- (i) is inconsistent with a provision of section 3 or subsection (a) or (b) of section 4, as applicable; or
- (ii) would not be permitted under subparagraph (B); or

(B) specifies additional or alternative procedures or requirements for the performance of notarizations with respect to electronic records or for remotely located individuals, if those additional or alternative procedures or requirements—

- (i) are consistent with section 3 and subsections (a) and (b) of section 4; and
- (ii) do not accord greater legal effect to the implementation or application of a specific technology or technical specification for performing those notarizations; and

(2) requires the retention of an audio and visual recording of the performance of a notarization for a remotely located individual for a period of not less than 5 years after the recording is created.

(b) RULE OF CONSTRUCTION.—Nothing in section 5 or 6 may be construed to preclude the recognition of a notarization under applicable State law, regardless of whether such State law is consistent with section 5 or 6.

SEC. 10. STANDARD OF CARE; SPECIAL NOTARIAL COMMISSIONS.

(a) STATE STANDARDS OF CARE; AUTHORITY OF STATE REGULATORY OFFICIALS.—Nothing in this Act may be construed to prevent a State, or a notarial regulatory official of a State, from—

(1) adopting a requirement in this Act as a duty or standard of care under the laws of that State or sanctioning a notary public for breach of such a duty or standard of care;

(2) establishing requirements and qualifications for, or denying, refusing to renew, revoking, suspending, or imposing a condition on, a commission or appointment as a notary public;

(3) creating or designating a class or type of commission or appointment, or requiring an endorsement or other authorization to be received by a notary public, as a condition on the authority to perform notarizations with respect to electronic records or for remotely located individuals; or

(4) prohibiting a notary public from performing a notarization under section 3 or 4 as a sanction for a breach of duty or standard of care or for official misconduct.

(b) SPECIAL COMMISSIONS OR AUTHORIZATIONS CREATED BY A STATE; SANCTION FOR BREACH OR OFFICIAL MISCONDUCT.—A notary public may not perform a notarization under section 3 or 4 if—

(1)(A) the notary public's State has enacted a law that creates or designates a class or type of commission or appointment, or requires an endorsement or other authorization to be received by a notary public, as a condition on the authority to perform notarizations with respect to electronic records or for remotely located individuals; and

(B) the commission or appointment of the notary public is not of the class or type or the notary public has not received the endorsement or other authorization; or

(2) the notarial regulatory official of the notary public's State has prohibited the notary public from performing the notarization as a sanction for a breach of duty or standard of care or for official misconduct.

SEC. 11. SEVERABILITY.

If any provision of this Act or the application of such provision to any person or circumstance is held to be invalid or unconstitutional, the remainder of this Act and the application of the provisions thereof to other persons or circumstances shall not be affected by that holding.

I. PURPOSE AND SUMMARY

H.R. 3962, the “Securing and Enabling Commerce Using Remote and Electronic Notarization Act of 2021,” establishes nationwide standards and technical requirements for remote online notarization. This bill authorizes a notary public commissioned under state law to remotely notarize electronic records and perform notarizations for remotely-located individuals. The legislation also requires United States courts and states to recognize remote notarizations, including remote notarizations from notary publics commissioned in other states or U.S. territories. State laws that meet or exceed the minimum national standards and technical requirements of the bill will remain in effect.

II. BACKGROUND AND NEED FOR LEGISLATION

Notarization is an official process to attest that a document is authentic and is typically required for wills, marriage certificates, mortgages, and other documents concerning valuable assets.¹ While notarization has historically required a person to physically appear before a notary public, the coronavirus disease of 2019 (COVID-19) pandemic spurred several states to permit remote online notarizations to help ensure that such transactions could be completed. To date, dozens of states have enacted laws or taken emergency actions to permit remote online notarization.² In enacting this legislation, Congress is heeding a lesson learned from the pandemic by reducing friction in commerce and protecting consumers.

III. COMMITTEE HEARINGS

For the purposes of section 3(c) of rule XIII of the Rules of the House of Representatives, the following hearing was used to develop or consider H.R. 3962:

Section 7 clarifies that nothing in this Act may be construed to require a notary public to perform an electronic or remote notarization.

Sec. 8. Validity of notarizations; rights of aggrieved persons not affected; State laws on the practice of law not affected

Subsection (a) states that if a notary public fails to meet the requirements under Sections 3 and 4, the validity of the notarization shall not be impaired.

Subsection (b) clarifies that aggrieved individuals may seek remedies under state or federal law to invalidate a record or transaction that is subject to a notarization.

Subsection (c) clarifies that nothing in this Act may be construed to affect a state law governing, authorizing, or prohibiting the practice of law.

Sec. 9. Exception to preemption

Section 9 states that a state may modify, limit, or supersede a provision of Section 3, or subsections (a) or (b) of Section 4 if the state law constitutes an enactment or adoption of the Revised Uniform Law on Notarial Acts so long as they are not inconsistent with a provision of section 3 or subsections (a) or (b) of section 4. This section also permits a state to specify additional or alternative procedures or requirements for the performance of electronic or remote notarizations so long as they are consistent with a provision of section 3 or subsections (a) or (b) of section 4 and do not accord greater legal effect to the implementation or application of a specific technology or technical specification for performing those notarizations. Such state laws must require the retention of an audio and visual recording of the performance of a notarization for a remotely located individual for a period of not less than 5 years after the recording is created.

Sec. 10. Standard of care; special notarial commissions

Subsection (a) clarifies that this Act does not prevent a state from adopting requirements under this Act as a standard of care for notarizations under their state law, establishing requirements and qualifications for, or denying, refusing to renew, revoking, suspending, or imposing a condition on, a commission or appointment as a notary public, creating or designating a class or type of commission or appointment, or requiring an endorsement or other authorization to be received by a notary public, as a condition on the authority to perform notarizations with respect to electronic records or for remotely located individuals, or prohibiting a notary public from performing a notarization under section 3 or 4 as a sanction for a breach of duty or standard of care or for official misconduct.

Subsection (b) prohibits a notary public from performing a notarization under section 3 or 4 if the notary public's state has enacted a law that creates or designates a class or type of commission or appointment, or requires authorization to be received by a notary public, as a condition on the authority to perform a notary for such electronic records or for remotely located individuals or the notary public's state has prohibited the notary public from performing the

notarization as a sanction for a breach of duty or standard of care or for official misconduct.
