North End North/South Trail

LAND BETWEEN THE LAKES National Recreation Area

KENTUCKY | TENNESSEE

The North/South (N/S) Trail spans the entire length of Land Between the Lakes. The northern portion consists mainly of single-track trails meandering from shoreline to heavily wooded ridges and a connector trail to the Woodlands Nature Station.

The trail provides stretches where users walk parallel to Kentucky Lake and sweep into large bottoms offering a sense of solitude. The N/S Trail intersects many Forest Service roads allowing for loop opportunities and access points to hike or backpack the trail piece by piece.

This is a multiple-use trail for bikers, hikers, and backpackers.
