South End North/South Trail

LAND BETWEEN THE LAKES National Recreation Area

KENTUCKY | TENNESSEE

The North/South (N/S) Trail spans the entire length of Land Between the Lakes. The southern portion consists mainly of old, double-track roadbeds interspersed with some single-track corridors.

The trail meanders over and through heavily wooded ridges, wildlife clearings, and mature bottomland hardwood stands. The southern portion has two backcountry shelters for overnight camping.

Approximately 11 miles are “multiple-use” whereby hikers, backpackers, and equestrians share the trail. The N/S Trail intersects Forest Service roads offering several loop opportunities and access points to hike the trail piece by piece.
