to any partial discharge. The Department should publish disaggregated information by State, as possible, and make such information available publicly on the Department’s website.

Total and Permanent Disability.—The agreement directs the Department to provide a report to the Committees within 180 days of enactment of this Act on steps taken or planned to be taken to improve information provided to students who are eligible for total and permanent disability discharge of Federal student loans or service obligations, including strategies used to improve outreach to

all eligible borrowers and increase the number of qualifying individuals receiving discharges.

Veterans Affairs Data Matching.—The Secretary shall provide a report not later than 90 days after enactment of this Act to the Committees on the implementation of the data matching system with the Department of Veterans Affairs to facilitate the discharge of student loans for veterans with total and permanent disabilities. Such report should include information about the number of veterans identified through the matching program, the number of loans automatically discharged as the result of the matching program, the number of loans discharged overall, and a description of the barriers for veterans who may be eligible for a student loan discharge for total and permanent disability but who have not received one, and planned actions for eliminating such barriers for veterans.

HIGHER EDUCATION

Aid for Institutional Development

Strengthening Institutions.—The Department is encouraged to support programs at Institutions of Higher Education (IHE) that offer training programs that lead to certificates or industry-recognized credentials in high-demand fields; provide educational experiences that are closely aligned to actual workforce needs; provide customizable and quality educational opportunities; and connect students to comprehensive educational offerings that provide students with other essential skills.

Postsecondary Programs for Students with Intellectual Disabilities

The agreement includes \$11,800,000 to carry out activities under title VII, part D, subparts 2 and 4 of the HEA. Funds will be used by the Department to hold a new competition to build on the important work that has been done to develop postsecondary opportunities for students with intellectual disabilities through model projects and the National Coordinating Center (NCC), and to expand the work of the NCC to conduct research to identify effective strategies used by postsecondary programs for students with intellectual disabilities that lead to positive employment and independent living outcomes.

Federal TRIO Programs

The Department is directed to allocate any grant funding not needed for non-competitive continuation awards or for programs up for re-competition in fiscal year 2020 to provide inflationary increases for current grantees and to increase the number and size of new awards in the Student Support Services grant competition. The Department is further directed to include proposed funding levels for each of the TRIO programs in the operating plan required under section 516 of this Act. There is great concern and disappointment that the Department has yet to issue a notice inviting applications for new awards for TRIO Student Support Services grants. The Department is directed to publish such notice inviting applications for new awards for TRIO Student Support Services grants no later than December 30, 2019 and take steps necessary

to award funding as early as possible before the beginning of the academic year.

Gaining Early Awareness and Readiness for Undergraduate Programs (GEAR UP)

The agreement notes concerns over the competition schedule for GEAR UP State and partnership grants. The agreement directs the Department to uphold the long-standing guidance that States may only administer one active State grant at a time. The Secretary is directed to provide written guidance in the Federal Register notifying applicants that only States without an active State grant, or States that have an active State grant that is scheduled to end prior to October 1, 2020, will be eligible to receive a new State award funded in whole or in part by this appropriation. The agreement directs the Department to provide a briefing to the Committees within 90 days of enactment of this Act on this program and any planned competitions for fiscal year 2020.

Fund for the Improvement of Postsecondary Education

The agreement includes \$24,500,000 for FIPSE, to remain available through December 31, 2020, for the following activities.

Career Pathways.—The agreement includes \$10,000,000 for grants to expand and improve career pathways opportunities for students beginning in high school. These grants should support the creation of sustainable, evidence-based career exploration and guidance systems that promote multiple pathways to postsecondary and career success.

Centers of Excellence for Veterans Student Success Program.—The agreement includes \$7,000,000 for the activity described under the heading “*Fund for the Improvement of Postsecondary Education*” and as set out in the paragraphs associated with the Centers of Excellence for Veterans Student Success Program in House Report 116–62.

Open Textbook Pilot.—The agreement includes \$7,000,000 to continue the Open Textbook Pilot and fund a new grant competition in fiscal year 2020. The Department shall issue a notice inviting applications consistent with notice and comment procedures and allow for a 60-day application period. This funding should support a significant number of grant awards to IHEs as defined by 20 U.S.C. 1001, a group of IHEs, or State higher education agencies that lead the activities of (and serve as fiscal agent for) a consortium. Funding should be used to create new open textbooks and expand the use of open textbooks in courses that are part of a degree granting program, and particularly those with high enrollments. Allowable uses of funds should include professional development for faculty and staff, including relating to the search for and review of open textbooks; the creation or adaptation of open textbooks; development or improvement of tools and informational resources that support the use of open textbooks, including accessible instructional materials for students with disabilities; and research evaluating the efficacy of the use of open textbooks for achieving savings for students and the impact on instruction and student learning outcomes. The Secretary shall require that any open textbooks created with these funds shall be released to the public under a non-

exclusive, royalty-free, perpetual, and irrevocable license to exercise any of the rights under copyright conditioned only on the requirement that attribution be given as directed by the copyright owner. Further, any tools, technologies, or other resources that are created, developed, or improved wholly or in part with these funds for use with any open textbook must be similarly licensed. Any eligible entity receiving a grant through the Open Textbooks Pilot, upon completion of the supported project, shall report to the Secretary regarding the effectiveness of the project in expanding the use of open textbooks and in achieving savings for students; the impact of the project on expanding the use of open textbooks at IHEs outside of the institution receiving the grant; open textbooks created or adapted under the grant, including instructions on where the public can access each open textbook; the impact of the project on instruction and student learning outcomes; and all project costs, including the value of any volunteer labor and institutional capital used for the project. The Secretary shall make such reports publicly available.

National Center for Information and Technical Support for Postsecondary Students with Disabilities.—The agreement includes \$500,000 for the operation of the National Center for Information and Technical Support for Postsecondary Students with Disabilities authorized under section 777(a) of the HEA.

HISTORICALLY BLACK COLLEGE AND UNIVERSITY

CAPITAL FINANCING PROGRAM ACCOUNT

The agreement includes \$46,484,000 for the Historically Black College and University (HBCU) Capital Financing program account. Using updated economic assumptions from the Department of Education, the funding provided for private loan deferments more accurately reflects those needs and continues all current loan deferments. The agreement includes additional funding and new bill language for the deferment of outstanding loans for public HBCUs. Further, the agreement directs the Department to provide such funding based on the quality of applications received and to prorate funds across all eligible schools.

INSTITUTE OF EDUCATION SCIENCES (IES)

Assessment.—The agreement supports assessments for students in United States History and Civics. The National Assessment Governing Board (NAGB) is directed to continue administering assessments in these two areas, at least every 4 years, in accordance with the current National Assessment of Educational Progress (NAEP) schedule. The agreement notes concern with recent changes to the proposed NAEP schedule, some of which differ from the schedule outlined in the fiscal year 2020 budget request, which proposed a reduction in funding for assessments that is part of the explanation for the modified assessment schedule. The Department and NAGB are directed to provide a briefing to the Committees within 45 days of enactment of this Act on the proposed changes and estimated funding needed to maintain the schedule outlined in the fiscal year 2020 budget request.

Second Chance Pell.—The agreement directs IES to conduct a rigorous evaluation of the Second Chance Pell Experiment as announced in the Federal Register (Volume 80, Number 148 on Monday, August 3, 2015) and work with the Department’s Policy and Program Studies on this effort. The agreement directs IES to submit the evaluation to the Committees within 30 days of completing the evaluation. The agreement also directs the Department to report no later than 90 days after the enactment of this Act on the implementation of GAO’s recommendation in its April 2019 report, “*Federal Student Aid: Actions Needed to Evaluate Pell Grant Pilot for Incarcerated Students*” (GAO–19–130).

DEPARTMENTAL MANAGEMENT

Bureau of Indian Education (BIE) Compliance with ESEA.—The Department shall provide a report to the committees of jurisdiction within 180 days of enactment of this Act on how it evaluates the BIE’s compliance with ESEA.

Civil Rights Data Collection (CRDC).—The agreement is concerned with the proposed elimination of key data elements from the 2019–20 CRDC that could impede efforts to identify and address inequities in educational resources and outcomes. Further, the agreement is concerned that the Department did not first review or evaluate the 2017–18 CRDC collection before proposing the elimination of these elements. As the CRDC is used to monitor and enforce equal opportunity in education, the agreement is concerned that the Department’s rationale for elimination focused on reducing regulatory burden while not including a comprehensive analysis of whether eliminating certain data elements would negatively impact the ability to understand or address civil rights issues in our nation’s schools. The agreement directs the Department to provide a briefing to the appropriations and authorizing Committees within 90 days of enactment of this Act on the proposed changes, how the changes reflect civil rights enforcement needs, information on the comments received on the proposal, an evaluation of the 2017–18 CRDC, and any impact on the mission and purpose of the CRDC and the Office for Civil Rights.

Competitions.—The agreement notes long-standing concern regarding the Department’s failure to issue notices inviting applications for competitive grant competitions in a timely manner. Such delays often result in a significant number of programs awarding grants in the final weeks of the fiscal year. Moreover, these delays have occurred for enduring, authorized programs for which there is sufficient funding history to believe appropriations will continue. The Department is directed to brief the Committees no later than 60 days after enactment of this Act on steps it has taken or will take to issue notices earlier in fiscal year 2020 and subsequent years.

Computer Science Education.—The agreement supports the Department’s prioritization of computer science education in fiscal year 2019 grant competitions and supports this focus in fiscal year 2020.

Department of Interior Schools.—The Departments of Education and Interior are commended for their efforts to improve the lives of American Indian students through a quality education. However,

more should be done to improve the long-documented issues facing Department of Interior schools. The Departments of Education and Interior are encouraged to continue to work together to improve the quality of education opportunities offered to Indian youth.

Disaster Recovery.—Funding awarded under the Bipartisan Budget Act of 2018 (P.L. 115–123) is available for obligation through fiscal year 2022, in part to address potentially lengthy recovery efforts. As grantees have experienced both expected and unexpected challenges that have slowed the expenditure of funds, the agreement strongly encourages the Department to extend the time grantees awarded funds in 2018 currently have to expend funds, as applicable, consistent with the terms of section 21208(b) of such Act.

Disclosures of Foreign Gifts and Contracts.—The agreement notes that section 117 of the HEA requires IHEs to disclose certain gifts from or contracts with foreign entities and that the Department makes such information publicly available on its website. Such disclosures are critical to ensure adequate oversight and transparency. The agreement directs the Department to engage with IHEs to ensure requirements under section 117 are clear and to provide guidance to IHEs to ensure they are aware of their responsibilities. As the Department provides guidance on this issue or modifies reporting methods or requirements, IHEs should be given adequate time to ensure proper reporting. The Department should brief the Committees within 45 days of enactment of this Act on efforts to engage with the stakeholder community, efforts to provide greater guidance and clarity on reporting requirements, and any additional information on agency efforts to comply with such section.

Diverse Geographical Distribution of Grants.—The Department is encouraged to continue efforts to ensure that competitive grants are distributed among eligible entities that serve geographically diverse areas, including urban, suburban, and rural areas. It is critical that support and solutions developed with Federal funding are relevant to and available in all areas consistent with authorizations of Federal programs.

Evidence-Based Grant Making.—The Secretary should use demonstrated evidence of effectiveness as part of the selection criteria through its Education Department General Administrative Regulations, consistent with authorizations, for all competitive grant programs. Non-competitive formula grant funds have a range of evidence requirements and preferences which the Department is directed to support through enhancements to its technical assistance and support activities.

Foundations for Evidence-Based Policymaking.—Faithful execution of the Foundations for Evidence-based Policymaking Act will enhance the evidence-building capacity of Federal agencies, strengthen privacy protections, improve secure access to data, and ultimately provide more and higher quality evidence to policymakers. The Department shall provide updates on its implementation of the law and plans for the coming year in its next and subsequent Congressional Justifications.

GAO Report on Teacher Shortages.—The agreement requests GAO provide a report to the Committees on trends and factors con-

tributing to school districts' challenges with teacher recruitment and retention. The report should include a review and analysis of challenges recruiting and retaining special education teachers, paraprofessionals, and teacher aides; the extent to which licensure requirements are waived or modified to address shortages; and geographic and demographic characteristics of districts facing the greatest challenges or shortages, including rural and urban areas. The report shall examine ways to improve the effectiveness of current Federal policy in preventing and responding to teacher shortages as well as make recommendations on potential Federal interventions to improve teacher recruitment and retention.

Human Resources.—The agreement is concerned about the full-time equivalent employment differences between the Department's Congressional Justifications and actual on-board staffing reports. The agreement notes an increase in the number of separations and hiring challenges at the Department. The agreement requests an update in the fiscal year 2021 Congressional Justification on the activities the Department has undertaken or will undertake to ensure adequate staffing levels are achieved for the Department to meet its obligations. The Committees request periodic updates on this effort.

Seclusion and Restraint Data.—The agreement strongly urges the Assistant Secretary for the Office for Civil Rights to take immediate steps in the ongoing 2017–2018 CRDC to improve the accuracy of the data, to remind and clarify for all schools and school districts to only report zero incidents of seclusion and restraint when no incidents have occurred, to leave cells blank for missing or incomplete data, and to contact schools and school districts that already submitted data for the 2017–2018 CRDC and verify the accuracy of the data. Finally, the agreement strongly urges the Assistant Secretary to monitor compliance with action plan requirements for missing data, and ensure plans are submitted and address all missing data. The agreement requests an update on these efforts in the fiscal year 2021 Congressional Justification.

TITLE IV RELATED AGENCIES

COMMITTEE FOR PURCHASE FROM PEOPLE WHO ARE BLIND OR SEVERELY DISABLED

The agreement includes an additional \$1,350,000 for the one-time costs associated with a move of the headquarters office.

CORPORATION FOR NATIONAL AND COMMUNITY SERVICE (CNCS) OPERATING EXPENSES

Innovation, Assistance, and Other Activities.—The agreement includes \$9,600,000 for innovation, assistance, and other activities. The agreement includes \$6,400,000 for the Volunteer Generation Fund, \$2,100,000 for the September 11th National Day of Service and Remembrance and \$1,100,000 for the Martin Luther King, Jr. National Day of Service.

Commission Investment Fund.—The agreement includes no less than \$8,500,000.

Fixed Amount Grants.—CNCS is encouraged to expand opportunities for AmeriCorps programs to utilize fixed amount grants, which could reduce unnecessary administrative burdens on current and potential AmeriCorps programs. Further, CNCS is encouraged to increase the current maximum cost per member service year of fixed amount grants to make it more comparable to cost reimbursement grant levels and allow new AmeriCorps programs to be eligible to apply for full-time fixed amount grants, while also ensuring that fixed amount grantees provide a comparable amount of matching funds and that there is sufficient oversight and accountability of fixed amount grantees.

Professional Corps.—CNCS is directed to include a determination of need by the local community among the factors that a professional corps program may use to demonstrate an inadequate number of professionals in a community. Further, CNCS is strongly encouraged to increase the maximum amount of operating funds per member service year a professional corps program may request as part of their grant application. Finally, CNCS is directed to provide professional corps programs flexibility in justifying the need for operating funds to ensure that these programs are able to provide high-quality services in all communities.

Transformation and Sustainability Plan.—There is concern with CNCS' transformation and sustainability plan (TSP), particularly related to moving from a State office to regional office structure. CNCS is directed to ensure that TSP does not create degradation in services, technical assistance, or support for local community service programs, particularly those operating in under-served and rural areas, and to provide periodic briefings to the Committees on steps taken to ensure that service is maintained. Further, the

CNCS is directed to provide a report within 30 days of enactment of this Act to the Committees. Such report should contain information on the metrics used and factors considered in determining the new regions and the location of regional offices; a complete analysis of all costs and savings associated with the transition to regional offices, including any increased travel or training costs; a description of other field structures considered; and a detailed response to each of the risk factors identified by the OIG. Finally, CNCS is encouraged to evaluate and consider adding additional regional offices as appropriate if it is determined that offices would enhance support for local community service programs.

CORPORATION FOR PUBLIC BROADCASTING (CPB)

The bill removes unnecessary language related to the Television Future Fund as no such fund exists. All operation of the Television Future Fund ceased after a 2004 GAO report titled “*Issues Related to Federal Funding for Public Television by the Corporation for Public Broadcasting*” (GAO-04-284) determined activities were done in an unauthorized manner. The agreement expects CPB to fully comply with all statutory requirements for the allocation and distribution of appropriated funds.

MEDICAID AND CHIP PAYMENT AND ACCESS COMMISSION (MACPAC)

Non-Emergency Medical Transportation (NEMT).—Within the amount provided, the agreement provides \$300,000 for MACPAC to examine, to the extent data are available, the benefits of NEMT from State Medicaid programs on Medicaid beneficiaries, including beneficiaries with chronic diseases including end stage renal disease (ESRD), substance abuse disorders, pregnant mothers, and patients living in remote, rural areas, and to examine the benefits of improving local coordination of NEMT with public transportation and other Federally-assisted transportation services. The agree-

ment directs HHS to take no regulatory action on availability of NEMT service until the study is completed.

NATIONAL LABOR RELATIONS BOARD (NLRB)

The agreement notes concern regarding NLRB personnel and obligation practices. Such practices have contributed to significant underspending on personnel costs. As a result of these practices, NLRB has had higher than historical funding lapses for the past two fiscal years. The October 2019 Inspector General “*Top Management and Performance Challenges*” memorandum included in NLRB fiscal year 2019 Performance and Accountability Report identifies NLRB’s current methodology for determining the workforce capacity needed to process cases as a key challenge to the Board’s ability to ensure the quality of its investigative work product and maintain a highly motivated workforce.

The agreement directs NLRB to address this challenge by posting position openings to restore critical field staff capacity and to more aggressively fill vacancies in fiscal year 2020, including the remaining open regional director positions. To ensure NLRB makes progress toward addressing this issue, the agreement directs the Board to expand the number of regional full-time equivalent staff beyond the amount on-board at the end of the fourth quarter of fiscal year 2019. Within 90 days of enactment of this Act, NLRB is directed to brief the Committees on its plans for addressing these critical hiring challenges.

Further, NLRB is directed to submit a report to the Committees within 90 days of enactment of this Act detailing the resources dedicated to regional offices. Such report should include actual and planned data, as applicable, for fiscal years 2011 through 2021: (1) the number of employees stationed in each regional office and (2) administrative expenses by object class for each regional office. In addition, the agreement directs the Board to provide monthly staffing reports to the Committees. Such staffing reports should include the total number of employees in each position for each regional office, attrition for each office, new hires for each office, and any information on plans to incentivize or encourage employee separations.

RAILROAD RETIREMENT BOARD

LIMITATION ON ADMINISTRATION

The agreement includes \$10,000,000 for the implementation of information technology systems modernization efforts.

GAO Review.—The agreement requests GAO conduct a management review of the Railroad Retirement Board, including, financial management practices, regional office structure and workforce planning needs, oversight of programs, and any other matters GAO considers relevant.

SOCIAL SECURITY ADMINISTRATION (SSA)

LIMITATION ON ADMINISTRATIVE EXPENSES

The agreement includes an increase of \$100,000,000 for SSA’s base administrative expenses for additional hires and resources to

improve public service at SSA field offices and direct service operations.

Continuing Disability Reviews.—The agreement directs SSA to include in its next continuing disability review (CDR) report to Congress an evaluation of its CDR prioritization models and a cost-benefit analysis of how it uses estimated savings in determining which beneficiaries receive a full-medical CDR. Additionally, the agreement requests in the fiscal year 2021 Congressional Justification, the process by which SSA intends to pace its CDR workload to properly manage Limitation on Administrative Expenses funding.

Disability Case Processing System (DCPS).—SSA is encouraged to engage with States to explore all possible options for modernization of the case processing system, to align with the needs of each State, so long as such options have similar or better functionality as DCPS, similar or lower costs to DCPS, and are consistent with Federal procurement and security standards. SSA should continue to provide regular updates on the effort to upgrade DCPS, including the cost and anticipated timeline of the project, and efforts by SSA to engage stakeholders, including any barriers to implementation.

Disability Hearings Backlog.—The agreement encourages SSA to include comprehensive information in its existing reports to Congress on the specific policies SSA has implemented, or has considered, to streamline the disability determination and adjudication process. When considering or implementing changes, SSA should ensure due process, and that applicants have a full and adequate opportunity to present their claims.

Field Office Closures.—While SSA's Inspector General reviews decisions to close field offices, the Commissioner is strongly encouraged to take every action possible to maintain operations at the offices under review. SSA is expected to support front line operations. As part of the fiscal year 2021 Congressional Justification, SSA should include a plan to identify opportunities for improved field office operations. Finally, SSA is strongly encouraged to ensure its policies and procedures for closing field offices include at least 120 days advance notice to the public, SSA employees, Congress, and other stakeholders. Such notice should include a rationale for the proposed closure and an evaluation of the effects on the public and SSA operations.

Mail and Printing Systems.—SSA is encouraged to consider and evaluate modernization of its mail and printing systems and contracts that could result in budgetary savings while improving fraud prevention. The agreement requests a briefing for the Committees within 180 days of enactment of this Act on current mailing and printing systems and contracts, including systems or contracts relating to Social Security Cards, and any ongoing efforts to modernize or otherwise improve such systems.

Medical Vocational Guidelines.—The agreement directs SSA to provide a report to the Committees within 90 days of enactment of this Act on its plan and timetable for updating and modernizing medical vocational guidelines and to engage appropriate Committees of jurisdiction prior to making any changes to such guidelines.

Telework.—SSA is urged to develop a telework plan for Operations employees as quickly as practicable and to brief the Committees on the status of efforts to reinstate telework within 60 days of enactment of this Act.

Video Hearings.—The agreement reiterates the language included under this heading in House Report 116-62, and directs SSA to provide an update in the fiscal year 2021 Congressional Justification detailing the extent to which SSA meets best practices outlined by the Administrative Conference of the U.S., and the extent to which SSA video hearings, policies, and practices are accessible to individuals with disabilities.

Work Incentives Planning and Assistance (WIPA) and Protection and Advocacy for Beneficiaries of Social Security (PABSS).—The agreement includes \$23,000,000 for WIPA and \$7,000,000 for PABSS.

TITLE V

GENERAL PROVISIONS

The agreement modifies a provision related to reports on non-competitive contracts, grants and cooperative agreements.

The agreement modifies a provision related to Performance Partnerships.

The agreement includes a new provision related to grant notifications.

The agreement includes a new provision related to questions for the record.

The agreement includes a provision rescinding various unobligated balances.

FOOD AND DRUG ADMINISTRATION, AND RELATED
AGENCIES APPROPRIATIONS ACT, 2020**

CONGRESSIONAL DIRECTIVES

The statement is silent on provisions that were in both the House Report (H. Rpt. 116–107) and Senate Report (S. Rpt. 116–110) that remain unchanged by this agreement, except as noted in this statement.

The House and Senate report language that is not changed by the statement is approved and indicates congressional intentions. The statement, while repeating some report language for emphasis, does not intend to negate the language referred to above unless expressly provided herein.

In cases in which the House or the Senate have directed the submission of a report, such report is to be submitted to both the House and Senate Committees on Appropriations no later than 60 days after enactment of this Act, unless otherwise directed.

Hereafter, in division B of this statement, the term ‘the Committees’ refers to the Committees on Appropriations of the House of Representatives and the Senate.

For the appropriations provided by this Act and previous Acts, the departments and agencies funded by this agreement are reminded that the Committees use the definitions for transfer, reprogramming, and program, project, and activity as defined by the Government Accountability Office (GAO) in GAO–04–261SP Appropriations Law—Vol. I and GAO–05–734SP Budget Glossary.

A transfer is the shifting of funds between appropriations. It applies to (1) transfers from one agency to another, (2) transfers from one account to another within the same agency, and (3) transfers to an interagency or intra-agency working fund. In each instance, statutory authority is required.

Reprogramming is the utilization of funds in an appropriation account for purposes other than those contemplated at the time of appropriation. It is the shifting of funds from one object to another within an appropriation.

A program, project, or activity (PPA) is an element within a budget account. PPAs are identified by reference to include the most specific level of budget items identified in the Agriculture, Rural Development, Food and Drug Administration, and Related

Agencies Act, 2020, accompanying Committee reports, explanatory statements, and budget justifications. Program activity structures are intended to provide a meaningful representation of the operations financed by a specific budget account by project, activity, or organization.

For fiscal year 2020, the Committees continue to include bill language requiring advanced notification of certain agency actions. Notification will be required at least 30 days in advance of any action if (1) a major capital investment is modified; (2) an office is realigned or reorganized; and (3) activities are carried out that were not described in the budget request.

The agreement directs the Office of Budget and Program Analysis (OBPA) of the U.S. Department of Agriculture (USDA) to provide an organizational chart for each agency funded by this Act to the division and subdivision level, as appropriate, by February 1, 2020. The agreement also directs the Food and Drug Administration (FDA), the Commodity Futures Trading Commission (CFTC), and the Farm Credit Administration (FCA) to provide an organizational chart of each agency respectively to the division and subdivision level, as appropriate, by February 1, 2020.

Further, USDA, FDA, and CFTC should be mindful of Congressional authority to determine and set final funding levels for fiscal year 2021. Therefore, the agencies should not presuppose program funding outcomes and prematurely initiate action to redirect staffing prior to knowing final outcomes on fiscal year 2021 program funding. The agreement directs OBPA to provide the Committees with the number of staff years and employees on board for each agency funded by this Act on a quarterly basis.

TITLE I

AGRICULTURAL PROGRAMS

PROCESSING, RESEARCH AND MARKETING

OFFICE OF THE SECRETARY

(INCLUDING TRANSFERS OF FUNDS)

The agreement provides \$46,139,000 for the Office of the Secretary.

The agreement is concerned with the number of staff vacancies within USDA. While funding levels continue to increase for many agencies, staffing levels continue to decline. Within 180 days after enactment, the Secretary shall provide detailed staffing levels for all research agencies, the Farm Service Agency, all marketing agencies, Rural Development, the Food and Nutrition Service, and the Foreign Agricultural Service. The report shall include all vacancies that have remained unfilled for more than six months and detailed plans to fill those vacancies. The report shall also include for each agency, the number of fulltime equivalent (FTE) staff utilized and the number of vacancies for fiscal years 2015 through 2019.

The agreement notes the ongoing contract negotiations between West Coast grain terminal operators and the International Longshore and Warehouse Union and recognizes the importance of

reaching an agreement that works for both parties. A failure to reach an agreement could result in an interruption in grain terminal service that would negatively impact the nation’s grain exports. The agreement urges all parties to continue negotiating in good faith to ensure an equitable outcome for both grain terminal operators and their workers is expeditiously reached.

The agreement directs the Secretary to submit a report that describes the economic and environmental impacts of importing orchids in growing media. The report shall include: a description of the economic impact of importing orchids in growing media on a state-by-state basis, with data collected from local growers; any incidents of pests detected on orchids imported with growing media; and an analysis with respect to additional resources that are necessary to prevent and mitigate the introduction of pests resulting from importing orchids in growing media.

The agreement directs the Secretary to preserve the term “climate change” in any publication where scientifically appropriate.

In addition to updates provided to the Committees, the Department is directed to include in its fiscal year 2021 Congressional Justification, as a single exhibit, a table listing all deliverables, with a column for due dates if applicable.

The Department is reminded of enacted language prohibiting the initiating, planning, developing, implementing, or making of any changes to remove or relocate any systems, missions, or functions of the offices of the Chief Financial Officer or any personnel from the National Finance Center prior to written notification to and prior approval of the Committee on Appropriations of both Houses of Congress.

The agreement recognizes the important role of the Forest Service Job Corps Civilian Conservation Centers and directs the Secretary to continue the program as currently structured.

The Department is directed to treat crop losses due to freeze as losses resulting from snowstorms and therefore eligible for WHIP+ payments.

During fiscal year 2020 and each fiscal year thereafter, notwithstanding any provision of title 5, United States Code, relating to classification or rates of pay, the Southeastern Power Administration shall pay any power system dispatcher employed by the Administration a rate of basic pay and premium pay based on those prevailing for similar occupations in the electric power industry. Basic pay and premium pay may not be paid under this section to any individual during a calendar year so as to result in a total rate in excess of the rate of basic pay for level V of the Executive Schedule (section 5316 of such title).

DIVISION C—ENERGY AND WATER DEVELOPMENT AND RELATED AGENCIES APPROPRIATIONS ACT, 2020

The following statement to the House of Representatives and the Senate is submitted in explanation of the agreed upon Act making appropriations for energy and water development for the fiscal year ending September 30, 2020, and for other purposes.

This explanatory statement, while repeating some report language for emphasis, does not intend to negate the language and allocations set forth in House Report 116–83 (“House report”) and Senate Report 116–102 (“Senate report”) and that direction shall be complied with unless specifically addressed to the contrary in the accompanying bill or explanatory statement. Additionally, where this explanatory statement states that the “agreement only includes” or “the following is the only” direction, any direction included in the House or Senate report on that matter shall be considered as replaced with the direction provided within this explanatory statement. In cases where the House or the Senate has directed the submission of a report, such report is to be submitted to the Committees on Appropriations of both Houses of Congress. House or Senate reporting requirements with deadlines prior to or within 15 days of the enactment of this Act shall be submitted not later than 60 days after enactment of this Act. All other reporting deadlines not changed by this explanatory statement are to be met.

Funds for the individual programs and activities within the accounts in this Act are displayed in the detailed table at the end of the explanatory statement for this Act. Funding levels that are not displayed in the detailed table are identified in this explanatory statement.

In fiscal year 2020, for purposes of the Balanced Budget and Emergency Deficit Control Act of 1985 (Public Law 99–177), the following information provides the definition of the term “program, project, or activity” for departments and agencies under the jurisdiction of the Energy and Water Development Appropriations Act. The term “program, project, or activity” shall include the most specific level of budget items identified in the Energy and Water Development Appropriations Act, 2020 and the explanatory statement accompanying this Act.

No specific funds for rejecting any application for a grant available under funds appropriated by this Act because of the use of the

term “global warming” or the term “climate change” in the application are included for any agency funded in this Act.

TITLE I—CORPS OF ENGINEERS—CIVIL

DEPARTMENT OF THE ARMY

CORPS OF ENGINEERS—CIVIL

The summary tables included in this title set forth the dispositions with respect to the individual appropriations, projects, and activities of the Corps of Engineers (Corps). Additional items of this Act are discussed below.

Asian Carp.—The agreement acknowledges that the Corps completed the Report of the Chief of Engineers for the Great Lakes—Mississippi River Interbasin Study—Brandon Road Recommended Plan in fiscal year 2019. As the Corps prioritizes projects, it shall consider critical projects to prevent the spread of invasive species. The Corps is reminded that this critical project is eligible to compete for additional funding within the Investigations account in order to initiate Planning, Engineering, and Design (PED). The Corps is directed to provide to the Committees on Appropriations of both Houses of Congress quarterly updates on the progress and status of efforts to prevent the further spread of Asian carp, including the Brandon Road Recommended Plan, the location and density of carp populations, the use of emergency procedures previously authorized by Congress, and the development, consideration, and implementation of new technological and structural countermeasures.

There is disappointment that the administration chose to cut Corps funding for the important inter-agency collaborative work to address Asian carp. The Corps shall continue to collaborate at levels commensurate with previous years with the U.S. Coast Guard, the U.S. Fish and Wildlife Service, the State of Illinois, and members of the Asian Carp Regional Coordinating Committee, including identifying navigation protocols that would be beneficial or effective in reducing the risk of vessels inadvertently carrying aquatic invasive species, including Asian carp, through the Brandon Road Lock and Dam in Joliet, Illinois. Any findings of such an evaluation shall be included in the quarterly briefings to the Committees on Appropriations of both Houses of Congress. The Corps is further directed to implement navigation protocols shown to be effective at reducing the risk of entrainment without jeopardizing the safety of vessels and crews. The Corps and other federal and state agencies are conducting ongoing research on potential solutions. The Corps shall brief the Committees on Appropriations of both Houses of Congress on such navigation protocols and potential solutions not later than 30 days after enactment of this Act.

Budget Structure Changes.—The agreement includes House and Senate language regarding budget structure changes.

Inland Waterways System.—The agreement includes House and Senate language.

Regional Dredge Demonstration Program.—To respond more effectively to critical national dredging requirements resulting from significant recurring storm events, in combination with routine annual dredging demands, the agreement directs the Corps to execute

a multi-year dredging demonstration program within the Central Gulf Coast Region.

Key features of the program will explore innovative ways of executing dredging in a logical, sequenced manner, unconstrained by more traditional project-specific, account-specific, or single-year practices and seek efficiencies and cost savings by evaluating the region as a system to determine when combining work across multiple deep draft commercial navigation projects, across years, or across Construction and Operation and Maintenance accounts is appropriate. By including the Mississippi River Baton Rouge to the Gulf of Mexico (Southwest Pass) and other nearby Gulf Coast commercial navigation projects, the goals of the program are to include being more responsive to dredging demands within the region, while minimizing disruption to critical construction and maintenance dredging requirements enterprise-wide.

To demonstrate the described multi-year efficiencies, the agreement includes \$377,650,000 in a Regional Dredge Demonstration Program funding line item in the Construction account to be used for deep draft navigation projects in the Gulf of Mexico between Louisiana and Alabama within the Mississippi Valley Division and the South Atlantic Division Civil Works boundaries. The Corps shall select one deepening project in each eligible state for inclusion in the demonstration program. Projects that have previously received funding from the Construction account and require no new authorization shall be eligible for inclusion in the demonstration program. Consequently, such projects shall be considered ongoing and shall not require a new start designation. The agreement includes additional funding in the Operation and Maintenance account to support this demonstration program. Operation and Maintenance projects eligible for inclusion in the demonstration program may include Gulf of Mexico states between Florida and Texas, where appropriate. The agreement also includes Senate briefing and reporting requirements.

ADDITIONAL FUNDING

The agreement includes funding above the budget request to ensure continued improvements to our national economy, public safety, and environmental health that result from water resources projects. This funding is for additional work that either was not included in the budget request or was inadequately budgeted. The bill contains a provision requiring the Corps to allocate funds in accordance with only the direction in this agreement. In lieu of all House and Senate direction—under any heading—regarding additional funding, new starts, and the fiscal year 2020 work plan, the Corps shall follow the direction included in this explanatory statement.

The executive branch retains complete discretion over project-specific allocation decisions within the additional funds provided, subject to only the direction here and under the heading “Additional Funding” or “Additional Funding for Ongoing Work” within each of the Investigations, Construction, Mississippi River and Tributaries, and Operation and Maintenance accounts. A study or project may not be excluded from evaluation for being “inconsistent with administration policy.” Voluntary funding in excess of legally-

required cost shares for studies and projects is acceptable, but shall not be used as a criterion for allocating the additional funding provided or for the selection of new starts.

The administration is reminded that these funds are in addition to the budget request, and administration budget metrics shall not be a reason to disqualify a study or project from being funded. It is expected that all of the additional funding provided will be allocated to specific programs, projects, or activities. The focus of the allocation process shall favor the obligation, rather than expenditure, of funds.

The Corps shall evaluate all studies and projects only within accounts and categories consistent with previous congressional funding. When allocating the additional funding provided in this Act, the Corps shall consider eligibility and implementation decisions under Public Law 115–123 and Public Law 116–20 so as to maximize the reduction of risk to public safety and infrastructure and the reduction of future damages from floods and storms nationwide.

A project or study shall be eligible for additional funding within the Investigations, Construction, and Mississippi River and Tributaries accounts if: (1) it has received funding, other than through a reprogramming, in at least one of the previous three fiscal years; (2) it was previously funded and could reach a significant milestone, complete a discrete element of work, or produce significant outputs in calendar year 2020; or (3) as appropriate, it is selected as one of the new starts allowed in accordance with this Act and the additional direction provided below. None of the additional funding in any account may be used for any item where funding was specifically denied or for projects in the Continuing Authorities Program. Funds shall be allocated consistent with statutory cost share requirements.

Work Plan.—Not later than 60 days after enactment of this Act, the Corps shall provide to the Committees on Appropriations of both Houses of Congress a work plan including the following information: (1) a detailed description of the process and criteria used to evaluate studies and projects; (2) delineation of how these funds are to be allocated; (3) a summary of the work to be accomplished with each allocation, including phase of work and the study or project's remaining cost to complete (excluding Operation and Maintenance); and (4) a list of all studies and projects that were considered eligible for funding but did not receive funding, including an explanation of whether the study or project could have used funds in calendar year 2020 and the specific reasons each study or project was considered as being less competitive for an allocation of funds.

New Starts.—The agreement includes six new starts in the Investigations account and six new starts in the Construction account to be distributed across the authorized mission areas of the Corps.

Of the new starts in Investigations, one shall be for an environmental restoration study; one shall be for a multi-purpose watershed study to address coastal resiliency; one shall be for a flood and storm damage reduction study; one shall be for a flood and storm damage reduction study or environmental restoration study; and two shall be for navigation studies. Of the two navigation

study starts, one may be for a Small, Remote or Subsistence Harbor navigation study. Of the new construction starts, two shall be for navigation projects; two shall be for environmental restoration projects, of which one shall be for the new project start requested by the administration pursuant to the Fiscal Year 2020 Budget amendments transmitted to Congress on May 13, 2019; and two shall be for flood and storm damage reduction, environmental restoration, or multi-purpose projects. No funding shall be used to initiate new programs, projects, or activities in the Mississippi River and Tributaries or Operation and Maintenance accounts.

The Corps is directed to propose a single group of new starts as a part of the work plan. None of the funds may be used for any item for which the agreement has specifically denied funding. The Corps may not change or substitute the new starts selected once the work plan has been provided to the Committees on Appropriations of both Houses of Congress. Each new start shall be funded from the appropriate additional funding line item. Any project for which the new start requirements are not met by the end of calendar year 2020 shall be treated as if the project had not been selected as a new start; such a project shall be required to compete again for new start funding in future years. As all new starts are to be chosen by the Corps, all shall be considered of equal importance, and the expectation is that future budget submissions will include appropriate funding for all new starts selected.

There continues to be confusion regarding the executive branch's policies and guidelines regarding which studies and projects require new start designations. Therefore, the Corps is directed to notify the Committees on Appropriations of both Houses of Congress at least seven days prior to execution of an agreement for construction of any project except environmental infrastructure projects and projects under the Continuing Authorities Program. Additionally, the agreement reiterates and clarifies previous congressional direction as follows. Neither study nor construction activities related to individual projects authorized under section 1037 of the Water Resources Reform and Development Act (WRRDA) of 2014 shall require a new start or new investment decision; these activities shall be considered ongoing work. No new start or new investment decision shall be required when moving from feasibility to PED. A new start designation shall be required to initiate construction of individually-authorized projects funded within programmatic line items. No new start or new investment decision shall be required to initiate work on a separable element of a project when construction of one or more separable elements of that project was initiated previously; it shall be considered ongoing work. A new construction start shall not be required for work undertaken to correct a design deficiency on an existing federal project; it shall be considered ongoing work. The Corps is reminded that resumptions are just that—resumption of previously-initiated studies or projects and, as such, do not require new start designations.

In addition to the priority factors used to allocate all additional funding provided in the Investigations account, the Corps should give careful consideration to the out-year budget impacts of the studies selected and to whether there appears to be an identifiable local sponsor that will be ready and able to provide, in a timely

manner, the necessary cost share for the feasibility and PED phases. The Corps is reminded that the flood and storm damage reduction mission area can include instances where non-federal sponsors are seeking assistance with flood control and unauthorized discharges from permitted wastewater treatment facilities and that the navigation mission area includes work in remote and subsistence harbor areas. Within the flood and storm damage reduction mission, the Corps is urged to strive for an appropriate balance between inland and coastal projects.

In addition to the priority factors used to allocate all additional funding provided in the Construction account, the Corps also shall consider the out-year budget impacts of the selected new starts, the cost sharing sponsor's ability and willingness to promptly provide the cash contribution, if any, as well as required lands, easements, rights-of-way, relocations, and disposal areas. When considering new construction starts, only those that can execute a project cost sharing agreement not later than December 31, 2020, shall be chosen.

To ensure that the new construction starts are affordable and will not unduly delay completion of any ongoing projects, the Secretary is required to submit to the Committees on Appropriations of both Houses of Congress a realistic out-year budget scenario prior to issuing a work allowance for a new start. It is understood that specific budget decisions are made on an annual basis and that this scenario is neither a request for nor a guarantee of future funding for any project. Nonetheless, this scenario shall include an estimate of annual funding for each new start utilizing a realistic funding scenario through completion of the project, as well as the specific impacts of that estimated funding on the ability of the Corps to make continued progress on each previously funded construction project, including impacts to the optimum timeline and funding requirements of the ongoing projects, and on the ability to consider initiating new projects in the future. The scenario shall assume a Construction account funding level at the average of the past three budget requests.

INVESTIGATIONS

The agreement includes \$151,000,000 for Investigations. The agreement includes legislative language regarding parameters for new study starts.

^Funded in another account.

~Funded in remaining items.

Additional Funding.—The Corps is expected to allocate the additional funding provided in this account primarily to specific feasibility and PED phases, rather than to Remaining Items line items as has been the case in previous work plans.

Of the additional funding provided in this account for environmental restoration or compliance, the Corps shall allocate not less than \$9,782,000 for ecosystem restoration projects in the PED phase that have been funded within the last three years.

Of the additional funding provided in this account for environmental restoration or compliance and other authorized project purposes, the Corps shall allocate not less than \$2,000,000 for ecosystem restoration projects that are modifications to flood protection project authorizations to address degraded conditions due to prior flood protection work. Of the additional funding provided in this account for environmental restoration or compliance and other authorized project purposes, the Corps shall allocate not less than \$200,000 to PED activities for ecosystem restoration projects that also provide additional flood storage capacity by restoring the natural habitat.

Of the additional funding provided in this account for flood and storm damage reduction and flood control, the Corps shall allocate not less than \$1,500,000 for PED for projects that are located in economically-disadvantaged communities where per capita income is less than half of the state and national averages and that have previously experienced loss of life due to flooding.

Of the additional funding provided in this account for shore protection, the Corps shall allocate not less than \$905,000 for the PED phase of beach renourishment projects that have been authorized by Congress for construction.

Of the additional funding provided in this account, the Corps shall allocate not less than \$10,380,000 for multipurpose projects in the PED phase that have been funded within the last three years.

When allocating the additional funding provided in this account, the Corps shall consider giving priority to completing or accelerating ongoing studies or to initiating new studies that will enhance the nation's economic development, job growth, and international competitiveness; are for projects located in areas that have suffered recent natural disasters; are for projects that protect life and property; are for projects to restore floodplain and aquatic habitat through cost-effective and tested means; or are for projects to address legal requirements. The Corps shall use these funds for additional work in both the feasibility and PED phases. The agreement includes sufficient additional funding to undertake a significant amount of feasibility and PED work. The administration is reminded that a project study is not complete until the PED phase is complete. The Corps is reminded that the updating of economic analyses and economic impact studies are eligible to receive additional funding.

Principles, Requirements, and Guidelines.—Not later than 60 days after enactment of this Act, the Corps shall brief the Committees on Appropriations of both Houses of Congress on the efforts necessary to develop implementation rules and guidelines for the final Principles, Requirements, and Guidelines for Federal Invest-

ments in Water Resources released in March 2013 and the final Interagency Guidelines released in December 2014. The Corps shall include in this briefing a timeline for completion of the implementation rules and guidelines, how the Corps' ongoing planning efforts would be impacted by implementation, impacts to funding prioritization, and any challenges associated with the development and implementation of such rules and guidelines. The Corps is urged to prioritize these efforts.

Updated Capability.—The agreement adjusts some project-specific allocations downward from the budget request based on updated information regarding the amount of work that could be accomplished in fiscal year 2020.

Additional Funding.—The agreement includes additional funds for projects and activities to enhance the nation's economic growth and international competitiveness.

Of the additional funding provided in this account for flood control, the Corps shall allocate not less than \$20,000,000 to undertake studies and recommendations for construction resulting from a Dam Safety Modification Report completed under section 1177 of the WIIN Act (Public Law 114–322), as amended. Of the additional funding provided in this account for flood and storm damage reduction and flood control, the Corps shall allocate not less than \$20,000,000 to additional nonstructural flood control projects. Of the additional funding provided in this account for flood and storm damage reduction and flood control, the Corps shall allocate not less than \$25,000,000 to continue construction of projects that principally address drainage in urban areas.

Of the additional funding provided in this account for navigation and other authorized project purposes, the Corps shall allocate not less than \$50,000,000 to continue activities to construct new navigation infrastructure for locks and Corps-owned bridges not on the inland waterways system.

Of the additional funding provided in this account for environmental restoration or compliance and other authorized project purposes, the Corps shall allocate not less than \$25,000,000 for multistate ecosystem restoration programs for which a comprehensive restoration plan is in development or has been completed, of which not less than \$5,000,000 shall be for projects or programs that restore and rehabilitate native oyster reefs.

Of the additional funding provided in this account for environmental restoration or compliance and other authorized project purposes, the Corps shall allocate not less than \$28,000,000 for ecosystem restoration projects that have incidental flood risk management benefits.

Of the additional funds provided in this account for flood and storm damage reduction, navigation, and other authorized project purposes, the Corps shall allocate not less than \$35,000,000 to authorized reimbursements for projects with executed project cooperation agreements and that have completed construction or where non-federal sponsors intend to use the funds for additional water resources development activities.

Of the additional funds provided in this account, the Corps shall allocate not less than \$40,588,000 to projects with riverfront development components.

Public Law 115–123 and Public Law 116–20 included funding within the Flood Control and Coastal Emergencies account to restore authorized shore protection projects to full project profile. That funding is expected to address most of the current year capability. Therefore, to ensure funding is not directed to where it cannot be used, the agreement includes \$50,165,000 for construction of shore protection projects. The Corps is reminded that if additional

work can be done, these projects are also eligible to compete for additional funding for flood and storm damage reduction.

When allocating the additional funding provided in this account, the Corps is encouraged to evaluate authorized reimbursements in the same manner as if the projects were being evaluated for new or ongoing construction. The Corps shall not condition these funds, or any funds appropriated in this Act, on a non-federal interest paying more than their required share in any phase of a project. When allocating the additional funding provided in this account, the Corps shall consider giving priority to the following:

1. benefits of the funded work to the national economy;
2. extent to which the work will enhance national, regional, or local economic development;
3. number of jobs created directly and supported in the supply chain by the funded activity;
4. significance to national security, including the strategic significance of commodities;
5. ability to obligate the funds allocated within the calendar year, including consideration of the ability of the non-federal sponsor to provide any required cost share;
6. ability to complete the project, separable element, or project phase with the funds allocated;
7. legal requirements, including responsibilities to Tribes;
8. for flood and storm damage reduction projects (including authorized nonstructural measures and periodic beach renourishments),
 - a. population, economic activity, or public infrastructure at risk, as appropriate;
 - b. the severity of risk of flooding or the frequency with which an area has experienced flooding; and
 - c. preservation of historically significant communities, culture, and heritage;
9. for shore protection projects, projects in areas that have suffered severe beach erosion requiring additional sand placement outside of the normal beach renourishment cycle or in which the normal beach renourishment cycle has been delayed, and projects in areas where there is risk of environmental contamination;
10. for navigation projects, the number of jobs or level of economic activity to be supported by completion of the project, separable element, or project phase;
11. for projects cost shared with the Inland Waterways Trust Fund (IWTF), the economic impact on the local, regional, and national economy if the project is not funded, as well as discrete elements of work that can be completed within the funding provided in this line item;
12. for other authorized project purposes and environmental restoration or compliance projects, to include the beneficial use of dredged material; and
13. for environmental infrastructure, projects with the greater economic impact, projects in rural communities, projects in communities with significant shoreline and instances of runoff, projects in or that benefit counties or parishes with high poverty rates, projects in financially-distressed municipalities, projects that improve stormwater capture capabilities, projects that provide backup

raw water supply in the event of an emergency, and projects that will provide substantial benefits to water quality improvements.

The following is the only direction with regard to the availability of additional funds for IWTF cost-shared projects. The agreement provides funds making use of all estimated annual revenues and some additional prior year revenues in the IWTF for ongoing projects. The agreement includes a total appropriation of \$131,075,000 from the IWTF. The Corps shall continue to use, as appropriate, the Inland and Intracoastal Waterways Twenty-Year Capital Investment Strategy dated March 2016, as the applicable 20-year plan. The agreement considers the 20-year Capital Investment Strategy a planning document and therefore not subject to administration budget metrics. The Corps shall allocate all funds provided in the IWTF Revenues line item along with the statutory cost share from funds provided in the Navigation line item prior to allocating the remainder of funds in the Navigation line item.

It is understood that the Corps is developing metrics for prioritization of environmental infrastructure projects. The Corps is directed to provide to the Committees on Appropriations of both Houses of Congress not later than 120 days after enactment of this Act a briefing on these metrics. Notwithstanding the direction on new starts in the front matter of Title I, the Corps may allocate funds to at least one, but not more than two environmental infrastructure authorities not previously funded, which may include regional environmental infrastructure authorities. The Corps shall consider the impacts of future funding when selecting these projects.

Alternative Delivery.—The Corps is reminded that Public-Private Partnerships and projects that utilize a split-delivery approach are eligible for additional funding in this account.

Aquatic Plant Control Program.—Of the funding provided for the Aquatic Plant Control Program, \$1,000,000 shall be for activities for monitoring, surveys, and control of the flowering rush. Of the funding provided for the Aquatic Plant Control Program, \$5,000,000 shall be for nationwide research and development to address invasive aquatic plants; within this funding, the Corps is encouraged to support cost shared aquatic plant management programs. Of the funding provided for the Aquatic Plant Control Program, \$15,000,000 shall be for watercraft inspection stations, as authorized by section 1039 of WRRDA, and \$3,000,000 shall be for related monitoring.

Beneficial Use of Dredged Material Pilot Program.—The agreement supports the pilot program authorized in section 1122 of the WIIN Act (Public Law 114–322), but concerns remain about implementation of the program. The agreement provides \$7,500,000 for the 10 pilot projects selected to date within “Beneficial Use of Dredged Material Pilot Program.” The Corps shall not use Operation and Maintenance funds provided or allocated to the projects from which the dredged material is generated for costs beyond the costs of the Federal Standard. The Corps shall brief the Committees on Appropriations of both Houses of Congress not later than 90 days after enactment of this Act on the planned activities, costs estimates, and potential timelines for each of the 10 selected pilot projects. The Corps is further directed to brief the Committees on

Appropriations of both Houses of Congress prior to any effort to solicit or select any additional pilot projects as authorized by the America's Water Infrastructure Act of 2018.

Continuing Authorities Program.—The agreement supports all sections of the Continuing Authorities Program (CAP). Funding is provided for nine CAP sections at a total of \$71,500,000, an increase of \$68,500,000 above the budget request, which proposed funding for only three sections. This program provides a useful tool for the Corps to undertake small, localized projects without the lengthy study and authorization process typical of larger Corps projects. Within CAP and to the extent already authorized by law, the Corps is encouraged to consider projects that enhance coastal and ocean ecosystem resiliency and projects that restore degraded wetland habitat and stream habitat impacted by construction of Corps levees. The management of CAP shall continue consistent with direction provided in previous fiscal years.

The Corps is encouraged to expedite the implementation of feasibility studies approved in 2019 under section 206 of the Flood Control Act of 1958. The Corps shall allow for the advancement of flood control projects in combination with ecological benefits using natural and nature-based solutions alone or in combination with built infrastructure where appropriate for reliable risk reduction during the development of projects under section 205 of CAP.

Charleston Harbor.—The agreement includes House and Senate direction and supports the budget request to fully fund, up to the amount in the budget request, the remaining construction activities once an amendment to the existing Project Partnership Agreement is executed. It is understood that the Corps and the non-federal sponsor are prepared to sign the agreement upon enactment of this Act to ensure expeditious completion of the deepening project.

Murrieta Creek.—The non-federal sponsor intends to pursue a section 221 In-Kind Credit Contribution agreement with the Corps to do the design work to optimize the multi-purpose basin, find the most cost-effective design, and initiate excavation of the basin. The Corps is encouraged to move forward with timely approval of the agreement. The non-federal sponsor also is moving forward to address the outdated information in the Corps' economic side-by-side analysis for the project in order to identify the most cost-effective project. The Corps is directed to coordinate with the non-federal sponsor, as requested, in the economic update in order to have a strong basis for proceeding with the completion of the Limited Re-evaluation Report.

South Florida Ecosystem Restoration (SFER).—As in previous years, the agreement provides funding for all study and construction authorities related to Everglades restoration under the line item titled South Florida Ecosystem Restoration, Florida." This single line item allows the Corps flexibility in implementing the numerous activities underway in any given fiscal year. For fiscal year 2020, the Corps is directed to make publicly available a comprehensive snapshot of all SFER cost share accounting down to the project level and to ensure the accuracy of all budget justification sheets that inform SFER Integrated Financial Plan documents by October 31, 2020.

Additional Funding for Ongoing Work.—When allocating the additional funding provided in this account, the Corps shall consider giving priority to completing or accelerating ongoing work that will enhance the nation's economic development, job growth, and international competitiveness or are for studies or projects located in areas that have suffered recent natural disasters. While this funding is shown under Remaining Items, the Corps shall use these funds in investigations, construction, and operation and maintenance, as applicable. This may include work on remaining unconstructed features of projects permitted and authorized by law, in response to recent flood disasters.

Of the additional funding provided in this account, the Corps shall allocate not less than \$30,000,000 for additional flood control construction projects, of which \$15,560,000 shall be for those projects with flood control, water quality, and sediment reduction benefits.

Of the additional funding provided in this account for other authorized project purposes, the Corps shall allocate not less than \$1,160,000 for operation and maintenance of facilities that are educational or to continue land management of mitigation features.

Mississippi River Commission.—No funding is provided for this new line item. The Corps is directed to continue funding the costs of the commission from within the funds provided for activities within the Mississippi River and Tributaries project.

Concerns have been raised that there is a lack of fisheries expertise when making decisions to open Corps spillways, specifically related to the economic and ecological consequences experienced by coastal communities and ecosystems. The Corps is urged to work with the National Oceanic and Atmospheric Administration to investigate options for ensuring that the membership and staff of the Mississippi River Commission include a fisheries expert.

*Includes funds requested in other accounts.

^Funded under projects listed under states.

~Funded in remaining items.

Updated Capability.—The agreement adjusts some project-specific allocations downward from the budget request based on updated information regarding the amount of work that could be accomplished in fiscal year 2020.

Additional Funding for Ongoing Work.—Of the additional funding provided in this account for other authorized project purposes, the Corps shall allocate not less than \$2,200,000 to continue greenway trail improvements at federal projects.

Of the additional funding provided in this account for other authorized project purposes, the Corps shall allocate not less than \$2,000,000 for efforts to combat invasive mussels at Corps-owned reservoirs.

When allocating the additional funding provided in this account, the Corps shall consider giving priority to the following:

1. ability to complete ongoing work maintaining authorized depths and widths of harbors and shipping channels (including small, remote, or subsistence harbors), including where contaminated sediments are present;

2. ability to address critical maintenance backlog;

3. presence of the U.S. Coast Guard;

4. extent to which the work will enhance national, regional, or local economic development, including domestic manufacturing capacity;

5. extent to which the work will promote job growth or international competitiveness;

6. number of jobs created directly by the funded activity;

7. ability to obligate the funds allocated within the calendar year;

8. ability to complete the project, separable element, project phase, or useful increment of work within the funds allocated;

9. addressing hazardous barriers to navigation due to shallow channels;

10. risk of imminent failure or closure of the facility;

11. for small, remote, and subsistence harbors,

- a. low-use ports with unexpected levels of deterioration since their last dredging; and

- b. projects with public safety concerns; and

12. for harbor maintenance activities,

- a. total tonnage handled;

- b. total exports;

- c. total imports;

- d. dollar value of cargo handled;

- e. energy infrastructure and national security needs served;

- f. designation as strategic seaports;

- g. lack of alternative means of freight movement;

- h. savings over alternative means of freight movement; and

- i. improvements to dredge disposal facilities that will result in long-term savings, including a reduction in regular maintenance.

Additional funding provided for donor and energy transfer ports shall be allocated in accordance with 33 U.S.C. 2238c. The Corps is encouraged to include funding for this program in future budget submissions. The Corps is directed to fully execute subsection (c) of 33 U.S.C. 2238c not later than 90 days after enactment of this Act.

Concerns persist that the administration's criteria for navigation maintenance do not allow small, remote, or subsistence harbors and waterways to properly compete for scarce navigation maintenance funds. The Corps is directed to revise the criteria used for determining which navigation projects are funded in order to develop a reasonable and equitable allocation under this account. The agreement supports including criteria to evaluate the economic impact that these projects provide to local and regional economies.

Aquatic Nuisance Research Program.—Concerns persist about the increasing threat to human health and public safety from harmful algal blooms (HABs) on our nation's surface waters. The agreement provides additional funds in Aquatic Nuisance Research Program to address HABs and to develop next generation ecological models to maintain inland and intracoastal waterways, which contribute over \$649,000,000,000 annually to the U.S. economy. The agreement also provides additional funds to support research and development that will identify the formation of HABs and develop improved strategies for early detection, prevention, and management techniques and procedures to reduce the occurrence and impacts of HABs in the nation's water resources. The Corps is urged to work collaboratively with appropriate university partners to address these issues. The Corps is encouraged to explore opportunities to address HABs in the Great Lakes given the historic lake levels in the region.

Coastal Inlet Research Program.—The agreement includes Senate direction.

Gross Revenue Fees.—Improving public access to and usage of Corps facilities and the continued enhancement of those facilities are significant policy objectives. Concerns have been raised that current Corps policy and actions related to the fees placed on gross revenue have discouraged the enhancement of facilities and amenities at certain properties. Therefore, the Corps is urged to consider the impact of gross revenue fees on recreational opportunities and property enhancements when determining the level of assessed gross revenue fees.

Levee Safety.—The agreement includes House and Senate direction.

Monitoring of Completed Navigation Projects.—It is understood that the Corps continues to explore non-destructive testing methods of inspection that can assist in performing this vital mission with increased safety and accuracy and at significantly less cost than current methods. The agreement provides \$2,000,000 for the Corps to complete an asset management plan regarding non-destructive testing methods. Within available funds, \$4,000,000 shall be to support the structural health monitoring program to facilitate research to maximize operations, enhance efficiency, and protect asset life through catastrophic failure mitigation. Not later than 90 days after enactment of this Act, the Corps shall brief the Committees on Appropriations of both Houses of Congress on the status of these efforts, including future funding requirements. The agreement includes Senate direction regarding fisheries.

Regional Dredge Demonstration Program.—Additional funds are provided in this account to support the demonstration program in

accordance with the front matter under the heading "Regional Dredge Demonstration Program."

Scheduling of Reservoir Operations.—The agreement provides that not less than \$4,000,000 of the additional funds provided in the Scheduling of Reservoir Operations line shall be for a water control manual update for a non-Corps owned high hazard dam where: (1) the Corps has a responsibility for flood control operations under section 7 of the Flood Control Act of 1944; (2) the dam requires coordination of water releases with one or more other high-hazard dams for flood control purposes; and (3) the dam owner is actively investigating the feasibility of applying forecast-informed reservoir operations technology.

Water Control Manuals.—The agreement includes Senate direction.

REGULATORY PROGRAM

The agreement includes \$210,000,000 for the Regulatory Program. Additional funds included above the budget request are to be used by Districts to decrease permit review times.

FORMERLY UTILIZED SITES REMEDIAL ACTION PROGRAM

The agreement includes \$200,000,000 for the Formerly Utilized Sites Remedial Action Program.

FLOOD CONTROL AND COASTAL EMERGENCIES

The agreement includes \$35,000,000 for Flood Control and Coastal Emergencies.

EXPENSES

The agreement includes \$203,000,000 for Expenses.

OFFICE OF THE ASSISTANT SECRETARY OF THE ARMY FOR CIVIL WORKS

The agreement includes \$5,000,000 for the Office of the Assistant Secretary of the Army for Civil Works. The agreement includes legislative language that restricts the availability of funding until the Secretary submits the required baseline report and a work plan that allocates at least 95 percent of the additional funding provided in each account (i.e., 95 percent of additional funding provided in Investigations, 95 percent of additional funding provided in Construction, etc.). This restriction shall not affect the roles and responsibilities established in previous fiscal years of the Office of the Assistant Secretary of the Army for Civil Works, the Corps headquarters, the Corps field operating agencies, or any other executive branch agency.

A timely and accessible executive branch in the course of fulfilling its constitutional role in the appropriations process is essential. The requesting and receiving of basic, factual information, such as budget justification materials, is vital in order to maintain a transparent and open governing process. The agreement recognizes that some discussions internal to the executive branch are pre-decisional in nature and, therefore, not subject to disclosure. However, the access to facts, figures, and statistics that inform these decisions are not subject to this same sensitivity and are crit-

ical to the budget process. The administration shall ensure timely and complete responses to these inquiries.

GENERAL PROVISIONS—CORPS OF ENGINEERS—CIVIL

(INCLUDING TRANSFER OF FUNDS)

The agreement includes a provision relating to reprogramming. The agreement includes a provision regarding the allocation of funds.

The agreement includes a provision prohibiting the use of funds to carry out any contract that commits funds beyond the amounts appropriated for that program, project, or activity.

The agreement includes a provision concerning funding transfers related to fish hatcheries.

The agreement includes a provision regarding certain dredged material disposal activities. The Corps is directed to brief the Committees on Appropriations of both Houses of Congress not later than 90 days after enactment of this Act on dredged material disposal issues.

The agreement includes a provision prohibiting funds for reorganization of the Civil Works program.

The agreement includes a provision regarding eligibility for additional funding. Whether a project is eligible for funding under a particular provision of additional funding is a function of the technical details of the project; it is not a policy decision. The Chief of Engineers is the federal government's technical expert responsible for execution of the Civil Works program and for offering professional advice on its development. Therefore, the provision in this agreement clarifies that a project's eligibility for additional funding shall be solely the professional determination of the Chief of Engineers.

The agreement includes a provision regarding reallocations at a project.

TITLE II—DEPARTMENT OF THE INTERIOR

CENTRAL UTAH PROJECT

CENTRAL UTAH PROJECT COMPLETION ACCOUNT

The agreement includes a total of \$20,000,000 for the Central Utah Project Completion Account, which includes \$16,700,000 for Central Utah Project construction, \$1,800,000 for transfer to the Utah Reclamation Mitigation and Conservation Account for use by the Utah Reclamation Mitigation and Conservation Commission, and \$1,500,000 for necessary expenses of the Secretary of the Interior.

BUREAU OF RECLAMATION

In lieu of all House and Senate direction regarding additional funding and the fiscal year 2020 work plan, the agreement includes direction under the heading "Additional Funding for Water and Related Resources Work" in the Water and Related Resources account.

Unmanned Aerial Systems.—Concerns remain about the threat posed to the national security of the United States by unmanned aerial systems (UAS) that are produced by foreign-owned or controlled corporations and operated by the Department of the Interior, to include Reclamation. The agreement supports the Department of the Interior's recent grounding of UAS produced by foreign-owned or controlled corporations and encourages Reclamation to work with other federal agencies to develop a strategy to end all United States Government reliance on UAS from foreign-owned or controlled corporations, while working with federal partners to find a suitable domestic alternative.

WATER AND RELATED RESOURCES

(INCLUDING TRANSFERS OF FUNDS)

The agreement provides \$1,512,151,000 for Water and Related Resources.

The agreement includes legislative language, in accordance with Public Law 114–322, to allow the use of certain funding provided in fiscal years 2017 and 2018.

The agreement for Water and Related Resources is shown in the following table:

Aamodt Litigation Settlement Act.—The agreement directs Reclamation to use funds on hand for this settlement to initiate construction of features necessary to prevent additional cost overruns.

Additional Funding for Water and Related Resources Work.—The agreement includes funds above the budget request for Water and Related Resources studies, projects, and activities. This funding is for additional work that either was not included in the budget request or was inadequately budgeted. Priority in allocating these funds should be given to advance and complete ongoing work, including preconstruction activities and where environmental compliance has been completed; improve water supply reliability; improve water deliveries; enhance national, regional, or local economic development; promote job growth; advance tribal and nontribal water settlement studies and activities; or address critical backlog maintenance and rehabilitation activities.

Of the additional funding provided under the heading “Water Conservation and Delivery,” \$134,000,000 shall be for water storage projects as authorized in section 4007 of the WIIN Act (Public Law 114–322).

Of the additional funding provided under the heading “Water Conservation and Delivery,” not less than \$20,000,000 shall be for construction activities related to projects found to be feasible by the Secretary and that are ready to initiate for the repair of critical Reclamation canals where operational conveyance capacity has been seriously impaired by factors such as age or land subsidence, especially those that would imminently jeopardize Reclamation’s ability to meet water delivery obligations.

Of the additional funding provided under the heading “Water Conservation and Delivery,” \$20,000,000 shall be for water conservation activities in areas that are experiencing extended drought conditions. These water conservation activities shall include well construction and irrigation related structural or other measures, programs and projects that result in conservation of other surface water or groundwater, or improve water system efficiency, resiliency, reliability, delivery, and conveyance. Reclamation is directed to brief the Committees on Appropriations of both Houses of Congress not later than 180 days after enactment of this Act on the status of carrying out these activities.

Of the additional funding provided under the heading “Environmental Restoration or Compliance,” not less than \$40,000,000 shall be for activities authorized under sections 4001 and 4010 of the WIIN Act (Public Law 114–322) or as set forth in federal-state plans for restoring threatened and endangered fish species affected by the operation of Reclamation’s water projects.

Funding associated with each category may be allocated to any eligible study or project, as appropriate, within that category; funding associated with each subcategory may be allocated only to eligible studies or projects, as appropriate, within that subcategory.

Not later than 45 days after enactment of this Act, Reclamation shall provide to the Committees on Appropriations of both Houses of Congress a report delineating how these funds are to be distributed, in which phase the work is to be accomplished, and an explanation of the criteria and rankings used to justify each allocation.

Reclamation is reminded that the following activities are eligible to compete for funding under the appropriate heading: activities authorized under Indian Water Rights Settlements; all authorized rural water projects, including those with tribal components, those with non-tribal components, and those with both; aquifer recharging efforts to address the ongoing backlog of related projects; conjunctive use projects and other projects to maximize groundwater storage and beneficial use; ongoing work, including preconstruction activities, on projects that provide new or existing water supplies through additional infrastructure; and activities authorized under section 206 of Public Law 113–235.

Aquifer Storage and Recovery.—Of the funds provided in this account above the budget request, not less than \$10,000,000 shall be for Aquifer Storage and Recovery projects focused on ensuring sustainable water supplies and protecting water quality with shared or multi-use aquifers, including municipal, agricultural irrigation, industrial, recreation, and domestic users.

Research and Development: Desalination and Water Purification Program.—Of the funding provided for this program, \$12,000,000 shall be for desalination projects as authorized in section 4009(a) of the WIIN Act (Public Law 114–322).

WaterSMART Program: Title XVI Water Reclamation & Reuse Program.—Of the funding provided for this program, \$20,000,000 shall be for water recycling and reuse projects as authorized in section 4009(c) of the WIIN Act (Public Law 114–322). Reclamation is reminded that Aquifer Storage and Recovery projects such as those cited in Reclamation’s section 4009(c) Feasibility Study Review Findings dated September 2018 are eligible to compete for funding in this program.

CALFED Water Storage Feasibility Studies.—The agreement includes Senate language.

Pick-Sloan Ability-to-Pay.—Concerns persist that more than 30 Pick-Sloan irrigation districts served by Reclamation may experience significant financial impacts should Reclamation move forward with the proposal to change the eligibility requirements for the program related to user’s ability to pay. Reclamation shall review the Pick-Sloan Missouri Basin Program authorizing legislation and brief the Committees on Appropriations of both Houses of Congress on its findings, including the extent to which Congress authorized relief from operation maintenance, and replacement costs for project use power in that program based on an irrigation district’s ability to pay, how that authority has been applied over time, and the impacts of the currently proposed changes. For federal projects, Reclamation is directed to continue to consider irrigation district ability to pay consistent with the original intent of Congress and the 1944 Flood Control Act.

Rural Water Projects.—Voluntary funding in excess of legally required cost shares for rural water projects is acceptable, but shall not be used by Reclamation as a criterion for allocating additional funding provided in this agreement or for budgeting in future years.

Buried Metallic Water Pipe.—Reclamation shall continue following its temporary design guidance.

CENTRAL VALLEY PROJECT RESTORATION FUND

The agreement provides \$54,849,000 for the Central Valley Project Restoration Fund.

Anadromous Fish Screen Program.—The agreement includes House direction regarding the Anadromous Fish Screen Program.

CALIFORNIA BAY-DELTA RESTORATION

(INCLUDING TRANSFERS OF FUNDS)

The agreement provides \$33,000,000 for the California Bay-Delta Restoration Program.

POLICY AND ADMINISTRATION

The agreement provides \$60,000,000 for Policy and Administration.

TITLE IV—INDEPENDENT AGENCIES

APPALACHIAN REGIONAL COMMISSION

The agreement provides \$175,000,000 for the Appalachian Regional Commission (ARC). The following is the only direction for the Appalachian Regional Commission.

The agreement includes the budget request proposal to address the substance abuse crisis that disproportionately affects Appalachia and the budget request proposal for activities in support of the POWER Initiative.

To diversify and enhance regional business development, \$10,000,000 is provided to continue the program of high-speed broadband deployment in distressed counties within the Central Appalachian region that have been most negatively impacted by the downturn in the coal industry. The agreement provides \$5,000,000 for a program of high-speed broadband deployment in economically distressed counties within the North Central and Northern Appalachian regions.

Within available funds, not less than \$16,000,000 is for a program of industrial site and workforce development in Southern and South Central Appalachia, focused primarily on the automotive supplier sector and the aviation sector. Up to \$13,500,000 of that amount is for activities in Southern Appalachia. The funds shall be distributed to states that have distressed counties in Southern and South Central Appalachia using the ARC Area Development Formula.

Within available funding, \$16,000,000 is for a program of basic infrastructure improvements in distressed counties in Central Appalachia. Funds shall be distributed according to ARC's distressed counties formula and shall be in addition to the regular allocation to distressed counties.

The ARC is directed to provide to the Committees on Appropriations of both Houses of Congress not later than 90 days after enactment of this Act a report on the percentage of funding that has been directed to persistent-poverty counties and high-poverty areas in the last three fiscal years. For the purposes of the report, the term persistent-poverty counties means any county that has had 20 percent or more of its population living in poverty over the past 30 years, as measured by the 1990 and 2000 decennial censuses and the most recent Small Area Income and Poverty Estimates. For the purposes of the report, the term high-poverty area means any census tract with a poverty rate of at least 20 percent as measured by the 2013–2017 five-year data series available from the American Community Survey of the Census Bureau.

DEFENSE NUCLEAR FACILITIES SAFETY BOARD

SALARIES AND EXPENSES

The agreement provides \$31,000,000 for the Defense Nuclear Facilities Safety Board. The Board is directed to ensure a minimum of 110 full-time equivalents or report why it was unable to do so to the Committees on Appropriations of both Houses of Congress. The Board is further directed to establish and fill an Executive Di-

rector of Operations position. The agreement does not provide funding for any other elements of the Board's August 15, 2018, reorganization plan. The agreement does not include the House report requirement regarding a Memorandum of Understanding.

DELTA REGIONAL AUTHORITY

SALARIES AND EXPENSES

The agreement provides \$30,000,000 for the Delta Regional Authority.

DENALI COMMISSION

The agreement provides \$15,000,000 for the Denali Commission.

NORTHERN BORDER REGIONAL COMMISSION

The agreement provides \$25,000,000 for the Northern Border Regional Commission.

Within available funds, not less than \$4,000,000 is for initiatives that seek to address the decline in forest-based economies throughout the region and \$750,000 is for the State Capacity Building Grant Program.

SOUTHEAST CRESCENT REGIONAL COMMISSION

The agreement provides \$250,000 for the Southeast Crescent Regional Commission.

NUCLEAR REGULATORY COMMISSION

SALARIES AND EXPENSES

The Nuclear Regulatory Commission's (Commission) mission is to ensure the safety and security of the nation's use of nuclear power and nuclear materials and protect the workers and public who use and benefit from these materials and facilities. The agreement provides \$842,236,000 for Commission salaries and expenses. This amount is offset by estimated revenues of \$717,125,000, resulting in a net appropriation of \$125,111,000. The agreement provides \$15,478,000 for activities related to the development of regulatory infrastructure for advanced nuclear reactor technologies and \$14,500,000 for international activities, which are not subject to the Commission's fee recovery collection requirements. The agreement directs the use of \$40,000,000 in prior-year unobligated balances.

Unobligated Balances from Prior Appropriations.—The Commission carries unobligated balances from appropriations received in prior years. The agreement requires the use of \$40,000,000 of these balances, derived from fee-based activities. The Commission is directed to apply these savings in a manner that continues to ensure the protection of public health and safety and maintains the effectiveness of the current inspection program. Because the Commission has already collected fees corresponding to these activities in prior years, the agreement does not include these funds within the fee base calculation for determining authorized revenues and does not provide authority to collect additional offsetting receipts for

their use. Any remaining unobligated balances carried forward from prior years are subject to the reprogramming guidelines in section 402 of this Act, and shall be used only to supplement appropriations consistent with those guidelines.

TITLE V—GENERAL PROVISIONS

(INCLUDING TRANSFER OF FUNDS)

The agreement includes a provision relating to lobbying restrictions.

The agreement includes a provision relating to transfer authority. No additional transfer authority is implied or conveyed by this provision. For the purposes of this provision, the term “transfer” shall mean the shifting of all or part of the budget authority in one account to another. In addition to transfers provided in this Act or other appropriations Acts, and existing authorities, such as the Economy Act (31 U.S.C. 1535), by which one part of the United States Government may provide goods or services to another part, this Act allows transfers using section 4705 of the Atomic Energy Defense Act (50 U.S.C. 2745) and 15 U.S.C. 638 regarding SBIR/STTR.

The agreement includes a provision prohibiting funds to be used in contravention of the executive order entitled “Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations.”

The agreement includes a provision prohibiting the use of funds to establish or maintain a computer network unless such network blocks the viewing, downloading, and exchanging of pornography, except for law enforcement investigation, prosecution, or adjudication activities.

The Bureau of Indian Affairs and the Bureau of Indian Education may carry out the operation of Indian programs by direct expenditure, contracts, cooperative agreements, compacts, and grants, either directly or in cooperation with States and other organizations.

Notwithstanding Public Law 87-279 (25 U.S.C. 15), the Bureau of Indian Affairs may contract for services in support of the management, operation, and maintenance of the Power Division of the San Carlos Irrigation Project.

Notwithstanding any other provision of law, no funds available to the Bureau of Indian Affairs or the Bureau of Indian Education for central office oversight and Executive Direction and Administrative Services (except executive direction and administrative services funding for Tribal Priority Allocations, regional offices, and facilities operations and maintenance) shall be available for contracts, grants, compacts, or cooperative agreements with the Bureau of Indian Affairs or the Bureau of Indian Education under the provisions of the Indian Self-Determination Act or the Tribal Self-Governance Act of 1994 (Public Law 103-413).

In the event any tribe returns appropriations made available by this Act to the Bureau of Indian Affairs or the Bureau of Indian Education, this action shall not diminish the Federal Government's trust responsibility to that tribe, or the government-to-government relationship between the United States and that tribe, or that tribe's ability to access future appropriations.

Notwithstanding any other provision of law, no funds available to the Bureau of Indian Education, other than the amounts provided herein for assistance to public schools under 25 U.S.C. 452 et seq., shall be available to support the operation of any elementary or secondary school in the State of Alaska.

[CLERK'S NOTE.—Reproduced below is the material relating to division D contained in the Explanatory Statement regarding H.R. 1865, the Further Consolidated Appropriations Act, 2020.¹]

DIVISION D—DEPARTMENT OF THE INTERIOR, ENVIRONMENT, AND RELATED AGENCIES APPROPRIATIONS ACT, 2020

The following statement is an explanation of the effects of Division D, which provides appropriations for the Department of the Interior, the Environmental Protection Agency (EPA), the Forest Service, the Indian Health Service, and related agencies for fiscal year 2020.

The explanatory statement accompanying this Act is approved and indicates congressional intent. Report language contained in House Report 116–100 and Senate Report 116–123 providing specific guidance to agencies regarding the administration of appropriated funds and any corresponding reporting requirements carries the same emphasis as the language included in this explanatory statement and should be complied with unless specifically addressed to the contrary herein. This explanatory statement, while repeating some language for emphasis, is not intended to negate the language referred to above unless expressly provided herein.

In cases where the House report, Senate report, or this explanatory statement direct the submission of a report, such report is to be submitted to both the House and Senate Committees on Appropriations. Where this explanatory statement refers to the Committees or the Committees on Appropriations, unless otherwise noted, this reference is to the House Subcommittee on Interior, Environment, and Related Agencies and the Senate Subcommittee on Interior, Environment, and Related Agencies.

Each department and agency funded in this Act is directed to follow the directions set forth in this Act and the accompanying statement and to not reallocate resources or reorganize activities except as provided herein or otherwise approved by the House and Senate Appropriations Committees through the reprogramming process as referenced in this Act. This explanatory statement addresses only those agencies and accounts for which there is a need for greater explanation than provided in the Act itself. Funding levels for appropriations by account, program, and activity, with comparisons to the fiscal year 2019 enacted level and the fiscal year 2020 budget request, can be found in the table at the end of this division.

Unless expressly stated otherwise, any reference to “this Act” or “at the end of this statement” shall be treated as referring only to the provisions of this division.

¹ This Explanatory Statement was submitted for printing in the Congressional Record on December 17, 2019 by Mrs. Lowey of New York, Chairwoman of the House Committee on Appropriations. The Statement appears on page H11281 of Book III.

Bureau of Land Management, Reorganization.—The Department has not fulfilled its obligation to fully communicate the organizational and financial details of the reorganization and relocation of the Bureau's Washington, DC headquarters. It has not provided Bureau employees, Congress, agency stakeholders or the general public with adequate information regarding this move. Furthermore, it has not explained how it will sustain its operations and remain an effective land management agency following the anticipated loss of much of its senior management and the expected significant attrition of its workforce caused by the reorganization. The Department is therefore directed to begin monthly briefings with the Committees on Appropriations on the status of the reorganization, including in an initial briefing explaining the Bureau's plan for ensuring continuity of agency operations and addressing the immediate impacts of likely staff shortages caused by the reorganization.

Requirement Relating to Information Requests.—The head of a Federal agency that receives funds under this Act or any other Act making appropriations for the Department of the Interior, environment, and related agencies for any other fiscal year shall respond completely and in full to a written request for information received by the head of the Federal Agency from the Comptroller General of the United States relating to a decision or opinion on appropriations law not later than the earlier of: (1) the date that is 45 days after the date on which the head of the Federal agency receives the written request; and (2) the date otherwise established by the Comptroller General of the United States in the written request. If the information requested by the Comptroller General of the United States is not readily available and the head of the Federal agency that received the written request is not able to respond completely and in full within the time period described, the head of the Federal agency shall by the deadline established in the preceding sentence respond in writing to provide as much information as practicable at the time of the response; and an explanation for the reason why the head of the Federal agency is unable to respond completely and in full at the time of the response; and a proposed timetable for the submission of all remaining requested information. Not later than 30 days after the date on which a response is submitted to the Comptroller General of the United States and every 30 days thereafter until the date on which the head of the Federal agency responds completely and in full to the request for information, as determined by the Comptroller General of the United States, the head of the Federal agency shall update in writing the response provided.

Chaco Canyon.—On May 28, 2019, the Secretary announced that the Department will refrain from oil and gas leasing within the 10-mile radius of Chaco Culture National Historical Park pending completion of planning activities and tribal consultation. The Bureau of Land Management is directed not to conduct any oil and gas leasing activities authorized by section 17 of the Mineral Leasing Act (30 U.S.C. 226) in the withdrawal area identified on the map of the Chaco Culture National Historical Park prepared by the Bureau of Land Management and dated April 2, 2019, until the completion of the cultural resources investigation included in this

agreement as part of the Bureau of Indian Affairs—Operation of Indian Programs appropriation. Nothing in this directive prohibits an Indian tribe or individual member of an Indian tribe or allottee from developing mineral rights under the Indian Mineral Leasing Act.

105(l) Lease costs.—Estimates for lease costs resulting from section 105 of the Indian Self-Determination and Education Assistance Act continue to increase and have the potential to increase over the coming months. The uncertainty surrounding the 105(l) lease agreement estimates has inserted a high level of unpredictability into the budget process and has placed the House and Senate Committees on Appropriations in the difficult position where rapidly escalating requirements for lease costs are negatively impacting the ability to use discretionary appropriations to support core tribal programs, including health, education and construction programs, or provide essential fixed cost requirements. Obligations of this nature are typically addressed through mandatory spending, but in this case since they fall under discretionary spending, they are impacting all other programs funded under the Interior and Environment Appropriations bill, including other equally important Tribal programs, and they appear to be growing exponentially without the Administration developing a long-term funding strategy to address them. The agreement notes that payments for 105(l) leases directly resulting from decisions in the case of *Maniilaq Ass’n v. Burwell* in both 2014 (72 F. Supp. 3d 227 (D.D.C. 2014)) and 2016 (70 F. Supp. 3d 243 (D.D.C. 2016)) appear to create an entitlement to compensation for 105(l) leases that is typically not funded through discretionary appropriations. The Department of the Interior and the Department of Health and Human Services are directed to consult with Tribes and work with the House and Senate committees of jurisdiction, the Office of Management and Budget, and the Committees on Appropriations to formulate long-term accounting, budget, and legislative strategies to address the situation, including discussions about whether, in light of the *Maniilaq* decisions, these funds should be reclassified as an appropriated entitlement.

Bighorn Sheep.—In lieu of House direction, the Department of the Interior and the Forest Service shall follow the direction included in Senate Report 116–123 with regards to Bighorn Sheep.

Land and Water Conservation Fund.—The bill includes \$495,103,000 in new budget authority to be derived from the Land and Water Conservation Fund (LWCF) for programs consistent with chapter 2003 of title 54 of the United States Code, as identified in the table below.

	FY 2019 Enacted	Budget Request	This Bill
Land and Water Conservation Fund	\$438,303,000	32,882,000	\$495,103,000
State, Local and Forest Legacy Programs	248,796,000	5,000,000	257,790,000

Coop. Endangered Species Conservation Fund	30,800,000	0	30,800,000

REPROGRAMMING GUIDELINES

The following are the procedures governing reprogramming actions for programs and activities funded in the Department of the Interior, Environment, and Related Agencies Appropriations Act. The House and Senate Committees on Appropriations are dismayed by multiple agencies' lack of strict adherence to the Committees' reprogramming guidelines and agencies funded by this Act are reminded that no reprogramming shall be implemented without the advance approval of the House and Senate Committees on Appropriations in accordance with the procedures included in this Act. The agencies funded in this Act are reminded that these reprogramming guidelines are in effect, and must be complied with, until such time as the Committees modify them through bill or report language.

Definitions.—"Reprogramming," as defined in these procedures, includes the reallocation of funds from one budget activity, budget line-item, or program area to another within any appropriation funded in this Act. In cases where either the House or Senate Committee on Appropriations report displays an allocation of an appropriation below that level, the more detailed level shall be the basis for reprogramming.

For construction, land acquisition, and forest legacy accounts, a reprogramming constitutes the reallocation of funds, including unobligated balances, from one construction, land acquisition, or forest legacy project to another such project.

A reprogramming shall also consist of any significant departure from the program described in the agency's budget justifications. This includes all proposed reorganizations or other workforce actions detailed below which affect a total of 10 staff members or 10 percent of the staffing of an affected program or office, whichever is less, even without a change in funding. Any change to the organization table presented in the budget justification shall also be subject to this requirement.

It is noted that agencies funded by this Act are continuing to work to implement Executive Order 13781, a Comprehensive Plan for Reorganizing the Executive Branch, and have included in the fiscal year 2020 budget request funding for these activities. It is also noted that agencies funded by this Act continue to weigh additional organizational changes during the fiscal year. Agencies are reminded that this recommendation continues longstanding General Guidelines for Reprogramming that require agencies funded by this Act to submit reorganization proposals for the Committees' review prior to their implementation. It is noted that such reprogramming guidelines apply to proposed reorganizations, workforce restructure, reshaping, transfer of functions, or bureau-wide downsizing and include closures, consolidations, and relocations of offices, facilities, and laboratories. In addition, no agency shall implement any part of a reorganization that modifies regional or State boundaries for agencies or bureaus that were in effect as of the date of enactment of this Act unless approved consistent with the General Guidelines for Reprogramming procedures specified herein. Any such reprogramming request submitted to the Committees on Appropriations shall include a description of anticipated benefits, including anticipated efficiencies and cost-savings, as well as a description of anticipated personnel impacts and funding changes anticipated to implement the proposal.

General Guidelines for Reprogramming.—

(a) A reprogramming should be made only when an unforeseen situation arises, and then only if postponement of the project or the activity until the next appropriation year would result in actual loss or damage.

(b) Any project or activity, which may be deferred through reprogramming, shall not later be accomplished by means of further reprogramming, but instead, funds should again be sought for the deferred project or activity through the regular appropriations process.

(c) Except under the most urgent situations, reprogramming should not be employed to initiate new programs or increase alloca-

tions specifically denied or limited by Congress, or to decrease allocations specifically increased by the Congress.

(d) Reprogramming proposals submitted to the House and Senate Committees on Appropriations for approval will be considered as expeditiously as possible, and the Committees remind the agencies that in order to process reprogramming requests, adequate and timely information must be provided.

Criteria and Exceptions.—A reprogramming must be submitted to the Committees in writing prior to implementation if it exceeds \$1,000,000 annually or results in an increase or decrease of more than 10 percent annually in affected programs or projects, whichever amount is less, with the following exceptions:

(a) With regard to the Tribal priority allocations of the Bureau of Indian Affairs (BIA) and Bureau of Indian Education (BIE), there is no restriction on reprogrammings among these programs. However, the Bureaus shall report on all reprogrammings made during a given fiscal year no later than 60 days after the end of the fiscal year.

(b) With regard to the EPA, the Committees do not require reprogramming requests associated with the States and Tribes Partnership Grants or up to a cumulative total of \$5,000,000 from carryover balances among the individual program areas delineated in the Environmental Programs and Management account, with no more than \$1,000,000 coming from any individual program area. No funds, however, shall be reallocated from individual Geographic Programs.

(c) With regard to the National Park Service, the Committees do not require reprogramming requests associated with the park base within the Park Management activity in the Operation of the National Park System Account. The Service is required to brief the House and Senate Committees on Appropriations on spending trends for the park base within 60 days of enactment of this Act.

Assessments.—“Assessment” as defined in these procedures shall refer to any charges, reserves, or holdbacks applied to a budget activity or budget line item for costs associated with general agency administrative costs, overhead costs, working capital expenses, or contingencies.

(a) No assessment shall be levied against any program, budget activity, subactivity, budget line item, or project funded by the Interior, Environment, and Related Agencies Appropriations Act unless such assessment and the basis therefore are presented to the Committees in the budget justifications and are subsequently approved by the Committees. The explanation for any assessment in the budget justification shall show the amount of the assessment, the activities assessed, and the purpose of the funds.

(b) Proposed changes to estimated assessments, as such estimates were presented in annual budget justifications, shall be submitted through the reprogramming process and shall be subject to the same dollar and reporting criteria as any other reprogramming.

(c) Each agency or bureau which utilizes assessments shall submit an annual report to the Committees, which provides details on the use of all funds assessed from any other budget activity, line item, subactivity, or project.

(d) In no case shall contingency funds or assessments be used to finance projects and activities disapproved or limited by Congress or to finance programs or activities that could be foreseen and included in the normal budget review process.

(e) New programs requested in the budget should not be initiated before enactment of the bill without notification to, and the approval of, the Committees. This restriction applies to all such actions regardless of whether a formal reprogramming of funds is required to begin the program.

Quarterly Reports.—All reprogrammings between budget activities, budget line-items, program areas, or the more detailed activity levels shown in this recommendation, including those below the monetary thresholds established above, shall be reported to the Committees within 60 days of the end of each quarter and shall include cumulative totals for each budget activity or budget line item, or construction, land acquisition, or forest legacy project.

Land Acquisitions, Easements, and Forest Legacy.—Lands shall not be acquired for more than the approved appraised value, as addressed in section 301(3) of Public Law 91-646, unless such acquisitions are submitted to the Committees on Appropriations for approval in compliance with these procedures.

Land Exchanges.—Land exchanges, wherein the estimated value of the Federal lands to be exchanged is greater than \$1,000,000, shall not be consummated until the Committees have had 30 days in which to examine the proposed exchange. In addition, the Committees shall be provided advance notification of exchanges valued between \$500,000 and \$1,000,000.

Budget Structure.—The budget activity or line item structure for any agency appropriation account shall not be altered without advance approval of the Committees.

The Director shall consult with the Committees not later than 45 days after enactment of this Act on the development of such policies and procedures.

The Endangered Species Act requires that importing sport-hunted trophies from endangered species is only permissible if the exporting country has demonstrated that hunting improves the survival of that species and proceeds of the hunt will be reinvested in conservation. The current U.S. Fish and Wildlife Service policy to evaluate applications for importing trophies for elephants and lions

on a case-by-case basis may not adequately determine whether a country has proper safeguards in place to protect species vulnerable to poaching. Population counts continue to decline causing concern that the current policy is detrimental. The Fish and Wildlife Service is directed to reevaluate its current policy and analyze how targeted investments and technical assistance to the exporting countries' conservation programs would impact the survival of elephants and lions, improve local communities, and sustain species populations. The Service is to brief the Committees 60 days after enactment of this Act on their findings.

Fish and Aquatic Conservation.—The agreement provides \$205,477,000 for fish and aquatic conservation programs.

National Fish Hatchery System Operations.—The agreement provides \$64,272,000 which includes: \$1,200,000 for the Aquatic Animal Drug Approval Partnership; \$3,750,000 for Klamath Basin restoration activities; and \$4,700,000 for mitigation of the Pacific Salmon Treaty. None of the funds may be used to terminate operations or to close any facility of the National Fish Hatchery System. None of the production programs listed in the March 2013 National Fish Hatchery System Strategic Hatchery and Workforce Planning Report may be reduced or terminated without advance, informal consultation with affected States and Tribes.

The Service is expected to continue funding mitigation hatchery programs via reimbursable agreements with Federal partners. Future agreements should include reimbursement for production, facilities, and administrative costs. The Service is expected to ensure that its costs are fully reimbursed before proposing to reduce or redirect base funding.

Maintenance and Equipment.—The agreement provides \$25,846,000 for maintenance and equipment expenses related to the National Fish Hatchery System. The Service is encouraged to provide a portion of this funding to hatcheries where partner agencies fund mitigation work.

Cooperative Landscape Conservation.—The agreement includes \$12,500,000 for Landscape Conservation Cooperatives (LCCs). Within 60 days of enactment of this Act, the Service shall provide a report to the Committees outlining how this program deviates from that which was presented to Congress in the annual budget justifications. This report must include how the Service will engage previous stakeholders and how conservation efforts are aligned with partners, especially what will be done to ensure there is collaborative conservation efforts on a landscape scale in fiscal year 2020. In addition, the report should include how the Service will engage in areas where LCCs have been diminished or dismantled. This report must also include the detailed information outlined in House Report 116–100 and Senate Report 116–123. Until this report is received by the Committees, \$1,000,000 of the funding provided for General Operations, Central Office Operations, is not available for obligation.

The National Fish and Wildlife Foundation is funded at \$7,022,000 and the National Conservation Training Center is funded at \$26,014,000. The recommendation includes \$3,237,000 for Aviation Management, as requested.

The agreement acknowledges the importance of the development of an electronic permitting system that will make the permitting process more efficient and can be used to combat the illegal trafficking of products and wildlife. The Department is directed to brief the Committees on the final cost estimate and timeline and is encouraged to begin the development of a new system in March 2020.

The agreement continues support for the Everglades at not less than the fiscal year 2019 enacted level.

For line item construction, the Service is expected to follow the project priority list in the table below. When a construction project is completed or terminated and appropriated funds remain, the Service may use those balances to respond to unforeseen reconstruction, replacement, or repair of facilities or equipment damaged or destroyed by storms, floods, fires and similar unanticipated natural events.

INDIAN AFFAIRS

BUREAU OF INDIAN AFFAIRS

OPERATION OF INDIAN PROGRAMS

(INCLUDING TRANSFERS OF FUNDS)

The agreement accepts the budget proposal to strengthen the Bureau of Indian Education (BIE) as an independent bureau with a separate budget structure, including a separate construction budget, from the Bureau of Indian Affairs (BIA). The separation is reflected below.

The bill provides \$1,577,110,000 for Operation of Indian Programs. All programs, projects, and activities are maintained at fiscal year 2019 levels, except for requested fixed cost increases and internal transfers, or unless otherwise specified below. For this and all other Bureau accounts funded in this bill, Indian Affairs is expected to comply with the instructions and requirements at the beginning of this division and in House Report 116–100 and Senate Report 116–123, unless otherwise specified below. Additional details, instructions, and requirements are included below and in the table at the end of this division. Indian Affairs is reminded of the importance of meeting reporting requirement deadlines so that the Committees can properly evaluate programs. Failure to do so could negatively impact future budgets.

Tiwahe.—The bill continues the Tiwahe Initiative at fiscal year 2019 levels across all programs and activities with funding distrib-

uted in the same amounts to the same recipients, including the funding to support women and children's shelters. There is concern that Tiwahe funding was not properly documented or distributed as outlined in the Office of Inspector General report published in 2018; therefore, BIA is directed to submit the final reports as directed by House Report 115-765 and Senate Report 116-123 within 90 days of enactment of this Act.

NATIVE Act.—Funding is continued across all programs and activities at fiscal year 2019 levels for the Native American Tourism and Improving Visitor Experience Act of 2016 (P.L. 114-221) (NATIVE Act). The agreement directs BIA to comply with the reporting requirement for the road maintenance program funding in Senate Report 116-123.

Alternative Financing/105(l) Lease Costs.—Estimates for lease costs resulting from section 105 of the Indian Self-Determination and Education Assistance Act continue to increase and have the potential to increase over the coming months. The agreement directs BIA to comply with the 105(l) lease costs language included in the front of this explanatory statement.

Staffing.—The high level of staff vacancies prevents BIA from fulfilling its trust responsibilities. Indian Affairs is directed to submit a report to the Committees on Appropriations detailing actual staffing and vacancy levels within the Bureau by region and headquarters for each program, and the amount of funding associated with any vacant positions within 120 days of enactment of this Act.

Human Services.—The bill provides \$155,685,000 for human services programs and includes \$1,000,000 to implement section 202 of the Indian Child Welfare Act (25 U.S.C. § 1932), and an increase of \$2,000,000 for the Housing Program for a total funding level of \$11,708,000. BIA is instructed to report back within 30 days of enactment of this Act on how this funding will be distributed.

for the staffing of new facilities are limited to facilities funded through the Health Care Facilities Construction Priority System or the Joint Venture Construction Program that have opened in fiscal year 2019 or will open in fiscal year 2020. None of these funds may be allocated to a facility until such facility has achieved beneficial occupancy status. As part of its annual budget justification, IHS is expected to detail, for the two prior fiscal years, the transfer from the Staffing for New Facilities account into the base amount of each facility as well as continue detailing the amounts necessary for the Staffing for New Facilities account by facility for the upcoming fiscal year. [CLERK'S NOTE.—Reproduced below is the material relating to division E contained in the Explanatory Statement regarding H.R. 1865, the Further Consolidated Appropriations Act, 2020.¹]

DIVISION E—LEGISLATIVE BRANCH APPROPRIATIONS ACT, 2020

The following is an explanation of the effects of Division E, which makes appropriations for the legislative branch for fiscal year 2020. Unless otherwise noted, reference to the House and Senate reports are to House Report 116–64 and Senate Report 116–124. The language included in these reports should be complied with and carries the same emphasis as the language included in the explanatory statement, unless specifically addressed to the contrary in this explanatory statement. While repeating some report language for emphasis, this explanatory statement does not intend to negate the language referred to above unless expressly provided herein.

Reprogramming Guidelines: It is expected that all agencies notify the Committees on Appropriations of the House and the Senate (hereinafter “the Committees”) of any significant departures from budget plans presented to the Committees in any agency’s budget justifications. In particular, agencies funded through this bill are required to notify the Committees prior to any reprogramming of funds in excess of the lesser of 10 percent or \$750,000 between programs, projects or activities, or in excess of \$750,000 between object classifications (except for shifts within the pay categories, object class 11, 12, and 13 or as further specified in each agency’s respective section). This includes cumulative reprogrammings that together total at least \$750,000 from or to a particular program, activity, or object classification as well as reprogramming full time equivalents (FTE) or funds to create new organizational entities within the agency or to restructure entities which already exist. In addition, the Committees must be notified of reprogramming actions that involve less than the above-mentioned amounts if such actions would have the effect of changing an agency’s funding requirements in future years or if programs or projects specifically cited in the Committees’ reports are affected.

Updating Congressional Budget Justifications: Congressional Budget Justifications are essential tools within the appropriations process. The efforts of the Legislative Branch Financial Managers Council (LBFMC) to share financial information and improve financial processes across the entire legislative branch are applauded. With these efforts in mind, the members of the LBFMC are directed to explore refining and standardizing Congressional Budget Justifications and present the findings to the Committees within

¹ This Explanatory Statement was submitted for printing in the Congressional Record on December 17, 2019 by Mrs. Lowey of New York, Chairwoman of the House Committee on Appropriations. The Statement appears on page H11361 of Book III.

180 days of the enactment of this act. The findings should include but not be limited to best practices for using Zero Base Budgeting, aligning FTE levels with current enacted appropriations and the funding requested in the budget year and providing detailed justifications for large multi-year or joint projects.

Offices of Inspectors General Budgets: It is important to ensure independence between legislative branch Offices of Inspectors General (OIG) and their respective reporting agencies. There shall be a separate section in each agency's fiscal year 2021 budget justification reflecting a detailed budget request for the agency's OIG. Each OIG is directed to keep the Committees fully apprised of its funding needs. In addition, each agency is directed to avoid interference with or require approval for such communications.

Science and Technology Needs in Congress: The report released on November 14, 2019, by the National Academy of Public Administration (NAPA) identified the existing gaps in science and technology expertise and resources available to Congress. The Committees, Members, stakeholders and other committees of jurisdiction working together will continue to evaluate the recommendations in the report to address this gap.

Data Centers: Legislative branch agencies use information technology (IT) infrastructure, systems and services to support critical functions to carry out their statutory missions, including functions essential to carrying out the constitutional responsibilities of the legislative branch.

IT infrastructure, systems and services may be located in data centers covering several geographic regions or using several types of cloud services. Regardless of how such infrastructure, systems and services are provisioned, an agency's IT infrastructure, systems or services must satisfy, or have a plan to achieve, the following requirements: must meet "concurrently maintainable" requirements, as set forth by the Uptime Institute or a designated agency authority; must maintain continuous operation against agency-defined hazards and risks; and must incorporate technical communications capabilities to ensure that all necessary IT resources required to support the mission of the legislative branch can interoperate effectively with the House, Senate, and other agencies.

Advertising Contracts: Each agency is directed to include the following information in its fiscal year 2021 budget justification: Expenditures for fiscal year 2019 for (1) all contracts for advertising services; and (2) contracts for the advertising services with (I) socially and economically disadvantaged small business concerns (as defined in section 8(a)(4) of the Small Business Act (15 U.S.C. 637(a)(4)); and (II) women- and minority-owned businesses.

OFFICE OF CONGRESSIONAL ACCESSIBILITY SERVICES

SALARIES AND EXPENSES

The agreement includes \$1,509,000 for salaries and expenses.

The agreement includes \$379,062,000 for salaries of the United States Capitol Police (USCP). The increase includes funds to support 57 additional sworn officers as well as one additional position for the USCP Office of Inspector General. No more than \$47,048,000 is recommended for overtime in fiscal year 2020. This provides for approximately 717,791 hours of additional duty including coverage of the 2020 National Conventions and pre-inauguration.

USCP Office of Inspector General: The agreement provides funding to support not less than six FTE within the USCP Office of Inspector General.

The agreement reiterates directives included in the Senate report and/or House report related to:

USCP Wellness Program: The Department's efforts to date to develop an overall Wellness Program for the officers and civilian personnel of the U.S. Capitol Police are encouraging. It is important to ensure the Capitol Police workforce has the needed support in order to perform its critical national security mission of defending the legislative process. As a part of this law enforcement function, it is important for the Department to continue its effort to maintain the highest level of readiness.

Therefore, the Department is encouraged to begin implementation of a holistic wellness and resiliency program for its workforce that emphasizes the importance of physical fitness, nutritional health, mental and emotional health, and financial wellness. Mindfulness plays an important role in having a first responder workforce that is holistically balanced and resilient. With an emphasis on improving and maintaining both physical fitness and mental health, the Department will be able to provide the support to its workforce to enable them to maintain full focus and attention to the Department's critical mission.

Within 45 days of enactment of this act, the Department is directed to submit a report to the Committees providing the scope, timeline and the cost estimates for implementation and maintenance of such a program. This report should include specific details on how the Department plans to utilize its current resources, such

as fitness centers and contracted fitness training support in this effort, and how it would expand these capabilities to provide the greatest opportunity for its workforce to improve and maintain their physical fitness and nutritional health. The Department should also include details of the other focus areas for its Wellness Program, to include, but not limited to mental, emotional and financial health. This Program should be designed to achieve the highest level of participation of the USCP's workforce. The Committees look forward to working closely with the Department to achieve this effort.

Micromobility Options on U.S. Capitol Grounds: Dockless commercial scooters, or e-scooters, and other motorized devices for rent have grown as a commuting option for congressional staffers, tourists and other visitors to the District of Columbia and Capitol Grounds. It is recognized that new and expanding micromobility options in the District can offer alternatives to car travel and increase access to public transportation. However, these options can create a public safety concern impacting vehicular and pedestrian traffic on the Capitol Grounds if not appropriately regulated and if left unchecked. The safety and security concerns—specifically e-scooters left unattended on sidewalks, roadways, and high-pedestrian access areas throughout the Capitol Grounds—raised by the Capitol Police and other members of the congressional community should continue to be addressed by both the USCP and the House and Senate Sergeants at Arms. The Capitol Police and the Sergeants at Arms are directed to continue and expand efforts to communicate to e-scooter companies, congressional staff, District residents and visitors current restrictions for using and/or parking e-scooters on or around Capitol Grounds. The USCP and the Sergeants at Arms are also directed to engage with the e-scooter companies and the District to explore the feasibility of having locations adjacent to campus to designate as e-scooter parking areas.

Use of Grounds: The Committees understand the need to maintain safety and order on the Capitol Grounds and the USCP is commended for its efforts. Given the family-style neighborhood that the Capitol shares with the surrounding community the Capitol Police is instructed to forebear enforcement of 2 U.S.C. 1963 (“an act to protect the public property, turf, and grass of the Capitol Grounds from injury”) and the Traffic Regulations for the United States Capitol Grounds when encountering snow sledders on the grounds.

GENERAL EXPENSES

The agreement includes \$85,279,000 for general expenses of the Capitol Police.

USCP Office of Inspector General: The agreement provides funding not less than \$452,500 for expenses of the Office of Inspector General.

ADMINISTRATIVE PROVISION

The agreement amends 2 U.S.C. 1926(c), by increasing the employee educational assistance program reimbursement limit from \$40,000 to \$60,000 for student loan repayments.

OFFICE OF CONGRESSIONAL WORKPLACE RIGHTS

SALARIES AND EXPENSES

The agreement includes \$6,333,000 for salaries and expenses.

CONGRESSIONAL BUDGET OFFICE

SALARIES AND EXPENSES

The agreement includes \$54,941,000 for salaries and expenses.

Responsiveness: The Congressional Budget Office (CBO) is expected to ensure a high level of responsiveness to committees, leadership and Members, to the greatest extent practicable under the priorities for CBO set by law, especially when working on current pending legislation. As an agency that prides itself as being non-partisan, CBO should be providing the same information to all stakeholders at the appropriate time when addressing legislation that has been made public.

ARCHITECT OF THE CAPITOL

The agreement includes \$695,933,000 for the activities of the Architect of the Capitol (AOC).

AOC Office of Inspector General (OIG): The agreement includes not less than \$3,810,000 to support no fewer than 15 FTE within the AOC OIG during fiscal year 2020.

AOC Response to Sexual Harassment Complaints: There continues to be a concern with the findings of the March 15, 2019, AOC OIG review of the AOC's response to sexual harassment complaints over the previous 10-year period. Employees of the AOC should feel their work environment is safe and that complaints of harassment and discrimination are taken seriously.

The AOC is directed to report to the Committees within 60 days of enactment of this act on the status of implementation for each of the 16 inquiry results listed in the AOC OIG's report, to include the implementation of the recommendations identified in prior OIG sexual harassment management advisories that went unimplemented in previous years. The report should detail the timeline for implementation as well as any updates or revisions to the AOC's internal policies relating to harassment and discrimination, including employee training on how to prevent and properly report incidents.

Improved Coordination of Legislative Branch Data Centers: Each legislative branch agency independently determines how to manage its data center needs, including: which type of computing (center-based versus cloud-based) to use, the appropriate location for its data centers and required tier of security, the type of facility business model (owned or leased) and expected length of occupancy. While it is appropriate for each agency to make these decisions unilaterally, it does create governance issues across the legislative branch. The AOC manages several facilities that provide space for data centers, but their use is subject to individual agency decisions, making it difficult for AOC to plan for building maintenance and renovations. Coordination of agency decisions regarding data centers would likely result in cost savings from economies of scale and

agreements on physical building space usage. The chief information officers (CIOs) of the legislative branch agencies are directed to form a governance board that will have authority over common elements among agencies' management of their data centers. Such elements should include agreements on the use of available space in data centers that are owned and managed by the AOC. The board should identify the expected rate of occupancy of AOC data centers over the next 5 to 10 years, their required level of security, and agreed-upon uses of unused space for other purposes. The CIOs should report to the Committees within 180 days of enactment of this act that the governance board has been created. Thereafter, the board should provide annual reports to the Committees on its deliberations and decisions, with the first report being due by January 30, 2021.

Data Provided for AOC Projects in Budget Justifications: The AOC is requested to provide in its fiscal year 2022 budget justification additional information about the line item construction projects requested that total \$25,000,000 or more. Similar to the information provided for Department of Defense projects in form 1391 (DD 1391), the budget justifications should include data such as: (1) project description, to include phases (if applicable) delineated by fiscal year, funding for each phase by fiscal year, and a detailed description of what that funding procures; (2) project justification and analysis of benefits; (3) a comparison of budget authority with the prior year's budget for budget authority already received and needed in future years; (4) a justification of any cost, schedule, or design change from prior years; (5) total estimated cost with a detailed breakout by design, construction, and operating costs; (6) a complete project schedule to include dates indicating design start, 35 percent design completion, award of construction documents, design completion, award of construction contract, and estimated construction completion; (7) design contract type; and (8) an analysis of alternatives with associated costs.

Accessibility: It is critical for all individuals visiting the U.S. Capitol complex to have the opportunity to be inspired and learn. Individuals with disabilities should receive the same information and experiences as those who do not have disabilities. Signage, brochures and many exhibit descriptions are available in Braille and/or large print. There are several touchable models available as is an audio descriptive tour of Exhibition Hall in the Capitol Visitor Center (CVC). The efforts of the Office of Congressional Accessibility Services (OCAS) to develop a touchable model/map of the CVC and the Capitol complex are helpful, as well as its development of a descriptive audio tour for the redesigned Exhibition Hall located in the CVC. In addition, its efforts to enhance independent navigation and access to visual information for those who are blind or have low vision are important. However, emerging access technologies, including remote video connectivity to trained visual interpreters that can support such access, should be considered. The AOC, working with the OCAS, is encouraged to research and evaluate access technologies for those who are blind or have low vision that enable access to visual information and enhance independent navigation. The AOC is expected to provide a briefing to the Committees within 180 days of enactment of this act on plans to incorporate these technologies into the visitor experience in the Capitol building.

Display of the Official Flags of Federally Recognized Indian Tribes: The AOC is encouraged to study the feasibility of the display of the official flags of federally recognized Indian Tribes in visible spaces on the Capitol campus. The AOC is requested to provide a report to the Committees within 120 days of enactment of this act describing potential scope and display method options.

Depictions of Native Americans and Native American History in the Capitol: There are depictions of Native Americans throughout the Capitol complex that do not portray Native Americans as equals or Indian Tribes as independent sovereigns. The AOC is urged to work with the Native American historians and professionals at the National Museum of the American Indian to ensure that the Capitol complex describes more accurately and respectfully represents the history of Native Americans. The AOC is also encouraged to acknowledge in its exhibitions on American history and tradition the elements that have originated from Native American cultures.

Project Budget:	
Minor Construction	3,000,000
	<hr/>
	3,000,000
Total, Capitol Grounds	\$15,024,000

Summerhouse: The historic Summerhouse on the Capitol grounds designed in 1880 by Frederick Law Olmsted is badly deteriorated and has needed masonry structure renovation for years. Yet, the project has been deemed lower priority than other important projects and not funded. The Architect is encouraged to apply to the United States Capitol Preservation Commission for the \$3,200,000 requested in the fiscal year 2020 budget for renovation of the Summerhouse. The Commission uses the Capitol Preservation Fund to provide financing for preservation of the Capitol and structures on Capitol grounds, making the Summerhouse an appropriate project recipient. The Architect is requested to notify the Committees when a request has been made to the Commission for Summerhouse funding.

	<hr/>
	23,100,000
Total, Senate Office Buildings	\$88,424,000

This item relates solely to the Senate and is in accordance with long practice under which each body determines its own house-keeping requirements, and the other concurs without intervention.

Senate Employees' Child Care Center (SECCC): In anticipation of receipt by March 31, 2020, of the AOC report to identify and evaluate potential options for expanding the physical capacity of the SECCC, and a potential decision made on the path forward for SECCC facility expansion, the agreement concurs with the Senate Report and provides an additional \$1,000,000 for Senate Office Buildings Minor Construction above the fiscal year 2020 budget request to be used for pre-design activities if the selection of a preferred option from the ongoing study is finalized. Such pre-design activities would include developing a site-specific program of requirements, an acquisition plan, and an independent government estimate.

However, the use of this funding, expected to total \$10,000,000 in fiscal year 2020, is not described in Architect of the Capitol budget justifications or controlled by Congress in any way. The AOC is directed to include projected uses of this reimbursable authority in its future budgets.

The agreement prohibits payments of bonuses to contractors behind schedule or over budget.

LIBRARY OF CONGRESS

SALARIES AND EXPENSES

The agreement includes \$504,164,000 in direct appropriations and authority to spend receipts of \$6,000,000 for a total of

\$510,164,000. This amount includes \$3,587,000 for the Veterans History Project.

Office of Inspector General: The agreement includes not less than \$3,991,000 for the Library's Office of Inspector General during fiscal year 2020.

Centralized Funding for Information Technology: As requested by the Library, funding for centralized IT services is appropriated directly to the main Library of Congress Salaries and Expenses account for use by the Office of the Chief Information Officer instead of to the component organizations receiving the IT services. This realignment reflects where services are actually being performed, avoiding the need for repeated reimbursement transactions, and will help facilitate the final phases of IT centralization across the Library. As a result, a total of \$13,556,000 is provided to the Salaries and Expenses account, with \$2,708,000 allocated for Copyright Office IT services, \$8,767,000 designated for Congressional Research Service IT services, and \$2,081,000 allocated for National Library Service for the Blind and Print Disabled IT services. As a result of this realignment, funding for the three agencies may appear lower, compared to fiscal year 2019. The Library is expected to provide a detailed spending plan within 60 days of enactment of this act, including any increase in FTE levels associated with the IT modernization.

Primary Computing Facility: Included within this recommendation is \$7,000,000 for Data Center Transformation and Modernization (phase II). The Library's Office of the Chief Information Officer has confirmed that it is on schedule to complete the Data Center Transformation Program by the end of fiscal year 2020. The Librarian of Congress is directed to provide a written report, within 30 days of enactment of this act, outlining a month-by-month timeline of when the data center migration will be completed, including a detailed overview of how the Library intends to meet its fiscal year 2020 deadline to migrate to an offsite certified Tier III data center.

IT Modernization and Integrated Master Schedule: The agreement continues to build on investments in IT modernization at the Library, including updating outdated infrastructure, supporting migration to a Tier III data center, and improving the security of the networks. To facilitate the oversight of these investments, the Library is directed to develop an integrated master schedule for its overarching IT modernization efforts. The integrated master schedule should use best practice criteria from the Government Accountability Office, Project Management Institute, or other entity with similar expertise to outline the span of the modernization effort, to be updated on a rolling basis as milestones are met and modernization moves forward. In order to measure the modernization cost and schedule performance on an ongoing basis, the integrated master schedule should also include a comparison of the applicable planned cost of completed work to actual cost incurred, to be updated quarterly. The baselined integrated master schedule should be completed and shared with the Committees within 60 days of enactment of this act.

Visitor Experience Project: The agreement provides \$10,000,000 to be available until expended for further design and development of the Visitor Experience Project. This brings the total Federal in-

vestment provided thus far for the project to \$20,000,000. The Library is expected to complete a detailed plan with further design, along with cost estimates completed by the Architect of the Capitol, for the project. This material should be made available as part of the Library's annual budget request. Language is included making this funding available only upon approval of the House and Senate Legislative Branch Appropriations Subcommittees. Such approval will be contingent upon agreement that the Library has completed the necessary design and development of the project, along with detailed cost estimates. The Library is also requested to provide semi-annually the amount of non-Federal funding committed or received for this project.

National Film and Sound Recording Preservation Programs: The important work of the National Film Preservation Program and the National Sound Recording Preservation Program is recognized, including the federally chartered National Film and National Recording Preservation Foundations (Foundations). Consistent with the authorizing statute, the Foundations utilize both public and private matching funds to provide grants to a wide array of educational and non-profit organizations that help preserve historical and cultural artifacts that would otherwise disappear or be destroyed over time. Given that these programs were reauthorized under the Library of Congress Sound Recording and Film Preservation Programs Reauthorization Act of 2016 (Public Law 114-217), the Library is expected to provide support to these programs.

COPYRIGHT OFFICE

SALARIES AND EXPENSES

The agreement includes \$42,137,000 in direct appropriations to the Copyright Office. An additional \$45,700,000 is made available from receipts for salaries and expenses and \$4,003,000 is available from prior year unobligated balances, for a total of \$91,840,000.

Information Technology Modernization: The recommendation continues funding for Copyright Office IT modernization. The Copyright Office is directed to provide a detailed spend plan for the IT modernization efforts intended to be addressed with the funds provided in fiscal year 2020. Additionally, the Copyright Office is directed to develop an integrated and reliable master schedule for its mission specific modernization efforts. The integrated master schedule should use best practice criteria from the Government Accountability Office, Project Management Institute, or other entity with similar expertise to outline a set of detailed milestones and outcome measures over the span of the modernization effort, to be updated on a rolling basis as milestones are met and modernization moves forward. In order to measure the modernization cost and schedule performance on an ongoing basis, the integrated master schedule should also include a comparison of the applicable planned cost of completed work to actual cost incurred, to be updated quarterly. The baselined integrated master schedule should be completed and shared with the Committees within 60 days of enactment of this act.

In lieu of language included in the Senate report, the agreement includes the following:

Satellite Subsidy Expiration: There is a concern that the distant signal provision contained in the STELA Reauthorization Act of 2014 (Public Law 113–200) may provide a below-market incentive for a mature satellite industry to restrict local news transmission. Recognizing that this law is set to expire on December 31, 2019, the Register of Copyrights is directed to conduct a study on the impact on the market post-expiration, and report to the Committees within 18 months of enactment of this act.

CONGRESSIONAL RESEARCH SERVICE

SALARIES AND EXPENSES

The agreement includes \$120,495,000 for salaries and expenses.

Congressional Staff Education: The Congressional Research Service (CRS) provides valuable education seminars for congressional staff on the legislative process. CRS is encouraged to continue to incorporate analyses of Federal law and related judicial developments, legislation and the regulatory process, and international law into its curriculum.

NATIONAL LIBRARY SERVICE FOR THE BLIND AND PRINT DISABLED

SALARIES AND EXPENSES

The agreement includes \$58,563,000 for salaries and expenses.

Modernization: The recommendation includes \$5,000,000 for replacement of the Braille and Audio Reading by Download (BARD) website which will enhance service to existing National Library Service (NLS) patrons and is expected to increase its number of users. The recommendation also includes \$2,375,000 to increase the supply of talking book machines and Braille eReaders.

ADMINISTRATIVE PROVISION

The agreement includes a provision regarding reimbursable and revolving funds.

GOVERNMENT PUBLISHING OFFICE

CONGRESSIONAL PUBLISHING

(INCLUDING TRANSFER OF FUNDS)

The agreement includes \$79,000,000 for authorized publishing, printing and binding for the Congress.

PUBLIC INFORMATION PROGRAMS OF THE SUPERINTENDENT OF DOCUMENTS

SALARIES AND EXPENSES

(INCLUDING TRANSFER OF FUNDS)

The agreement includes \$31,296,000.

GOVERNMENT PUBLISHING OFFICE BUSINESS OPERATIONS REVOLVING FUND

The agreement includes \$6,704,000.

Office of Inspector General: The agreement includes not less than \$4,172,000 for the Government Publishing Office's (GPO) Office of Inspector General (OIG) during fiscal year 2020.

Responsiveness to Congress: The GPO OIG is responsible for providing independent and objective information to the Director of GPO and to the Congress. The information provided is crucial to the oversight functions of Congress and the daily functions of the agency and its employees. The OIG shall fully inform the Committees of any problems and deficiencies within the agency, as provided by statute. The OIG should inform the Committees periodically and upon request of all completed activities of the OIG that are not classified in nature. In instances when information or reports are deemed agency-sensitive, the OIG is expected to be transparent and work collectively with the Committees to ensure that Congress has access to information critical to its legislative branch oversight functions.

GOVERNMENT ACCOUNTABILITY OFFICE

SALARIES AND EXPENSES

The agreement includes \$630,000,000 in direct appropriations for salaries and expenses of the Government Accountability Office (GAO). In addition, \$24,800,000 is available from offsetting collections, for a total of \$654,800,000.

GAO Office of Inspector General: The agreement also includes not less than \$2,375,000 for the GAO Office of Inspector General, which supports not less than 11 FTE.

Science and Technology Issues: The funding provided will allow GAO to increase support for Congress' work on evolving science and technology issues. The 2019 report from the National Academy of Public Administration (NAPA) identified the need for GAO to focus its advice to Congress on technical assessments and short-to-medium term studies. The study also highlighted that although GAO's support requests from Congress have increased, GAO should consider expanding its outreach to the science and technology community and coordination with CRS to better fill these gaps. GAO is encouraged to dedicate a specific number of experts to work exclusively on GAO's Science, Technology Assessment, and Analytics (STAA) team that was created in January 2019, a recommendation that was included in the NAPA report.

GAO Budget Appropriations Group: The GAO Budget Appropriations Group provides important services to Congress through its formal legal opinions, informal legal advice, the updating of its three-volume treatise on appropriations law, and its responsibilities under the Impoundment Control Act. The number of requests to the Budget Appropriations Group has increased dramatically over the last five years, making it more difficult for GAO to respond to Congressional inquiries. Within the increases provided, GAO is encouraged to enhance the resources allocated to its important appropriations law functions.

OPEN WORLD LEADERSHIP CENTER TRUST FUND

The agreement includes \$5,900,000.

Mission: The Open World Leadership Center (OWLC) is applauded on its twentieth year of operation. The highlight of OWLC's accomplishments has been the engagement of program participants with United States Government officials, including Members of Congress, which helps to improve the image of the United States in countries where leaders have limited direct interface with Americans and our values.

Open World should continue to support Congress in fostering relationships with select foreign states in its programs as an adjunct to United States diplomatic relations, and to gain greater understanding between our nations. Such a course of action would be in line with a national strategy to compete for influence in Central and Eastern Europe as well as Central Asian countries, given the current multi-polar world that presents both challenges and opportunities.

JOHN C. STENNIS CENTER FOR PUBLIC SERVICE TRAINING AND
DEVELOPMENT

The agreement includes \$430,000.

TITLE II—GENERAL PROVISIONS

The agreement continues provisions related to maintenance and care of private vehicles; fiscal year limitations; rates of compensation and designation; consulting services; costs of the LBFMC; limitation on transfers; guided tours of the Capitol; limitation on telecommunications equipment procurement; prohibition on certain operational expenses; plastic waste reduction; adjustments to normal cost percentage rates; and congressional staff compensation.

TITLE I

DEPARTMENT OF DEFENSE

Reprogramming Guidelines.—The following reprogramming guidelines apply for all military construction and family housing projects. A project or account (including the sub-elements of an account) which has been specifically reduced by the Congress in acting on the budget request is considered to be a congressional interest item and as such, prior approval is required. Accordingly, no reprogramming to an item specifically reduced below the threshold by the Congress is permitted, except that the DOD may seek reprogramming for appropriated increments.

The reprogramming criteria that apply to military construction projects, which is 25 percent of the funded amount or \$2,000,000, whichever is less, also apply to new housing construction projects and improvements. To provide the services the flexibility to proceed with construction contracts without disruption or delay, the costs associated with environmental hazard remediation such as asbestos removal, radon abatement, lead-based paint removal or abatement, and any other legislated environmental hazard remediation may be excluded, if such remediation requirements could not be reasonably anticipated at the time of the budget submission. This exclusion applies to projects authorized in this budget year, as well as projects authorized in prior years for which construction has not been completed.

¹ This Explanatory Statement was submitted for printing in the Congressional Record on December 17, 2019 by Mrs. Lowey of New York, Chairwoman of the House Committee on Appropriations. The Statement appears on page H11378 of Book III.

In addition to these guidelines, the services are directed to adhere to the guidance for military construction reprogramming actions and notifications, including the pertinent statutory authorities contained in DOD Financial Management Regulation 7000.14-R and relevant updates and policy memoranda. Further, the agreement encourages the Office of the Director of National Intelligence to use a format similar to that used by the Office of the Secretary of Defense to submit reprogramming requests.

Natural Disasters and Military Installations Resiliency.—The Committees support the military's continued focus on building lasting and resilient military installations, including methods that update hurricane-resistant building codes for bases, barracks, hospitals, and airfields. The Committees strongly support Department-wide initiatives such as revised structure planning, conservation programs and modeling new installations with the threat of sea-level rise in mind. The agreement strongly urges DOD to prioritize investing in climate-sustainable infrastructure projects because they yield positive results, such as increased resiliency and cost-savings. The agreement reiterates the direction provided in House Report 116-63 that directs DOD to detail its plans to further develop lasting and resilient military installations. The agreement also includes \$75,000,000 in planning and design funds for the Services to address these and 10 U.S.C. 2864 master plan requirements in future military construction programs.

Bid Savings.—Cost variation notices required by 10 U.S.C. 2853 continue to demonstrate the Department of Defense (DOD) continues to have bid savings on previously appropriated military construction projects. Therefore, the agreement includes rescissions to the Defense-Wide military construction account and the NATO Security Investment Program. The Secretary of Defense is directed to continue to submit 1002 reports on military construction bid savings at the end of each fiscal quarter to the Committees.

Incremental Funding.—In general, the Committees support full funding for military construction projects if they are executable. However, it continues to be the practice of the Committees to provide incremental funding for certain large projects to enable the services to more efficiently allocate military construction dollars among projects that can be executed in the year of appropriation. Therefore, the agreement includes 16 projects that have been incrementally funded, however the full authorization of the projects was provided in the National Defense Authorization Act, Fiscal Year 2020.

Facilities Sustainment, Restoration and Modernization (FSRM).—The Department of Defense is directed to continue describing on form 1390 the backlog of FSRM requirements at installations with future construction projects. For troop housing requests, form 1391 should describe any FSRM conducted in the past two years. Likewise, future requirements for unaccompanied housing at the corresponding installation should be included. Additionally, the forms should include English equivalent measurements for projects presented in metric measurement. Rules for funding repairs of facilities under the Operation and Maintenance accounts are described below:

(1) components of the facility may be repaired by replacement. Such replacement can be up to current standards or codes;

(2) interior arrangements and restorations may be included as repair;

(3) additions and new facilities may be done concurrently with repair projects, as long as the final conjunctively funded project is a complete and usable facility; and

(4) the appropriate service secretary shall notify the appropriate committees 21 days prior to carrying out any repair project with an estimated cost in excess of \$7,500,000.

Work In Progress Or Planned (WIP) Curve.—The Services and the Office of the Secretary of Defense (on behalf of itself and defense agencies) are directed to submit a WIP curve for each project requested in a budget submission above \$90,000,000 with the 1391 justification to the congressional defense committees. Due to the alarming amount of unawarded prior-year military construction projects, the Secretary of Defense is directed to report to the congressional defense committees quarterly, beginning in the second quarter of fiscal year 2020 and each quarter thereafter on projects that remain unawarded from the current and prior fiscal years and the reasons therefore. Finally, in order to improve transparency and consistent with data publication required under 10 U.S.C. 2851, the agreement directs the Secretary of Defense to submit reports to the congressional defense committees on a quarterly basis starting no later than the second quarter of fiscal year 2020 identifying contracts awarded in the relevant previous quarter for projects funded in this title. At minimum the reports should include: the project name and location, contract solicitation and award date, and contract award amount.

Military Construction Thresholds.—The agreement places no restriction on military construction funding levels that can be requested by the Department, whether domestic or overseas although the Secretary of the Army has issued guidance that the cost for individual military construction projects should not exceed \$100,000,000. Project scopes should not be artificially capped by cost and the agreement directs the Army to reevaluate this practice and to include incorporating area cost factor into any related guidance. In accordance with standing practice, the Department is directed to request such funds for military construction as may be necessary to meet military requirements and can be responsibly executed.

Leveraging Military Construction for Emergent Requirements.—The Committees recognize that other countries are utilizing infrastructure to enhance national interest at a higher rate of investment than the Department of Defense. Military construction is vital to current and future force readiness and can be a strategic asset to deter near-peer competitors, particularly in nations that support U.S. posture in the Indo-Asia-Pacific, such as Micronesia, the Marshall Islands, and Palau. The agreement provides an additional \$10,000,000 in Defense-Wide planning and design for emergent requirements in the Indo-Pacific Command (INDOPACOM) region that support National Defense Strategy objectives to sustain joint force military advantages and deter adversaries from aggression against our national interest. INDOPACOM is directed to pro-

vide a spend plan for these funds no later than 180 days after enactment of this Act.

Project Delivery and Process Improvements.—Because of concern with the number of projects delivered behind schedule or over budget, the agreement directs the Secretary of Defense to provide a report within 180 days of enactment of this Act on the Department's progress in adopting best industry practices and other initiatives to address and mitigate risks in the delivery of construction projects. The report should include descriptions of the specific improvements that have been assessed and the extent of their implementation, the intended results and metrics, suggested refinements to budget documents, and individual assessments by the Secretaries concerned and DOD construction agents on the extent to which they have incorporated these improvements into their military construction programs.

Construction Costs.—DOD faces increasing challenges meeting its construction requirements in remote and highly remote markets where projects are less competitive in the DOD planning, programming, and budgeting process compared to those in low costs markets, regardless of the importance of the project to the DOD mission. Therefore, no later than 270 days after enactment of this Act, the US Army Corps of Engineers (USACE) and Naval Facilities Command (NAVFAC) are directed to provide a report assessing strategies for controlling and reducing costs to military construction projects. The report shall specifically consider project costs in remote and highly remote markets, including overseas markets in the Western and Southern Pacific. The report shall also consider the costs that DOD can control through the acquisition process, including potential changes to procurement authorities that allow preference of alternative, lower-cost building materials and techniques, such as concrete curing, provided the materials and techniques meet military specific design standards.

Natural Disaster Recovery.—Consistent with standard practice, the agreement directs DOD to adhere to all applicable laws concerning National Environmental Protection Act (NEPA) requirements prior to beginning any site preparation or construction. The agreement further directs DOD no later than 30 days after enactment of this Act to brief the congressional defense committees on any steps that have been taken or are expected to be taken related to military construction at installations recovering from natural disasters that are not in accordance with NEPA requirements.

Equivalent Standards.—The agreement encourages the Secretary of Defense, in coordination with the Secretaries of the Military Departments, to pursue the identification of equivalent host nation standards as an option to align U.S. and host country criteria and standards to improve project delivery, particularly in those countries where construction costs are escalating. Furthermore, the agreement encourages DOD construction agents and project sponsors to utilize equivalent standards as appropriate on DOD projects to the maximum extent possible.

Federal, State and Local Intelligence Collaboration.—Several states utilize National Guard Bureau (NGB) facilities for intelligence analysis and fusion centers. As previously indicated in Senate Report 115–130 and Senate Report 115–269, the Committees

remain supportive of such collaborative co-location projects particularly as it relates to the NGB's Joint Force Headquarters Analysis Cells concept. The Committees urge the Department and the NGB to prioritize needed workplace replacement projects, including Sensitive Compartmented Information Facility projects to conduct State and Federal intelligence analysis, in the fiscal year 2021 and future budget submissions.

Child Development Centers (CDCs) and Quality of Life (QOL).—Adequate childcare is vitally important to servicemembers and their families, and the lack of Child Development Centers (CDCs) creates an unnecessary hardship for them. To address this shortfall, the agreement includes \$11,000,000 in each of the Services' planning and design accounts to assist them in preparing for the construction of new CDCs at the most underserved military installations. In addition, the Committees expect the direction given in House Report 116–63 to be followed.

Defense Access Roads.—Improving road safety at and around military facilities is an important part of maintaining and enhancing military readiness, and there is a concern that DOD's lack of future planning for Defense Access Roads (DAR) and transportation infrastructure needs around bases places servicemembers and their families at risk especially at Reserve bases. The agreement directs the Secretary of Defense in consultation with the Secretary of Transportation to prioritize all DAR certified roads and projects in the outyears 2021–2026. The agreement directs the Secretary of Defense to provide a list of planned DAR projects at active and reserve installations no later than 60 days after the enactment of this Act.

MILITARY CONSTRUCTION, ARMY

The agreement provides \$1,178,499,000 for “Military Construction, Army”, which is \$275,000,000 below the budget request. Within this amount, the agreement provides \$136,099,000 for study, planning, design, architect and engineer services, and host nation support. The agreement also provides an additional \$11,000,000 above the request for planning and design for child development centers.

Motorpools.—The Committees look forward to receiving the report requested in House Report 116–63 regarding the modernization needs of motorpools that support the rapid deployment of armored combat units.

Alaska Infrastructure Readiness Initiative.—The agreement recognizes that U.S. Army Pacific senior leaders proposed an Alaska Infrastructure Readiness Initiative to address identified deficiencies in infrastructure in Alaska and encourages the Army to pursue this initiative and provide biannual reports to the Committees on Appropriations of both Houses of Congress on its progress.

Range Expansion.—Recognizing the concern that the Army lacks adequate testing and range space to test new, increased range and capacity fires, and that it is currently in discussions with Yuma Proving Grounds to provide additional capability for testing, the agreement encourages the Army to continue this planning and propose necessary resources in future budgets to support this expansion.

MILITARY CONSTRUCTION, NAVY AND MARINE CORPS

The agreement provides \$2,449,632,000 for “Military Construction, Navy and Marine Corps”, which is \$356,111,000 below the budget request. Within this amount, the agreement provides \$178,715,000 for study, planning, design, architect and engineer services. The agreement also provides an additional \$11,000,000 above the request for planning and design for child development centers.

Fire and Emergency Services.—There is continued concern about the current state of fire and emergency services facilities at installations across the country. Installations such as Naval Support Activity Bethesda operate fire stations built more than 70 years ago and are unable to be modified to accommodate modern vehicles and fire trucks or provide the appropriate livable quarters. Many of the stations lack the appropriate fire suppression systems therefore rendering them unusable. The Department of the Navy is directed to plan and program sufficient funding to address fire and emergency services shortfalls in its fiscal year 2021–2025 future years defense program.

Navy Pier Replacement Master Plan.—To address concerns that the Navy has not properly synchronized or prioritized pier replacement projects the agreement directs the Secretary of the Navy to provide to the congressional defense committees a report no later than 90 days after enactment of this Act on pier replacement projects in the fiscal years defense plan for 2021–2025.

Naval Shipyard Modernization.—The agreement supports the Department’s Shipyard Infrastructure Optimization Plan (SIOP) submitted to Congress in February 2018. The Committees continue to believe the Navy’s assessment of public shipyard dry dock capacity is particularly important, as it identifies 68 deferred maintenance availabilities under the status quo, 67 of which are restored upon making the public shipyard dry dock investments within the timeframe recommended by the plan. Accordingly, the Secretary of the Navy is urged to prioritize the timely funding of public shipyard infrastructure, and in particular dry dock and shore infrastructure necessary to support critical maintenance of surface and submarine fleets by public shipyards.

The SIOP also includes ongoing feasibility assessments on new concepts to improve shipyard maintenance efficiency. The Committees expect the Navy to continue to assess these new concepts without delaying construction improvements at the public shipyards for which Congress has already appropriated funding. As such, the Committees are disappointed that the Navy cancelled for a second time a project requested and appropriated for that would construct a dry dock waterfront facility (P214) prior to providing a realistic plan to address urgent safety issues and meet Pacific Fleet maintenance requirements. The agreement directs the Secretary of the Navy to develop a cost estimate for its dry dock production facility (DDPF) concept, and to provide a report within 90 days of enactment of this Act on the feasibility of programming and constructing the lead DDPF at Pearl Harbor Naval Shipyard as a replacement for P214. The agreement also directs the Secretary of the Navy to include in such report the planned sustainment, restoration, and

modernization measures that will be undertaken to mitigate the effect of a further delayed replacement facility.

New Platforms and Weapons Systems.—There is concern that the Department of the Navy's process to identify, plan, and budget for requirements to provide adequate shore facilities and infrastructure to support the deployment of new weapons systems is flawed and that projects requested by the Department do not include all facility and infrastructure requirements needed to support the weapons systems, leading to the need to alter the scope of the project or reprogram already scarce funds. Therefore, the agreement directs the Secretary of the Navy to provide a report within 180 days of enactment of this Act on the Department's processes and timelines for identifying the full range of infrastructure and range requirements associated with the life cycle support for major weapons systems, prior to the programming of those systems for procurement. Specifically, the report should address (1) the Department's processes and timelines associated with incorporating those requirements into the program of record, periodic reviews, and ultimately into annual budget submissions; (2) the review and evaluation of the risk associated with not funding certain requirements, to include the assessment of the costs of workarounds; (3) how, when, and to what extent organizations in the Department responsible for the management of facilities and shore infrastructure are incorporated into the process of identifying requirements and developing budget input prior to the fielding of new equipment; (4) the process to ensure that budget justification and periodic program reviews include work needed to provide adequate infrastructure, utilities, and other systems needed to support the weapons systems; and (5) any impediments in law or policy that impact the Department's ability to make decisions about infrastructure investments associated with major weapons system procurements.

MILITARY CONSTRUCTION, AIR FORCE

The agreement provides \$1,687,230,000 for "Military Construction, Air Force", which is \$492,000,000 below the budget request. Within this amount, the agreement provides \$153,148,000 for study, planning, design, architect and engineer services. The agreement also provides an additional \$11,000,000 above the request for planning and design for child development centers.

Defense Laboratory Modernization Pilot Program.—The agreement includes an additional \$111,000,000 to support three Air Force laboratories located at Edwards AFB, Eglin AFB and Nellis AFB.

Air Force Ballistic Missile Facilities.—There is concern about the Air Force's decision to defer missile alert facility (MAF) recapitalization until a Ground Based Strategic Deterrent (GBSD) design solution has matured. While it is not responsible to construct facilities that could soon be obsolete, the Air Force should more thoroughly examine whether recapitalization of MAFs is wholly incompatible with future GBSD design. The agreement urges the Air Force to invest sufficiently in the human component of the legacy weapons system and ensure adequate funding for MAF sustainment, and recapitalization, as necessary.

The agreement also recognizes the importance of the Weapons Generation Facility (WGF) modernization program but remains concerned about execution delays, cost overruns, and the impact to follow on projects, which may experience similar challenges. The agreement encourages the Air Force to continue to follow its revised plan for construction and upgrades to the WGF enterprise and to provide quarterly briefings to update the Committees on status, requirements changes, and timelines for current and future projects associated with the WGF modernization program.

Corrosion Control and Painting Facilities.—There is concern that the Air Force may not have adequate corrosion control and painting facilities to support the RQ-4 aircraft. For example, at Grand Forks Air Force Base, aircraft painting is contracted out due to a lack of facilities that can support these capabilities. Therefore, the agreement directs the Secretary of the Air Force to report within 90 days of enactment of this Act on its capacity to perform corrosion control and painting activities for the RQ-4 aircraft, the outstanding infrastructure requirements needed to support these efforts, and whether these requirements can be met with facility sustainment, restoration, and modernization funding or military construction.

MILITARY CONSTRUCTION, DEFENSE-WIDE

(INCLUDING TRANSFER OF FUNDS)

The agreement provides \$2,362,529,000 for “Military Construction, Defense-Wide”, which is \$141,661,000 below the budget request. Within this amount, the agreement provides \$298,655,000 for study, planning, design, architect and engineer services.

Energy Resilience and Conservation Investment Program (ERCIP).—The agreement provides \$232,630,000 for ERCIP, an increase of \$82,630,000 above the budget request to fund seven unfunded requirements of the program for energy resilience. Also, an additional \$13,300,000 is provided under the Defense-Wide planning and design account specifically for ERCIP. The Secretary of Defense is directed to submit to the congressional defense committees a spend plan for the additional ERCIP funds, to include the planning and design funds, no later than 30 days after enactment of this Act.

Renewable Energy Systems, Energy Conservation, and Energy Policy.—The agreement supports the Department’s efforts to improve energy resilience, improve mission assurance, save energy, and reduce energy costs. DOD must continue to increase the integration of alternative energy sources, particularly through renewable sources at all military facilities and installations. The Committees expect DOD to follow all directives provided in House Report 116–63 regarding Renewable Energy Systems, Energy Conservation, and Energy Policy.

Fuel Storage Assurance.—The agreement recognizes the important role that assured access to adequate fuel has on the Joint Force’s readiness and the challenges the Defense Logistics Agency will face funding fuel storage requirements from within its existing military construction account that accommodate future force structure and posture requirements, environmental regulations, and

other changes affecting the Joint Force's fuel needs. No later than 180 days after enactment of this Act, the agreement directs the Secretary of Defense to provide a report assessing the feasibility of meeting future fuel storage infrastructure requirements in DOD's planning, programming, and budgeting process, using a Joint Force funding construct.

MILITARY CONSTRUCTION, ARMY NATIONAL GUARD

The agreement provides \$210,819,000 for "Military Construction, Army National Guard", which is the same as the budget request. Within this amount, the agreement provides \$20,469,000 for study, planning, design, architect and engineer services.

Readiness Center Transformation Master Plan.—The Army National Guard (ARNG) should continue to dedicate funding to implement the Readiness Center Transformation Master Plan. The Committees urge the Army and ARNG leadership to sufficiently budget for military construction so that sustained investment in Readiness Center transformation does not result in severely neglected operational facilities across the remaining infrastructure enterprise.

Regional Training Institutes.—The Committees recognize the importance of Regional Training Institutes (RTI) across the country for the readiness of ARNG and are concerned about the lack of infrastructure to support the mission of the RTIs. For example, the RTI at Fort Hood is lacking sufficient facilities to provide the proper training to achieve optimum readiness. The Committees urge the Department of Defense to prioritize facilities for this important and vital mission of ARNG and Army Reserve.

National Guard Training Center.—The Committees recognize the importance of the National Guard Texas Training Center, which has been in development since 2010 and has had execution delays. The Committees recognize that the Texas Training Center remains a high priority and the Texas Army National Guard shall continue its efforts to establish the Center. The agreement directs the Director of the Army National Guard to provide a progress report to the congressional defense committees no later than 90 days after enactment of this Act."

MILITARY CONSTRUCTION, AIR NATIONAL GUARD

The agreement provides \$164,471,000 for "Military Construction, Air National Guard", which is \$1,500,000 below the budget request. Within this amount, the agreement provides \$17,000,000 for study, planning, design, architect and engineer services.

MQ-9 Facilities.—Some Air National Guard MQ-9 units will require new operations facilities in the coming years to be able to continue executing the MQ-9 mission. The National Guard Bureau should continue to prioritize funding for necessary construction projects in future budget requests to avoid unnecessary risk to MQ-9 operations.

MILITARY CONSTRUCTION, ARMY RESERVE

The agreement provides \$60,928,000 for "Military Construction, Army Reserve", which is the same as the budget request. Within

this amount, the agreement provides \$6,000,000 for study, planning, design, architect and engineer services.

MILITARY CONSTRUCTION, NAVY RESERVE

TITLE II

DEPARTMENT OF VETERANS AFFAIRS

ITEMS OF SPECIAL INTEREST

Notification of Allegations.—Reports of alleged negligence or criminal behavior by VA providers that may have resulted in serious health outcomes raise extreme concerns. In multiple cases, there were warning signs of reckless or illegal behavior that were not reported or acted upon in a timely manner and may have resulted in the death of multiple veterans. Therefore, the bill maintains a provision requiring the Department to develop a plan to reduce the chances that clinical mistakes by VA employees will result in adverse events that require institutional or clinical disclosures, as VA has not adequately addressed the requirement. The agreement directs the Secretary to develop processes and procedures for staff of medical facilities to report concerns to Veterans Integrated Service Network (VISN) and Departmental leaders for awareness and action, as well as procedures for expediting any remedial or follow-up care, an impact analysis, and a communication and education plan for making staff aware of the appropriate protocols. The agreement further directs the Department to report on this effort, as well as VA's recent commitment to retrain all Veterans Health Administration leadership and personnel, to the Committees on Appropriations of both Houses of Congress within 30 days of enactment of this Act.

Blue Water Navy Veterans.—The agreement includes funds to address the personnel, support and Information Technology costs required to implement the Blue Water Navy Vietnam Veterans Act of 2019 (Public Law 116–23) by January 1, 2020. Although the administration refused to submit a formal request for these funds, the Committees appreciate VA's efforts to prepare for this increase in complex cases and to prevent increases in the disability claims backlog.

Transition from Active Duty to Civilian Life.—The Department is encouraged, in consultation with the Departments of Defense and Labor, to partner with community-built networks and non-profit programs, including faith-based programs, that provide wrap-around employment and counseling services to veterans and their families, including high-risk veterans, to ensure they have a successful transition to civilian life.

Contract Oversight.—The Department's lack of transparency in the contracting process, including reported incidents of willful misrepresentation of veteran or service-disabled veteran status for the purposes of winning Federal contract set-asides, remains a concern. The agreement directs the Department, in consultation with relevant agency partners, to provide any regulatory or legislative actions that would serve as further disincentives to this fraudulent behavior. Due to concern over the lack of visibility into contractor performance, the agreement requires the Department to submit to the Committees on Appropriations and Veterans' Affairs of both Houses of Congress notification whenever the Secretary provides notice to a contracted service provider that the service provider is

failing to meet contractual obligations. At a minimum, the notification should include: (1) an explanation of the reasons for providing such notice; (2) a description of the effect of such failure, including with respect to cost, schedule, and requirements; (3) a description of the actions taken by the Secretary to mitigate such failure; and, (4) a description of the actions taken by the contractor to address such failure.

Use of Authority to Convert Non-Medical Services to Contract Performance by Native Hawaiian Organizations or Indian Tribes.—Section 238 of the Energy and Water, Legislative Branch, and Military Construction and Veterans Affairs Appropriations Act, 2019 (Public Law 115–244) maintained VA’s authority to convert activities or functions of VBA, VHA, and NCA to contractor performance by businesses that are at least 51 percent owned by one or more Indian tribes as defined in section 5304(e) of title 25, United States Code, or one or more Native Hawaiian Organizations as defined in section 637(a)(15) of title 15, United States Code. The agreement directs the Department to submit a report to the Committees on Appropriations of both Houses of Congress no later than 180 days after enactment of this Act detailing VA’s use of this authority to date and its plan for using it in the future.

Discontinued Use of Social Security Numbers.—Section 239 of Public Law 115–244 required the Department to discontinue using Social Security account numbers to identify individuals in all information systems of the Department within 5 years for new claims and 8 years for all others. To date, the Department has not yet provided Congress with any information regarding its plan to implement this statutory requirement. The agreement directs the Department to report to the Committees on Appropriations and Veterans’ Affairs of both Houses of Congress within 120 days of enactment of this Act a detailed timeline for implementation of this requirement and any budgetary requirements needed to carry it out.

Security Risk Management.—Providing welcoming access to Department facilities while maintaining the necessary security is challenging. However, the Committees are concerned that the Department’s current risk management policies and police governance processes are not sufficient to ensure medical facilities are adequately protected. The Department is urged to quickly implement the recommendations in the Office of Inspector General (OIG) report entitled, “Inadequate Governance of the VA Police Program at Medical Facilities.”

Debt Recoupment.—The Department has not yet developed a way to track debt incurred by an individual veteran, and how much of that debt is a result of processing delays or errors by VA. The agreement requires the Department to submit to the Committees on Appropriations of both Houses of Congress within 120 days of enactment of this Act a plan and timeline for tracking the cause of a debt incurred by a veteran. Further, the Department should consider that debt assigned to a veteran due to a delay or mistake in processing by VA or a VA employee is considered by the Committees, for purposes of tracking, to be an error by the Department.

Unobligated Balances of Expired Discretionary Funds.—The agreement directs the Secretary to submit to the Committees on Appropriations of both Houses of Congress a report no later than

April 15, 2020, and quarterly thereafter, detailing all unobligated balances of expired discretionary funds by fiscal year.

VETERANS BENEFITS ADMINISTRATION

COMPENSATION AND PENSIONS

(INCLUDING TRANSFER OF FUNDS)

The agreement provides \$118,246,975,000 for Compensation and Pensions in advance for fiscal year 2021. Of the amount provided, not more than \$18,147,000 is to be transferred to General Operating Expenses, Veterans Benefits Administration (VBA) and Information Technology Systems for reimbursement of necessary expenses in implementing provisions of title 38. The agreement also provides \$1,439,931,000 for fiscal year 2020 in addition to the advance appropriation provided last year based on the administration's estimate of claims under the Blue Water Navy Vietnam Veterans Act.

READJUSTMENT BENEFITS

The agreement provides \$12,578,965,000 for Readjustment Benefits in advance for fiscal year 2021.

VETERANS INSURANCE AND INDEMNITIES

The agreement provides \$129,224,000 for Veterans Insurance and Indemnities in advance for fiscal year 2021. The agreement also provides \$17,620,000 for fiscal year 2020 in addition to the advance appropriation provided last year.

VETERANS HOUSING BENEFIT PROGRAM FUND

The agreement provides such sums as may be necessary for costs associated with direct and guaranteed loans for the Veterans Housing Benefit Program Fund. The agreement limits obligations for direct loans to not more than \$500,000 and provides that \$200,377,391 shall be available for administrative expenses.

VOCATIONAL REHABILITATION LOANS PROGRAM ACCOUNT

The agreement provides \$57,729 for the cost of direct loans from the Vocational Rehabilitation Loans Program Account, plus \$401,880 to be paid to the appropriation for General Operating Expenses, Veterans Benefits Administration. The agreement provides for a direct loan limitation of \$2,008,232.

NATIVE AMERICAN HOUSING LOAN PROGRAM ACCOUNT

The agreement provides \$1,186,000 for administrative expenses of the Native American Veteran Housing Loan Program Account.

GENERAL OPERATING EXPENSES, VETERANS BENEFITS ADMINISTRATION

The agreement provides \$3,125,000,000 for General Operating Expenses, Veterans Benefits Administration and, of the amount provided, not to exceed 10 percent is available for obligation until September 30, 2021.

The agreement provides \$125,000,000 above the request to hire additional claims and appellate staff and to meet the requirements to implement the Blue Water Navy Vietnam Veterans Act. The agreement requires VA to report to the Committees on Appropriations of both Houses of Congress on a quarterly basis information related to claims considered under the Blue Water Navy Vietnam Veterans Act. This information should include timeliness measures as well as grant and denial rates for these claims. The agreement requires the Department to provide monthly updates on performance measures for each Regional Office.

Veterans Transportation Program.—The agreement recognizes the importance of the Veterans Transportation Program and the role it plays in improving access to care by assisting Veterans in overcoming transportation barriers when accessing VHA services.

Equitable Relief.—As described in House Report 116–63, the Secretary is directed to continue to grant or extend equitable relief to eligible veterans initially deemed eligible in instances of administrative error.

Education Benefits.—The Committees are concerned about the levels of overpayments and improper payments being paid to GI Bill beneficiaries. The agreement directs VA to work with education stakeholders to ensure that veteran educational benefits are paid in a timely and accurate manner, and that efforts to recoup any overpayments or improper payments are fair and not overly burdensome on student veterans and their families. The agreement further directs VA, in collaboration with the Departments of Defense and Education, to provide an interagency report on the development and continued implementation of the Principles of Excellence, oversight of institutions complying with the Principles, and appropriate and timely accountability measures for educational programs receiving Federal funding. Lastly, the agreement directs the Department to continue to reform the compliance survey process to allow early detection of fraudulent marketing or predatory recruiting practices among institutions of higher learning, and to codify a set of tools that is sufficiently agile enough to curtail the behavior of scamming institutions.

Education Data Collection and Sharing.—The Committees believe that both students and VA should be able to make more evidence-based decisions when it comes to veterans' education. The agreement directs the Department to work with the Departments of Education and Defense to ensure that there is a comprehensive database, or at a minimum, a set of data-sharing agreements in place between Federal entities involved in the administration of Federal resources related to veteran educational attainment. The agreement further directs the Department to provide an interagency report on the development and implementation of data-sharing agreements, and the uses and effectiveness of the data shared. The report must be completed and provided to the Committees on Appropriations of both Houses of Congress no later than 270 days after enactment of this Act.

Gulf War Veterans Claims for Service-Connected Disability Compensation.—The Department's high rates of denial of Gulf War veterans' claims for undiagnosed illnesses and chronic multi-symptom illnesses continue to be concerning. The agreement directs the De-

partment to continue to seek ways to improve the grant rate for disability claims and to better address the needs of those veterans suffering with undiagnosed illnesses and chronic multi-symptom illnesses after their Gulf War service.

Medical Disability Exams.—Consistent with statute, the agreement directs the Department to ensure that any non-VA physician contracted to conduct medical disability examinations must have a current unrestricted license to practice as a physician, and is not barred from practicing in any State, the District of Columbia, or a Commonwealth, Territory, or possession of the United States.

Vocational Rehabilitation and Employment Service Counselor to Client Ratio.—The significant understaffing within rehabilitation programs negatively impacts veterans with a service-connected disability using these programs. The agreement encourages the Department to seek opportunities to expand staffing counselors in these critical areas in order to reach the ratio of 125 veterans to one full-time equivalent (FTE) position, and to provide the comprehensive individualized services that these veterans have earned.

VetSuccess on Campus.—The agreement strongly encourages VA to continue to support the VetSuccess on Campus program and expand to additional schools.

Anti-Recidivism Programs.—The agreement encourages VA to look for opportunities to partner with non-profit organizations that provide programs for incarcerated veterans to reduce the likelihood of recidivism. VA should consider partnering with organizations that provide combined services to veterans to support their transition out of incarceration to being productive members of the communities to which they return. As VA pursues these partnerships, the agreement encourages the establishment of metrics to measure the partnerships' effectiveness, including reduced recidivism rates among veterans.

GI Bill Apprenticeships and On-the-Job-Training.—Apprenticeships and on-the-job training (OJT) programs are important tools in teaching veterans valuable skills and aiding veterans in securing employment after transitioning from military service. However, these programs are largely underutilized by veterans. The agreement directs VA to provide a briefing to the Committees on Appropriations of both Houses of Congress no later than 90 days after enactment of this Act to update the Committees on the Department's efforts to promote awareness and increased utilization of apprenticeships and OJT, including VA's plans for tracking data on program outcomes, such as employment and income information, as well as information concerning any funding needs or necessary legislative changes to ensure these programs' success.

VETERANS HEALTH ADMINISTRATION

Importance of In-House VA Care.—As VA continues to implement the John S. McCain III, Daniel K. Akaka, and Samuel R. Johnson VA Maintaining Internal Systems and Strengthening Integrated Outside Networks (MISSION) Act of 2018 (Public Law 115–182), the Committees recognize the vital role of VA's healthcare facilities in serving the unique needs of veterans. VA's medical centers, community-based outpatient centers, and other facilities provide veterans with necessary services — such as audiology, prosthetics,

mental health services for post-traumatic stress disorder and traumatic brain injury, and rehabilitation services for spinal cord injuries—that are highly specialized and at which VA often has more expertise than community providers. Veterans overwhelmingly report they are satisfied with the care they receive at VA healthcare facilities. Research has also consistently shown that VA produces as good, if not better, health outcomes as the private sector. In addition, VA healthcare facilities play a critical role in our Nation's health system in training new doctors, nurses, and other medical providers; conducting lifesaving medical research; providing nationwide emergency preparedness support; and innovating many best practices in healthcare delivery. The Committees, therefore, stress the importance of VA continuing to fully fund, fully staff, and appropriately maintain its healthcare facilities, even as the VA MISSION Act is implemented. The agreement requires VA to continue to enhance the services provided in its facilities to ensure that VA healthcare continues to be of the quality and effectiveness that veterans have come to expect.

VA MISSION Act.—The agreement provides \$8,908,585,000 in fiscal year 2020 and \$11,291,827,000 in fiscal year 2021, consistent with the budget request, to implement the VA MISSION Act. The agreement fully funds the Department's request in order to provide greater access to timely and quality care for veterans, both in VA and in the community, but is interested in closely monitoring the financial impact of the access standards.

The agreement directs the Department to submit quarterly reports to the Committees on: (1) the number of veterans served by each authority for care outlined in section 1703(d) of title 38, United States Code (i.e., the Department does not offer the care, the Department does not operate a full-service medical facility in the State in which the covered veteran resides, etc.); (2) the cost of such care broken out by the authorities in section 1703(d); and (3) the timeliness of care, on average. In addition, the agreement directs the Department to submit monthly reports to the Committees on Appropriations of both Houses of Congress identifying available resources, obligations, authorizations, and anticipated funding needs. These monthly reports should include the Veterans Choice Fund balances and clearly show funds from the Veterans Choice Fund used to support new non-VA care authorizations since June 6, 2019. The reports should also include detail on the timing of authorization of care and the obligation of funds.

Allocations.—The Committees remind the Department, in accordance with the Joint Explanatory Statement accompanying Public Law 115–244, that it was directed to consult with the Committees on Appropriations and Veterans Affairs of both Houses of Congress before any future attempts are made to realign Specific Purpose funding to General Purpose funding, and that such future realignments must be proposed in an annual budget submission. No such consultation occurred, and the fiscal year 2020 budget submission did not reflect any conversion of funding. Therefore, the agreement directs that the Department not convert any Special Purpose funding to General Purpose funding in fiscal year 2020.

Joint National Intrepid Spirit Center.—The agreement directs the VA/DOD Health Executive Committee to provide a report to

the Committees on Appropriations of both Houses of Congress no later than 60 days after enactment of this Act on the Departments' collaborative efforts related to traumatic brain injury (TBI) care, research and education to improve the quality of and access to TBI care, and the pros and cons of establishing a joint DOD/VA Intrepid Spirit Center that serves both the active duty and veteran populations for the mutual benefit and growth in treatment and care. The report should include an analysis of how better to serve servicemembers and veterans with TBI in areas with limited access to TBI care (i.e., rural areas), including the establishment of a joint DOD/VA Intrepid Spirit Center in such an area. The report must include an analysis of existing DOD medical facilities that partner with VA, existing warrior transition units or similar units that support active duty servicemembers who require comprehensive care, and academic institutions specializing in Polytrauma/TBI in geographic locations without an existing National Intrepid Center of Excellence or Intrepid Spirit Center. In addition, the report should propose metrics that demonstrate short-term as well as long-term (i.e., 6 to 24 months) program effectiveness, including sustainability of patient independence by geographic area, a plan to collect longitudinal data to analyze longer-term effects, and the financial requirements to establish and maintain such a Center.

Prompt Payment.—The Committees remain committed to supporting VA's efforts to ensure timely reimbursement for non-VA healthcare providers and facilities that provide necessary care for our veterans. The agreement encourages the Department to provide strong oversight and improve timely payment to non-VA providers. The agreement also urges VA to facilitate the completion of all outstanding reimbursements as promptly as possible.

Public-Private Partnerships.—The Department's research investment could be expanded to leverage non-Federal initiatives that provide the opportunity for strong co-location of VA and university biomedical scientists for translational investigation, which has high potential for precision medicine outcomes for wounded warriors and other high-risk veteran populations. The agreement notes the high concentration of VA research enterprises on the Nation's two coasts and urges the Under Secretary for Health to expedite consideration of proposals for the Department to lease space from research complexes where there is multi-disciplinary investigation related to veterans and wounded warriors, including medicine, engineering and veterinary science. Such consideration should be timely to inform action in the fiscal year 2021 budget.

Medical Center Internet Access.—The Committees believe that having access to WiFi and the internet at VA medical facilities is important, and while many VA facilities provide internet access in certain specific locations, access is not provided to inpatient treatment rooms or waiting areas across the campus. The agreement directs the Department to assess internet coverage for veterans and guests across facilities, and to report on the current status of internet access, the cost estimates for expanding internet coverage to all appropriate locations at VA facilities, and the infrastructure and cyber security requirements to support such expansion. The report must be provided to the Committees on Appropriations of both Houses of Congress within 180 days of enactment of this Act.

Veterans Health Administration Staffing Model.—It is critical that VHA develop a staffing model to better understand and more quickly address staffing needs across the organization, particularly in critical need occupations. The agreement directs OIG to review VHA's progress in developing a comprehensive staffing model and timeline for implementation. The agreement further directs OIG to meet with the Committees within 30 days of enactment of this Act to discuss details of the planned study.

Emergency Room Claims.—The United States Court of Appeals for Veterans Claims decided in *Wolfe v. Wilkie* that VA was responsible for reimbursing veterans inappropriately denied payment for emergency care obtained outside of the VA system. The agreement directs the Department to undertake a review of post-April 8, 2016, rejected and denied emergency care claims, and to explore the feasibility of reviewing claims rejected or denied prior to that date. Further, the agreement directs the Department to examine what it can do to mitigate the financial damage done to those veterans whose unpaid emergency care claims were sent to a collection agency and now have damaged credit. Finally, the agreement directs the Department to provide a detailed plan for how it will re-adjudicate inappropriately denied post-April 8, 2016 claims; describe whether and how it will review claims denied or rejected before that date; provide an analysis of how it came to that conclusion; and describe steps it will take to mitigate damage done to veterans' credit within 90 days of enactment of the Act. The Committees expect that the Department will implement measures to avoid similar outcomes in the future.

Reporting on VA Healthcare Facilities for Treatment of Women.—The agreement directs the Department to submit a report to the Committees on Appropriations of both Houses of Congress no later than 90 days after enactment of this Act, and annually thereafter, with the following information: the number of facilities in each model of delivery of care to women (by VISN and by State); the criteria used to determine which model is most appropriate for each facility; the triggers or criteria to upgrade facilities to the next higher model; plans, if any, to upgrade facilities from the lowest model (General Primary Care Clinics) to a higher model within planned Strategic Capital Investment Planning (SCIP) investments; and whether VA has a plan or goal for how many facilities should fall into each of the models of care.

MEDICAL SERVICES

The agreement provides \$56,158,015,000 in advance for fiscal year 2021 for Medical Services and makes \$1,500,000,000 of the advance available through fiscal year 2022. The agreement includes bill language requiring the Secretary to ensure that sufficient amounts are available for the acquisition of prosthetics designed specifically for female veterans. Of the amounts provided, the agreement provides that at least \$585,000,000 shall be dedicated to gender-specific care for women.

Caregivers Support

The agreement includes \$710,000,000 for VA's Caregivers Program, which VA is expected to dedicate to the Caregivers Program and not divert resources to other areas. The Department should note that notification should be provided to the Committees of any attempts to reprogram this funding.

Expansion and Support for Caregivers.—The Caregivers Program was enhanced as part of the VA MISSION Act, and the Department is expected to carry out this expansion according to the statutory timeline, and to fully staff the program, including ensuring that the Caregiver Coordinators at each Medical Center are fully resourced and, to the maximum extent possible, assigned designated caregiver duties as their chief and only responsibility. The agreement directs VA to provide quarterly projections and monthly expenditure reports for the Caregivers Program to the Committees on Appropriations of both Houses of Congress. These reports should also highlight any changes to the implementation schedule due to the Department's decision-making delays, as well as the timing of information technology requirements.

Additionally, the Committees are concerned by recent actions of the Department to implement policy changes that would limit eligibility of veterans and caregivers or curtail the support services provided to them. Any steps to limit eligibility are rejected by the Congress and the agreement directs the Department to submit a report detailing justification no later than 180 days prior to any changes in eligibility criteria not made as a result of public law.

The Committees recognize that many caregivers for severely wounded veterans face a reduction in outside earnings, resulting in difficulties meeting financial obligations, including student loan debt held by the caregiver. The agreement directs the Department to survey all caregivers currently in the program who seek the financial planning services required under the VA MISSION Act, in order to identify the number possessing outstanding student loan debt, and to develop a plan to monitor this issue, including providing counseling related to student loan and other debt management, under such financial planning services to caregivers required by the VA MISSION Act.

Mental Health

Mental Health and Suicide Prevention.—The agreement provides \$9,432,833,000 in discretionary funds for mental health programs, which is \$20,000,000 above the budget request, and includes \$221,765,000 for suicide prevention outreach. The Secretary is directed to make any necessary improvements to Veterans Crisis Line (VCL) operations including, but not limited to, ensuring appropriate staffing for call centers and back-up centers, providing necessary training for VCL staff, and ensuring that staff are able to appropriately and effectively respond to the needs of veterans needing assistance. The Secretary is also directed to provide the Committees on Appropriations of both Houses of Congress a report, no later than 90 days after enactment of this Act, which contains an update detailing findings on the outcomes and efficacy of the VCL from the Veterans Crisis Line Study Act of 2017.

The agreement also maintains the direction provided in House Report 116–63 for VA to implement a safety plan to address parking lot suicides and expand the Coaching Into Care program, remove barriers that impact a veteran’s ability to receive mental healthcare, and implement a program to educate local law enforcement on how to deal with veterans during a mental health crisis. This report should also address the status of recommendations from the OIG following investigations of specific suicides on VA campuses.

In addition, the agreement directs the Department to provide a report no later than 60 days after enactment, and quarterly thereafter, a detailed expenditure plan for suicide outreach and treatment programs, how VA is meeting the Committees’ directives, and updates on obligations to date. Furthermore, the agreement directs the Department to staff every VA Medical Center with at least one suicide prevention coordinator.

National Center for Post-Traumatic Stress Disorder.—The agreement supports the mission and work of the National Center for Post-Traumatic Stress Disorder and has provided \$40,000,000, which includes \$10,000,000 for the coordination of the VA National PTSD Brain Bank, to continue the center’s advancement of the clinical care and social welfare of America’s veterans, through research, education, and training in the science, diagnosis, and treatment of PTSD and stress-related disorders.

PREVENTS Initiative.—The agreement includes \$3,000,000 for VA’s efforts to coordinate veteran suicide prevention efforts under the Presidential Task Force established under the PREVENTS Initiative, as directed in House Report 116–63.

Expansion of Mental Health Benefits to Guard and Reservists.—The agreement acknowledges the importance of providing mental healthcare to all warfighters, which includes Guard and Reservists. The Committees recognize that these individuals may benefit from access to mental health services provided by VA—including suicide prevention services—even if they were not activated under Federal orders. Therefore, the agreement directs the Department to provide a report to the Committees on Appropriations of both Houses of Congress no later than 180 days after enactment of this Act on the feasibility of extending access to these services to all members of the National Guard and Reserves, regardless of their Federal activation status. This report shall include the costs associated with this effort, an estimate of the impact on capacity, as well as any relevant legislative language needed to accomplish this goal.

Reduce Suicide, Relapse, and Hospital Visits.—The agreement encourages VA to consider the use of cutting-edge, off-the-shelf technology and pharmacy management protocols as tools to reduce suicide, relapse and hospital visits by veterans treated for mental health issues, including PTSD and TBI.

Vets Corps.—The agreement provides up to \$2,500,000 to carry out the direction provided in House Report 116–63 regarding Vets Corps.

REACH Veteran in Crisis Initiative.—The agreement supports the Recovery Engagement and Coordination for Health—Veterans Enhanced Treatment (REACH VET) program. The Department is encouraged to work in partnership with the Department of Ener-

gy's Oak Ridge National Laboratory to update and improve predictive models and expand the use of predictive analytics for decision support and identification of veterans in need and at risk.

Prescription Practices.—The June 2019 GAO report, “VA Mental Health: VHA Improved Certain Prescribing Practices, but Needs to Strengthen Treatment Plan Oversight” (GAO-19-465) reviewed how mental health treatment decisions are made by providers in VA Medical Centers and monitored by VHA. The agreement directs the Department to submit a report to the Committees on Appropriations of both Houses of Congress no later than 90 days after enactment of this Act, detailing progress towards implementing the GAO recommendations in this report.

Sleep Disorders.—Senate Report 115-269, which accompanied the FY 2019 appropriations, included a recommendation for the Department to assign a program manager for sleep disorders. The Department indicated it would make a determination upon completion of the Healthcare Analytics and Information Group's survey of existing resources and practices. The agreement directs the Department to provide an update on this review and recommendation to the Committees on Appropriations of both Houses of Congress no later than June 30, 2020.

Homeless Assistance

The agreement provides \$1,847,466,000 for homeless assistance programs, which is \$28,932,000 above the budget request. This includes \$380,000,000 for the Supportive Services for Veteran Families program; \$408,300,000 for the Housing and Urban Development-Veterans Affairs Supportive Housing (HUD-VASH) program case management; \$250,000,000 for the Grant and Per Diem Program; and \$69,107,000 for the Veterans Justice Outreach Program.

Homeless Women Veterans.—The Secretary is directed to report to the Committees on Appropriations of both Houses of Congress within 180 days of enactment of this Act on the growing number of women veterans who are homeless or unstably housed and the programs intended to serve them. The report should identify if and how the programs are failing and include a plan to address any deficiencies.

Veteran Homeless Report.—The Secretary is directed to prepare a report in consultation with DOD and the U.S. Interagency Council on Homelessness on the progress made to date to ensure servicemembers identified through the Transition Assistance Program process as lacking viable housing options receive appropriate housing-related assistance. The report shall be provided to the Committees on Appropriations of both Houses of Congress within 120 days of enactment of this Act and include: 1) data for fiscal years 2018 and 2019; 2) the number and percentage of transitioning servicemembers who are evaluated as not having a viable post-transition housing plan; 3) and of those, a) the number and percentage who receive a warm handover from DOD to VA; b) the number who received services from appropriate VA homeless program staff; and c) and are identified as experiencing homelessness.

Limited Affordable Housing.—The Secretary is directed to provide an update on the effects of limited affordable housing opportu-

nities on the Department's homeless programs in rural communities. The report also should include recommendations on ways the Department and local housing entities can better partner to ensure access to housing for veterans in rural and high-cost urban areas and be provided to the Committees on Appropriations of both Houses of Congress within 180 days of enactment of this Act.

Supportive Services for Veteran Families (SSVF).—Although funds were appropriated, the Department's policy decisions led to fluctuations in funding to grantees and possible gaps in services being provided. The agreement provides for at least \$380,000,000 in grant awards in fiscal year 2020 and encourages the Department to plan for \$400,000,000 in fiscal year 2021 to expand to other locations to address gaps in services, as appropriate. The Secretary is directed to submit a report describing the effectiveness of the SSVF program; results of the gap analysis; and a plan to expand the program, as appropriate, to address service gaps within 90 days of enactment of this Act to the Committees on Appropriations of both Houses of Congress.

HUD-VASH.—Due to concerns the Department is not properly staffing its HUD-VASH program to meet the needs of changing homeless populations, the Secretary is directed to submit a report to the Committees on Appropriations of both Houses of Congress within 90 days of enactment of this Act. The report shall include details regarding: 1) the process by which each VA medical center fills their HUD-VASH case management positions; 2) the current ratio of HUD-VASH case managers to veterans for each VA medical center; 3) a list of all vacant specific purpose-funded positions to support the HUD-VASH program; 4) steps taken to recruit and retain case managers for this program; 5) a list of VA Medical Centers where HUD-VASH cases are being contracted out; 6) a list of the current allocations of HUD-VASH vouchers by State; 7) a list of requests for additional HUD-VASH vouchers received by the Department and the outcome of such requests; and 8) efforts currently underway to assist HUD-VASH case management in highly rural areas.

Homeless Providers Grants Per Diem (GPD) Program.—The agreement supports the Department's goal of a systemic end to veteran homelessness and agrees that service-intensive transitional housing provided through VA's GPD Program is an important tool in this effort. The agreement provides \$250,000,000, an increase of \$23,932,000 over the request, for GPD. The most appropriate mix of housing services for veterans should be determined locally through a collaborative process including local housing partners, service providers, and VA medical centers, and VA should continue to make funding available for GPD beds based on this process. The Department is directed to submit a report to the Committees on Appropriations of both Houses of Congress no later than 180 days after enactment of this Act on the contingency/remediation plans that current providers serving rural or highly rural areas have for veterans that may be affected by changes in availability or the loss of GPD Program funds that would result in the loss of their access to transitional housing assistance.

Veterans Justice Outreach (VJO) Program.—The agreement provides \$5,000,000 over the budget request to support the VJO Pro-

gram and its goal to prevent homelessness and avoid the unnecessary criminalization of mental illness and extended incarceration among veterans by ensuring eligible veterans encountered by police, and in jails or courts, have timely access to VA services, including mental health, substance abuse, and homeless programs.

Clinical Workforce

Healthcare Workforce.—VHA's ability to recruit and retain quality clinical and support staff remains a concern. Accordingly, the agreement directs the Department to comply with GAO's recommendations to improve staffing, recruitment, and retention strategies for clinicians.

Mental Health Staffing.—There is a growing need for mental health professionals, and VA should maintain appropriate mental health staffing levels to provide veterans timely, effective, high-quality care. The agreement directs the Department to prioritize the hiring of mental health professionals and to keep the Committees on Appropriations of both Houses of Congress apprised on a quarterly basis on meeting its hiring goals, including actions taken to improve recruitment and retention across the country, and specifically in rural areas. This report should include updates to the ratio of faculty staff to outpatient mental health veterans being treated for mental health needs.

Rural Recruitment.—To improve recruitment and retention initiatives for healthcare providers in rural and highly rural areas the agreement urges the Department to conform with the recommendations contained in GAO report, GAO-181-24. The agreement directs the Department to provide a report to the Committees on Appropriations of both Houses of Congress no later than 90 days after enactment of this Act on the status of compliance with these recommendations.

Credentialing.—The agreement strongly encourages VA to expand the Military Transition and Training Advancement Course nationally in order to facilitate the recruitment of separating military personnel who served in the healthcare field. The agreement directs VHA to identify remaining barriers to expediting the credentialing process for qualified licensed personnel, and to report on such barriers and limitations to the Committees on Appropriations of both Houses of Congress within 180 days after enactment of this Act.

In addition, a recent GAO report found that greater focus on credentialing is needed to prevent disqualified providers from delivering patient care. The agreement urges the Secretary to implement the GAO recommendations to improve Departmental oversight over VHA facility credentialing policies. The agreement directs the Department to provide a progress report on implementation of such recommendations to the Committees on Appropriations of both Houses of Congress within 60 days after enactment of this Act.

Orthotics & Prosthetics Workforce.—The sustainability of the orthotics and prosthetics workforce treating veterans, particularly given an aging workforce with imminent retirements as well as a lack of availability of advanced degree programs necessary to train new professionals is a concern. VHA's Orthotic and Prosthetic Resi-

dency Program provides rotation opportunities through the VA system, but this program alone is inadequate to ensure a sustainable workforce for the future, especially in light of the skill set necessary to provide the increasingly complex, state-of-the-art orthotics and prosthetics care for Iraq and Afghanistan war veterans. The agreement directs VA to work with outside industry experts to survey and examine the latest data available on the current extent of orthotics and prosthetics care provided outside of VA facilities and provide projections on requirements over the next decade based on overall population growth among veterans with orthotics and prosthetics needs. This information is to be reported to the Committees on Appropriations of both Houses of Congress within 180 days of enactment of this Act.

Physician Assistants.—VA has failed to utilize existing authorities to hire and retain Physician Assistants (PAs). As such, the agreement directs VA to accelerate the rollout of competitive pay for PAs, to develop a plan on how to better utilize the Health Professional Scholarship Program and Education Debt Reduction Program, and to develop a staffing plan on how to utilize PAs within the Department.

Medical Staff Retention.—The agreement expands upon the Medical Staff Retention reports directed in House Report 116–63. In addition, the Department is directed to submit a report to the Committees on Appropriations and Veterans' Affairs of both Houses of Congress within 90 days detailing compliance with its policy to (1) conduct reviews of each healthcare provider of the Department who transfers to another medical facility of the Department, resigns, retires, or is terminated to determine whether there are any concerns, complaints, or allegations of violations relating to the medical practice of the healthcare provider; and (2) to take appropriate action with respect to any such concern, complaint, or allegation. The Department previously informed Congress it was implementing an auditing tool to require medical facilities to certify compliance with these policies to their respective VISN leadership. The agreement requests that a summary of this auditing tool also be included in this report.

VA/DOD Clinical Practice Guidelines.—The Departments of Veterans Affairs and Defense have created VA/DOD Clinical Practice Guidelines for many conditions that affect both veterans and active duty servicemembers. Currently, VA and DOD do not have guidelines for the comorbidity of trauma (e.g., PTSD, TBI, Military Sexual Trauma) and substance use disorder or chronic pain, despite the fact that many veterans and active duty servicemembers are suffering from multiple conditions. It is crucial that frontline clinicians are informed about the most effective treatments for these conditions when they are co-occurring. The agreement strongly encourages VA and DOD to work together to create Clinical Practice Guidelines for the treatment of trauma, including PTSD, TBI, and Military Sexual Trauma, that is comorbid with substance use disorder or chronic pain.

Rural Healthcare

Office of Rural Health.—The agreement notes that veterans residing in rural and remote areas face unique barriers to receiving

high-quality mental health, primary healthcare, and specialty care services. While enhanced community care programs offer veterans increased flexibility to obtain care close to home, often this same gap in services exists in the private market in rural and remote communities. Over the past 10 years, the Office of Rural Health (ORH) and its Rural Health Initiative has played a critical role in assisting VA in its efforts to increase access to care. Therefore, the agreement provides \$300,000,000 for ORH and the Rural Health Initiative.

The agreement supports Rural Health Resource Centers, operated by ORH, and encourages the Department to increase the number of these centers. Any expansion should also emphasize increasing access to healthcare for women veterans, treating traumatic brain injuries, and recruiting and retaining healthcare providers to serve rural and remote areas.

The agreement also encourages continued operation of a nurse advice line at all VA medical centers, including facilities serving rural areas and highly rural areas, as a way to reach a large percentage of veteran enrollees. The agreement further supports the continuation of the efforts of the Department's Community Clergy Training to Support Rural Veterans Mental Health Initiative. The Department is urged to increase the financial resources made available in order to increase accessibility of this initiative to rural communities.

The Department is reminded of the directions regarding rural transportation included in House Report 116-63.

Rural Health Continuity of Care.—The Committees note the Access Received Closer to Home (ARCH) pilot program was highly successful in some areas in providing healthcare services to veterans who live in the rural and highly rural States in which it operated, and that veterans who received medical care through the ARCH pilot program were “completely satisfied” with their care and cited significantly shortened travel and wait times to receive care. As the Department transitions to a new community care program established by the VA MISSION Act, the agreement encourages the Secretary to sustain continuity of care for rural veterans through provider agreements, based on previous models such as the ARCH program, to ensure veterans do not experience a lapse in existing healthcare access during the transition to the new community care program and any resulting integrated networks. The Committees continue to support enabling the Department to enter into provider agreements with non-VA long-term care providers, including skilled nursing facilities.

Home-Based Primary Care.—The agreement supports the collaboration between VA and the Indian Health Service (IHS) and collaboration by Federal agencies with Tribes to expand access to care for Native veterans, including the recent expansion of evidence-based home-based primary care (HBPC) programs at 14 VA medical centers. This expansion is designed to reach new populations of American Indian veterans living in rural reservation communities, which are served by medical facilities operated directly by IHS or by Tribes and Tribal organizations with funding provided by IHS. The agreement urges the Secretary to increase funding within ORH to expand HBPC programs to additional

American Indian reservations and to other rural areas, and to continue to improve planning coordination with other Federal healthcare organizations. Planning efforts should take into account conducting a population-based needs assessment and allowing sufficient time to develop trusting relationships with Native veterans, Tribal health and social service personnel, IHS and Tribal community health representatives, and Tribal communities. Planning efforts should also consider availability of IHS and Tribal resources for patients, as well as identify potential opportunities for co-management to prevent unintended duplication of effort, over-prescribing of medications, and other inefficiencies.

GENDER-SPECIFIC CARE FOR WOMEN

Gender-Specific Care for Women.—The agreement provides \$585,000,000 for gender-specific care for women, which is \$38,486,000 over the budget request. The agreement directs VA to continue redesigning its women’s healthcare delivery system and facilities to ensure women receive equitable, timely, and high-quality healthcare. The agreement further directs VA to prioritize hiring women primary care providers and psychologists for women clinics, employees for women-specific services, and women peer support specialists. The agreement directs women’s health program managers to be full-time jobs and not to be tasked with supplemental responsibilities outside their specified job descriptions. The agreement supports the expansion of the Women’s Health Mini-Residency program.

OPIOID SAFETY INITIATIVES AND SUBSTANCE USE DISORDER CARE

To continue to build upon opioid reduction efforts and safety initiatives, the agreement includes \$402,000,000 for Opioid Prevention and Treatment programs at VA. This includes \$345,946,000 for prevention and treatment programs, and \$56,054,000 to continue implementation of the Comprehensive Addiction and Recovery Act of 2016 (Public Law 114–198).

Office of Patient Advocacy.—The Committees believe that the Jason Simcakoski Memorial and Promise Act’s (Title IX, Public Law 114–198) establishment of the Office of Patient Advocacy will ensure that patient advocates put the interests of the veterans they serve first, not the interests of the facility. Accordingly, within 90 days of enactment, the agreement directs the Department to provide a report to the Committees on Appropriations and Veterans’ Affairs of both Houses of Congress on its progress implementing the relevant sections of Public Law 114–198, including progress on all six recommendations from GAO’s April 2018 report (GAO–18–356), and the specific training and instructions Patient Advocates are given to escalate a concern outside of a VA facility when they believe a VA facility is not acting in the best interest of the veteran.

Improvement of Opioid Safety Initiative.—The Committees support VA’s Opioid Safety Initiative (OSI) and encourage continued implementation at all VA medical facilities, as directed under the Jason Simcakoski Memorial and Promise Act. The Committees acknowledge overall improvements in opioid safety at VA and believe that it is imperative that all VA providers who prescribe opioids

continue to consistently use the Opioid Therapy Risk Report tool under the OSI. In May 2018, GAO submitted report GAO-18-380 to Congress detailing the Department's progress made towards improving opioid safety, and VA set a target date of April 2019 to satisfy and closeout the five recommendations. The agreement directs the Department to submit a report to the Committees on Appropriations and Veterans' Affairs of both Houses of Congress detailing the actions to address each finding and recommendation made by this report within 90 days of enactment of this Act. Additionally, this should include a report on efforts to ensure that VA medical centers have established an additional control procedure, in accordance with GAO recommendations to improve oversight of the controlled substance inspection program.

Furthermore, to ensure that VA physicians have equal opportunity to prescribe effective, lower risk, safer Schedule III (CIII) opioids before prescribing highly potent and addictive Schedule II opioids, the agreement recommends that the Pharmacy Benefits Management Services consider clarifying guidance related to dispensing CIII opioids.

Community Care Opioid Safety.—The Committees recognize that VA has made important progress increasing opioid safety and reducing overprescribing within the VA healthcare system. However, the Department still needs to make comparable progress implementing opioid safety reforms in VA community care programs. The July 2017 OIG report (VA OIG 17-01846-316) on opioid prescribing in VA community care programs provides further evidence that veterans receiving opioid therapy from community care providers are at significant risk, due to lack of consistent tracking and limited awareness of VA opioid therapy and safe prescribing protocols. The agreement directs the Department to provide a report to the Committees on Appropriations and Veterans' Affairs of both Houses of Congress on implementation of all OIG recommendations and statutory requirements within the VA MISSION Act within 90 days after enactment of this Act.

VA participation in State Prescription Drug Monitoring Programs, as required in the VA Prescription Data Accountability Act of 2017 (Public Law 115-144), is a critical component to an effort to ensure a patient's prescription history is available to all prescribers. No later than February 1, 2021, the agreement directs VA to submit a report to the Committees on Appropriations of both Houses of Congress identifying progress toward full participation in State Prescription Drug Monitoring Programs during calendar year 2020, broken out by VISN and Medical Facility. The agreement also encourages VA, to the maximum extent permitted by law, to share prescription drug information with other Federal medical facilities that may serve veterans, including DOD medical facilities and Indian Health Service facilities.

Complementary and Integrative Health.—Expanding access to comprehensive pain management and complementary and integrative health (CIH) services is vital to improving the delivery of high-quality care for veterans. The agreement urges robust implementation of VA's plan to expand the scope of research, education, delivery, and integration of CIH into the healthcare services provided to veterans, and as required under section 932 of the Jason

Simcakoski Memorial and Promise Act, VA must continue to prioritize implementation of the pilot program at VA medical centers, including polytrauma rehabilitation centers, to assess the feasibility and advisability of delivery using wellness-based programs to complement pain management and related healthcare services. The Department is encouraged to continue to expand access to CIH services as part of the VA's Whole Health System approach.

Substance Use Disorder Care.—The Committees support VA's ongoing efforts to reduce wait times for substance use disorder (SUD) treatment by balancing nationwide care within the Residential Rehabilitation Treatment Programs (RRTP). However, the Committees are aware that the median wait time between screening and admission for non-priority SUD RRTP care remained unacceptably high. The agreement urges the Department to improve efforts to address the uneven and limited distribution of inpatient addiction crisis detoxification beds that employ a medical/psychosocial approach, a supply of Medication Assisted Treatment including availability of appointments for veteran access to buprenorphine, alternative co-adjuvant therapies to reduce anxiety, and mobile tools aimed at concurrent recovery and relapse prevention. The agreement urges the Department to expand existing successful model behavioral-health programs in partnership with community providers in high-demand treatment areas with proven, veteran-specific, evidence-based, one-stop-shop (integrated), SUD treatment that go beyond basic “shelter care.” These public-private partnerships should encompass the full continuum of care for veterans suffering from SUD (detoxification/recovery, sober housing), and those at risk of suicide due to SUD. Additionally, the agreement directs the Department to provide a report to the Committees on Appropriations of both Houses of Congress, within 90 days of enactment of this Act, that shall include average wait times for priority, routine and residential SUD care; the results of efforts to balance RRTP availability; projected RRTP wait times for fiscal years 2020 and 2021; and plans to scale successful evidence-based, integrated SUD care model programs.

Overmedication of Veterans.—In fiscal year 2018, the Congress provided \$500,000 for VA to enter into an agreement with the National Academies of Sciences, Engineering, and Medicine (NASEM) to conduct an assessment of the potential overmedication of veterans during fiscal years 2010 to 2017 that led to suicides, deaths, mental disorders, and combat-related traumas. Though the Committees are frustrated that, rather than conducting a study, the Department used the full amount of funding to contract for a study design, NASEM provided a credible study design report entitled, *An Approach to Evaluate the Effects of Concomitant Prescribing of Opioids and Benzodiazepines on Veterans Deaths and Suicides*. As such, the agreement directs the Department to work in close consultation and coordination with NASEM to implement the study design to evaluate and understand the effects of opioids and benzodiazepine on veteran suicides. The agreement directs the Department to brief the Committees on Appropriations of both Houses of Congress no later than 60 days after enactment of this Act on the proposed study design to be implemented, and to provide periodic updates thereafter.

Whole Health

Whole Health.—The agreement provides \$63,600,000 for the Whole Health initiative, which is \$10,000,000 above the budget request. The agreement directs VA to expand its use of interactive patient care and to ensure coordination and standardization of the field implementation of the Whole Health initiative. The agreement provides up to \$5,000,000 for creative arts therapies. The agreement further directs the Department to submit complete and detailed accounting of the Whole Health program in the fiscal year 2021 budget request.

Alternative Therapies.—The agreement directs VA to study the feasibility and advisability of making yoga, meditation, creative arts therapy, chiropractic care, and acupuncture also accessible as treatment for mental health conditions, including suicide risk, to veterans at all Department facilities, either in person, or through telehealth.

Other Items of Interest

Central Alabama Veterans Health Care System (CAVHCS).—The Department is directed to address the deficiencies at CAVHCS, as identified in House Report 116–63.

Pressure Ulcer Prevention and Transparency.—Although the Department issued a policy directive on the prevention and management of pressure injuries, and is exploring non-invasive innovative biometric sensor technologies that have produced promising results in the early detection of pressure ulcers, more can be done. The agreement directs the Department to address pressure ulcer prevention and transparency, as identified in House Report 116–63, though the agreement does not specify funds for the pilot. The agreement directs the Under Secretary for Health to complete the directed assessment within 120 days of enactment of this Act. In addition, the agreement encourages the Department to consider incorporating into its directive the steps included in the peer-reviewed Standardized Pressure Injury Prevention Protocols.

Access for Veterans in the Commonwealth of the Northern Mariana Islands, American Samoa, Guam, and Freely Associated States.—The Committees remain concerned about the challenges for veterans residing in the Freely Associated States (FAS) to access the quality healthcare they have earned through their military service. Given the significant time, resources, and high costs for travel for some veterans, including airfare, transportation, and lodging, many FAS veterans are never able to access VA health services. The agreement urges the Department to enhance access to care for these veterans. The Committees are seeking to understand potential obstacles in data collection to account for the number of veterans residing in the FAS, and how VA can improve data collection from the outlying areas to help inform the development of proposals to ensure that health needs of these veterans are met. The agreement directs the Department to conduct a survey related to barriers veterans may face in utilizing VA services and other benefits when living in outlying and remote areas, and to provide a report to the Committees on Appropriations of both Houses of Congress on the findings of this survey, an assessment of options

for improving access to VA healthcare for FAS veterans, as well as the outreach efforts taken to inform FAS and remotely located veterans about enrollment in the Foreign Medical Program. This report is directed to be provided within 270 days of enactment of this Act.

Furthermore, the agreement directs the Department to increase access to VA care for veterans living in remote and underserved areas of the FAS by increasing the number of full-time, dedicated, VA medical and mental health providers in these areas, as well as to work with Federal and non-Federal partners, including the Departments of Defense, Interior, and Health and Human Services, community healthcare facilities and educational institutions to leverage shared resources and improve access for delivery of care through technology and collaboration.

Artificial Intelligence and Machine Learning.—The Department is reminded of the report requested in House Report 116–63.

Orthotics and Prosthetics.—The Department is expected to ensure veterans continue to receive the prosthetics services that best meet their needs in the final Orthotics and Prosthetics regulation.

Veterans Exposed to Open Burn Pits and Airborne Hazards.—In order to provide full and effective medical care, it is essential for the Department to better understand the impacts that exposure during service has had on the health of veterans. Therefore, the agreement supports language included in House Report 116–63, including \$5,000,000 to carry out responsibilities and activities of the Airborne Hazards and Burn Pits Center of Excellence.

Community Wellness Programs.—VA has not yet implemented the VSO Wellness pilot program, authorized in Section 252 of the Consolidated Appropriations Act, 2018 (Public Law 115–141). It is concerning that the Department is still in the process of establishing this program and may not be prepared to launch until fiscal year 2021. The agreement directs the Department to expeditiously implement the program, and further directs the Department to provide quarterly status updates to the Committees on Appropriations of both Houses of Congress.

Intimate Partner Violence Program.—The agreement supports VA's efforts to expand its Intimate Partner Violence Program to all sites within the next 2 years, and its plans to screen all veterans for Intimate Partner Violence and provide the appropriate resources. The agreement directs VA to fully resource this program at \$20,300,000, as requested, in fiscal year 2020 and include it as a program of interest with budget detail in the justifications accompanying the fiscal year 2021 budget submission.

Adaptive Sports.—The agreement includes \$24,309,000 for National Veterans Sports Programs, including \$16,000,000 for adaptive sports programs. Veterans have shown marked improvements in mental and physical health from participating in adaptive sports and recreational therapy and veterans have expressed the need for these activities to be included in the healthcare services VA offers. The Committees also recognize that adaptive sports and recreational therapy provide a low-cost alternative to other healthcare services that produce similar health outcomes. The Department is directed to make recreational and lifelong sports, such as open-

ocean swimming, surfing, outrigger canoeing, hunting, and fishing eligible for grants.

Equine Therapy.—The agreement recommends the Department use \$1,500,000 of funds for the adaptive sports program for equine therapy. Moreover, the Department should utilize funding to conduct a comprehensive program evaluation to ensure the continued effectiveness of equine therapy in addressing the mental health needs of veterans that participate in these programs, including through the systematic assessment and tracking of mental health issues and symptoms, and the measurement of key outcomes, such as functional improvement in veterans' different life domains.

Beneficiary Travel.—The allocation of beneficiary travel to VISNs where unconventional modes of travel, such as air, are the primary means for veterans to visit a VA hospital remains a concern. Beneficiary travel is often expected to be paid out of pocket by the veteran, and then reimbursed by the Department at some later date, even for those veterans whose care is determined to be necessary by VA. This is an above average burden for veterans who live in rural and highly remote areas where veterans travel long distances to appointments using atypical means of transportation, such as by air, and must pay to stay overnight in area hotels. The agreement urges the Department to staff each facility with at least one full-time employee to manage beneficiary travel, in order to speed reimbursements to veterans, and also to identify ways in which VA might be able to cover more of these veterans' costs up front.

DOD and VA Prescription Purchasing.—The agreement encourages VA to work with DOD on the feasibility of aligning their structures, statutory parameters, and regulatory guidance in order to increase buying power and reduce the cost of the prescription buying program, and to report findings to the Committees on Appropriations of both Houses of Congress.

Canadian Forces Base Gagetown.—Many National Guard veterans engaged in training activities at Canadian Forces Base (CFB) Gagetown in the 1950s and 1960s. The Committees are also aware that Veterans Affairs Canada approved one-time, lump sum payments to eligible veterans exposed to Agent Orange and other defoliants who served at CFB Gagetown; and that veterans who served there between June 20 and June 24, 1964, are currently eligible for an Agent Orange Registry Health Exam from the Veterans Health Administration. The agreement urges the Department to establish and maintain a health registry for American veterans who were stationed or underwent training at CFB Gagetown and who have subsequently experienced health problems which may be attributed to Agent Orange or other defoliants. The agreement further urges the Department to commission an independent study tasked with investigating the linkage between service at CFB Gagetown and the development of health problems and disease associated with exposure to Agent Orange.

Emergency Ambulance Reimbursement.—VA has made efforts to improve claims reimbursement processes for emergency ambulance service providers, however, continued problems with emergency ambulance transportation services result in lengthy claims payment delays or unwarranted financial burdens on veterans. The agreement urges the Department to take any necessary actions to

process such claims using the “prudent layperson” standard for claims of emergency ambulance transportation of veterans to non-VA facilities. The agreement further directs the Department to provide a brief to the Committees on Appropriations of both Houses of Congress no later than 90 days after enactment of this Act to update the Committees on the Department’s efforts to streamline reimbursement of claims by emergency ambulance service providers. This brief should include an assessment by VA of the impacts of permitting conditional payments to ambulance service providers while seeking reimbursement from third-party payers where such payers have not made payment within 120 days of the date on which emergency ambulance services are provided, similar to Medicare program practices.

Pilot Programs for Agritherapy.—The agreement provides \$5,000,000 to continue a pilot program to train veterans in agricultural vocations, while also tending to behavioral and mental health needs with behavioral healthcare services and treatments by licensed providers at no fewer than three locations.

Lovell Federal Health Care Center.—The Captain James A. Lovell Federal Health Care Center Demonstration Project, established in 2010 under the National Defense Authorization Act for Fiscal Year 2010 (Public Law 111–84), is an innovative collaboration between VA and DOD. The Lovell Federal Health Care Center has significant potential to improve access, quality, and cost-effectiveness of healthcare delivery to veterans, servicemembers, and their families; and already serves as a valuable site demonstrating comprehensive cooperation and interoperability between VA and DOD. The important work of this integration effort must continue as the two Departments continue to roll out their respective electronic health record programs.

Alaska Federal Health Care Partnerships.—The Alaska VA Healthcare System leadership is investigating whether a partnership with DOD, the Coast Guard, and Tribal healthcare delivery could improve access and quality of care to all Federal healthcare beneficiaries in Alaska with substantial cost savings. The agreement encourages VA to consult with its Federal and Tribal counterparts, and with other stakeholders, including VA employee groups and community providers, with respect to the benefits which might accrue from adoption of this model, and to report periodically to the Committees on Appropriations of both Houses of Congress on the progress of these discussions.

Support for Vet Centers in Rural Communities.—Vet Centers across the country provide a broad range of counseling, outreach, and referral services to eligible veterans, active duty servicemembers, and their families, to include individuals with problematic discharges. The Committees believe Vet Centers are critical in rural communities, and the agreement encourages the Department to fully staff these resources.

Readjustment Counseling.—The Department’s Vet Centers and Mobile Vet Centers provide important readjustment counseling services. The Department also partners with organizations that provide outdoor experiences for veterans as part of a continuum of care to support veterans in developing a community of support to treat combat-related injuries, including those related to behavioral

health. The agreement directs the Department to submit a report to the Committees on Appropriations of both Houses of Congress no later than 120 days after enactment of this Act to highlight best practices of Vet Centers, including partnerships to provide outdoor experiences, and to include a plan to disseminate the findings, as well as incorporate into criteria for additional sites. The report should address whether successful programs should be replicated in other areas.

Telehealth Services.—The agreement includes an additional \$30,000,000 to increase telehealth capacity in rural and highly rural areas. The agreement directs VA to develop a plan to improve veteran and provider satisfaction, increase awareness of the telehealth program, and enhance adoption of telehealth by veterans and providers. The Department's plan should include actions that will be taken to make telehealth more accessible to patients in highly rural areas and be provided to the Committees on Appropriations of both Houses of Congress no later than 180 days after enactment of this Act.

Call Routing.—The Committees are still receiving reports that veterans calling their community-based outpatient clinics (CBOC) to make an appointment are sometimes automatically routed to central call centers at VA medical centers with no follow-up by the local CBOCs after the initial call. The fiscal year 2019 Conference Report included a reporting requirement for VA to explain its guidance on call routing of the scheduling of appointments. The report that was submitted to the Committees failed to explain VA guidance and was rather useless for addressing this issue. Therefore, the agreement directs VA to provide a report that explains the Department's guidance on call routing of the scheduling of appointments. The agreement further directs VA to provide the Committees with an update on its call modernization efforts referenced in the March 20, 2019, Congressional Tracking Report on Call Routing. This report shall be submitted to the Committees on Appropriations of both Houses of Congress no later than 90 days after enactment of this Act.

Long-Term Care

Long-Term Care.—The agreement provides \$9,781,721,000, as requested by the Department for long-term care. This includes \$6,471,460,000 for institutional care and \$3,310,261,000 for non-institutional care. The Committees are aware of the aging veteran population and support long-term care that focuses on facilitating veteran independence, enhancing quality of life, and supporting the family members of veterans. As such, the agreement supports the Department's efforts to broaden veterans' options regarding non-institutional long-term care support and services, and to accommodate veterans' preferences in receiving home-based services, as well as community-based care, residential settings, nursing homes, and other services. The Committees acknowledge that the veteran population faces unique health risks and that each veteran requires an individualized approach to care, and VA is encouraged to continue cooperation with community, State, and Federal partners to expand and grow these programs.

Hospice Care.—As Vietnam-era veterans age, many of them are facing unique end-of-life challenges related to their combat experience that standard hospice care and palliative services are not fully equipped to address. Public Law 115–244 urged VA to undertake a pilot program to develop techniques, best practices, and support mechanisms to improve end-of-life care for combat veterans and Vietnam-era veterans. Due to the lack of meaningful advancement toward addressing the unique needs of Vietnam veterans, the agreement directs VA to carry out this pilot program and to engage non-profit hospice and palliative care providers with Vietnam veteran-centric programs in implementing the pilot program. The Committees are aware that organizations such as the non-profit, National Partnership for Hospice Innovation, are developing programs designed to meet the specific end-of-life care needs for Vietnam-era veterans and strongly reiterates that such an approach could be beneficial to Iraq, Afghanistan, and Syria combat veterans in the future. The agreement directs the Department to submit a report on this effort to the Committees on Appropriations of both Houses of Congress no later than 90 days after enactment of this Act.

Domiciliary Care Claims for Veterans with Early-Stage Dementia.—Changes in VA's processing and treatment of domiciliary care claims has led to some veterans with early-stage dementia who were earlier ruled eligible for VA domiciliary care to now be deemed ineligible. The Department has taken efforts to provide limited equitable relief for current veteran patients previously deemed eligible for domiciliary care. VA is directed to provide a report to the Committees on Appropriations of both Houses of Congress no later than 90 days after enactment of this Act on the Department's plan to address care for all impacted veterans with early-stage dementia.

MEDICAL COMMUNITY CARE

The agreement provides \$17,131,179,000 in advance fiscal year 2021 funding for Medical Community Care, with \$2,000,000,000 available until September 30, 2022. The agreement provides an additional \$4,521,400,000 above the fiscal year 2020 advance appropriation for the Medical Community Care account, of which \$615,000,000 shall be from unobligated balances from the Veterans Choice Fund.

MEDICAL SUPPORT AND COMPLIANCE

The agreement provides \$7,914,191,000 in advance for fiscal year 2021 for Medical Support and Compliance and makes \$150,000,000 of the advance funding available through fiscal year 2022. The agreement provides an additional \$98,800,000 above the fiscal year 2020 advance appropriation for the Medical Support and Compliance account.

MEDICAL FACILITIES

The agreement provides \$6,433,265,000 in advance for fiscal year 2021 for Medical Facilities. Of the advance funding, \$250,000,000 is made available through fiscal year 2022.

The agreement provides \$10,000,000 for women's health and mental health non-recurring maintenance (NRM) projects. Within the mental health NRM projects, the agreement directs VA to prioritize construction to increase the number of beds available for overnight mental health treatment for veterans. The agreement further directs the Department to submit an expenditure plan detailing the planned use of funds, and to report on specific measures it takes to track and prioritize the physical and cultural transformation within VA facilities to better serve women veterans.

Community-Based Outpatient Clinic in Bakersfield, California.—The latest delay in building a clinic in Bakersfield, resulting from the cancellation of Lease No. 36C10F18L3394 due to errors made by the Department, is extremely concerning. On November 20, 2019, the Secretary provided a revised timeline to build the new clinic, but future protests may result in additional delays. The agreement directs the Secretary to expeditiously execute the proposed timeline, including beginning site work as soon as possible in 2020 and to provide monthly reports to the Committees on Appropriations of both Houses of Congress detailing the Department's assessment on maintaining the timeline provided on November 20th, until the new clinic in Bakersfield is activated.

Use of Smart Technologies.—The Department is encouraged to work with industry leaders on the use of smart technologies to improve VA facilities.

War Related Illness and Injury Study Centers (WRIISC).—In lieu of the direction provided in House Report 116–63, the Committees direct VA to conduct a feasibility study to establish a WRIISC focused on gender-based differences in the development, diagnosis, and treatment of exposure-related diseases.

VHA Infrastructure Planning and Facility Assessments.—As VA implements the VA MISSION Act and begins to make decisions related to community capacity and the appropriate size of VA's footprint, the agreement maintains that strong VHA facilities are critical to a high-performing integrated health network for veterans. Unfortunately, despite significant investments from Congress in recent years to address major and minor construction and non-recurring maintenance, the Department's execution of these funds to upgrade or expand treatment facilities for veterans has not moved as quickly as intended. The agreement urges VA to look for ways to be timelier in its execution of dollars and more flexible in efforts to meet the evolving healthcare needs of veterans. The agreement directs the Department to provide to the Committees on Appropriations of both Houses of Congress a report on the biggest impediments to executing construction and leasing projects in a more efficient and effective manner within 90 days of enactment of this Act. The report should also include an update on the market assessment being conducted pursuant to the VA MISSION Act.

Energy Savings.—The agreement encourages VA to use energy-related Energy Savings Performance Contracting and Utility Energy Service Contracting in concert with appropriated funds to leverage more investment from the private sector for any VA renovation project for which energy systems are involved.

Rate of Return on Alternative Energy Investments.—The Committees are concerned about VA's procurement of alternative energy

and the potential for the technology to be obsolete before full return on investment is achieved. Therefore, the agreement encourages the Secretary to assure that any new alternative energy project has a return on investment less than or equal to 10 years.

MEDICAL AND PROSTHETIC RESEARCH

The agreement provides \$800,000,000 for Medical and Prosthetic Research, available until September 30, 2021. Bill language is included to ensure that the Secretary allocates adequate funding for prosthetic research specifically for female veterans and for toxic exposures.

The Committees remain highly supportive of this program and recognize its importance both in improving healthcare services to veterans and recruiting and retaining high quality medical professionals in the Veterans Health Administration. The agreement encourages VA to continue its research into developing novel approaches to restoring veterans with amputation, central nervous system injuries, loss of sight or hearing, or other physical and cognitive impairments to full and productive lives.

Neural-Enabled Prosthetics.—The Committees understand the uniqueness of limb trauma injuries sustained by servicemembers in combat and support additional research in this area. In lieu of the directive in House Report 116–63, the agreement directs VA to continue its efforts to fund and conduct research that will design and develop technology to offset the effects of limb amputation, orthopedic injury and disease, neuropathic pain, and other neurodegenerative diseases by partnering with colleges and universities that specialize in these fields and provide a report on the opportunities to expand this field of inquiry within 180 days of enactment of this Act.

Cancer Moonshot.—The agreement supports the Department's efforts to utilize advances in genomic science to provide targeted treatment to veterans. The Department has identified prostate cancer, triple-negative breast cancer, and colorectal cancer as areas of priority. Due to the prevalence of various skin cancers among servicemembers, the agreement directs that skin cancer be included as well.

Enewetak Atoll Registry Research.—Thousands of veterans served on the Enewetak Atoll to clean up the island following its use for nuclear weapons testing. There are many instances of veterans who conducted the cleanup suffering serious health problems, such as brittle bones, cancers, and birth defects in their children. The agreement urges the Department to study whether there is a connection between certain illnesses and the potential exposure of individuals to radiation related to service at Enewetak Atoll between January 1, 1977, and December 31, 1980.

Rare Cancer Research.—The agreement encourages the Department to support research to evaluate the health status of servicemembers from their time of deployment to Iraq and Afghanistan over many years to determine their incidence of chronic diseases including cancers that tend not to show up for decades. Furthermore, the Department is encouraged to establish a collaboration with the Department of Defense to examine the impact of rare cancers on those who serve and fund research in delivering treat-

ments for rare cancers that take a platform-agnostic approach to developing new therapeutics.

Gulf War Illness Studies.—The agreement recommends that the Department continue to conduct epidemiological studies regarding the prevalence of Gulf War illness, morbidity, and mortality in Persian Gulf War veterans and the development of effective treatments, preventions, and cures. The agreement urges the Department to publish disease-specific mortality data related specifically to Persian Gulf War veterans and encourages the Department to utilize the term, “Gulf War illness”. The agreement urges the Secretary to consider revising and updating the Clinical Practice Guideline for Chronic Multi-symptom Illness consistent with the July 2011 Veterans Health Initiative, “Caring for Gulf War Veterans,” and to focus on recent Gulf War illness treatment research findings and ongoing Gulf War illness treatment research direction. Furthermore, the agreement encourages VA to strengthen the training of primary, specialty, and mental healthcare providers on Gulf War illness.

VA/Department of Energy Computing Collaboration.—The agreement supports ongoing research between VA and the Department of Energy’s National Laboratories.

Suicide Prevention.—VA is strongly encouraged to work with DOD’s Military Health System to place high priority on the deployment of novel and innovative technologies to prevent suicides and report in the fiscal year 2021 budget request on outcomes of the effort.

Longitudinal Study of Diagnostic Tools or Biomarkers for Brain Conditions.—The agreement encourages the Department to devise a longitudinal study to identify and validate two non-survey diagnostic tools or biomarkers for brain health conditions including TBI and PTSD for clinical use at VA medical facilities by 2023, in coordination with the National Research Action Plan. Additionally, the agreement encourages VA to consider the full range of brain health conditions, and to seek the consultation of non-profit and non-governmental research organizations currently engaged in research for servicemember and veteran brain health conditions for research collaboration, identification, and validation. Reports on research shall be made publicly available and submitted to the Committees on Appropriations of both Houses of Congress no later than 60 days after completion.

Rapid Cerebral Therapeutic Hypothermia.—The agreement encourages the Department to determine whether VA clinicians and physicians have the necessary equipment to rapidly administer cerebral therapeutic hypothermia.

NATIONAL CEMETERY ADMINISTRATION

The agreement provides \$329,000,000 for the National Cemetery Administration (NCA). Of the amount provided, not to exceed 10 percent is available until September 30, 2021.

Committal Service Shelters.—The agreement directs the Department to review the feasibility and appropriateness of expanding committal shelters at State veteran cemeteries to be able to accommodate at least 60 people in comfort with a platform and sound system for conducting services, private bathrooms, and tempera-

ture control. The agreement further directs the Department to provide a report to the Committees on Appropriations of both Houses of Congress on the findings of this review, including the cost associated with making these changes, within 180 days of enactment of this Act.

National Memorial Cemetery of the Pacific.—Currently, the Pacific Region of the National Cemetery Administration performs more annual interments than any other region, but has the fewest number of national cemeteries. In order to provide appropriate burial space to veterans in the Pacific, the agreement directs the Department to conduct a feasibility review for the creation of a new national cemetery in the Pacific region, and to report the findings to the Committees on Appropriations of both Houses of Congress no later than 180 days after enactment of this Act.

DEPARTMENTAL ADMINISTRATION

GENERAL ADMINISTRATION

(INCLUDING TRANSFER OF FUNDS)

The agreement provides \$355,911,000 for General Administration. Of the amount provided, not to exceed 10 percent is available for obligation until September 30, 2021. The agreement continues to include bill language permitting the transfer of funds from this account to General Operating Expenses, Veterans Benefits Administration.

Pro-Bono Legal Services.—The Committees support the Department’s work with law schools to assist veterans, which helps both the students and veterans.

Lobbying Congress.—The agreement reminds the Department that lobbying Congress in support of legislation imagined by VA, and not at the request for technical assistance from Congress, is not an appropriate use of taxpayer resources. Further, the agreement directs the Department to make all central-office based employees of the Office of Public Affairs receive training on the Hatch Act and its application to ensure official Department resources are being used in a nonpartisan manner.

The agreement provides funding for General Administration in the amounts specified below:

Office	(\$ in thousands of dollars)
Office of the Secretary	\$14,715
Office of General Counsel	112,209
Office of Management	63,992
Office of Human Resources	69,813
Office of Enterprise Integration	28,416
Office of Operations, Security and Preparedness	26,037
Office of Public and Intergovernmental Affairs	12,663
Office of Congressional and Legislative Affairs	5,900
Office of Acquisition, Logistics, and Construction	0
Veterans Experience Office	0
Office of Accountability and Whistleblower Protection	22,166
Total, General Administration	355,911

The Secretary may alter these allocations if the Committees have been notified and written approval is provided.

Veterans Experience Office.—The agreement provides that the Office continue to be funded through reimbursable agreements.

BOARD OF VETERANS APPEALS

The agreement provides \$182,000,000 for the Board of Veterans Appeals, of which not to exceed 10 percent shall remain available until September 30, 2021.

Appeals Process.—The agreement directs the Board to develop a plan to address the backlog of hearing requests, which includes expanded remote access for rural veterans, and to identify any necessary information technology solutions. The agreement directs the Board to provide this plan to the Committees on Appropriations of both Houses of Congress no later than 180 days after enactment of this Act.

INFORMATION TECHNOLOGY SYSTEMS

(INCLUDING TRANSFER OF FUNDS)

The agreement provides \$4,371,615,000 for the Information Technology Systems account. This amount includes funding for systems supporting implementation of the Blue Water Navy Vietnam Veterans Act and other anticipated needs. The agreement includes \$1,204,238,000 for staff salaries and expenses, \$2,739,597,000 for operation and maintenance of existing programs, and \$427,780,000 for program development.

The agreement makes not to exceed 3 percent of pay and associated costs funding available until the end of fiscal year 2021; not to exceed 5 percent of operations and maintenance funding available until the end of fiscal year 2021 and all IT systems development funding available until the end of fiscal year 2021.

The agreement continues language permitting funding to be transferred among the three IT subaccounts, subject to approval from the Committees.

The agreement continues language providing that funding may be transferred among development projects or to new projects subject to the Committees' approval.

The agreement continues language indicating that no development project may be increased or decreased by more than \$1,000,000 prior to receiving approval of the Committees or a period of 30 days has elapsed.

VA is dealing with an aging IT infrastructure and antiquated systems that have contributed to issues affecting veterans, their families, and third parties with whom VA has agreements. Additionally, the Department continues to identify significant IT costs to support new and critical initiatives, and to comply with requirements that have been passed into law. The agreement provides an increase above the President's request for IT and therefore assumes that the Department will, within the allocation, be able to secure an appropriate IT system for the Office of Accountability and Whistleblower Protection to facilitate tracking and reporting on data as required by law, and be able to certify the system necessary to expand the Caregivers Program. Due to the number of outdated leg-

acy systems, the agreement encourages the Department to consider decommissioning systems that are no longer in use and requires the Department to provide notification to the Committees on Appropriations of both Houses of Congress when such action is taken. The agreement directs the Department to include in future budget submissions an Information Technology Decommissioning Report that outlines what legacy systems will be decommissioned during the fiscal year.

Website Accessibility.—The agreement encourages the Department to review its information technology systems to ensure compliance with the law (29 U.S.C. 794), encompassing the Department's websites, including files attached to those websites, web-based applications and kiosks at medical facilities. No later than 180 days after enactment of this Act, the agreement directs the Department to report to the Committees on Appropriations of both Houses of Congress on the findings of the review, as well as a plan to become compliant with 29 U.S.C. 794.

This table is intended to serve as the Department's approved list of development projects; any requested changes are subject to re-programming requirements.

VETERANS ELECTRONIC HEALTH RECORD

The agreement provides \$1,500,000,000 for Veterans Electronic Health Record for activities related to the development and rollout of VA's Electronic Health Record Modernization (EHRM) initiative, the associated contractual costs, and the salaries and expenses of employees hired under titles 5 and 38, United States Code.

EHRM Initiative.—The agreement includes a substantial increase of \$393,000,000 for the EHRM initiative to provide benefits to veterans and better management tools for the Department. While the Committees remain supportive of the EHRM initiative, as with any acquisition of this size and magnitude, there are implementation concerns, including maintaining budget, scope, implementation and deployment schedules, security, reporting, and interoperability. As such, the agreement directs the Secretary to continue to provide quarterly reporting of obligations, expenditures, and deployment implementation by facility. Moreover, the agreement directs the Department to continue quarterly briefings on performance milestones, costs, and changes to implementation and management plans. The bill maintains a provision that prohibits obligation of funds inconsistent with deployment schedules provided to the Committees on Appropriations. Henceforth, the Secretary is directed to provide an accurate, up-to-date deployment schedule at each quarterly briefing. The Secretary is not provided transfer authority, as requested, and is directed to continue using this account as the sole source of funding within the Department for EHRM. Further, the agreement continues to direct the Secretary to manage EHRM at the headquarters level in the Office of the Deputy Secretary.

Government Accountability Office (GAO) Review.—The agreement continues the fiscal year 2019 directive to GAO to conduct quarterly performance reviews of EHRM deployment and to report to the Committees on Appropriations each quarter.

VA/DOD Interoperability.—The need for a fully functional, adaptable and interoperable electronic health record system cannot be understated, especially as VA shifts its model of care to include the expanded use of community providers. However, the Department and DOD do not appear to be placing sufficient priority and urgency on this matter. As such, VA and DOD are directed to expeditiously utilize the joint Federal Electronic Health Record Modernization Program Office to establish clear and agreed-upon metrics and goals for interoperability, as well as timeframes for meeting these goals. The Federal Electronic Health Record Modernization Program Office is directed to incorporate metrics, goals, and timeframes in the joint office's charter and to provide the charter to the Committees on Appropriations of both Houses of Congress within 30 days of enactment of this Act. The Secretary is directed to provide updates from the joint office, including any plans

to alter its charter or processes, in the quarterly reports and briefings provided to the Committees on Appropriations.

OFFICE OF INSPECTOR GENERAL

The agreement provides \$210,000,000 for the Office of Inspector General, which is \$3,000,000 above the request. Of the amount provided, not to exceed 10 percent is available for obligation until September 30, 2021. The additional funds are provided to ensure robust oversight regarding implementation of the VA MISSION Act and the Electronic Health Record Modernization initiative.

The Inspector General is strongly encouraged to undertake and complete investigations in a timely manner and share information with the Department, the Department of Justice, and other entities as appropriate.

Washington DC Veterans Affairs Medical Center.—The agreement urges the Inspector General to dedicate all necessary resources to provide rigorous oversight of the Washington DC Veterans Affairs Medical Center, a facility that has been plagued with management problems.

CONSTRUCTION, MAJOR PROJECTS

The agreement provides \$1,235,200,000 for Construction, Major Projects. The agreement makes this funding available for five years, except that \$198,600,000 is made available until expended, of which \$35,000,000 shall be available for seismic improvement projects.

Challenges in Executing Construction Projects.—The Committees are concerned by VA's inability to execute appropriated construction dollars in a timely manner. Based on its annual Strategic Capital Investment Planning process, VA's capital needs over the next 10 years may require resources up to \$72,000,000,000 to address. However, VA has been challenged to execute even a small fraction of that amount in a given fiscal year. Therefore, the agreement directs VA to provide within 240 days of enactment of this Act a written report outlining VA's short- and long-term plans to expand and strengthen its internal and contract capacity to execute its construction budget across major, minor, non-recurring maintenance, and leasing projects efficiently and effectively. This report should provide a holistic, VA-wide strategic plan incorporating the needs of VHA, the Office of Acquisition, Logistics & Construction, the Office of Management, and other relevant VA administrations/offices, to address the issue, including long-term staffing needs, the cost of any temporary spaces, any legislative and organizational changes, and requirements to improve and streamline. The report should also look at the accuracy of cost estimates used for planning construction and leasing projects, the impact of underestimating costs on project timeframes, and any actions that can be taken to improve the accuracy of estimates of future projects to ensure timely execution.

Communities Helping Invest through Property and Improvements Needed for Veterans Pilot.—The agreement encourages the Department to utilize the authority granted by the Communities Helping Invest through Property and Improvements Needed for Veterans Act of 2016 (Public Law 114–294) to fulfill the Congressional intent

and initiate additional projects. Additionally, the Committees believe that the Department should prioritize projects that result in a public-private partnership between VA and a non-Federal entity. In doing so, the agreement strongly encourages the Department to look at projects that would avoid VA duplicating services, and rather address gaps in necessary services for veterans.

The agreement funds the following items as requested in the budget submission:

The agreement provides \$398,800,000 for Construction, Minor Projects. The agreement makes this funding available for five years.

The agreement provides \$90,000,000 for Grants for Construction of State Extended Care Facilities, to remain available until expended.

TITLE III

RELATED AGENCIES

AMERICAN BATTLE MONUMENTS COMMISSION

SALARIES AND EXPENSES

The agreement provides \$84,100,000 for Salaries and Expenses of the American Battle Monuments Commission (ABMC), an increase of \$9,000,000 above the budget request to support ABMC’s

unfunded requirements for high-priority projects and address the maintenance backlog at existing monuments and cemeteries. The additional funds are provided to accelerate the Commission's five-year plan, not only to maintain the cemeteries and monuments honoring America's war dead, but also to preserve and communicate these veterans' stories of courage and sacrifice.

American Battle Monuments Commission.—On October 22, 2018, ABMC submitted a plan to spend \$28,900,000 in additional funding that Congress appropriated in fiscal year 2019 to support ABMC's unfunded cemetery requirements. ABMC's plan includes \$20,400,000 for the Honolulu interpretive center at the National Memorial Cemetery of the Pacific, known as the "Punchbowl." The National Cemetery Administration (NCA) has identified a site for the interpretive center adjacent to its administrative facility that will serve ABMC's interpretive mission without affecting burial space inside the cemetery. ABMC is directed, in conjunction with NCA, to execute the funding appropriated for projects identified in its October 2018 spend plan to Congress and to complete the proposed siting and construction feasibility evaluation at the administrative facility-adjacent location to ensure the interpretive center remains in balance with the long-term mission and legacy of the Punchbowl.

FOREIGN CURRENCY FLUCTUATIONS ACCOUNT

The agreement provides such sums as necessary for the Foreign Currency Fluctuations Account.

UNITED STATES COURT OF APPEALS FOR VETERANS CLAIMS

SALARIES AND EXPENSES

The agreement provides \$35,400,000 for Salaries and Expenses for the United States Court of Appeals for Veterans Claims.

DEPARTMENT OF DEFENSE—CIVIL

CEMETERIAL EXPENSES, ARMY

SALARIES AND EXPENSES

The agreement provides \$80,800,000 for Cemeterial Expenses, Army.—Salaries and Expenses. This amount is equal to the fiscal year 2019 enacted level and \$10,000,000 above the budget request. Within that amount, up to \$15,000,000 in funding is available until September 30, 2022.

The budget request for Arlington National Cemetery's operating account has been held artificially flat for a number of years, and this action is having a deleterious effect on the Cemetery's performance and ability to meet its mission. It is unacceptable that the Cemetery's budget requests are continually inadequate to maintain the current level of services. The Cemetery cannot be under-resourced, and accordingly, the bill provides an additional \$10,000,000 to correct this deficiency.

This agreement reflects unwavering support for the Cemetery and the successful completion of the Cemetery's truly unique and honored mission. Accordingly, the Secretary of the Army is again

directed to include this increase in the Cemetery's baseline budget and ensure future budget requests provide ample resources for the Cemetery, including funding to complete the planned Southern Expansion and ensure that the life of our Nation's most prestigious cemetery is extended into the 2050 timeframe.

ARMED FORCES RETIREMENT HOME

TRUST FUND

The agreement provides a total of \$75,300,000 for the Armed Forces Retirement Home (AFRH), an increase of \$11,000,000 above the fiscal year 2019 enacted level and the budget request. The increase is intended to support high-priority capital projects.

AFRH-W Development.—The Committees recognize the critical role of AFRH in providing residences and related services for certain retired and former members of the Armed Forces and support AFRH's efforts to lease 80 acres of underutilized land on its Washington, D.C., campus. AFRH is directed to submit quarterly reports to the Committees on Appropriations of both Houses of Congress outlining the redevelopment progress against the AFRH-W Master Plan, including the status of the lease negotiations and the financial transparency of the development project.

ADMINISTRATIVE PROVISION

The agreement includes section 301 allowing Arlington National Cemetery to deposit and use funds derived from concessions.

DIVISION G—DEPARTMENT OF STATE, FOREIGN OPERATIONS, AND RELATED PROGRAMS APPROPRIATIONS ACT, 2020

In implementing this agreement, Federal departments, agencies, commissions, and other entities are directed to comply with the directives, reporting requirements, and instructions contained in H. Rept. 116–78 (House report) accompanying H.R. 2839 and incorporated by reference by section 7066 in division D of H.R. 2740 (House bill) and S. Rept. 116–126 (Senate report) accompanying S. 2583 (Senate bill) as though stated in this explanatory statement, unless specifically directed to the contrary.

This explanatory statement, while repeating some House and Senate report language for emphasis or clarification, does not negate language in such reports unless expressly provided herein. Language expressing an opinion or making an observation in the House or Senate reports represents the view of the respective committee unless specifically endorsed in this explanatory statement. In cases in which the House and Senate reports provide contradictory directives or instructions that are not addressed in this explanatory statement, such directives or instructions are negated.

Reports required to be submitted pursuant to the Act, including reports required by this explanatory statement and the House and Senate reports, may not be consolidated to include responses to multiple requirements in a single report, except following consultation with the Committees on Appropriations.

In lieu of the tables and allocations of funding contained in the House and Senate reports, the tables and allocations contained in this explanatory statement shall guide departments, agencies, commissions, and other entities when allocating funds.

Section 7019 of the Act requires that amounts designated in the respective tables included in this explanatory statement for funds appropriated in titles III through V, including tables in title VII, shall be made available at not less than such designated amounts, unless otherwise provided for in the Act, and shall be the basis of the report required by section 653(a) of the Foreign Assistance Act (FAA) of 1961, where applicable. The Act provides that the amounts designated in the tables shall be made available notwithstanding the date of the transmission of such report. Section 7019 also includes limited authority to deviate not more than 10 percent below such designated amounts and continues language similar to

prior fiscal years including certain exceptions to the requirements of the section.

Proposed deviations from tables in titles I and II in this explanatory statement are subject to the regular notification procedures of the Committees on Appropriations, unless an exception or deviation authority is specifically provided herein.

For purposes of this explanatory statement, the term “prior Acts” means prior Acts making appropriations for the Department of State, foreign operations, and related programs. In addition, “division F of Public Law 116–6”, means the Department of State, Foreign Operations, and Related Programs Appropriations Act, 2019.

For purposes of the Act and this explanatory statement, the term “regular notification procedures of the Committees on Appropriations” means such Committees are notified not less than 15 days in advance of the obligation of funds. The Secretary of State and United States Agency for International Development (USAID) Administrator are directed to submit notifications for the obligation of funds made available by the Act and prior Acts not later than 90 days prior to the expiration of such funds.

Congressional notifications submitted by the heads of the relevant Federal agencies contained in the Act for funds that are being reallocated prior to initial obligation, reprogrammed, or reobligated after deobligation, shall, to the maximum extent practicable, contain detailed information about the sources of the funds and why such funds are no longer needed or intended to be used as previously justified.

For purposes of the Act and this explanatory statement, the term “prior consultation” means a pre-decisional engagement between a relevant Federal agency and the Committees on Appropriations during which the Committees are provided a meaningful opportunity to provide facts and opinions to inform: (1) the use of funds; (2) the development, content, or conduct of a program or activity; or (3) a decision to be taken. Direction to consult with the “Committee” in either the House or Senate reports shall mean to consult with the Committees on Appropriations.

Notwithstanding authority included in any provision of the Act shall not be construed to exclude the requirements of such provision.

In the Act, the term “stabilization assistance” has the same meaning as defined by the Stabilization Assistance Review in “A Framework for Maximizing the Effectiveness of U.S. Government Efforts to Stabilize Conflict-Affected Areas, 2018.”

Similar to prior fiscal years, funding is made available and designated as Overseas Contingency Operations/Global War on Terrorism (OCO/GWOT) pursuant to the Balanced Budget and Emergency Deficit Control Act of 1985 (BBEDCA) in the Act. Such funds are intended to address the extraordinary costs of operations and assistance in countries in conflict and areas of instability and violence, particularly for security, stabilization, and peacekeeping programs; humanitarian activities; and counterterrorism and counterinsurgency efforts. The Act does not contain or establish a regional limitation on use of OCO/GWOT.

The Secretary of State shall comply with the directive under section 7015 in the House report regarding the transfer or release of

any individuals detained at Naval Station, Guantanamo Bay, Cuba in the manner described.

The agreement maintains the traditional uses and placement in title III for the Development Assistance and Economic Support Fund accounts.

The Director of the Peace Corps shall inform the Secretary of State prior to opening, closing, significantly reducing, or suspending an overseas office or country program, which will help strengthen communication and coordination of United States policy overseas.

Not later than 60 days after the release of any foreign assistance review or realignment prepared or conducted by the National Security Council, Office of Management and Budget, Department of State, or USAID, or any combination thereof, the Comptroller General of the United States shall provide an assessment of such review or realignment to the appropriate congressional committees, including an analysis of the methodology used to determine any recommendations included in such foreign assistance review or realignment. Each assessment shall be submitted in unclassified form but may include a classified annex.

The agreement directs the Department of State to fully restore \$40,026,539 in Economic Support Fund that lapsed at the end of fiscal year 2019 due to apportionment and obligation delays, including \$35,379,246 for the Bureau of Democracy, Human Rights, and Labor (DRL). Veteran's pilot training grants program.—The agreement directs the FAA to use up to \$5,000,000 for competitive grants to facilitate the future supply of adequate pilots as required in the Senate report, and in awarding such grants the FAA is encouraged to

prioritize flight schools that are either accredited by the Department of Education or hold a restricted airline transport pilot letter of authorization.

Opioid Antagonists.—As part of the ongoing efforts to review regulations regarding the emergency medical equipment carried by passenger airlines, the FAA should take timely action to issue additional guidance to air carriers to ensure the inclusion of opioid antagonists in emergency medical kits.

FAA Reauthorization.—The agreement directs the FAA to submit a report to the House and Senate Committees on Appropriations on March 2, 2020, and on September 8, 2020, on the status of implementation of the provisions in P.L. 115–254, including a list of all mandates and associated deadlines, the primary office responsible for executing each mandate, and actions taken to date on implementing each mandate.
